4. **VISITING PROCEDURES:**
 - a. Visiting hours for both institutions are as follows:
 - 1) FCI Visiting Hours-
 - Friday- 4:30 p.m. to 8:30 p.m.
 - Sunday, Saturday and Federal Holidays- 8:45 a.m. to 3:00 p.m.
 - FPC (camp) Visiting Hours-
 - Monday and Friday- 4:30 p.m. -8:30 p.m.
 - Sunday, Saturday and Federal Holidays- 8:45 a.m. to 3:00 p.m.
 - 2) Special Housing Unit (SHU) visiting for both FCI & FPC inmates will be the same times, but for a two hour period and will terminate at 8:00 p.m.

Visits for any FCI or FPC holdover inmates will occur on Mondays and only in the event the non-contact video visiting equipment is damaged or out of service. The

visiting hours will be 4:30 p.m. to 8:00 p.m.

- 3) Telephone numbers for public transportation and lodging are found in Attachment E.

All regular visits will be conducted in the institution Visiting Room. All inmates must present an institution-issued identification card to the Visiting Room Officer upon entrance into the Visiting Room. These cards will be maintained in the Visiting Room during the visit. Identification cards will be used to identify all inmates upon their arrival to the Visiting Room, and will be returned to inmates upon departure from the Visiting Room. All inmate visitors will also be identified upon their departure from the Visiting Room.

- 4) Special Housing Unit, non-contact video visiting will be allowed for all inmates in the unit, with the exception of inmates on visiting restriction. All holdover or Trans Segregation inmates must have written approval from the Captain prior to any visit being conducted. Special Housing Unit visiting procedures are as follows: Inmate visitors will be processed into the Federal Prison Camp in accordance with established guidelines. Inmates are authorized 2 adult and 2 children at any one time in the video visiting room. Additional visitors may be authorized on a case by case basis at the discretion of the Institution Duty Officer in conjunction with the Operations Lieutenant. Inmate Visitors will be escorted by visiting staff to the designated video visiting room located in the Federal Prison Camp Visiting Room. Prior to placing the inmate visitors in their assigned visiting area, escorting staff will perform a visual inspection of the visiting area noting the condition of the area. Any damage to monitoring equipment or visiting room will be documented via written memorandum.

Inmates choosing to participate in the video visits must be fully dressed in a T-shirt and institutional jumpsuit and shower shoes or bus shoes. SHU staff will escort the requested inmate to the assigned visiting room within the Special Housing Unit, in hand and leg restraints, including a martin chain, and secure the room. Prior to placing the inmate in his assigned visiting area, escorting staff will perform a visual inspection of the visiting area noting the condition of the area. Any damages to the monitoring equipment or visiting room will be documented via written memorandum and incident report.

All non-contact video visits will be monitored via video. The FPC Visiting Room Officer will have primary responsibility for monitoring the Video Visiting screen by way of the Computer Program; the SHU Officers will monitor the inmate while housed in the SHU Video Visiting room. In the event that both video visiting stations at the camp are occupied or unavailable for use, the Camp Visiting Officer will advise visitors waiting for non-contact SHU visits of an approximate time when their visit will be conducted. These visitors may complete the required paperwork, but will not be officially screened until immediately prior to entering the Visiting Room. This will allow them to depart the lobby area and return at a time approximate to their visit.

In the event the non-contact video visiting equipment is damaged or out of service, visits for inmates housed in SHU will be conducted in the FCI Visiting Room during normal visiting hours. Also, in the event that the visiting program is inoperable all visiting procedures will be conducted utilizing paper documentation.

- b. FCI and FPC inmates will be allowed weekend and holiday (if applicable) visiting each month. There is no limitation on weekend or holiday visits.
- c. Upon a visitor's arrival to the institution, the Front Lobby Officer will question each visitor to ensure he/she is not in possession of alcohol, narcotics, firearms, ammunition or any other unauthorized item. If visitors are found to be in possession of any of these previously mentioned items, they will be advised of the proper disposition procedures. The Lieutenant's Office will be notified of any and all instances when this breach of security occurs.
 - 1) Prior to entering the Visiting Room, all visitors must complete a form BP-224 "Notification to Visitor", in accordance with Title 18, USC, Chapter 87, Section 1791. (NOTE: IN ORDER TO DISCOURAGE THE ALTERATION OF VISITING ROOM FORMS, ALL VISITORS MUST COMPLETE THE PROVIDED FORMS IN THE PRESENCE OF THE FRONT LOBBY OFFICER.) This applies to each individual member or a group of individuals who are entering for the purpose of visiting an inmate.
 - 2) The Front Lobby Officer will verify the inmate is housed at this facility upon review of the inmate roster provided by the Control Center Officer each visiting day. The Front Lobby Officer will access the inmate's approved visiting list to ensure the visitor is authorized to visit. If the visitor is not on the inmate's approved visiting list, the inmate's Unit Team will be contacted. If the Unit Team is not on duty, the Institution Duty Officer and/or the Operations Lieutenant will be notified of the situation. The inmate's central file will be accessed by the Unit Team or Institution Duty Officer to verify the visitor's status.
 - 3) All adult inmate visitors will be requested to present a valid photo identification card. Staff shall verify the identity of each visitor using a driver's license, photo identification, etc., prior to admission of the visitor to the institution. Photo identification must be a valid state or government issued photo identification. Photo identification will be maintained by the Visiting Room Officer for proper identification by the Visiting Room Officer of visitors leaving the visiting room, as well as by the Control Center Officer for visitors exiting the institution. Visitors under the age of sixteen must be accompanied by a parent or guardian and are exempt from this provision.
- d. Visitors to the FCI will be screened through a walk-through metal detector prior to their entry into the institution. Visitors to the Camp will be randomly screened using a hand-held metal detector. At the discretion of the Camp Visiting Room Officer, any visitor(s) believed to be in possession of unauthorized items will be required to submit to a metal detector screening. Any visitor refusing to be processed through the metal detectors will be denied entrance to the institution, and the Operations Lieutenant or the Institution Duty Officer will be notified.

- e. When a visitor is unable to clear the walk-through metal detector, a hand-held metal detector will be utilized by the Front Lobby Officer in an attempt to locate and clear the source. If the source cannot be cleared and/or identified, the Operations Lt. or IDO will be notified to authorize a pat or visual search. The shift supervisor's approval is required prior to performing a pat search and the search must be documented as such in the Front Lobby Visual Pat Search Log Book. Whoever conducts the pat search must note what items(s) are setting off the metal detectors in the Front Lobby Visual Pat Search Log Book (i.e. name of visitor and item(s) setting off metal detector).

Some situations may not be remedied by a pat search, thus requiring a limited visual search. For example, a concealed medical device (e.g. knee brace under clothing, or insulin delivery system) may trigger the walk-through and hand-held metal detectors. In such case, a limited visual search will ordinarily be required to confirm the device's presence and qualification as a permitted object. It is important that a limited visual search always be performed in a private area away from others, and by staff members of the same sex as the visitor being searched. **The Warden's authorization is required** when conducting both limited visual searches and visual searches of persons based on reasonable suspicion.

- 1) Refusal on the part of the visitor at any point during the screening process will result in the visitor being denied entry into the facility.
- 2) Permitted property will be thoroughly searched by the Front Lobby Officer and processed through the x-ray machine to ensure contraband is not present. Use of plastic gloves for the protection of the officer is encouraged and a supply of gloves is made available for this purpose.
- 3) Visitors should ensure that clothing items and undergarments are free from metallic pieces. Metallic pieces will test positive and are extremely difficult to identify. This may cause the visitor to be denied approval to enter the institution.
- 4) All visitors will be subject to a random pat search as part of the screening process. A random selection method must be established and documented in the Front Entrance Officer's Log Book each day before searching visitors entering Bureau grounds and facilities. The shift supervisor will ensure appropriate random selection methods are implemented and documented each day.

Staff may not search visitors out of the predetermined random selection order unless reasonable suspicion indicates the visitor's possible involvement with prohibited activities or objects. **The same procedures for pat and/or visual searches apply and must be prior approved by the Operations Lieutenant or IDO.**

Pat Search/Visual Search Log Book:

When a visual search is performed based on reasonable suspicion, or when a visitor is pat searched out of established random order, a logbook entry must indicate:

- Date, time, and place the search is conducted.
- Persons involved (person being searched, staff conducting search, witnesses, if any).
- Circumstances justifying the search.
- Search results.
- Action taken, if any.

Visitors such as law enforcement personnel, inmate attorneys, contractors, volunteers, and other official visitors should not ordinarily be subject to routine pat searches unless prior approval is received from the Warden. Pat searches will be conducted out of view of other visitors and inmates.

Religious headwear is not considered part of a visitor's belongings, but rather their person. Random pat searches should **NOT ordinarily** include removal and inspection of religious head-wear, except in emergencies. **The Warden's authorization is required before staff pat or visually search religious headwear.** Authorized pat or visual searches of religious head-wear must be documented as reasonable suspicion searches in the appropriate log book.

The following is the **ONLY** exception:

Religious head-wear that obscures a visitor's face must be removed sufficiently to reveal the face for identification upon entering and leaving facilities, and does not require the heightened conditions described above or documentation. In these cases, the entire headwear need not be removed if partial removal will reveal the face for identification. The Warden's approval and documentation are not required in this case.

- 5) When reasonable suspicion exists that a visitor is under the influence of a drug or intoxicant, the Captain will seek permission from the Warden to obtain a breathalyzer test, as a prerequisite to entering the institution.
- 6) Prior to being admitted into the FCI Visiting Room, all inmate visitors will be stamped with "invisible ink" by the Front Lobby Officer. Once all paperwork has been completed and the visitor is approved, the Escorting Officer will direct a group of five ADULT visitors to the Visiting Room at one time. Each visitor's hand will be inspected under the black light to ensure they have been stamped with the invisible ink when entering and when departing the sally port area. No more than 5 adults will be escorted at one time when departing the Visiting Room.

NOTE: VISITORS' HANDS WILL BE INSPECTED UNDER THE BLACK LIGHT BEFORE LEAVING THE VISITING ROOM AND AGAIN AT THE CONTROL CENTER BEFORE BEING ALLOWED TO EXIT THE FCI.

- 7) Each inmate will be permitted a maximum of 6 visitors. However, no more than 3 adults are permitted to visit, without prior written approval from the Captain and Camp Administrator for Camp visits. (For the purpose of this supplement, an adult visitor is considered to be 16 years of age and above.) The inmate must seek prior approval in writing from the Captain thru his Unit Team before additional visitors are permitted to visit. A copy of this approval will be distributed to the Front Lobby and Visiting Room Officer. When conditions of overcrowding exist, the number of visitors may be limited to allow each visitor adequate space and time to conduct the visit.

In the event of overcrowding in the Visiting Room, the Operations Lieutenant and Institution Duty Officer is authorized to limit the length of the visit. **NOTE: VISITS MAY BE LIMITED TO A MINIMUM OF ONE (1) HOUR DUE TO OVERCROWDING: UPON COMPLETION OF THE VISIT, THESE VISITORS WILL BE ASKED TO LEAVE THE INSTITUTION GROUNDS AND RETURN AT A LATER TIME.** After a minimum of one (1) hour, the Visiting Room Officer-in-Charge will notify the Operations Lieutenant/Institution Duty Officer that he/she is terminating inmate visit(s) in order to accommodate all other waiting visitors.

In order to run a more controlled and secure visitation room there will be no more than 20 inmates in the visiting room prior to the conclusion of visiting. The visiting room staff will begin to terminate visits at 2:30pm depending on the amount of inmates present in the visiting room. The last termination period will be conducted at 2:45pm to ensure that the quota of 20 inmates can be reached prior to the conclusion of visitation. The equation that will be used to make the decision of which inmate visits will be terminated will be decided by the following guidelines. Frequency of visits, Distance Traveled, and Time Inmate and visitor entered the visiting room. Also, for example if an inmate is terminated on a Saturday that inmate will not be terminated on Sunday. This will provide an equal and fair rotation of the Early Exit Program.

- 8) All children under sixteen (16) years of age will be accompanied by an adult on the inmate's approved visiting list. Inmates and their visitors will be expected to maintain control of their children at all times. Proposed visitors who are sixteen (16) or seventeen (17) years of age and not accompanied by a parent, legal guardian or immediate family member at least eighteen (18) years of age must have the written approval of a parent, legal guardian, or immediate family member at least eighteen (18) years of age prior to visitation. The signature of a parent or guardian on form BP-629, Visitor information is necessary to process a request for a Visiting Room applicant under eighteen (18) years of age. Completion of the entire form is required before visitors are permitted to visit.

NOTE: ALTHOUGH VISITING IS NOT NORMALLY ALLOWED FOR UNESCORTED JUVENILES, THE WARDEN MAY AUTHORIZE SUCH VISITS.

5. VISITING ROOM REGULATIONS:

Inmates and visitors alike must remember that social visiting is a family activity and that good conduct is expected at all times. Socially accepted gestures of communication and affection are allowed within the limits of "good taste." Staff will limit physical contact between visitors and inmates to reduce opportunities for the introduction of contraband and to maintain the orderly operation of the Visiting Room. Kissing, embracing and hand shaking are the only socially accepted gestures allowed in the Visiting Room at the beginning and end of a visit. Occasional holding of hands will be permitted within the bounds of good taste. Indecent or excessive contact will not be tolerated. Inmates and Visitors will be assigned seating by the Visiting Room Staff. Inmates or visitors who violate Visiting Room regulations will have their visit terminated or placed under increased supervision at the discretion of the Visiting Room Officer-in-Charge, in consultation with the Operations Lieutenant and the Institution Duty Officer. All areas of the Visiting Room, including rest rooms, will be monitored to prevent the passage of contraband and to ensure the security and welfare of all concerned.

- b. Behavior from a visitor that negatively effects the secure and orderly operation of the institution, to include abusive/assaultive behavior (verbal or physical); will result in a loss of visiting privileges. In addition, a Bureau officer or employee has the authority to arrest without warrant any person who forcibly assaults, opposes, resists, impedes, intimidates, or interferes with an employee of any Federal institution while engaged in or on account of the performance of official duties (ref: Program Statement 5510.12, Searching, Detaining, or Arresting Visitors to Bureau Grounds and Facilities, and 18 USC 111).

Special legal visits involving more than one inmate must also be approved by the AW (P). When entering or exiting the institution in an **official capacity**, attorneys shall be required to sign the Official Visitors Log (located in the Front Lobby). Unit Manager. Upon completion of the special visit, written documentation will be maintained in the inmate's Central File.

The Warden may authorize special visits for clergy, former or prospective employers, sponsors, and parole advisors. These visits are intended to assist in the release planning, counseling, and discussion of family problems.

When deemed appropriate during the 30 day time period, the inmate may be required to mail a BP-629, Visitor Information form to the immediate family member; a background investigation may be required before permanently approving an immediate family member. Only immediate family members will be allowed on two inmates' visiting list at either the

FCI or FPC. The inmate will be notified by the Unit Team of the individuals who are approved for the visiting list.

- b. A background investigation is required before approving any non-immediate family visitor for a visit at the FCI and FPC. The inmate will be held responsible for having a BP-629, Visitor Information form mailed to the proposed visitor. This form must be signed and returned to the staff by the visitor before staff can investigate the proposed visitor.

 - d. For holdover inmates, visiting will be limited to immediate family members only. The Approved Visiting List form, from the computer-based visiting room program, (represented by Attachment A), will be prepared by the Correctional Counselor and the appropriate information will be processed on the approved visiting list software. When additions or deletions are made to the approved visiting list, the appropriate changes will be made by the Counselor and the files updated.
 - e. Visiting files of inmates who are out of the institution on writs or furloughs will remain in the computer system and at the locations described above in Section (e).
