2022-03891		-	5/17/2022	5/17/2022	I am requesting Medical records for (b)(6) (b)(6) an inmate at Springfield USMCFP, 1900 W Sunshine St, Springfield MO 65807. He arrived at that facility on 9-13-2021 with traumatic brain injuries and numerous other injuries, suffered in a Federal Detention Center in TN in 2018, and a rare condition with high mortality rate (Stercoral Colitis). (b)(6) is my (b)(6) and I have legal guardianship. He is in constant and unrelenting pain in the inflamed and raw rectal area related to the Stercoral Colitis, and issues resulting from the TBI affect his ability to always understand all that goes on around him. His memory has declined severely in these 9 months - which I note in every phone conversation with him. His rare calls are our only method of communication; his R hand is injured making writing challenging. I am planning to drive several hours on 5/20/22 to see my (b)(6) in person for the first time since he's been in this facility, and as his primary caregiver, am nervous about how he will present. I would certainly appreciate your attention to this matter and will attach the proof of guardianship document (under my birth name (b)(6) . 2022-04507	-	-	6/30/2022	6/30/2022	Freedom of Information Act (FOIA) request to USA agency. (b)(6) Date: 30-06-2022 1. This is regarding information about myself. (b)(6) I was an inmate at MCC Chicago from 2007 to 2009-2010. 2. When I was in the SHU (Special Housing Unit) at MCC Chicago, Federal agents drugged me covertly and transported me to a hospital to insert brain-signal transmitters into my brain and nerve signal transmitters into my pelvis, spine, sacrum, and muscles. 3. These devices were inserted without my knowledge or permission as part of a highly classified secret program by CIA/NIH (National Institutes of Health), DARPA, or some other Federal agency. 4. These brain signal data readers, also called "NEUROGRAINS," are about 100 microns (0.1mm) in size. The neurograins communicate by backscatter technology with patch antennas hidden under the scalp of my skull. The patch antennas transmit the digital data to external receivers via two-way communication. 5. This brain-signal data reader technology is illegal and has no approval from the USA regulating agencies. This is why the Federal agents installed these devices into me secretly without my authorization. 6. These devices have significantly and permanently damaged parts of my brain, spine, sacrum, and muscles due to the intense radiofrequency radiation and physical insertion of foreign bodies into my brain. 7. There exist many such victims in the Federal Bureau of Prisons who were secretly inserted with the brain-signal devices for unethical experimentation and torture. The Federal agents violated my Civil Rights and the Civil Rights of many others. Kindly see my website for more details. (b)(6) 8. THEREFORE, I ask for the following information about myself. 2022-04601		N/A	7/7/2022	7/7/2022	I am requesting the prison and arrest records of my (b)(6) (b)(6) Joseph or Joe French. He was born April 18, 1897. He was incarcerated in Texas from 1939-1958. He did time in Huntsville and Sugarland. Before that he was incarcerated in Texas, he did several stints in Leavenworth KS. He escaped several times. He robbed banks when he was young, bootlegged booze and sold morphine when he was older. I am sure there are other offenses. My understanding is that he was on the FBI's most wanted list for a while but I do not know why. He also was arrested in Oklahoma, Arkansas, Colorado, Missouri and other parts of Kansas like Arkansas City. I am interested in all of his available records from those arrest records. He had several aliases. His birth name was Everett Royal French. His brothers name was John Joseph French. They committed several bank robberies together between 1906-1920. Some other aliases include Lawrence, and Ray and various plays on their given names and switching names. Everett eventually took on Joe's name permanently and I lost track of John Joseph around 1915 so I don't know if he died or if he also permanently changed his name. Joe French passes away May 4, 1962. Thank you!	Closed	D(8)	Other Reasons - Duplicate Request

2022-04916		-	7/22/2022	7/22/2022	This request is a FIRST PARTY request seeking all employment/employer contracts for (b)(6) (b)(6) with the Department of Justice/ Prison Systems with signatures of all parties if possible. I also seek the SLAVE contract under the White Slave Traffic Act for (b)(6) (b)(6) warden notebook number 1215, at Levenworth, Kansas and Alcatraz. I have a portion of the Warden Notebook, which admits to selling (b)(6) as a slave because he is White in 1939, but I want the original contract for his slavery. I seek a list of all aliases used for (b)(6) if you have such a list. I am the subject of the request. (b)(6) (b)(6) are all names this government uses to identify me. I also request my original birth record if in your possession because the government is claiming (b)(6) is committing forgery, in the name assigned to him at birth to charge him for crimes he could not have known he was committing due to identity theft committed by the department of justice as a hate crime against him. Thus, the original birth file is imperative if in your possession. The department of Justice is using my mailing address to launder money through box 567 which was illegally placed inside the mailbox at my private temporary housing (not a domicile), and as a non-taxpayer, non-resident, non-citizen, they are unlawfully using a mailbox where I accept mail to pay for the entire prison system and my USCIS file claims I (b)(6) work for them but they have never paid me nor did I sign any contract, thus SLAVERY. Submitting this request does not imply a contract with you, again, I am NOT an individual, person, or taxpayer. NOT a citizen, a non-resident. All rights reserved UCC 1-308. 2022-05780	-	-	9/9/2022	9/9/2022	With respect to the Monthly BOP Reports that mention or discuss Beaumont, Hazelton, or Atlanta USPs, I want to clarify that I am referring to litigation reports such as the one I have attached here. For now, I would be happy to narrow my request to 2012-2016. With respect to the information regarding disciplinary infractions, I am interested in the number of disciplinary hearing guilty findings on the following charges: 100, 101, 105, 108, and 114, per year from January 2012-December 2016 at Beaumont, Hazelton, and Atlanta USPs. Regarding these guilty findings, I would like to receive information recorded regarding disruptive group involvement, the type of victim, type of weapon, and the nature of injury, if any. In addition, if a prisoner was charged with a Code 100, 101, 105, 108, and/or 114 offense, I would like information on whether the prisoner was referred for prosecution and the outcome, regardless of whether the prisoner was found guilty in disciplinary hearings. (Essentially, this request is based on the key-in codes specified in BOP Program Statement 5270.09.)	Request for Docs Sent	-	-

2023-00082	-	10/9/2022	10/11/2022	1. Prior to the arrival of the Director on August 2, 2022, the agency embraced a policy that suggested that it did not have to honor contracts/settlement agreements entered into with African American male employees. The agency reserved the right to breach agreements at will, particularly in cases when it became known to EEO that a White male federal employee with no settlement agreement, desired the particulars of a settlement offered to a Black male federal employee that involved a promotion to the executive level. 2. Prior to the arrival of the Director on August 2, 2022, the agency also embraced a policy that in addition to forcing Black males to give up the terms of a legally binding settlement agreement to promote White males with no settlement agreement, the agency also reserved the right to demote Black male employees, after a breach occurred, refusing to resolve the breach commensurate with an executive level position. 3. Please provide records that pertain to the Directors stance on honoring settlement agreements entered into with Black male federal employees. 4. Please provide Director Colette Peters official stance and definition of racial discrimination in the Federal Bureau of Prisons. 5. Please provide Director Peters stance on whether EEO employees should be criminally charged/indicted when unofficial policies given to racial discrimination, support workplace violence against minorities. The position of management attempted to penalize the African American employee, just because he/she was a person of color and requested that a third party be present for a performance counseling, particularly when he/she was concerned that his/her direct supervisor could engage in criminality during the counseling (direct supervisor - communicating a terroristic threats/writing false statements on the employees records/uploading false statements to the employees records). 3. 2023-00130	(b)(6)	-	10/12/2022	10/12/2022	January 1, 2012 to October 9, 2022. 1. Prior to the arrival of Director Peters on August 2, 2022, the Chaplaincy Services Branch, Mid-Atlantic Region, and FCI Memphis, embraced a practice that allowed the deviation of a job vacancy announcement advertisement, even when the deviation violated OSC guidelines (obstruction from competition, unfair advantage, violation of Veterans Preference). 2. In having this practice, OIA was not required to investigate the deviation of job vacancy announcement practices, nor to investigate whether the employee who benefited from the job vacancy announcement, had prior knowledge of the deviation or participated in the deviation that lead to his/her selection (FCI Memphis Supervisory Chaplain 2019). 3. Please provide records that document Director Peters official stance on the criminal manipulation of a job vacancy announcement, particularly in cases where an announcement deviates to obstruct a federal employee from applying, just because management became aware of the employees protected activity engagement covered under Title VII. (Title VII-Prima Facie - Retaliation). 4. Please provide records pertaining to if it is the intent of Director Colette Peters that OIA investigate these cases, indict when necessary, and at least force the agency to re-announce the position and to terminate the employment of federal employees who participated in such deviations. 5. Please provide all FCI Memphis job vacancy announcements that posted during the requested time period. The records would include, yet not be limited to, how the positions announced and why deviations occurred that were outside of standard practice.	On Hold-Fee Related	-	-

2023-00674	(b)(6)	-	11/17/2022	11/17/2022	1. Program Statement 3939.08 states, "The Chaplaincy Administrator and/or their designee will review each institutional (Standard Form 52) Request for Personnel Action before an agency Chaplaincy announcement is posted and make recommendations on how the announcement should be issued to best meet specific institutional and religious needs. 2. Please provide any records in Federal Bureau of Prisons policy and best correctional practice that would assist a Chaplaincy Services Administrator in making recommendations as to how a Chaplaincy job vacancy announcement should be issued to best meet specific institutional and religious needs. 3. The records would include, yet not be limited to recommendations in when to post a Chaplaincy vacancy to USAJOBS. 4. The records would include, yet not be limited to when to post a Chaplaincy vacancy to the Chaplaincy Services Branch Sallyport (job vacancy section). 5. The records sought would include, yet not be limited to when to forward a Chaplaincy vacancy announcement to the agency e-mail account of all Chaplains currently working in the field. 6. The records, would include, yet not be limited to penalties for deliberate and intentional efforts to obstruct potential employees and current employees, from fair employment and promotion consideration, particularly in cases where the Chaplaincy Services Branch and the local institution, willfully engages in prohibited personnel practices (obstruction, favoritism unfair advantage, willful violations of Veterans Preference) covered under the Office of Special Counsel. 7. Program Statement 3939.08 does not address the placement and promotion of Federal Prison Chaplains, via settlement agreement, whereby a settlement agreement could result in placement and promotion of a Chaplain. Please provide records pertaining to the Assistant Director for Program Review, Assistant Director for Re-entry Services Division, and the Chaplaincy Services Administrator's commitment to honoring legally binding agreements entered into with identified EEO complainants. 8. As it relates to paragraph 7, the records would include, yet not be limited to penalties for failing to honor a settlement agreement, via the intentionality of an arbitrary decision to not honor the agreement. The records sought would also include records, which document ways to renegotiate agreements commensurate with the level of a breach. For example, a breach of agreement at the management level, resolves at the management level, versus an agreement breached at the management level resolves at the subordinate level, with no explanation provided to the EEO complainant as to why both the breach and the demotion occurred. 9. The records would include how the Chaplaincy Services Branch and the Assistant Director for Re-entry Services Division, works with EEO to resolve breaches of agreement, where a breach may be the result of racial discrimination and retaliation.
