

Privately-managed prisons are secure institutions operated by private companies under contract and oversight of the BOP. The majority of federal inmates in private prisons are sentenced criminal aliens who will be deported upon completion of their sentence. Unlike federal inmates housed in BOP facilities, the contractor is responsible for the medical care and the costs associated with providing those services.

110 inmates have lab confirmed positive with **38** inmates having recovered to date.

Of the **72** remaining positives:

19 inmates are at the North Lake Correctional Facility (MI);

7 inmates are at the McRae Correctional Facility (GA);

18 inmates at the Rivers Correctional Facility (NC),

27 inmates at Great Plains Correctional Facility (OK); and

1 inmate at the D. Ray James Correctional Facility (GA),.

All inmates are being appropriately treated and isolated per CDC guidelines
