2020-06793	CO	All historical data collected and retained by the BOP concerning the COVID-19 outbreak in the federal prison system. To include the number of prisoners tested, the number of prisoners infected and the number of prisoners that died. As that this data is reported as separate institutions. I am requesting that you treat each entity and each fiscal as separate requests and to be filled and returned as separate requests. I ask that you search for records from all components of the Justice Department that may be reasonably likely to produce responsive results, including but not limited to the Office of the Attorney General, Office of the Deputy Attorney General, and the Office of Legal Counsel. I also ask that you search all systems of records, including electronic and paper, in use at your agency, as well as files or emails in the personal custody of your employees, such as personal email accounts, as required by FOIA and to the extent that they are reasonably likely to contain responsive records. I ask that all types of records and all record systems be searched to discover records responsive to my request. I seek records in all medium and format. This includes, but is not limited to: agendas, manifests, calendars, schedules, notes, and any prepared documentation for meetings, calls, teleconferences, or other discussions responsive to my request; voicemails; e-mails; e-mail attachments; talking points; faxes; training document and guides; table of contents and contents of binders; documents pertaining to instruction and coordination of couriers; and any other material. However, you need not produce press clippings and news articles that are unaccompanied by any commentary (e.g., an email forwarding a news article with no additional commentary in the email thread). If you make a determination that any responsive record, or any segment within a record, is exempt from disclosure, I ask that you provide an index of those records at the time you transmit all other responsive records. In the index, please include a description of the record and the reason for exclusion with respect to each individual exempt record or exempt portion of a record, as provided by Vaughn v.
