Facility AUDIT FINDINGS

Summary of Audit Findings

The OAS automatically populates the number and list of Standards exceeded, the number of Standards met, and the number and list of Standards not met.

Auditor Note: In general, no standards should be found to be "Not Applicable" or "NA." A compliance determination must be made for each standard. In rare instances where an auditor determines that a standard is not applicable, the auditor should select "Meets Standard" and include a comprehensive discussion as to why the standard is not applicable to the facility being audited.

Number of standards exceeded:

6

- 115.11 - Zero tolerance of sexual abuse and sexual harassment; PREA coordinator
- 115.13 - Supervision and monitoring
- 115.32 - Volunteer and contractor training
- 115.33 - Inmate education
- 115.53 - Inmate access to outside confidential support services
- 115.83 - Ongoing medical and mental health care for sexual abuse victims and abusers

Number of standards met:

35

Number of standards not met:

0

Not audited at the facility level:

Audited at the agency-level, and not relevant to the facility-level audit because the facility has no independent responsibility for the operation of these standards.

INTERVIEWS

Inmate/Resident/Detainee Interviews

Random Inmate/Resident/Detainee Interviews

53. Enter the total number of RANDOM INMATES/RESIDENTS/DETAINEES who were interviewed:	17
54. Select which characteristics you considered when you selected RANDOM INMATE/RESIDENT/DETAINEE interviewees: (select all that apply)	<input checked="" type="checkbox"/> Age <input checked="" type="checkbox"/> Race <input checked="" type="checkbox"/> Ethnicity (e.g., Hispanic, Non-Hispanic) <input checked="" type="checkbox"/> Length of time in the facility <input checked="" type="checkbox"/> Housing assignment <input checked="" type="checkbox"/> Gender <input checked="" type="checkbox"/> Other <input type="checkbox"/> None

If "Other," describe:	Custody, Job Assignment, Program Activity, Physical Characteristics, Psychological Characteristics, Primary Language Spoken, or other distinguishing factors amongst population.
55. How did you ensure your sample of RANDOM INMATE/RESIDENT/DETAINEE interviewees was geographically diverse?	Housing rosters
56. Were you able to conduct the minimum number of random inmate/resident/detainee interviews?	<input checked="" type="radio"/> Yes <input type="radio"/> No
57. Provide any additional comments regarding selecting or interviewing random inmates/residents/detainees (e.g., any populations you oversampled, barriers to completing interviews, barriers to ensuring representation):	No barriers to completing random interviews were noted.
Targeted Inmate/Resident/Detainee Interviews	
58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:	15
<p>As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".</p>	
60. Enter the total number of interviews conducted with inmates/residents/detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol:	2

<p>61. Enter the total number of interviews conducted with inmates/residents/detainees with a cognitive or functional disability (including intellectual disability, psychiatric disability, or speech disability) using the "Disabled and Limited English Proficient Inmates" protocol:</p>	<p>2</p>
<p>62. Enter the total number of interviews conducted with inmates/residents/detainees who are Blind or have low vision (i.e., visually impaired) using the "Disabled and Limited English Proficient Inmates" protocol:</p>	<p>2</p>
<p>63. Enter the total number of interviews conducted with inmates/residents/detainees who are Deaf or hard-of-hearing using the "Disabled and Limited English Proficient Inmates" protocol:</p>	<p>2</p>
<p>64. Enter the total number of interviews conducted with inmates/residents/detainees who are Limited English Proficient (LEP) using the "Disabled and Limited English Proficient Inmates" protocol:</p>	<p>2</p>
<p>65. Enter the total number of interviews conducted with inmates/residents/detainees who identify as lesbian, gay, or bisexual using the "Transgender and Intersex Inmates; Gay, Lesbian, and Bisexual Inmates" protocol:</p>	<p>3</p>
<p>66. Enter the total number of interviews conducted with inmates/residents/detainees who identify as transgender or intersex using the "Transgender and Intersex Inmates; Gay, Lesbian, and Bisexual Inmates" protocol:</p>	<p>5</p>

<p>67. Enter the total number of interviews conducted with inmates/residents/detainees who reported sexual abuse in this facility using the "Inmates who Reported a Sexual Abuse" protocol:</p>	<p>4</p>
<p>68. Enter the total number of interviews conducted with inmates/residents/detainees who disclosed prior sexual victimization during risk screening using the "Inmates who Disclosed Sexual Victimization during Risk Screening" protocol:</p>	<p>8</p>
<p>69. Enter the total number of interviews conducted with inmates/residents/detainees who are or were ever placed in segregated housing/isolation for risk of sexual victimization using the "Inmates Placed in Segregated Housing (for Risk of Sexual Victimization/Who Allege to have Suffered Sexual Abuse)" protocol:</p>	<p>0</p>
<p>a. Select why you were unable to conduct at least the minimum required number of targeted inmates/residents/detainees in this category:</p>	<p><input checked="" type="checkbox"/> Facility said there were "none here" during the onsite portion of the audit and/or the facility was unable to provide a list of these inmates/residents/detainees.</p> <p><input type="checkbox"/> The inmates/residents/detainees in this targeted category declined to be interviewed.</p>
<p>b. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).</p>	<p>Reviewed facility documentation. All inmates interviewed were also asked if they had ever been placed in segregated housing for risk of sexual victimization. None of the inmates interviewed stated that they had ever been placed in such housing for risk of sexual victimization.</p>

<p>70. Provide any additional comments regarding selecting or interviewing targeted inmates/residents/detainees (e.g., any populations you oversampled, barriers to completing interviews):</p>	<p>Inmates were allowed to self-select out of and/or into all targeted categories during the interview process. As such, while facility records may or may not include inmates within targeted categories, targeted protocols were still completed for any inmate who self-selected into any targeted protocol at the time of the interview. Also, it should be noted that if there were not sufficient numbers of inmates assigned to the facility within a targeted group, oversampling was done in other targeted groups to ensure the minimum number of targeted interviews were conducted.</p>

<p>If "Other," describe:</p>	<p>Gender, race, ethnicity, languages spoken, or other distinguishing factors amongst staff relative to their employment.</p>
<p>73. Were you able to conduct the minimum number of RANDOM STAFF interviews?</p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>

74. Provide any additional comments regarding selecting or interviewing random staff (e.g., any populations you oversampled, barriers to completing interviews, barriers to ensuring representation):	No barriers to completing random staff interviews were noted.
Specialized Staff, Volunteers, and Contractor Interviews	
Staff in some facilities may be responsible for more than one of the specialized staff duties. Therefore, more than one interview protocol may apply to an interview with a single staff member and that information would satisfy multiple specialized staff interview requirements.	
75. Enter the total number of staff in a SPECIALIZED STAFF role who were interviewed (excluding volunteers and contractors):	14
76. Were you able to interview the Agency Head?	<input checked="" type="radio"/> Yes <input type="radio"/> No
77. Were you able to interview the Warden/Facility Director/Superintendent or their designee?	<input checked="" type="radio"/> Yes <input type="radio"/> No
78. Were you able to interview the PREA Coordinator?	<input checked="" type="radio"/> Yes <input type="radio"/> No
79. Were you able to interview the PREA Compliance Manager?	<input checked="" type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NA (NA if the agency is a single facility agency or is otherwise not required to have a PREA Compliance Manager per the Standards)

80. Select which SPECIALIZED STAFF roles were interviewed as part of this audit from the list below: (select all that apply)

- Agency contract administrator
- Intermediate or higher-level facility staff responsible for conducting and documenting unannounced rounds to identify and deter staff sexual abuse and sexual harassment
- Line staff who supervise youthful inmates (if applicable)
- Education and program staff who work with youthful inmates (if applicable)
- Medical staff
- Mental health staff
- Non-medical staff involved in cross-gender strip or visual searches
- Administrative (human resources) staff
- Sexual Assault Forensic Examiner (SAFE) or Sexual Assault Nurse Examiner (SANE) staff
- Investigative staff responsible for conducting administrative investigations
- Investigative staff responsible for conducting criminal investigations
- Staff who perform screening for risk of victimization and abusiveness
- Staff who supervise inmates in segregated housing/residents in isolation
- Staff on the sexual abuse incident review team
- Designated staff member charged with monitoring retaliation
- First responders, both security and non-security staff
- Intake staff

	<input checked="" type="checkbox"/> Other
If "Other," provide additional specialized staff roles interviewed:	Commissary, Laundry, Mailroom Staff, Training Staff, Chaplain, Law Library, and SAFE/SANE staff associated with the local hospital
81. Did you interview VOLUNTEERS who may have contact with inmates/residents/detainees in this facility?	<input checked="" type="radio"/> Yes <input type="radio"/> No
a. Enter the total number of VOLUNTEERS who were interviewed:	1
b. Select which specialized VOLUNTEER role(s) were interviewed as part of this audit from the list below: (select all that apply)	<input type="checkbox"/> Education/programming <input type="checkbox"/> Medical/dental <input type="checkbox"/> Mental health/counseling <input checked="" type="checkbox"/> Religious <input type="checkbox"/> Other

SITE REVIEW AND DOCUMENTATION SAMPLING

Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

<p>84. Did you have access to all areas of the facility?</p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
---	---

Was the site review an active, inquiring process that included the following:

<p>85. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?</p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
--	---

<p>86. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?</p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
<p>87. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?</p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
<p>88. Informal conversations with staff during the site review (encouraged, not required)?</p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
<p>89. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).</p>	<p>NA</p>
<p>Documentation Sampling</p>	
<p>Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.</p>	
<p>90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?</p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
<p>91. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).</p>	<p>Additional document sampling was done both at random, as well as in coordination with comments received from inmates and staff during the interview process.</p>

SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY

Sexual Abuse and Sexual Harassment Allegations and Investigations Overview

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

92. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual abuse allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
Inmate-on-inmate sexual abuse	5	0	5	0
Staff-on-inmate sexual abuse	1	0	0	1
Total	6	0	5	1

93. Total number of SEXUAL HARASSMENT allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual harassment allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
Inmate-on-inmate sexual harassment	2	0	1	0
Staff-on-inmate sexual harassment	0	0	0	0
Total	2	0	1	0

Sexual Abuse and Sexual Harassment Investigation Outcomes

Sexual Abuse Investigation Outcomes

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for “convicted.”) Do not double count. Additionally, for question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

94. Criminal SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

	Ongoing	Referred for Prosecution	Indicted/ Court Case Filed	Convicted/ Adjudicated	Acquitted
Inmate-on-inmate sexual abuse	0	0	0	0	0
Staff-on-inmate sexual abuse	0	1	0	0	0

Inmate-on-inmate sexual abuse	0	1	4	0
Staff-on-inmate sexual abuse	0	0	0	1
Total	0	1	4	1

Sexual Harassment Investigation Outcomes

Note: these counts should reflect where the investigation is currently. Do not double count. Additionally, for question brevity, we use the term "inmate" in the following questions. Auditors should provide information on inmate, resident, and detainee sexual harassment investigation files, as applicable to the facility type being audited.

96. Criminal SEXUAL HARASSMENT investigation outcomes during the 12 months preceding the audit:

	Ongoing	Referred for Prosecution	Indicted/ Court Case Filed	Convicted/ Adjudicated	Acquitted
Inmate-on-inmate sexual harassment	0	0	0	0	0
Staff-on-inmate sexual harassment	0	0	0	0	0
Total	0	0	0	0	0

97. Administrative SEXUAL HARASSMENT investigation outcomes during the 12 months preceding the audit:

Interviews:

- Agency Head
- Agency PREA Coordinator
- PREA Compliance Manager
- Facility Warden
- Intermediate or Higher-Level Facility Staff
- Random Staff

Site Review Observations:

- The Federal Bureau of Prisons (BOP) Agency PREA Coordinator provides guidance to Central Office Management Analysts, who subsequently provide guidance to facility-based PREA Compliance Managers (PCM), to include the PCM assigned to the Federal Medical Center (FMC) at Fort Worth, Texas.
- The FMC Fort Worth (FTW) PREA Compliance Manager is physically assigned to the FMC Fort Worth and maintains a permanent office, with routine activities, within said institution as a function of that facility assignment.

Standard Subsections:

(A) Program Statement P5324.12, Sexually Abusive Behavior Prevention and Intervention Program, 6-4-15; and Institution Supplement FTW 5324.12D, Sexual Abusive Behavior Prevention and Intervention Program, 10-24-22, provides written direction mandating a zero-tolerance policy toward all forms of sexual abuse and sexual harassment. Together, they outline both the agency's, and the facility's, approach to preventing, detecting, and responding to such conduct.

(B) The BOP has employed an agency-wide PREA Coordinator. This position, Agency PREA Coordinator, is within the upper hierarchy of organizational authority within the BOP. The Agency PREA Coordinator provides guidance at the national level to four Central Office Management Analysts assigned to the BOP. The Central Office Management Analysts, in turn, provide guidance to the institutional PREA Compliance Managers assigned to agency facilities. As a collective effort, these persons help facilitate institutional needs specific to the implementation and advancement of the PREA standards. As such, the Agency PREA Coordinator, in coordination with the four Central Office Management Analysts, facility wardens, and facility-based PREA Compliance Managers, guide the implementation of PREA standards throughout the agency.

(C) The BOP operates multitudes of correctional institutions. Each warden within these institutions has been charged with designating a PREA Compliance Manager, who holds the supervisory rank of Associate Warden. The FTW Warden affirms his designation of the FTW PCM to serve in this capacity. The FMC Fort Worth PREA Compliance Manager further confirms both sufficient time and authority to coordinate the facility's efforts in complying with the PREA standards.

Reasoning & Findings Statement:

This standard works to ensure the agency operates with a zero-tolerance acceptance level of sexual abuse and sexual harassment of inmates. Additionally, the standard requires that individual facilities operate with respect to the agency's zero-tolerance expectation. In this regard, the agency has implemented policies designed to prevent, detect, and respond to sexual abuse and sexual harassment. Though the standard requires the minimum staffing of one agency-wide PREA Coordinator and then individual PREA Compliance Managers assigned to each facility, the BOP has exceeded this requirement through the additional employment of four Central Office Management Analysts. The sole function of the Central Office Management Analyst position is to better coordinate and advance the implementation of the PREA standards and policies to significantly increase the sexual safety of all inmates incarcerated within the BOP. As such, the agency, and by extension the facility, has clearly exceeded the basic requirements of this standard.

Site Review Observations:

- All inmate housing areas contain at least one custody post that is continuously monitored by staff. All areas of high inmate traffic are assigned staffing positions while in operation.
- During the site review, supervisory staff were observed making routine and frequent rounds throughout the facility. All random staff interviewed did indicate that supervisory staff were available to them as needed and did routinely conduct unannounced rounds within the facility.
- During supervisory rounds, ranking officials were observed reviewing required documentation completed by line staff as a function of their duty posts.
- During the onsite portion of the audit, additional FMC Fort Worth IDO Unannounced Institutional Rounds (Chronological Housing/Building Logs) were inspected throughout the institution to ensure supervisory staff were conducting, and properly documenting, their unannounced rounds.
- IDO Unannounced Institutional Rounds were also reviewed onsite to ensure that opposite gender announcements on all three facility shifts, where appropriate, were being made and properly documented.

Standard Subsections:

(A) The FMC Fort Worth has developed and documented a staffing plan. Facility administrators are required to make their best efforts in complying with said plan on a regular basis in order to provide for adequate levels of staffing, and, where applicable, video monitoring to protect inmates against abuse (P5324.12). The FTW reviews the facility's staffing plan on a quarterly basis. As noted within the most recent Staffing Plan, 4-4-24, reviewed onsite, the staffing plan takes into consideration generally accepted correctional practices when determining staffing needs and the need for video monitoring. If present, the staffing plan considers any judicial, federal investigative agencies, internal, and external oversight bodies' findings of inadequacy. Per the FTW Warden, the quarterly staffing plan review requires that the facility considers components of the facility's physical plant, composition of the inmate population, number and placement of supervisory staff, institutional programming needs, applicable state and local laws, the prevalence of substantiated and unsubstantiated incidents of sexual abuse, as well as any other relevant factors when determining staffing needs and the need for video monitoring. As noted by the FMC Fort Worth PREA Compliance Manager, the facility staffing plan was predicated consistent with average daily number of inmates assigned to the FMC Fort Worth.

(B) BOP policy governs the minimum use of employee staffing (P5324.12). If facility staffing levels fall below these minimum requirements, BOP policy further requires that facility staff properly document each occurrence. Per the FMC Fort Worth Warden, within the audit time frame, the staffing levels of FMC Fort Worth have not fallen below the required levels.

(C) The facility conducts quarterly reviews of its staffing plan. As evidenced via interviews with agency and facility staff, in completing the FMC Fort Worth staffing

plan review, the facility did coordinate with the Central Office Management Analyst, as well as the FMC Fort Worth PREA Compliance Manager, to develop the facility staffing plan in accordance with the aforementioned 115.13(a). PREA staffing members were consulted regarding the use of resources necessary to commit to the staffing plan, as well as the use of video monitoring technologies within the facility.

(D) The agency does have a policy in place to mandate unannounced rounds conducted by intermediate-level or higher-level supervisors (P5324.12). This policy does require that staff document those rounds. The policy requires unannounced rounds to be made on all shifts, both day and night hours. The agency also prohibits staff from alerting others that said rounds are being conducted. The timing of the site review allowed the auditor to observe the facility while employees from all three shifts were on duty. The auditor did observe line and supervisory staff document said rounds as appropriate. Said documentation did reflect that not only were supervisory staff conducting unannounced rounds, but these rounds were also clearly documented using red or blue ink. When interviewed, supervisory staff stated that they performed unannounced rounds at various times, as well as walked varying paces and routes when conducting unannounced rounds to make their presence less predictable. When interviewing random staff, all persons stated that supervisors routinely conduct unannounced rounds. Staff also noted that it was a violation of policy for supervisors to announce their rounds or for other staff to call ahead and warn their co-workers that a supervisor was conducting security rounds. When interviewing random inmates, all inmates stated that they have routinely witnessed supervisory staff conducting rounds throughout the facility, as well as being available via Main Line. During the site review, it was further noted that inmates seemed comfortable with the presence of supervisory staff within their housing areas. As well, during the site review, inmates were observed approaching supervisory staff and speaking with ease, both in the housing areas and at Main Line. This further supports that said staff are routinely present in inmate housing and facility areas.

Reasoning & Findings Statement:

This standard requires the facility to ensure adequate staffing levels that promote the safety of not only all inmates assigned to the facility, but also to ensure the safety of all institutional staff, volunteers, and contractors within the institution. During the audit time frame, the FMC Fort Worth did not deviate from its staffing plan. To ensure that the sexual safety of inmates assigned to the FMC Fort Worth is given sufficient weight in determining facility staffing needs, the FMC Fort Worth staffing plan is reviewed on a quarterly basis in coordination with all FMC Fort Worth PREA staffing components. To ensure meaningful and effective correctional supervision, FMC Fort Worth supervisors routinely conduct and document unannounced rounds. Lastly, to ensure inmates have the ability to speak directly with a variety of supervisory staff, all such staff routinely participate in Main Line, which is simply a staff accessibility program designed for inmate convenience. The auditor observed, as well as the facility provided, ample evidence of documented unannounced rounds of supervisory ranks of various levels, up to and including, the facility warden. As such, the FMC Fort

Worth facility has exceeded in demonstrating its compliance with this provision.

115.14 Youthful inmates

- Program Statement P5216.06, Juvenile Delinquents, 4-26-19
- FTW 5324.12D, Sexual Abusive Behavior Prevention and Intervention Program, 10-24-22

Interviews:

- Agency PREA Coordinator
- PREA Compliance Manager
- Facility Warden
- Random Staff
- Random/Targeted Inmates

Site Review Observations:

- While conducting the onsite review, the auditor did not observe any inmates who appeared excessively youthful.
- In reviewing inmate Documents, the auditor did not observe any inmate birthdays to be less than 18 years younger than the date of the onsite review.
- All inmates interviewed stated that they were at least 18 years of age and did not have any knowledge of any inmates assigned to the FMC Fort Worth who were not at least 18 years of age.

Standard Subsections:

(A) The BOP policy (P5216.06) prohibits the placement of any inmate less than 18 years of age in an adult jail or correctional institution.

(B) As FMC Fort Worth does not house any inmates less than the age of 18 years, the facility has most certainly maintained absolute sight and sound separation between youthful Inmates and adult inmates.

(C) As FMC Fort Worth does not house any offender less than 18 years of age, its facility administration has absolutely avoided placing any adolescent offender in isolation in order prevent said offender from living within sight and sound of adult Inmates. Hence, the FMC Fort Worth has not denied any adolescent offender the

	<p>ability to engage in daily large-muscle exercise or to participate in other program or work opportunities.</p> <p>Reasoning & Findings Statement:</p> <p>This standard requires that the agency ensures sight and sound separation between youthful Inmates and adult inmates. Alternatively, the standard requires that there is direct staff supervision when youthful Inmates and adult inmates have the possibility of sight, sound, or physical contact. The BOP prohibits the assignment of youthful Inmates to adult housing units. Hence, as FMC Fort Worth contains only adult housing units, FMC Fort Worth is prohibited from receiving, and subsequently housing, youthful Inmates. As such, the facility has demonstrated compliance with this standard.</p>

- During the site review, staff were routinely observed making announcements when persons of the opposite gender entered offender housing areas.
- Supervisory staff were observed conducting their routine security checks within inmate housing areas. Announcements and supervisory rounds, both unannounced rounds and scheduled rounds, were subsequently documented on the Institution Duty Officer (IDO) Unannounced Institutional Rounds where appropriate.
- FMC Fort Worth documentation reflects that during the audit time frame, the facility has not had any cross-gender visual or body cavity searches of inmates.
- Privacy shields were in place inhibiting views of all inmate toilets.
- Privacy shields were in place and/or available in all medical examination rooms.
- Video footage did not reveal that any cameras were trained on inmate restrooms, showers, or other areas where inmates might be in a state of undress.

Standard Subsections:

(A) BOP Policy (P5324.12) prohibits cross-gender strip or visual body cavity search of inmates except in exigent circumstances or by medical practitioners. Random staff interviews confirm that staff do not engage in such activities. Furthermore, all inmates interviewed noted that they had not, nor had they witnessed any other inmate, being subjected to a strip or body cavity search by a custody staff member of the opposite gender.

(B) BOP Policy (P5324.12) mandates that staff refrain from conducting cross-gender pat-down searches of female inmates, unless in exigent circumstances. Staff affirm their adherence to this policy.

(C) Agency policy (P5324.12) requires that all cross-gender strip and visual body cavity searches are documented. The facility has not engaged in any cross-gender strip searches or cross-gender body cavity searches of its prisoners within the audit period. However, under exigent circumstances, should the need arise, staff interviewed understood that such action, while extremely unlikely, would require extensive justification.

(D) The FMC Fort Worth does have a policy (P5324.12, FTW 5324.12D) in place that allows inmates to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing inmate buttocks, genitalia, or breasts except in exigent circumstances or when such viewing is incidental to routine cell checks. The facility does follow policy (P5324.12, FTW 5324.12D) requiring that staff of the opposite gender announce their presence when entering an inmate housing unit. In speaking with agency staff, all staff members were aware of the agency's prohibition against cross-gender strip and visual body cavity searches. As well, Program Statement P5324.12, Sexually Abusive Behavior Prevention and Intervention Program, 6-4-15, requires all persons of the opposite gender to announce their presence upon entering an opposite gender housing assignment. All staff interviewed did confirm their adherence to said policy. However, as many inmates stated that opposite gender staff do not routinely conduct opposite gender announcements, additional training was subsequently conducted to ensure staff awareness of the importance of the requirement, as well as the agency's expectation that it will be

done. During the facility site review, modesty barriers and curtains were in place to inhibit the viewing of any inmate in a state of undress. Lastly, video footage was inspected throughout the facility. Said footage did not capture, nor was it trained to capture, inmates in a state of undress during routine activities, to include strip searches.

(E) BOP Policy (P5324.12) prohibits searching transgender or intersex inmates for the sole purpose of determining the inmates' genital status. In interviewing staff, it was clearly expressed that if the gender of an inmate is unknown, conducting a strip search to determine the gender of the inmate would be inappropriate. It was generally expressed that to determine gender, staff would contact the medical department, their supervisor, or simply ask the inmate. In interviewing transgender inmates, none (0) expressed any concerns of having been searched for the sole purpose of determining the inmates' genital status.

(F) Records reflect that 100% of FMC Fort Worth custody staff have been trained on proper procedure specific to conducting cross-gender inmate pat searches and transgender pat searches in a professional and least intrusive manner as possible consistent with security needs. All random staff interviewed did affirm their understanding of agency policy prohibiting the search of any transgender or intersex inmate for the sole purpose of determining the inmate's genital status.

BOP Policy (P5324.12) specifies that transgender "inmates will be pat-searched in accordance with the gender of the institution, or housing assignment, in which they are assigned. Transgender inmates may request an exception." Policy (P5324.12) provides clear instructions on how staff will perform searches of any inmate, to include transgender inmates. Random custody staff interviewed confirmed their understanding of how to conduct a proper search of transgender/intersex inmates assigned to the FMC Fort Worth. As well, facility training rosters reflect that all correctional staff assigned to the FMC Fort Worth have been trained on how to conduct searches in a professional and least intrusive manner as possible.

Reasoning & Findings Statement:

The standard requires that opposite gender staff announce their presence when entering areas where adults in custody may be in a state of undress. As such, the agency requires opposite gender staff to announce their presence upon entering inmate housing areas where persons may be in a state of undress. All staff interviewed did confirm their adherence to said policy. However, as many inmates stated that opposite gender staff do not routinely conduct opposite gender announcements, additional training was subsequently conducted to ensure staff awareness of the importance of the requirement, as well as the agency's expectation that it will be done. As such, no further action is required. This standard requires that the agency place limits on cross-gender strip or cavity searches. The BOP has enacted policies prohibiting said searches in the absence of exigent circumstances. In the event exigent circumstances require cross-gender strip or cavity searches, policy subsequently requires this search to be properly documented. Neither documentation nor staff/inmate interviews reflect that any inmates have been subject to cross-gender strip or cavity searches within the auditing time frame. Agency custody staff

	<p>are trained on the proper procedures to conduct pat searches on transgender or intersex inmates, which requires said searches to be performed in a professional and least intrusive manner as possible. Staff were aware that transgender inmates may seek an exception to being searched by staff of a specific gender. As well, interviews with transgender inmates did not find any concerns of inmates having been searched for the sole purpose of determining their genital status.</p>

Site Review Observations:

- Correctional staff assigned to housing areas entered each dayroom area within the building to loudly announce inmate information, to include when opposite gender staff entered the housing area.
- PREA Notices, as well as other advisement notices, were posted in languages spoken by significant portions of the offender population; namely, English and Spanish.
- PREA information is provided verbally during the inmate admission process, as well as provided verbally via an instructional film viewed during the inmate orientation process.
- Staff translators are available if needed.
- LanguageLine Solutions are available for staff to communicate with Inmates who do not speak English or another language common to facility staff.

Standard Subsections:

(A) BOP policy (P5324.12) requires that institutions enhance communication efforts with disabled inmates, such as those with hearing, vision, speech, or other physical disabilities; psychiatric or other intellectual disabilities, or those with limited English proficiency (LEP); so as to provide said inmates with an equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. PREA educational information is provided in writing, verbally, as well as presented in video format (available in English and Spanish). The BOP maintains a mandatory for use contract for telephonic translation and interpretation services to assist inmates who do not speak a language common to FMC Fort Worth staff. The facility offers video-based interpretation for American Sign Language assistance. In this, the Purple and LanguageLine Solutions services can be used to translate PREA, as well other confidential information.

When interviewing staff, it was noted that employees were aware of the need to obtain staff interpreters for sensitive security matters, such as PREA-related investigations. Staff were aware that other inmates could not be used to translate for any inmate during a sexual abuse/harassment investigation or incident. During the inmate interview process, when speaking with LEP inmates, these inmates noted that their inability to speak English proficiently has not prevented them from participating in any facility-based services, to include the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. Additionally, inmates with physical and/or intellectual disabilities were interviewed. These inmates also stated that their disabilities did not prevent them from participating in any facility-based services and/or that FMC Fort Worth has made accommodations for their disabilities, to include ensuring their access to the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment.

(B) The PREA informational brochure is commonly printed in two different languages: English and Spanish. As needed, LanguageLine Solutions services can also be used to translate PREA information into other languages.

(C) The BOP has developed agency-wide policies that prohibit the use of inmate interpreters or other types of offender-based assistance in the transmission or

subsequent investigation of security sensitive information, such as PREA-related matters (P5324.12). The agency has also developed agency-wide policies to enhance communication efforts with disabled Inmates; such as those with hearing, vision, speech, or other physical disabilities; psychiatric or other intellectual disabilities, or those with limited English proficiency (P5324.12); so as to provide these Inmates with an equal opportunity to directly participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment without the use of inmate interpreters or other types of offender-based assistance. FMC Fort Worth staff are aware of these agency policies and do not utilize inmate interpreters for security sensitive matters.

Reasoning & Findings Statement:

This standard seeks to empower all inmates with the right to be free from sexual abuse and sexual harassment. An essential component to that requirement is the ability to directly access PREA information, services, and support services. Inmates with disabilities; either cognitive, physical, or cultural, may require additional assistance in achieving that access. Hence, it is necessary for the agency to provide additional measures to ensure these inmates have equal access. The BOP recognizes this need and has created policies to address it. The FMC Fort Worth maintains sufficient stocks of PREA informational brochures in both English and Spanish. The FMC Fort Worth routinely shows PREA informational videos in English and Spanish, with Spanish being the most commonly spoken language inside of FMC Fort Worth other than English. Additionally, if needed, facility staff may utilize the LanguageLine to converse with inmates who do not speak a language common to facility staff. Lastly, it should be noted that at no time during the audit time frame, has FMC Fort Worth used inmate interpreters to help agency staff communicate with another inmate regarding security sensitive information. As such, FMC Fort Worth meets all provisions of this standard.

Site Review Observations:

- Review of four (4) employee and three (3) contractor files

Standard Subsections:

(A) The BOP has developed agency-wide policies (P3420.11, P3000.03, P5324.12) that prohibit the hiring or promotion of employees and contracted workers who have engaged in sexual abuse, been convicted of engaging or attempting to engage in a sexual activity with inmates, or have been civilly or administratively adjudicated to have engaged in a sexual activity with Inmates while in a prison, jail, lockup, community confinement facility, juvenile facility, or other institutional setting. The agency also has policies that stipulate prior to all hiring and promotional decisions of employees and contract workers, any incidents of sexual harassment will be considered. Prior to hiring any new employee or contract worker at the facility level, FMC Fort Worth Human Resource staff ensure that criminal background checks have been conducted on the prospective employee via the National Crime Information Center. As well, as required by policy, FMC Fort Worth Human Resource staff stated that all previous institutions of employment are contacted in order to determine if candidates have any previously substantiated claims of sexual abuse or resigned during a pending investigation of such claims. Policy (P5324.12) also requires that the FMC Fort Worth cooperates with other correctional and law enforcement agencies to ensure that accurate information regarding PREA-related employment laws are effectively shared between agencies. Again, as confirmed by Human Resource staff, the FMC Fort Worth does adhere to the requirements of this policy.

(B) BOP policy (P5324.12) requires the facility to consider any incidents of sexual harassment in determining whether to hire/promote anyone who may have contact with inmates. Likewise, in speaking with the FMC Fort Worth Human Resource representative, agency policy (P3000.03) requires Human Resource staff to also verify contractor employment history. Human Resource staff confirmed adhere to the requirements of this policy. As well, documentation reviewed onsite demonstrates said compliance.

(C) Before hiring or promoting employees, policy (P3000.03, P5324.12) requires the agency to perform criminal background checks. This is done via the Electronic Questionnaires for Investigations Processing system, which is overseen by the Office of Personnel Management and facilitated by the Security and Background Investigations Section. Policy (P3000.03) also requires the agency to conduct checks with prior employers for any applicant previously employed by a correctional facility. Human Resource staff confirmed adhere to the requirements of this policy. As well, documentation reviewed onsite demonstrates said compliance.

(D) Agency policy requires that prior to enlisting the services of any contractor who may have contact with Inmates, the agency performs a criminal background record check on said contractor. In speaking with the FMC Fort Worth Human Resource representative, it was noted that all persons contracted with the FMC Fort Worth received an initial background check, as well as, where applicable, required subsequent checks within the required time frames. During the audit time frame, the FMC Fort Worth has had eleven (11) contracts for services where criminal background record checks were conducted, or pending completion, on all staff covered in the contract who might have contact with inmates.

(E) Once employed, agency policy (P3000.03, P5324.12) requires that criminal background checks are conducted every five years to ensure that said persons have not been found to have engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution. As well, employees have an affirmative duty to report any contact they may have had with other law enforcement agencies and to report any sexual misconduct they may have been found guilty of at any other institution (P3000.03). Furthermore, employees are made aware that failing to provide this information, or providing false information regarding sexual misconduct, is grounds for employee discipline, to include termination of employment (P3000.03). In speaking with the FMC Fort Worth Human Resource representative, facility adherence to agency policy was confirmed.

(F) All applicants, as well as current employees, are required to submit a Questionnaire for Public Trust Positions form. This document directly asks employees who may have contact with inmates to disclose any previous sexual misconduct that may have occurred in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution (P3000.03). Additionally, the BOP does impose a continuing affirmative duty on all employees to disclose any misconduct found within Section A of this standard. In speaking with the FMC Fort Worth Human Resource representative, facility adherence to agency policy was confirmed.

(G) Agency policy expressly advises employees that material omissions or providing false information regarding the aforementioned misconduct is grounds for termination. In speaking with the FMC Fort Worth Human Resource representative, facility adherence to agency policy was confirmed.

(H) Agency policy allows that unless prohibited by law, the BOP shall provide information on substantiated allegations of sexual abuse or sexual harassment involving a former employee upon receiving a request from an institutional employer

	<p>for whom such employee has applied (P5324.12). In speaking with the FMC Fort Worth Human Resource representative, facility adherence to agency policy was confirmed.</p> <p>Reasoning & Findings Statement: T</p> <p>his standard requires the agency to consider the sexual safety of inmates in all hiring and promotion decisions within the agency. The agency has numerous policies in place to ensure that end. To maintain compliance with the standard, the FMC Fort Worth Human Resources Department utilizes a reference chart for each employee that clearly demonstrates when and why such criminal background checks are completed. Review of employee and contractor training files onsite reflect that the FMC Fort Worth Human Resources Department is in compliance with agency policy. As such, the FMC Fort Worth has met the requirements of this standard.</p>

However, it was noted that when substantial changes are made, the facility would consider the effect that the design, acquisition,</p>

expansion, or modification would have on the facility's ability to protect inmates from sexual abuse.

(B) Per the FMC Fort Worth PREA Compliance Manager, the FMC Fort Worth has not installed or significantly updated the video monitoring system or other monitoring technology since the last PREA audit. However, per the FMC Fort Worth Warden, in adding additions to video monitoring technology, the facility would consider how such technology may enhance the agency's ability to protect inmates from sexual abuse. As well, in adding video monitoring technology, the facility would consider inmates' right to modesty when showering, changing clothes, or otherwise being in an expected state of undress.

Reasoning & Findings Statement:

Within the audit time frame, FMC Fort Worth has not designed or acquired any substantial expansion or modification of its existing facilities. Also within the audit time frame, the FMC Fort Worth has not significantly updated its video monitoring system. During the onsite inspection, a review of all video monitoring was conducted. The FMC Fort Worth has cameras inside the facility that provide sufficient coverage throughout the institution to supplement and assist with in-person supervision and monitoring. In speaking with the FMC Fort Worth Warden, it was noted that with all staffing decisions, as well as decisions involving the use of video monitoring technology, the FMC Fort Worth Administration seeks to maximize the facility's ability to protect inmates from sexual abuse. Accordingly, the FMC Fort Worth meets all provisions of this standard.

Site Review Observations:

- Observed Medical Department and privacy screens/limitations.
- Onsite Investigative File Reviews

Standard Subsections:

(A) Agency policy (P5324.12) mandates that the Federal Bureau of Investigation (FBI) is responsible for investigating criminal allegations of sexual abuse. In this, policy asks that the FBI follow a uniform evidence protocol that maximizes the potential for obtaining usable physical evidence for administrative procedures and criminal prosecutions.

(B) As the FMC Fort Worth does not house youth, it is not necessary to utilize a developmentally appropriate youth protocol. BOP policy does, however, still require the agency to utilize the U.S. Department of Justice’s Office on Violence Against Women protocol; namely, A National Protocol for Sexual Assault Medical Forensic Examination, Adults/Adolescents as the evidence collection protocol manual (P5324.12).

(C) In accordance with agency protocol, the FMC Fort Worth does ensure that all inmates are given access to forensic medical examinations without cost (P5324.12). These exams are performed at an outside facility by qualified SAFE/SANE nursing staff. As SAFE/SANE staff are available 24 hours a day, seven days a week, the examination will always be performed by a qualified medical practitioner. The facility utilizes John Peter Smith Hospital to provide inmates with forensic exams. During the audit time frame, the FMC Fort Worth has not facilitated any (0) such examinations.

(D) The agency does attempt to make a victim’s advocate available for inmate support. In this, policy (P5324.12) requires that upon notification of an allegation of

abuse, the inmate will be provided with the opportunity to speak with a rape crisis advocate. In this, the facility has entered into an agreement with Women's Center of Fort Worth to provide qualified rape crisis advocates. If an advocate is not available from the local rape crisis center, then agency policy (P5324.12) allows the facility to provide access to a qualified staff member who has been trained as a first responder. During the audit time frame, there have not been any inmates who requested advocacy services.

(E) In accordance with policy (P5324.12), and as requested by the victim, the local rape crisis center advocate or qualified staff member may remain with the inmate through the forensic medical examination process and investigatory interviews. As requested, this person may provide emotional support, crisis intervention, information, and referrals. During the audit time frame, there weren't any (0) inmates who requested access to said victim support services.

(F) Agency policy (P5324.12) mandates that the Office of the Inspector General (OIG) and/or the FBI is responsible for investigating criminal allegations of sexual abuse. Adherence to this policy was confirmed by the FMC Fort Worth Warden. FMC Fort Worth investigative procedures do ask that the OIG/FBI utilize the U.S. Department of Justice's Office on Violence Against Women protocol; namely, A National Protocol for Sexual Assault Medical Forensic Examination, Adults/Adolescents as the evidence collection protocol manual.

(G) The auditor is not required to audit this provision.

(H) The facility has a memorandum of understanding with a local rape crisis center, Women's Center of Fort Worth that ensures that all incarcerated persons requesting advocacy services have access to qualified staff trained for that purpose. Further, as a function of the MOU, the facility requires that all persons who have contact with FMC Fort Worth inmates have been appropriately screened and trained, as well as received education concerning sexual assault and forensic examination issues in general. In speaking with facility staff, it was further noted that all rape advocacy counselors have received appropriate training specific to their role within the advocacy center.

Reasoning & Findings Statement:

This standard concerns evidence protocol and forensic medical examinations. During the audit time frame, the FMC Fort Worth has not been required to initiate the evidence protocol and forensic medical examination process. As articulated by staff, the facility is very much aware of the policies and has practices in place to address policy requirements related to forensic exams and advocacy counseling. Additionally, not only have staff received qualifying victim advocacy training for sexual assault services, but also, a MOU exists between the FMC Fort Worth and the Women's Center of Fort Worth to ensure that inmates are afforded access to a local victim's advocate. As such, the FMC Fort Worth meets the requirements of this standard.

Within the audit time frame, the FMC Fort Worth has received a total of seven (7) sexual abuse and sexual harassment allegations. All seven (7) of these investigations were reviewed during the onsite audit portion. In this, all reported allegations were completed and issued dispositions in accordance with their investigative findings.</p> <p>(B) Per the FMC Fort Worth Warden, the FMC Fort Worth refers allegations of sexual abuse and sexual harassment to the FBI and OIG, external law enforcement agencies with legal authority to conduct criminal investigations. The BOP has published this policy (P5324.12), as well as the criminal investigation process, on the agency website. All referrals to the FBI/OIG are documented by the agency.</p>

	<p>(C) In accordance with policy (P5508.02), the “Federal Bureau of Prisons (BOP) and Federal Bureau of Investigation (FBI) (have)... establish interagency operational policy guidelines...for the successful resolution of hostage situations or criminal actions which require FBI presence at BOP facilities.”</p> <p>(D) The auditor is not required to audit this provision.</p> <p>(E) The auditor is not required to audit this provision.</p> <p>Reasoning & Findings Statement:</p> <p>This standard ensures that proper referrals of allegations are made for further investigation. The BOP, and by extension, the FMC Fort Worth, does have appropriate policies in place mandating referrals in specific instances. In interviewing FMC Fort Worth investigative staff, it is clear that FMC Fort Worth staff refer all required criminal investigations to either the FBI or OIG, which are separate entities under the Department of Justice, for further processing in accordance with policy. As such, the FMC Fort Worth complies in all material ways with this standard for the relevant review period.</p>

Interviews:

- PREA Compliance Manager
- Facility Warden
- Administrative (Human Resources) Staff
- Medical Staff
- Mental Health Staff
- Random Staff
- Contractors Who May Have Contact with Inmates

Site Review Observations:

•The auditor was provided with a roster of all FMC Fort Worth staff, to include newly hired staff. During staff interviews, all persons were asked if, and when, they had received their required PREA training. Random responses were subsequently matched against the FMC Fort Worth PREA Training Completion Report to ensure the validity of said report and/or staff responses.

Standard Subsections:

(A) Policy (P5324.12) requires all employees to be fully trained on the agency's zero-tolerance policy for sexual abuse and sexual harassment. As verified by Human Resource staff, such training is initially performed as a function of the hiring process.

This Sexually Abusive

Behavior Prevention & Intervention training is a comprehensive discussion of PREA standards. A review of training curriculum for this class reflects the agency's zero-tolerance policy for sexual abuse and sexual harassment, as well as a discussion on how employees may fulfill their responsibilities under agency sexual abuse and sexual harassment prevention, detection, reporting, and response policies and procedures. Employees are also informed that inmates have a right to be free from sexual abuse and sexual harassment, to be free from retaliation for reporting said abuse and harassment, the dynamics of sexual abuse/harassment, reactions to sexual abuse/harassment, how to detect and respond to signs of threatened and actual sexual abuse, how to avoid inappropriate relationships with inmates, how to comply with relevant mandatory reporting laws specific to reporting abuse to outside authorities, and how to communicate effectively and professionally with inmates; including lesbian, gay, bisexual, transgender, intersex, or gender nonconforming inmates. In speaking with FMC Fort Worth staff, all employees were aware of these inmate rights.

(B) Training curriculum reviews demonstrate that the appropriate gender training is provided to FMC Fort Worth staff. As well, agency policy (P5324.12) requires that "the employee shall receive additional training if the employee is reassigned from a facility that houses only male inmates to a facility that houses only female inmates, or vice versa." In speaking with FMC Fort Worth Human Resource staff, appropriate gender training was verified.

(C) A review of the FMC Fort Worth PREA Training Completion Report reflects that all actively employed staff have received their initial PREA training, as well as continued

	<p>training as appropriate based on agency policy (P5324.12). Following this initial training, subsequent refresher training is provided to staff at mandatory time intervals; specifically, their annual In-Service Training, as well as during electronic quarterly training. Per the FMC Fort Worth PREA Compliance Manager and FMC Fort Worth Warden, continuing training schedules have been maintained. As well, staff interviews affirm their regular receipt of PREA training.</p> <p>(D) All training is either uniquely signed or electronically verified and documented upon completion of the BOP PREA training curriculum.</p> <p>Reasoning & Findings Statement:</p> <p>This standard relates to employee training. The agency has clearly established training expectations and well-developed training curricula. FMC Fort Worth maintains compliance with those imperatives. All training is either uniquely signed or electronically documented upon completion, with FMC Fort Worth maintaining an overall master list of all staff having completed said training. During staff interviews, all employees affirmed their having received significant training as related to the PREA standards. When asked the series of questions noted within Subsection A of this standard, all staff knew and understood their responsibilities within the agency's zero-tolerance policy. As such, FMC Fort Worth has clearly met the requirements of this provision.</p>

- Medical Staff
- Mental Health Staff
- Contractors Who May Have Contact with Inmates
- Volunteers Who May Have Contact with Inmates

Site Review Observations:

- Review of volunteer and contractor worker standard of conduct training forms.

Standard Subsections:

(A) Policy (P5324.12) requires that “The agency shall ensure that all volunteers and contractors who have contact with inmates have been trained on their responsibilities under the agency’s sexual abuse and sexual harassment prevention, detection, and response policies and procedures. The level and type of training provided to volunteers and contractors shall be based on the services they provide and level of contact they have with inmates, but all volunteers and contractors who have contact with inmates shall be notified of the agency’s zero-tolerance policy regarding sexual abuse and sexual harassment and informed how to report such incidents.” At the time of the audit, the FMC Fort Worth had forty-one (41) contractors and volunteers who could have contact with inmates. Interviews with a sample of contractors and facility volunteers verified that training had occurred prior to the initial start of their service. As facility documentation indicates, and affirmed by the FMC Fort Worth PREA Compliance Manager, 100% of these individuals have received appropriate PREA training dependent on their level of contact with inmates within the facility.

(B) As a function of required Sexually Abusive Behavior Prevention and Intervention training, all volunteers and contractors who have contact with inmates have been notified of the agency’s zero-tolerance policy regarding sexual abuse and sexual harassment and informed how to report such incidents.

(C) Volunteers and contractors are required to receive Sexually Abusive Behavior Prevention and Intervention training prior to their being able to work/volunteer within the facility. After receipt of training, contractors and volunteers sign an acknowledgment form indicating the date and that they understood the training that they had received. The FMC Fort Worth then maintains copies of all acknowledgment forms and class rosters belonging to both volunteers and contractors. Training is provided both when volunteers/contractors begin working at the facility, as well as on a yearly basis. When interviewed, contractors and the volunteer all confirmed that they had received Sexually Abusive Behavior Prevention and Intervention training prior to being allowed to work/volunteer within the facility.

Reasoning & Findings Statement:

The agency requires all volunteers and contractors to receive formal training on the agency’s zero-tolerance policy for sexual abuse and sexual harassment. In this, volunteers and contractors must be provided sufficient notice of the agency’s zero-

	<p>tolerance policy of sexual abuse and sexual harassment. As well, said persons must be informed of how to report any knowledge they may have regarding such abuse. The facility further exceeds the standards by requiring contactors and volunteers to under continuing training on an annual basis. Lastly, the standard requires that the agency maintain appropriate training records to verify that volunteers and contractors understood the training that they had received. As with employee training, the FMC Fort Worth has ensured both volunteers and contractors conducting business in the facility have received and subsequently documented their Sexually Abusive Behavior Prevention and Intervention training. In speaking with facility contractors and a volunteer, it was clear that they understood the professional boundaries between themselves and the inmates assigned to the institution. As well, documentation reflects that all contractors and volunteers have received training specific to such. As such, FMC Fort Worth has exceeded the requirements of this standard.</p>

Interviews:

- PREA Compliance Manager
- Intake Staff
- Staff Who Perform Screening for Risk of Victimization and Abusiveness
- Random Inmates

Site Review Observations:

- Observed the inmate reception area.
- Observed PREA Risk Screening Process.
- Observed PREA informational postings in Offender Housing, Education, Library, Law Library, Visitation, and other areas of high traffic.
- Observed a variety of PREA-related materials and information available for inmate use within the Library, Law Library, and computer access areas.
- Observed Inmate PREA training video.

Standard Subsections:

(A) Policy (P5324.12) requires that upon receipt into the facility, inmates shall receive information in their native language, when possible, explaining the agency's zero-tolerance policy regarding sexual abuse and sexual harassment. Inmates will also be informed of reporting mechanisms to expose incidents or suspicions of sexual abuse and harassment. As confirmed by the PREA Compliance Manager, within the audit time frame, 100% of the 1,550 inmates received at the FMC Fort Worth have been provided this information during the Intake process. During inmate interviews, most inmates confirmed that they had received initial PREA training. Documentation was reviewed to confirm training was provided for the four (4) inmates interviewed who stated that they had not received PREA training upon intake. As such, of the 32 inmates interviewed, inmate verification or facility documentation confirmed that all 32 inmates had received initial PREA training upon receipt into the facility.

(B) As noted by Intake staff, as well as observed during the Intake process, inmates are immediately provided a summary of the PREA standards upon their initial arrival to the facility. As advised by Unit Managers, inmates are subsequently provided a more comprehensive training detailing key points of the process within thirty days of Intake. In describing their Intake education, most inmates recalled receiving information in a two-part process, once at admission and again during facility orientation. Every inmate transferring into FMC Fort Worth, regardless of how long the inmate has been incarcerated within the BOP, will participate in facility orientation, including a comprehensive component on sexual abuse and sexual harassment prevention, as well as on how to report such incidents.

(C) Per policy (P5324.12), as of one year from the PREA Standards effective date, all inmates who were incarcerated within the BOP were required to receive information on the agency's Sexually Abusive Behavior Prevention and Intervention Program. All Inmates subsequently received into the BOP have been required to receive similar information during reception. Upon any transfer to another facility within the BOP, inmates are again required to receive Sexually Abusive Behavior Prevention and

Intervention information. The BOP, despite having largely consistent policies across the system, requires that a facility orientation, including a comprehension Sexually Abusive Behavior Prevention and Intervention program education, must be provided following each transfer. According to the agency's National PREA Coordinator, this ensures that each facility can reinforce its role in supporting the agency's zero tolerance policy toward all forms of sexual victimization. During orientation, each facility also provides local information, including identifying its PREA Compliance Manager.

(D) Sexually Abusive Behavior Prevention and Intervention information is provided in several alternative formats to ensure inmates with disabilities, to include those with limited English proficiency, have equal opportunity to receive, understand, and utilize the PREA process as necessary to promote the sexual safety of all inmates assigned to the BOP, and more specifically, the FMC Fort Worth. According to the Facility Warden, the FMC Fort Worth has numerous processes in place to assist disabled inmates, such as language services, sign language assistance, braille or other measures as deemed appropriate for an inmate's particular disability, to provide disabled inmates equal opportunity to participate in or benefit from all aspects of the program. For inmates who do not speak English, a contract is in place with LanguageLine Solutions to provide interpretation services. For inmates who cannot read or have limited reading skills, the information will be presented verbally. For inmates with intellectual and/or psychiatric disabilities, this information will be presented with the help of staff from Psychology if needed. For the hearing-impaired inmates, written material is available. Sexually Abusive Behavior Prevention and Intervention brochures and informational posters are routinely provided in both English and Spanish, the two most common languages spoken within the FMC Fort Worth. Both audio and written translation services are available for Inmates who don't speak English or Spanish. In short, per policy (P5324.12), and confirmed by the PREA Compliance Manager, the facility will provide reasonable accommodations to all inmates in need of ADA accommodations, both physical and cognitive, to ensure all inmates have equal opportunity to benefit from the PREA provisions. Additionally, when interviewing inmates with disabilities, each believed that the facility had made an effort to accommodate their educational needs, if any.

(E) In accordance with policy (P5324.12), and confirmed by Intake Staff, at Intake, inmates are provided with a PREA policy overview. Within thirty days of Intake, inmates are then provided with a more comprehensive facility orientation, to include PREA training. The information received is documented on the Institution Admission and Orientation Program Checklist, which is then acknowledged by signature by the inmate receiving training. As noted by the FMC Fort Worth PCM, 100% of all inmates assigned to the facility for 30 days or more have received a comprehensive facility orientation.

(F) Inmates are provided copies of the FMC Fort Worth Inmate Handbook (available in English and Spanish) upon receipt into the facility. This material, as well as a wealth of other PREA-related information, is continuously available within the facility's Law Library. It is also continuously available via computer access portals, which are located on each inmate housing area. Throughout the facility, as well as posted near

	<p>all inmate phones, PREA informational posters are displayed in both English and Spanish. There are also posters providing the names and contact information for national and local rape crisis centers that provide reference information and recovery support services to inmates.</p> <p>Reasoning & Findings Statement:</p> <p>This standard works to ensure that inmates are cognizant of the agency's zero-tolerance policy toward sexual abuse and sexual harassment, as well as have subsequent access to, and can effectively utilize, the Sexually Abusive Behavior Prevention and Intervention reporting mechanism. In speaking with inmates assigned to the FMC Fort Worth, all inmates stated that they were aware of the Sexually Abusive Behavior Prevention and Intervention program, as well as its purpose within the facility. While inmates were collectively aware of the policy and their rights to varying degrees, all inmates interviewed were specifically aware of at least one, but generally more, methods by which they could report allegations of sexual abuse or sexual harassment. Accordingly, the FMC Fort Worth has exceeded its compliance with the standards related to this provision.</p>

(A) Per policy (P5324.12), all investigators must receive specialized training in excess of the generalized sexual abuse and sexual harassment training provided to other staff. Among other classes, investigators participate in training which shall include, but not limited to, conducting investigations in confinement settings. In speaking with investigative staff, these staff confirmed participation in numerous related courses. Additionally, training curricula and employee training certifications provided additional documentation to support facility compliance.

(B) Per policy (P5324.12), all investigators must receive specialized training in excess of the generalized sexual abuse and sexual harassment training provided to other staff. Among other classes, investigators participate in training which shall include, but not limited to, interviewing techniques for sexual abuse victims, proper use of Garrity warnings, sexual abuse evidence collection and the criteria and evidence required to substantiate a case for administrative action or prosecution referral. In speaking with investigative staff, said staff confirmed participation in numerous related courses. Additionally, training curricula and employee training certifications provided additional documentation to support facility compliance.

(C) The facility maintains documentation that investigators have completed the required specialized training related to sexual abuse investigations. Specifically, Policy P5324.12, requires that the “specialized training shall include techniques for interviewing sexual abuse victims, proper use of Miranda and Garrity warnings, sexual abuse evidence collection in confinement settings, and the criteria and evidence required to substantiate a case for administrative action or prosecution referral.” A review of facility training rosters confirms that such documentation is maintained within agency files for all investigators currently utilized within the FMC Fort Worth.

(D) The auditor is not required to audit this provision.

Reasoning & Findings Statement:

This standard works to ensure that persons investigating allegations of sexual abuse and sexual harassment have been sufficiently trained in related procedural and due process requirements necessary for both administrative prison hearings and for federal or state judiciary proceedings. The BOP investigative staff are required to attend both general PREA training, as well as PREA training specific to conducting investigations of sexual victimization in a confinement setting. FMC Fort Worth investigative staff affirmed receipt of sufficient training necessary to confidently conduct sexual abuse investigations in a confinement setting. Documentation verified

	<p>that FMC Fort Worth investigative staff do receive specialized training, as well as the generalized training provided to all staff. As such, the FMC Fort Worth meets the requirements of this standard.</p>

Site Review Observations:

- Observed Risk Screening process.
- Reviewed inmate files.

Standard Subsections:

(A) Policy (P5324.12) requires that all inmates shall be assessed for risk of sexual victimization or abusiveness upon arrival of intake and upon transfer to another institution. The FMC Fort Worth Intake and Medical staff affirm the facility's adherence to agency policy. Specifically, all inmates received into the facility are screened for sexual victimization and/or sexually abusive risk factors on the same day that the inmates are received into the facility. The auditor observed the intake process, during which, a risk screening was conducted using the appropriate screening tool.

(B) Policy (P5324.12) requires that the screenings will be completed "within 72 hours of the inmate's arrival at the facility." In speaking with FMC Fort Worth Intake and Medical staff, it was noted that said screenings take place immediately upon each inmate's arrival to the facility. Per the PREA Compliance Manager, within the audit time frame, of the 1,516 inmates entering the facility (either through intake or transfer) who length of stay was 72 hours or more, 100% were subsequently provided risk screening assessments for their risk of being sexually victimized or for being a sexual abuser.

(C) The risk screening assessment is conducted using an objective screening

instrument. A review of the survey questions provided to inmates does not present with either an implicit bias or leading statements. The PREA assessment process does not contain value statements, bias language, or implied negative consequences for affirmative answers to any of the questions asked. Rather, it is a strictly utilitarian form that was administered in a nonjudgmental manner during the mock demonstration. The answers to this questionnaire then determine both an inmate's risk of sexual victimization, as well as an inmate's risk of sexual abusiveness.

(D) The PREA assessment process does consider, at a minimum, if the inmate has a mental, physical, or developmental disability. It considers the age of the inmate, the inmate's physical build, whether the inmate has previously been incarcerated, whether the inmate's criminal history is exclusively nonviolent, whether the inmate has prior convictions for sex offenses against an adult or child, whether the inmate has previously experienced sexual victimization, the inmate's own perception of vulnerability, and whether the inmate is or is perceived to be gay, lesbian, bisexual, transgender, intersex, or gender nonconforming. Inmates are explicitly asked if they are or if they are perceived to be gay, lesbian, bisexual, transgender, intersex, or gender nonconforming/gender nonbinary. The risk screener is allowed to enter his/her subjective perception of the inmate's gender expression. During inmate interviews, most inmates stated that they had been asked the aforementioned questions upon their receipt into the FMC Fort Worth. A subsequent review of risk screening records for all inmates stating that they had not been asked the aforementioned PREA risk screening questions reflected that said risk screenings were, in fact, generally conducted within 72 hours of their admittance into the facility.

(E) In assessing inmates for their risk of being sexually abusive, the PREA Intake Objective Screening Instrument does consider prior acts of sexual abuse, prior convictions for violent offenses, and the history of prior institutional violence or sexual abuse. Along with observing a mock risk screening demonstration, the auditor also reviewed several PREA Intake Objective Screening Instrument completed within the auditing time frame. All forms were filled out in their entirety, with inmates having generally provided relevant answers to each of the questions asked. It should further be noted that Intake and Medical staff both confirmed that inmates may refuse to answer any question on the survey or may refuse participation in the entire survey process without the threat of negative consequences.

(F) Policy (P5324.12) requires that "within a FTW time period, not to exceed 30 days from the inmate's arrival at the facility, the facility will reassess the inmate's risk of victimization or abusiveness based upon any additional, relevant information received by the facility since the intake screening." Per the facility PREA Compliance Manager, within the audit time frame, 100% of the 1,372 inmates with a length of stay in the facility for 30 days or more, were reassessed for their risk of sexual victimization or of being sexually abusive within 30 days after their arrival to the FMC Fort Worth. In speaking with FMC Fort Worth Unit Management staff, their adherence to this policy was confirmed. Additionally, a review of documentation specific to said assessments confirmed both initial and subsequent assessments were provided within the required time frames.

(G) Policy (P5324.12) allows that employees may make a mental health referral based on their observations of the inmate's behavior or at the inmate's request, which include referrals based on concerns the inmate has been or is at high risk of being subject to sexual misconduct. Both the FMC Fort Worth PREA Compliance Manager and staff who perform screening for risk of victimization and abusiveness confirm reassessments are conducted as required and that any staff member may refer an inmate for a risk screening reassessment. As well, in discussing reassessment processes with inmates, most inmates believed that the facility did take the PREA assessments and their responsibilities regarding PREA seriously. As well, most inmates believed that staff would address their needs in a timely manner. All inmates interviewed stated that they currently felt safe from fear of sexual assault.

(H) Policy (P5324.12) expressly prohibits disciplinary sanctions against any inmate who refuses to answer or fails to provide complete and/or accurate answers to any of the questions noted on the PREA Intake Objective Screening Instrument. When interviewed, Intake, Medical, and facility Unit Managers affirmed that disciplinary sanctions were not imposed against inmates for refusing or failing to answer any of the questions on the PREA Intake Objective Screening Instrument or subsequent risk screening assessments. Additionally, all inmate interviews confirmed that said population was aware of their right not to answer related questions and to be free from disciplinary consequences in the event of any such refusal.

(I) Policy (P5324.12) requires that the information presented on PREA Intake Objective Screening Instrument and subsequent screening processes is considered sensitive information. Accordingly, policy (P5324.12) notes that "sensitive information is limited to staff who have a need to know." Policy further requires, as well as reinforced by the electronic credential requirements necessary to gain access to the PREA Intake Objective Screening Instrument and subsequent screening processes, that facility staff must restrict the spread of information obtained as a function of the PREA Intake Objective Screening Instrument to only those designated staff members with an operational need for said information in order to inform classification, housing and work assignments, programmatic and non-programmatic activities, or other relevant institutional activities. The FMC Fort Worth PREA Compliance Manager, Unit Managers, and other operational staff associated with the screening process affirmed the information obtained by way of said documents was considered restricted, and as such, was not distributed to unauthorized staff. Lastly, the auditor observed that completed PREA Intake Objective Screening Instruments did require authorized credentials to access said documents within the BOP electronic data base.

Reasoning & Findings Statement:

This standard works to ensure inmates are properly screened for their risks of sexual victimization and abusiveness. Agency policy provides for an objective PREA Intake Objective Screening Instrument, which is administered and scored at the facility level as a simple fact assessment. Inmates are reassessed as required by policy, to include if new information is discovered by facility staff that might warrant changes in inmates' risk status. Interviews with facility screening staff, as well as with inmates, confirm that the proper screening tool is being utilized at the FMC Fort Worth. As well, the information gleaned from this form is appropriately used to inform classification,

	<p>programming, housing, work, and other facility-based activities. Staff charged with administering PREA Intake Objective Screening Instruments, as well as subsequent screening processes, affirm the restricted nature of the information and their adherence to the facility's limited distribution list. As such, the FMC Fort Worth has satisfied the requirements of this standard and is found to meet its expectations.</p>

- Disabled Inmates
- Limited English Proficient Inmates

Site Review Observations:

- Observed a mock PREA screening demonstration.
- Reviewed inmate files.
- Observed inmate housing and work assignments.

Standard Subsections:

(A) Policy (P5324.12) requires that the agency use information from the PREA Intake Objective Screening Instrument to help separate inmates with a high risk of being sexually victimized from those inmates with a high risk of being sexually abusive. As such, the information gleaned from the PREA Intake Objective Screening Instrument is used to inform inmate housing, bed, work, education, and program assignments. In speaking with Intake and Medical staff, as well as FMC Fort Worth Unit Managers, once an inmate is deemed as a possible high risk for sexual victimization, staff will ensure that the inmate at risk is not housed in a vulnerable location with respect to other inmates who are assessed at a high risk to sexually abuse other inmates. The inmate will also be referred to medical/mental health staff for further review. Facility documentation reflects the use of screening instruments, as well as the application of the information that they provide, is an institutionalized process.

(B) Policy (P5324.12) requires that the facility makes individualized determinations about how to ensure the safety of each inmate. In speaking with the Fort Worth PREA Compliance Manager, Unit Management Staff, and the Fort Worth Warden, staff affirmed that the concerns for every inmate are reviewed on an individual basis. These reviews occur as needed, but at a minimum of a weekly basis. In speaking with inmates currently assigned to the FMC Fort Worth, most stated that their own opinions regarding their personal safety are considered by FMC Fort Worth staff when providing housing or job assignments. Most inmates further stated that if their concerns for their own safety changed, many believed that FMC Fort Worth staff would take their concerns seriously.

(C) In deciding whether to assign a transgender or intersex offender to a facility for male or female Inmates, agency policy (P5324.12) requires that administrators consider, on a case-by-case basis, whether such a placement would ensure the offender's health and safety and whether such a placement would present management or security problems. In deciding whether to assign a transgender or intersex offender to a specific housing or program assignment, agency policy (P5324.12) dictates that administrators consider, on a case-by-case basis, whether such a placement would ensure the offender's health and safety and whether such a placement would present management or security problems. In speaking with the PREA Coordinator, the FMC Fort Worth PREA Compliance Manager, and the FMC Fort Worth Warden, staff affirmed that an inmate's genital status is not the sole determining factor in placing transgender or intersex inmates in male or female facilities, or in placing said inmates within specific housing or program assignments within a facility.

(D) Agency policy (P5324.12) requires that the placement and programming assignments of transgender or intersex inmates are reviewed at least twice every year to examine any possible safety concerns expressed by the inmate. When interviewed, FMC Fort Worth Unit Managers did affirm the facility's compliance with this policy. Documentation further reflects this compliance. As well, along with routine informal safety checks by the FMC Fort Worth PREA Compliance Manager, mental health staff, and housing staff, all transgender inmates interviewed confirmed that their living, work, and other environmental concerns for their sexual safety were formally reviewed at least twice a year.

(E) Agency policy (P5324.12) requires that upon the routine review of the placement and programming assignments of transgender or intersex inmates, the transgender or intersex inmate's own view with respect to his or her own safety shall be given serious consideration. When interviewed, FMC Fort Worth staff and the FMC Fort Worth PREA Compliance Manager affirmed that the facility adheres to this policy. Additionally, during random and targeted interviews with inmates, most stated that they believed FMC Fort Worth staff would consider their own views with respect to their own safety.

(F) Policy (P5324.12) allows for transgender and intersex inmates to be given the opportunity to shower separately from other inmates. This is done to ensure transgender inmates are provided privacy in showering. At FMC Fort Worth, all showers are single person with privacy barriers.

(G) The FMC Fort Worth is not subject to consent decrees, legal Settlements, or legal judgments requiring this facility to be established as a dedicated facility or housing unit for lesbian, gay, bisexual, transgender, or intersex inmates. As such, policy (P5324.12) expressly states that "the agency shall not place lesbian, gay, bisexual, transgender, or intersex inmates in dedicated facilities, units, or wings solely on the basis of such identification or status, unless such placement is in a dedicated facility, unit, or wing established in connection with a consent decree, legal Settlement, or legal judgment for the purpose of protecting such inmates." In speaking with the PREA Coordinator, the Fort Worth PREA Compliance Manager, and the Fort Worth Warden, staff adamantly affirm that inmates who identify as transgender or intersex are not placed in a facility, or within a housing assignment, based solely on their sexual or gender identity. Interviews with transgender inmates assigned to the FMC Fort Worth reflect that they have not been housed in an area designed exclusively for transgender or intersex inmates. As well, during interviews with gay, lesbian, and bisexual inmates, none stated that they had ever been housed in a facility, or in a specific housing unit within the FMC Fort Worth, based solely on their gender identity or sexual orientation. Lastly, of the random staff interviewed, all such staff affirmed that the FMC Fort Worth does not house transgender, intersex, gay, or bisexual inmates in any specific areas based solely on their gender identity or sexual orientation.

Reasoning & Findings Statement:

This standard works to ensure the adequate use of screening information to promote and protect inmates who may be at high risk of being sexually victimized. The BOP

	<p>has numerous policies in place to ensure the most effective and secure use of the PREA Intake Objective Screening Instrument. Inmates deemed to be at high risk are routinely monitored by the FMC Fort Worth PREA Compliance Manager, Unit Managers, as well as Medical and Mental Health staff, to ensure their sexual safety. Agency policies require staff to make individualized determinations on a case-by-case basis regarding inmate safety. Interviews with the agency PREA Coordinator and the FMC Fort Worth PREA Compliance Manager reflect that facility staff have discretion in managing the safety of individual inmates. The FMC Fort Worth PREA Compliance Manager, as well as all other FMC Fort Worth staff, affirm their adherence to agency policies and also confirm that the inmates' views regarding their own safety are given serious consideration specific to facility operations. Staff affirm that transgender and intersex inmates are permitted the ability to shower separately from other inmates. Transgender inmates are provided consideration in requesting the gender of staff that will conduct physical searches of their person. Additionally, transgender inmates are reviewed twice a year specific to their placement and programming assignments. As such, agency policy meets, and FMC Fort Worth adheres to, the requirements of this standard.</p>

•Observed Special Housing Unit

Standard Subsections:

(A) Policy (P5324.12) mandates that agency staff shall refrain from placing inmates at high risk for sexual victimization in “involuntary segregated housing unless an assessment of all available alternatives has been made, and a determination has been made that there is no available alternative means of separation from likely abusers. If a facility cannot conduct such an assessment immediately, the facility may hold the inmate in involuntary segregated housing for less than 24 hours while completing the assessment.” In speaking with the FMC Fort Worth PREA Compliance Manager and the FMC Fort Worth Warden, staff confirm that there have not been any (0) inmates placed in involuntary segregated housing; namely, the Special Housing Unit (SHU), for risk of sexual victimization during the audit time frame. As well, inmate interviews did not suggest that FMC Fort Worth utilizes any form of restrictive housing for inmates at risk of victimization who present sexual abuse or sexual harassment allegations to staff. As such, there were no relevant documents to review.

(B) Policy (P5324.12) allows that, if necessary, “inmates placed in segregated housing for this purpose shall have access to programs, privileges, education, and work opportunities to the extent possible.” To this effect, if inmates are involuntary segregated, efforts should be made to ensure these inmates receive similar access to programmatic activities, privileges, educational activities, and work opportunities as Inmates assigned to the general population. If the facility restricts access to programs, privileges, education, or work opportunities, the facility shall document which activities were restricted. Specifically, staff must document the opportunities that have been limited, the duration of the limit, and the reasons for said limitation. In speaking with the FMC Fort Worth PREA Compliance Manager, the FMC Fort Worth Warden, and FMC Fort Worth SHU supervisory staff, all such staff confirm that there have not been any (0) inmates placed in the Special Housing Units for risk of sexual victimization during the audit time frame. Additionally, no inmates stated that they had been placed in such housing for risk of victimization at any point within their tenure at the FMC Fort Worth. As such, there wasn’t any relevant documentation to review.

(C) Policy (P5324.12) mandates that placement in the Special Housing Unit for those inmates at a high risk of sexual victimization shall only be used until an alternative means of separation from likely abusers can be arranged, but ordinarily not more than 30 days. In speaking with the FMC Fort Worth PREA Compliance Manager, the FMC Fort Worth Warden, and FMC Fort Worth SHU supervisory staff, said staff confirmed that there have not been any (0) inmates placed in the Special Housing Unit for risk of sexual victimization during the audit time frame. Additionally, no inmates stated that they had been placed in such housing for risk of sexual victimization at any point within their tenure at the FMC Fort Worth. As such, there wasn’t any relevant documentation to review.

(D) Policy (P5324.12) requires that upon placement of an inmate into the Special Housing Unit, the facility must clearly document the basis of concern for the

offender's safety. Additionally, the facility must document whether a determination has been made that there is no available alternative means of separation from the likely abusers. In speaking with the FMC Fort Worth PREA Compliance Manager, the FMC Fort Worth Warden, and FMC Fort Worth SHU supervisory staff, said staff confirmed that there have not been any (0) inmates placed in the Special Housing Unit for risk of sexual victimization during the audit time frame. Additionally, there weren't any (0) inmates who stated that they had been placed in such housing for risk of sexual victimization. As such, there wasn't any relevant documentation to review.

(E) Policy (P5324.12) requires that an inmate placed in the Special Housing Unit due to being a high risk of sexual victimization shall have this status reviewed at least every 30 days thereafter. In speaking with the FMC Fort Worth PREA Compliance Manager, the FMC Fort Worth Warden, and FMC Fort Worth SHU staff, staff confirmed both their knowledge of this policy and the fact that there have not been any inmates placed in the Special Housing Unit for risk of sexual victimization during the audit time frame. Additionally, there weren't any (0) inmates who stated that they had been placed in such housing for risk of sexual victimization. As such, there wasn't any relevant documentation to review.

Reasoning & Findings Statement:

This standard works to ensure that the use of involuntary protective custody is not a de facto management solution for inmate safety concerns. Agency policy explicitly mandates that staff refrain from placing inmates at high risk for sexual victimization in the Special Housing Unit unless an assessment of all available alternatives has been made and there are no other available means of separation from likely abusers. In speaking with the FMC Fort Worth PREA Compliance Manager, the FMC Fort Worth Warden, and FMC Fort Worth SHU supervisory staff, all confirmed that there have not been any inmates placed in the Special Housing Unit for risk of sexual victimization during the audit time frame. Additionally, no inmates stated that they had been placed in such housing for risk of sexual victimization. As such, there wasn't any relevant documentation to review. In speaking with correctional staff routinely assigned to work within the Special Housing Unit, said staff confirmed that if inmates were to be assigned to the Special Housing Unit for high risk of sexual victimization, they would be afforded, as much as possible, similar activities as the inmates within general population. However, to the best of their knowledge, there have not been any (0) such inmates assigned to such housing within the audit time frame. The FMC Fort Worth has satisfied all component parts of this standard and is found to have met its provisions.

Site Review Observations:

- Reviewed documentation related to inmate reports of sexual abuse and sexual harassment.
- Observed informational posters throughout the facility advising inmates of various reporting mechanisms for allegations of sexual abuse and sexual harassment.
- Observed numerous PREA educational and reporting references available for inmate use within the facility Law Library.
- Observed mock demonstration of PREA risk screening.

Standard Subsections:

(A) The agency provides multiple internal ways for inmates to privately report sexual abuse and sexual harassment, as well as neglect or violations of staff responsibilities that may have contributed to such incidents. Additionally, the agency provides numerous avenues by which inmates may report any subsequent retaliatory measures experienced by inmates as a result of having reported said abuse. Upon receipt onto the facility, all inmates are provided a PREA risk assessment screening, via the PREA Intake Objective Screening Instrument, and advised of their right to be free of sexual abuse and sexual harassment under the PREA standards. Inmates are subsequently given a more comprehensive inmate orientation within 30 days of their receipt into the facility. This orientation includes detailed training on the BOP PREA program. This training includes information on, and contact information for, internal and external reporting agencies. Inmates are also provided with a FMC Fort Worth Inmate Orientation Handbook, which contains contact information for internal and external reporting agencies, as well as national and local victim services organizations. As well, one of the many ways that inmates can make claims of sexual abuse and sexual harassment is through the agency's email system. There are multiple computer access portals available for inmate use within every housing area. In interviewing staff, all employees were aware of an inmate's right to report allegations of sexual abuse and sexual harassment and to be free from measures of retaliation for having reported said abuse. In interviewing inmates, all inmates were equally aware of their right to report allegations of sexual abuse and sexual harassment and to be free from measures of retaliation for having reported said abuse. During random and targeted interviews, all inmates were able to articulate at least one manner by which a report could be made.

(B) As noted in policy (P5324.12), the facility also provides multiple avenues and contact information for inmates to report sexual abuse or sexual harassment to a public or private entity or office that is not part of the agency. Inmates are provided the phone numbers to the Operation Support Center and an Outside Agency Reporting Hot Line, with calls to both agencies being anonymous and without cost to the inmate. Inmates are provided the address to the primary reporting entity, the Office of the Inspector General, which can receive and immediately forward offender reports to agency officials for their investigation. Upon an inmate's request, the Office of the Inspector General will allow an inmate to remain anonymous. If an inmate is being detained solely for civil immigration purposes, relevant contact information for consulars is available in the FMC Fort Worth facility Law Library.

(C) Per policy (P5324.12), staff accept all reports of sexual abuse and sexual harassment made verbally, in writing, anonymously, and from third parties. All employees interviewed stated that they would act on any report of sexual abuse or sexual harassment regardless of how they became aware of that information. In doing so, all staff stated that they would immediately document such reports as soon as possible following the allegations being presented to them. All inmates interviewed affirmed their right to make either verbal or written reports of sexual abuse and sexual harassment. Most inmates were also aware that they could make reports of sexual abuse and sexual harassment via third party or anonymously. The majority of inmates interviewed stated that they believed FMC Fort Worth staff would take

complaints of sexual safety seriously and act accordingly to address their concerns.

(D) Per policy (P5324.12), staff have an affirmative duty to report any knowledge, suspicion, or information they may have regarding sexual abuse, sexual harassment, or retaliation against inmates or staff for having reported such abuse. Nonetheless, per policy (P5324.12) staff may privately report sexual misconduct by contacting “any supervisory staff at the local institution, regional staff, or Central Office staff, including the Central Office Management Analyst and the National PREA Coordinator. Allegations involving staff members may also be reported to the Office of Internal Affairs or the Office of the Inspector General, as appropriate.” When asked, staff were generally aware that they could make anonymous reports of sexual abuse and sexual harassment and could provide at least one manner by which to do so.

Reasoning & Findings Statement:

This standard works to ensure inmates, staff, and outside agents have the ability to report all instances of sexual abuse and sexual harassment against inmates. The agency does have multiple avenues by which inmates may make formal reports, to include verbal, written, anonymous, and third-party reports. Inmates are provided detailed instructions, contact persons, phone numbers, email addresses, and physical addresses for correspondence where incidents or suspicions of sexual abuse, sexual harassment, and retaliation may be reported. Additionally, while inmates are not encouraged to utilize rape counseling support service centers as reporting avenues, these centers will serve in this capacity if explicitly requested by the inmate. With this in mind, the auditor solicited inmate contact information from Just Detention International, a national resource center that can provide referrals to local rape crisis centers, along with local rape crisis center services from Women’s Center of Fort Worth. Just Detention International stated that it had not received any correspondence from persons confined within the FMC Fort Worth. Women’s Center of Fort Worth indicated that staff have not experienced any undue restrictions in their ability to access incarcerated individuals. In interviewing correctional staff, all such persons were aware that inmates could report allegations of sexual abuse and sexual harassment verbally, in writing, anonymously, and through a third party. When receiving verbal reports of sexual abuse and sexual harassment, all staff recognized the need to take immediate action to protect the inmate in question and the need to document the verbal complaint as soon as possible. In speaking with inmates, all persons were aware of their right to be free from sexual abuse and sexual harassment, as well as their right not to suffer retaliation for having reported such abuse. All incarcerated persons understood their right to make verbal and written complaints. The majority of inmates understood their right to make anonymous and third-party complaints. As such, it is evident that the FMC Fort Worth meets all aspects of this standard.

Site Review Observations:

- Reviewed receipt process for inmate grievances received by Institutional Investigator.

Standard Subsections:

(A) The BOP does have administrative procedures to address grievances submitted by incarcerated persons regarding sexual abuse.

(B) Policy (P5324.12, P1330.18) permits inmates to submit grievances regarding allegations of sexual abuse and sexual harassment. Inmates are not mandated to file these administrative remedies within a required time frame. Additionally, inmates do not need to first seek an informal resolution to their concerns prior to filing for an administrative remedy.

(C) Policy (P5324.12, P1330.18) permits inmates to submit grievances regarding allegations of sexual abuse and sexual harassment directly to the Regional Director. Inmates are not required to first seek an informal resolution to their concerns prior to filing and administrative remedy. Also, once filed, complaints are processed by the institutional investigator, not the person with whom the complaint is against.

(D) Policy (P5324.12, P1330.18) requires the BOP to "issue a final agency decision on

the merits of any portion of a grievance alleging sexual abuse within 90 days of the initial filing of the grievance. The agency may claim an extension of time to respond, of up to 70 days, if the normal time period for response is insufficient to make an appropriate decision. At any level of the administrative process, including the final level, if the inmate does not receive a response within the time allotted for reply, including any properly noticed extension, the inmate may consider the absence of a response to be a denial at that level.” Per the PREA Compliance Manager, the facility did not receive any (0) grievances alleging sexual abuse within the audit time frame. As such, there wasn’t any documentation to review.

(E) Policy (P5324.12, P1330.18) allows for “third parties, including fellow inmates, staff members, family members, attorneys, and outside advocates, shall be permitted to assist inmates in filing requests for administrative remedies relating to allegations of sexual abuse, and shall also be permitted to file such requests on behalf of inmates... If the inmate declines to have the request processed on his or her behalf, the agency shall document the inmate’s decision.”

(F) Policy (P5324.12, P1330.18) requires that should the agency receiving “an emergency grievance alleging an inmate is subject to a substantial risk of imminent sexual abuse, the agency shall immediately forward the grievance to a level of review at which immediate corrective action may be taken, shall provide an initial response within 48 hours, and shall issue a final agency decision within five calendar days. The initial response and final agency decision shall document the agency’s determination whether the inmate is in substantial risk of imminent sexual abuse and the action taken in response to the emergency grievance.” Per the PREA Compliance Manager, during the audit time frame, the FTW did not receive any (0) emergency grievances alleging substantial risk of imminent sexual abuse.

(G) Policy (P5324.12, P1330.18) allows that “the agency may discipline an inmate for filing a grievance related to alleged sexual abuse only where the agency demonstrates that the inmate filed the grievance in bad faith.”

Reasoning & Findings Statement:

This standard works to ensure inmate access to courts by way of exhausting administrative remedies specific to allegations of sexual abuse and sexual harassment. Policy (P1330.18) permits inmates to submit grievances alleging sexual abuse and sexual harassment. Once filed, the agency must respond to the inmate’s allegations in a timely manner. Failure to provide a timely response can be construed as a denial at that level. Inmates may then pursue their concerns to the next level. Unless the agency can prove that the inmate filed his administrative remedy in bad faith, disciplinary sanctions cannot be applied against the inmate for having filed allegations of sexual abuse or sexual harassment. During the audit time frame, the FMC Fort Worth did not receive any (0) grievances concerning sexual abuse. Nonetheless, agency policy, staff interviews, and procedural demonstrations of processing methodology if grievances were to be received demonstrates facility compliance with this standard.

- Reviewed PREA Risk Screening assessment and distributed information upon FMC Fort Worth reception
- Observed informational posters throughout the facility advising inmates of various reporting mechanisms for allegations of sexual abuse and sexual harassment
- Observed numerous PREA educational and reporting references available for inmate use within the facility Law Library

- Observed informational posters within inmate general visitation and legal visit areas

Standard Subsections:

(A) Policy (P5324.12) requires the facility to provide inmates with the mailing address and telephone numbers of outside victim advocates. The FMC Fort Worth Inmate Handbook provides a wealth of contact information for reporting sexual abuse and sexual harassment. Via institutional awareness posters, inmates are also provided the physical address to write for confidential emotional support services. As well, the Law Library contains a listing of contact information. Per policy (P5324.12) the agency does provide toll-free telephone calls to a rape crisis hotline. Policy (P5324.12) also allows that communication between inmates and advocates within rape crisis centers is as confidential as possible. The BOP does not detain inmates solely for civil immigration purposes. However, information on how to contact relevant consular officials is available in the facility's Law Library. When interviewed, most inmates knew that the agency provided free rape crisis support services to inmates, more commonly referred to across the inmate population as the "PREA Hotline." Additionally, all inmates were aware of at least one means by which they could contact rape crisis support services, with most inmates knowing that they could access those services by way of the information provided on the PREA informational posters located throughout the facility.

(B) Per policy (P5324.12) inmates are notified that their calls to the national hotline number (Rape, Abuse & Incest National Network), as well as to any local rape crisis centers, only rise to the level of confidential. As such, these calls are subject to staff monitoring.

(C) The FMC Fort Worth has negotiated a signed contract between itself and Women's Center of Fort Worth to help provide locally based rape crisis support services as requested by inmates assigned to the FMC Fort Worth.

Reasoning & Findings Statement:

This policy works to ensure that inmates assigned to the FMC Fort Worth have access to outside confidential rape crisis support services and that access is provided in the most confidential manner as possible. Inmates assigned to the FMC Fort Worth are provided a list of resources to contact regarding sexual abuse and rape crisis support services. This list contains a local rape crisis center and contact information for related services. The facility has a MOU in place with the local rape advocacy service; namely, Women's Center of Fort Worth. Inmates are advised that calls to rape crisis centers are subject to monitoring. When interviewed, all employees and inmates knew that the agency provided free emotional support services to inmates upon request. As such, the FMC Fort Worth has exceeded the minimum standards of this provision.

Site Review Observations:

- Review BOP website specific to PREA and third-party reporting methods
- Tested BOP online third-party reporting system
- Observed the Offender Visitation Area informational posters
- Observed informational postings and other publications throughout the offender housing areas
- Observed PREA reporting information within the Law Library

Standard Subsections:

(A) Policy (P5324.12) allows for the use of third-party reporting on allegations of sexual abuse and sexual harassment. During the onsite review, signage throughout

the facility encouraged inmates to third-party report as needed. As well, public notices on PREA reporting, specifically third-party reporting, were available for review by offender family and friends via the facility's Inmate Visitation Room. Additionally, public notice on third-party PREA reporting is available to the general public on the agency's website. To verify the online third-party reporting system was operational, the auditor submitted a test email to the agency's online reporting address. An automated receipt response was received at the time of submission. Agency personnel did respond to the online submission confirming receipt of the system test email. During onsite interviews, all staff confirmed that the FMC Fort Worth would accept third-party reports of sexual abuse. As well, most inmates interviewed believed that the facility would accept, and take seriously, any allegations of sexual abuse reported by a third party to the FMC Fort Worth Administration.

Reasoning & Findings Statement:

This standard works to ensure a publicly available third-party reporting mechanism exists for claims of sexual abuse and sexual harassment. In accordance with policy (P5324.12), the FMC Fort Worth promotes the use of third-party reporting via informational posters displayed throughout the facility, to include the Inmate Visitation Area. Electronic contact information is freely distributed on the agency's website to allow the general public direct access to reporting information. To ensure the functionality of the BOP site, all electronic links were tested and found to be operating as required. To ensure the functionality of the BOP online third-party reporting system, a test submission was successfully sent. PREA informational posters and the inmate PREA training video also provide inmates with a plethora of agency telephone numbers, physical addresses, and electronic contact methods. During facility orientation, inmates are provided detailed instructions, contact persons, phone numbers, email addresses, and physical addresses for correspondence where incidents or suspicions of sexual abuse, sexual harassment, and retaliation may be reported. Additionally, inmates can access the agency's internal website to utilize the web reporting system. Inmates can subsequently communicate this reference information to their family, friends, and personal advocates. Inmates are also provided numerous state and advocacy addresses to submit third-party correspondence. While inmates are not encouraged to utilize rape counseling support service centers as reporting avenues, these centers will serve in this capacity if explicitly requested by the inmate. The FMC Fort Worth does have a MOU in place with the local rape advocacy service; namely, Women's Center of Fort Worth. Inmates are advised that calls to rape crisis centers, when available, are subject to monitoring. Lastly, inmates may also file a third-party complaint via any staff member or other PREA reporting mechanisms. When interviewed, all staff were aware that the facility would accept and investigate third-party complaints of sexual abuse and sexual harassment from inmate advocates. Most inmates were also aware of their right to file a third-party complaint on behalf of another inmate. The concept of third-party reporting is clearly institutionalized across staff and inmate cultures. As such, the FMC Fort Worth has met the requirements of this standard.

Staff also have an affirmative duty to report any negligence or violation of responsibilities that may have contributed to an incident of sexual abuse, sexual harassment, or retaliation. A review of employee training records, as well as training curriculum records, reflects that all FMC Fort Worth staff have all received initial PREA training, including acknowledgment of their affirmative duty responsibilities. When interviewed, all staff confirmed their obligation to immediately report any information they might have regarding allegations of sexual abuse and sexual harassment.</p> <p data-bbox="256 1812 1469 2092">(B) Policy (P5324.12) advises all staff that any information related to sexual victimization or abusiveness that occurred in an institutional setting shall be strictly limited to medical and Mental health practitioners and other staff, as necessary, to inform treatment plans and security and management decision. Staff are cautioned to disseminate information related to sexual abuse reports only on a need-to-know basis and only to the extent necessary. Random staff interviews confirm that facility employees are aware of the sensitive and confidential nature of said complaints. In</p>

speaking with the FMC Fort Worth PREA Compliance Manager, as well as FMC Fort Worth institutional investigators, the totality and reasoning surrounding the confidential investigatory process was clearly explained.

(C) Policy (P5324.12) requires that medical and mental health practitioners have a duty to disclose their mandatory reporting status, including limitations of confidentiality. During medical/mental health services staff interviews, the need for medical staff to inform inmates (at the initiation of professional services) of their duty to report, as well as to their limitations of confidentiality, was affirmed. Additionally, medical/mental health staff noted their policy to have inmates acknowledge their understanding of policy via a signed informed consent Statement.

(D) All inmates incarcerated within the FMC Fort Worth are legally classified as adults. As such, there aren't any juveniles assigned to this facility. However, per policy (P5324.12), the facility may still have persons classified as vulnerable adults. In accordance with the National Adult Protective Services Association, a vulnerable adult is a person who has been identified as being elderly or having an intellectual and/or developmental disability. If an inmate is considered a vulnerable adult, per policy (P5324.12), allegations of prior sexual victimization must be forwarded to the appropriate "state or local services agency under applicable mandatory reporting laws."

(E) Policy (P5324.12) mandates that all allegations of sexual abuse and sexual harassment, including third-party and anonymous reports, are referred by the "Institution PREA Compliance Manager... to the appropriate office, and reviews the incident for any further response." When interviewing random facility staff, all employees affirmatively responded that any reports of sexual abuse and sexual harassment received by them would be immediately referred to supervisory and/or other entities appropriate for further investigations.

Reasoning & Findings Statement:

This standard works to ensure mandatory staff and agency reporting requirements. Both agency and facility policies mandate the duty of staff to report all allegations of sexual abuse and sexual harassment. Policy further stresses the importance of confidentiality as it applies to reported incidents of sexual abuse and sexual harassment. Lastly, policy requires that all medical and mental health staff disclose their limits of confidentiality and obtain informed consent prior to the initiation of services. In interviewing correctional staff, both uniformed and non-uniformed, all employees expressed an understanding of policy. Training records and course curricula document correctional staff training specific to mandatory reporting requirements. In interviewing FMC Fort Worth medical/mental health staff, the process of limited confidentiality and informed consent used by said staff was explained. As well, training records and course curricula for the specialized training of medical staff document an understanding of mandatory reporting requirements. As such, the FMC Fort Worth meets the provisions established within this standard.

Standard Subsections:

(A) Per policy (P5324.12), when the FMC Fort Worth learns that an inmate is subject to a substantial risk of imminent sexual abuse, agency officials have an affirmative duty to take immediate action to protect the offender. In speaking with the FMC Fort Worth PREA Compliance Manager, FMC Fort Worth Warden, FMC Fort Worth Unit Managers, FMC Fort Worth Investigative Staff, and Random Staff, a number of possible options were discussed specific to inmate protection measures. During the audit time frame, however, the FMC Fort Worth did not have any (0) instances where inmates were at

	<p>substantial risk of imminent sexual abuse. As such, the facility has no such documentation for review.</p> <p>Reasoning & Findings Statement:</p> <p>This standard works to actualize the processes of inmate protection. Agency policy (P5324.12) requires staff to take immediate action to ensure the safety of all inmates who are at a high risk of sexual victimization. Provided there are no other alternative options available to ensure the inmate’s safety, policy (P5324.12) allows the facility to immediately increase the safety of the at-risk inmate by placing said inmate in a Special Housing Unit. However, placement in the Special Housing Unit would only be used if no other general housing assignments available would ensure the inmate's safety. During the audit time frame, the FMC Fort Worth did not receive any reports from inmates who was at a substantial risk of sexual abuse. In interviewing random staff, all persons were asked specifically what actions would be taken if an inmate presented as a high risk for sexual victimization. Unequivocally, all staff responded that they would take immediate action to protect the potential victim. Additionally, supervisory staff were questioned as to their role in this potentially dangerous situation. While supervisory staff did provide a more technical and inclusive response, they too, were centrally focused on protecting the inmate. Hence, the facility has clearly realized the provisions of this standard.</p>

Site Review Observations:

- Review of employee training records
- Review of investigator case files
- Review of first responder actions

Standard Subsections:

(A) Policy (P5324.12) requires the first responding custody staff member to immediately separate the alleged victim and abuser. After ensuring the safety of the victim, policy (P5324.12) requires staff to preserve and protect the crime scene until evidence collection is possible. If the first responder learns that the victim has been sexually abused, and the abuse occurred within a time period that still allows for the collection of physical evidence, the first responder should request that the alleged victim not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating. Once the first responder learns that an offender has been sexually abusive, and the abuse occurred within a time period that still allows for the collection of physical evidence, the first responder should ensure that the alleged abuser does not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating. In interviewing FMC Fort Worth custody staff, the actions that would be taken if said staff were notified of sexual abuse allegations were consistent with policy. Within the audit time frame, FMC Fort Worth has received six (6) allegations of sexual abuse. It should also be noted that staff confirmed that when notified within a time period that still allowed for the collection of physical evidence, the first security staff member would take appropriate action to preserve and protect the alleged crime scene, as well as any forensic evidence of the reporting inmate.

(B) Policy (P5324.12) requires that non-custody first responders contain and assess the situation, notify their immediate supervisor or the security shift supervisor,

	<p>instruct the victim not to take any action that could destroy physical evidence. In interviewing FMC Fort Worth non-custody staff, the actions that would be taken were said staff notified of sexual abuse allegations were consistent with policy.</p> <p>Reasoning & Findings Statement:</p> <p>This standard works to determine whether facility staff understand their role when responding to inmate allegations of sexual abuse and sexual harassment. Of primary importance is separating and securing the alleged victim and abuser. Of this, all staff interviewed absolutely articulated that point. Most staff then articulated the need to preserve any evidence possibly remaining at the crime scene and on the alleged victim. A review of employee training records and class curricula reflect staff have received required training specific to the preservation of evidence regarding allegations of sexual abuse and sexual harassment. As a function of the response protocol, the immediate notification to a custody supervisor provides greater assurance that all subsequent critical steps will be followed. This information, combined with agency policy, staff interviews, and facility training documentation sufficiently supports the expectations required by this standard.</p>

To coordinate facility efforts in the most efficient manner possible, the FMC Fort Worth implemented a facility-based policy (FTW 5324.12D) that details the coordinated response plan to an incident of inmate sexual abuse. In this, the roles of all facility staff are discussed and, perhaps even more importantly, the way those roles interact with one another is outlined. This policy is a conveniently written overview of departmental responsibilities, equipped with notification and referral reminders. When asked, various departmental staff were able to articulate their roles in the response process. As such, the FMC Fort Worth has met the provisions of this standard.</p>

The FMC Fort Worth has not renewed or entered into any new collective bargaining agreement since its previous PREA audit that would limit the facility’s ability to remove alleged staff sexual abusers from contact with inmates. It was also noted that the BOP, and by extension, FMC Fort Worth facility administration, has no reservations about discharging employees for engaging in sexual abuse and sexual harassment of inmates. Hence, the FMC Fort Worth has satisfactorily met all provisions within this standard.</p>

Interviews:

- Agency PREA Coordinator
- PREA Compliance Manager
- Facility Warden
- Institutional Investigator
- Designated Staff Member Charged with Monitoring Retaliation
- Random Staff
- Random Inmates
- Inmates Who Reported Sexual Abuse

Site Review Observations:

- Reviewed PREA investigations, to include retaliation monitoring logs (staff/offender), onsite.

Standard Subsections:

(A) Policy (P5324.12) prohibits retaliation for reporting sexual abuse or sexual harassment and for cooperating with a sexual abuse and sexual harassment investigations. Per policy (P5324.12) "the Institution PREA Compliance Manager monitors staff and inmates who have reported sexual abuse allegations to protect them from retaliation for 90 days. However, if the initial monitoring indicates a continuing need, periodic status checks occur."

(B) Per policy (P5324.12), the "agency shall employ multiple protection measures, such as housing changes or transfers for inmate victims or abusers, removal of alleged staff or inmate abusers from contact with victims, and emotional support services for inmates or staff who fear retaliation for reporting sexual abuse or sexual harassment or for cooperating with investigations." While examining the retaliation monitoring process, it was noted that three (3) of the seven (7) files reviewed contained errors in the retaliation monitoring process. As such, corrective action was taken to ensure the reliability of the retaliation monitoring process. Namely, investigative staff received training specific to the need to conduct retaliation monitoring as required by policy. Further, said staff revamped the retaliation monitoring process previously used by the facility. Following the implementation of this update monitoring process, said monitoring has been conducted as required. As such, no further action is needed at this time.

(C) Per policy (P5324.12), for a minimum of three (3) months following a report of sexual abuse or sexual harassment, the facility shall monitor the conduct and treatment of:

- o An inmate who reported an incident of sexual abuse or sexual harassment (including a third-party reporter)
- o An inmate who was reported to have suffered sexual abuse or sexual harassment; and

- o An employee who reported an incident of sexual abuse or sexual harassment of an inmate.
- o Monitoring staff shall employ multiple protection measures to prevent inmate retaliation, such as reviewing inmate disciplinary, housing changes, job changes, and program changes.
- o Monitoring staff shall employ multiple protection measures to prevent staff retaliation, such as negative performance reviews for staff and the reassignment of staff.
- o Monitoring shall go beyond 90 days if the initial monitoring indicates a continuing need.
- o Within the audit time frame, the FMC Fort Worth has not had any reported incidents of retaliation.

(D) Per policy (P5324.12), in the case of inmates, such monitoring shall also include periodic in-person status checks at least every 30 days.

(E) Per policy (P5324.12), if any other individual (staff, volunteer, contractor, offender, adolescent offender, resident, etc.) who cooperates with an investigation expresses a fear of retaliation, the facility and agency shall take appropriate measures to protect that individual against retaliation.

(F) The auditor is not required to audit this provision.

Reasoning & Findings Statement:

This standard works to prevent retaliation against employees and inmates for reporting sexual abuse and sexual harassment or for having cooperated with an investigation into such. BOP policy provides a comprehensive overview of agency protection against sexual abuse and sexual harassment. In speaking with inmates, none noted that they had ever experienced retaliation for participating in a PREA-related facility investigation. Investigatory files, which included retaliation monitoring, were reviewed while on-site. While examining the retaliation monitoring process, it was noted that three (3) of the seven (7) files reviewed contained errors in the retaliation monitoring process. As such, corrective action was taken to ensure the reliability of the retaliation monitoring process. Namely, investigative staff received training specific to the need to conduct retaliation monitoring as required by policy. Further, said staff revamped the retaliation monitoring process previously used by the facility. Following the implementation of this update monitoring process, said monitoring has been conducted as required. As such, no further action is needed at this time. The facility has reached compliance with the required standards.

- Designated Staff Member Charged with Monitoring Retaliation
- Random Staff
- Staff Who Supervise Inmates in Segregated Housing
- Random Inmates
- Inmates Who Reported Sexual Abuse

Site Review Observations:

- Observed Special Housing Unit

Standard Subsections:

(A) Policy (P5324.12) prohibits placing inmates who allege sexual abuse, or inmates who are at a high risk of sexual abuse, in Special Housing Units unless an assessment of all other available alternatives has been made and a subsequent determination concludes that there are no available alternative means of separation from likely abusers. During the audit time frame, the FMC Fort Worth has not placed any (0) inmates who have suffered sexual abuse, or who are at a high risk of sexual abuse, in a Special Housing Unit pending completion of their assessment.

Reasoning & Findings Statement:

Agency policy strictly prohibits the use of involuntary segregated housing; namely, Special Housing Units, as a de facto response to inmate safety concerns. Rather, as explained by the FMC Fort Worth PREA Compliance Manager and FMC Fort Worth Investigative Staff, the use of involuntary segregated housing should be considered only as the last available option, and even at that, as only a temporary measure. Within the reporting time frame, FMC Fort Worth Administration did not utilize involuntary segregated housing for any inmate who had alleged sexual abuse or fear of such abuse. While conversations with the SHU Supervisor did indicate that if absolutely necessary, inmates would be placed in involuntary segregated housing, it would be the absolute last option. The FMC Fort Worth Warden noted that should this ever happen, a weekly review of that inmate's status would occur during every

	<p>Special Housing Unit weekly meeting. As well, the inmate's status would be reviewed at least every 30 days, with the reviews being documented on the Security Review Official Log. The inmate would also be reviewed every 30 days by Psychology Services. As such, the FMC Fort Worth has satisfied the requirements of this provision.</p>

Conversations with agency investigators, as well as a review of investigative files, supports facility adherence to this requirement.</p>

(B) Policy (P5324.12) requires investigators to have received specialized training in excess of the generalized sexual abuse and sexual harassment training provided to other staff. In interviewing the FMC Fort Worth Institutional Investigator, said staff confirmed participation in numerous related courses, to include NIC's Investigating Sexual Abuse in a Confinement Setting. Additionally, training curricula, employee training certifications, as well as completed training rosters, provided additional documentation to support facility compliance.

(C) Per policy (P5324.12), as well noted by facility investigators, Institutional Investigators and/or the FMC Fort Worth PREA Compliance Manager gather and preserve direct and circumstantial evidence, including any available physical and DNA evidence and any available electronic monitoring data. Policy (P5324.12) allows that Institutional Investigators and/or the FMC Fort Worth PREA Compliance Manager will interview alleged victims, suspected perpetrators, and witnesses. Institutional Investigators and/or the FMC Fort Worth PREA Compliance Manager are also required to review prior reports and complaints of sexual abuse involving the suspected perpetrator.

(D) Policy (P5324.12) allows compel interviews only "after consulting with prosecutors as to whether compelled interviews may be an obstacle for subsequent criminal prosecution." Conversations with agency investigators support facility adherence to this requirement.

(E) Policy (P5324.12) requires that the "credibility of an alleged victim, suspect, or witness shall be assessed on an individual basis and shall not be determined by the person's status as inmate or staff. No agency shall require an inmate who alleges sexual abuse to submit to a polygraph examination or other truth-telling device as a condition for proceeding with the investigation of such an allegation." In speaking with the Institutional Investigator, it was noted the credibility was based on a preponderance of the evidence. This assertion was further supported by a review of investigative files.

(F) Policy (P5324.12) requires administrative investigations to consider whether staff actions or failures to act contributed to the sexual abuse and sexual harassment. All administrative investigations are documented in written reports. As a function on that documentation, these reports include a description of the physical evidence and testimonial evidence, the reasoning behind credible assessments, as well as investigative facts and findings. A review of investigatory files conducted by FMC Fort Worth Investigative Staff provided detailed written reports of both the allegations and the subsequent investigation.

(G) Policy (P5324.12) requires that all investigations are documented in written reports. As a function on that documentation, these reports include a description of the physical evidence, testimonial evidence, and documentary evidence. A review of investigative files conducted by FMC Fort Worth Investigative Staff provided detailed written reports of both the allegations and the subsequent investigation.

(H) As noted by the Institutional Investigator and required by policy (P5324.12), all substantiated allegations of conduct that appear to be criminal are referred for

	<p>prosecution. During the audit time frame, the FMC Fort Worth did not refer any (0) cases for criminal prosecution.</p> <p>(I) Police (P5324.12) requires that “the agency shall retain all written reports referenced in paragraphs (f) and (g) of this section for as long as the alleged abuser is incarcerated or employed by the agency, plus five years.”</p> <p>(J) Policy (P5324.12) mandates that “the departure of the alleged abuser or victim from the employment or control of the facility or agency shall not provide a basis for terminating an investigation.”</p> <p>(K) The auditor is not required to audit this provision.</p> <p>(L) Policy (P5324.12) requires that “when outside agencies investigate sexual abuse, the facility shall cooperate with outside investigators and shall endeavor to remain informed about the progress of the investigation.”</p> <p>Reasoning & Findings Statement:</p> <p>The BOP conducts its own administrative investigations via agency investigators. To perform administrative investigations, BOP investigative staff must have met additional training requirements for conducting sexual abuse/sexual harassment investigations within a confinement setting. The Federal Bureau of Investigation (FBI), which is a separate and independent component of the Department of Justice, has jurisdiction to investigate all criminal allegations within the BOP, to include all criminal allegations of sexual abuse. As such, FBI staff have the authority to collect evidence, as well as interview victims, suspected perpetrators, and witnesses. FBI officers have been trained on the standards of evidence required to support a finding of guilt in criminal cases. As well, FBI officers have been trained on due process and procedural requirements of criminal cases. As confirmed through interviews with BOP staff, FBI agents and BOP staff work collaboratively under a memorandum of understanding to facilitate communication between these two distinctly separate agencies. This considered, the BOP, and by extension, the FMC Fort Worth, has met the requirements of this provision.</p>

Specifically, the allegations are determined substantiated, unsubstantiated, or unfounded based on the preponderance of the evidence. For substantiated claims, this simply means that the weight of the evidence must indicate that the allegations are more likely to be true than not true. Interviews:

- Facility Warden
- Designated Staff Member Charged with Monitoring Retaliation
- Investigative Staff
- Inmates Who Reported Sexual Abuse

Site Review Observations:

- Review of PREA investigation case files.

Standard Subsections:

(A) Policy (P5324.12) requires that “the agency shall impose no standard higher than a preponderance of the evidence in determining whether allegations of sexual abuse or sexual harassment are substantiated Following an investigation into an inmate’s allegation that he or she suffered sexual abuse in an agency facility, the agency shall inform the inmate as to whether the allegation has been determined to be substantiated, unsubstantiated, or unfounded.” Conversations with investigative staff, as well as documentation review onsite support FMC Fort Worth’s compliance with this requirement.

(B) Policy (P5324.12) further requires that “If the agency did not conduct the investigation, it shall request the relevant information from the investigative agency in order to inform the inmate.”

(C) Policy (P5324.12) requires that when an offender has filed allegations of sexual abuse against a staff member (unless unfounded), the institutional investigator shall inform the inmate upon the following:

- o The staff member is no longer posted within the inmate’s unit;
- o The staff member is no longer employed at the facility;
- o The institution learns that the staff member has been indicted on a charge related to sexual abuse within the institution;
- o The institution learns that the staff member has been convicted on a charge related to sexual abuse within the institution.

Per the PREA Compliance Manager, the FMC Fort Worth has not been required to provide any such notification during the auditing time frame.

(D) Policy (P5324.12) requires that when an offender has filed allegations of sexual abuse against another offender, the agency must notify the alleged victim whenever the alleged abuser has been:

- o Indicted on a charge related to sexual abuse within the facility and
- o Whenever the agency learns that the alleged abuser has been convicted on a charge related to sexual abuse within the facility.

(E) Policy (P5324.12) requires that “all such notifications or attempted notifications shall be documented.” Within the audit time frame, however, it was noted that five (5) of the seven (7) investigations reviewed contained errors in their notification processes. As such, corrective action was required. All adults in custody who had not previously been notified were provided notifications. Additionally, investigative staff received training specific to the need to conduct notifications to adults in custody as required by policy. Further, said staff revamped the notification process previously used by the facility. Following the implementation of this update notification process, said notifications have been conducted as required. As such, no further action is needed at this time. The facility has reached compliance with the required standards.

(F) Auditor is not required to audit this provision.

Reasoning & Findings Statement:

Agency policy requires BOP staff to provide inmates with dispositions for all claims of sexual abuse and sexual harassment. The BOP conducts all administrative sexual abuse/sexual harassment investigations. While all criminal sexual abuse and/or sexual harassment claims are addressed by the FBI, agency staff do remain actively engaged in those investigations. Agency policy provides that all inmates who have filed a previous sexual abuse and sexual harassment claim against agency staff or other inmates, should receive notification upon concluding the investigation. Lastly, policy requires these notifications to be documented. Within the audit time frame, however, it was noted that five (5) of the seven (7) investigations reviewed contained errors in their notification processes. As such, corrective action was required. All adults in custody who had not previously been notified were provided notifications. Additionally, investigative staff received training specific to the need to conduct notifications to adults in custody as required by policy. Interviews:

- PREA Compliance Manager
- Facility Warden
- Investigative Staff
- Administrative (Human Resources) Staff
- Random Staff

Site Review Observations:

- Review of PREA investigation case files

Standard Subsections:

(A) Policy (P3420.11, P5324.12) clearly advises staff that all employees shall be subject to disciplinary sanctions up to and including termination for violating BOP sexual misconduct policies. Interviews with the FMC Fort Worth Warden, FMC Fort Worth Human Resource Staff, FMC Fort Worth PREA Compliance Manager, and the FMC Fort Worth Institutional Investigator confirm facility adherence to agency policy specific to employee disciplinary and termination processes for any employee found to be engaging in acts of sexual abuse or sexual harassment.

(B) Policy (P3420.11, P5324.12) continues by noting that any perpetrator of a sexual abuse or sexual harassment will be dealt with through discipline or prosecution to the fullest extent permitted by law. In this, per the FMC Fort Worth Human Resource Staff, termination is the presumptive disciplinary sanction for staff who have engaged in sexual abuse of inmates.

(C) Policy (P3420.11, P5324.12) stipulates disciplinary sanctions for violations of agency policies relating to sexual abuse or sexual harassment (other than actually engaging in sexual abuse) shall be commensurate with the nature and circumstances of the acts committed, the staff member's disciplinary history, and the sanctions imposed for comparable offenses by other staff with similar histories. Again, interviews with the FMC Fort Worth Warden, FMC Fort Worth Human Resource Staff, FMC Fort Worth PREA Compliance Manager, and FMC Fort Worth Investigator Staff confirm the facility's adherence to agency policy specific to employee disciplinary and termination processes for any employee found to be engaging in acts of sexual abuse or sexual harassment. Per the FMC Fort Worth Warden, within the audit time frame, there has been one (1) employee assigned to the FMC Fort Worth who has engaged in acts of sexual abuse or sexual harassment. In accordance with the FMC Fort Worth Warden, the government is seeking criminal charges.

(D) Policy (P5324.12) notes that "all terminations for violations of agency sexual abuse or sexual harassment policies, or resignations by staff who would have been terminated if not for their resignation, shall be reported to law enforcement agencies,

	<p>unless the activity was clearly not criminal, and to any relevant licensing bodies.” According to the FMC Fort Worth Warden, within the audit time frame, the FMC Fort Worth has not had any (0) staff member disciplined, short of termination, for any violation of agency sexual abuse or sexual harassment policies.</p> <p>Reasoning & Findings Statement:</p> <p>This standard works to ensure agency staff understand the gravity and the criminal nature of having sexual relations with incarcerated persons. The Federal Bureau of Prisons has made the consequences of engaging in such behavior exceptionally clear. Within the audited time frame, there has been one (1) staff member assigned to the FMC Fort Worth who has violated agency sexual abuse or sexual harassment policies. Per the FMC Fort Worth Warden, the government is seeking criminal charges. During staff interviews, all staff expressed their knowledge of the agency’s zero tolerance policy. As such, the FMC Fort Worth has satisfied the provisions of this standard.</p>

financially involved with inmates, former inmates, or persons known (or who should have been known based on circumstances) to the employee as a family member or close friend of inmates or former inmates.” Policy (P5324.12) further notes that “any contractor or volunteer who engages in sexual abuse shall be prohibited from contact with inmates and shall be reported to law enforcement agencies, unless the activity was clearly not criminal, and to relevant licensing bodies.” During the audit time frame, there haven’t been any (0) contractors or volunteers who violated the agency’s Zero Tolerance policy. Review of FMC Fort Worth contractor/volunteer training documentation, as well as interviews with contracted staff and a facility volunteer, evidenced that the agency’s zero-tolerance policy was institutionalized.

(B) Policy (P5324.12) states that “the facility shall take appropriate remedial measures, and shall consider whether to prohibit further contact with inmates, in the case of any other violation of agency sexual abuse or sexual harassment policies by a contractor or volunteer.” Review of FMC Fort Worth contractor/volunteer training documentation, as well as interviews with contracted staff and a facility volunteer, evidenced that the agency’s zero-tolerance policy was institutionalized.

Reasoning & Findings Statement:

Agency policy expressly states that contractors and volunteers who engage in sexual abuse with inmates will be removed from contact with inmates pending the outcome of the investigation. Contractors or volunteers who engage in sexual abuse will be reported to law enforcement and to any relevant licensing body. These persons will also be subject to criminal sanctions. Within the audit time frame, the FMC Fort Worth has not had any (0) contractors or volunteers engage in sexual abuse or harassment of any inmate. Documentation of contractor and volunteer training records reflect that all contractors and volunteers are provided training appropriate to their level of contact with inmates. During FMC Fort Worth contractor and volunteer interviews, both the prohibition against sexual abuse and sexual harassment of inmates, as well as the consequences of having engaged such, were clearly known. Hence, FMC Fort Worth is in compliance with the provisions of this standard.

(A) Policy (P340.11) provides the standards associated with all disciplinary hearings, to include hearings related to inmate-on-inmate sexual abuse/sexual harassment. Policy (P5324.12, P5324.12) further notes that following an administrative finding that an offender engaged in inmate-on-inmate sexual abuse, said offender is subject to disciplinary sanctions pursuant to formal disciplinary processes. During the audit time frame, the FMC Fort Worth had one (1) administrative or criminal findings of inmate-on-inmate sexual abuse or harassment.

(B) Policy (P3420.11, P5324.12) requires that disciplinary sanctions imposed are commensurate with the nature and circumstances of the abuse committed, the inmate's disciplinary history, and the sanctions imposed for comparable offenses by other inmates with similar histories. As well, sanctions consider aggravating and mitigating factors.

(C) When determining an offender's disciplinary sanctions, policy (P3420.11, P5324.12) does consider how an offender's mental disabilities or mental illness contributed to his behavior.

(D) Per policy (P5324.12), "all inmates found guilty of sexual abuse shall be given appropriate programming and interventions if determined to be necessary by mental health services in consultation with sex offender services."

(E) Per policy (P5324.12), the agency may discipline an inmate for sexual contact and/or sexual conduct with staff only upon finding that the staff member did not consent to such contact or conduct.

(F) Per policy (P5324.12), a report made in good faith based upon a reasonable belief that the alleged conduct did occur does not constitute falsely reporting an incident or lying for the purpose of disciplinary action, even if the investigation does not establish evidence sufficient to substantiate the allegations.

(G) Per policy (P3420.11, P5324.12), the agency clearly distinguishes between consensual sex, which is still a violation of agency policy, and inmate-on-inmate

	<p>sexual abuse, which is defined as when one or more inmates engage in sexual conduct, including sexual contact, with other inmates against their will or by use of force, threats, intimidation, or other coercive actions.</p> <p>Reasoning & Findings Statement:</p> <p>The inmate disciplinary process is a formal means to address institutional misconduct. The FMC Fort Worth uses a progressive disciplinary system, which allows for consideration of aggravating and mitigating factors. Within the audit time frame, the FMC Fort Worth processed one (1) investigation that resulted in a finding of inmate-on-inmate sexual abuse or harassment. Said investigation is pending criminal prosecution. In considering agency policies, facility procedures, staff interviews, and inmate interviews, FMC Fort Worth is compliant with disciplinary standards as required under this provision.</p>

Standard Subsections:

(A) Policy (P5324.12) requires that within 72 hours of arrival, all FMC Fort Worth inmates will be screened for sexual abuse risk factors. If the assessment indicates that the inmate has had prior sexual victimization, whether it occurred in an institutional setting or in the community, staff will offer a follow-up meeting with a mental health or medical practitioner within 14 days of the intake screening. Within the audit time frame, 100% of inmates received at the FMC Fort Worth who disclosed prior victimization during their initial risk screening were offered a follow-up meeting with a medical or mental health practitioner. A review of both medical and mental health referrals, as well as conversations with medical and mental health staff, along with inmates who reported prior sexual victimization, confirms the institutionalization of this practice.

(B) Per policy (P5324.12), persons with a history of being sexually abusive must also be referred for FMC Fort Worth mental health services within 14 days of the intake screening. In speaking with mental Health staff, it is noted that the nature of the referral is in accordance with the individualized needs of each inmate. Within the audit time frame, 100% of inmates received at the FMC Fort Worth who had previously perpetrated sexual abuse, as indicated during the screening, were offered a follow-up meeting with a mental health practitioner. A review of both medical and mental health referrals, as well as conversations with medical and Mental health staff, confirms the institutionalization of this practice.

(C) Per policy (P5324.12), regular mental health referrals are addressed within a time frame consistent with the nature of the referral and within 14 days of the intake screening.

(D) Per policy (P5324.12) and in accordance with the Prison Rape Elimination Act (PREA) Standards, 28 C.F.R. 115.81, any information related to sexual victimization or abusiveness that occurred in an institutional setting shall be strictly limited to medical and mental health practitioners and other staff, as necessary, to inform treatment plans, as well as m and management decisions, including housing, bed, work, education, and program assignments, or as otherwise required by federal, state, or local laws. As noted by medical and mental health staff during the interview process, medical and mental health practitioners shall obtain informed consent from inmates before reporting information about prior sexual victimization that did not occur in an institutional setting.

(E) Per policy (P5324.12) and in accordance with the Prison Rape Elimination Act (PREA) Standards, 28 C.F.R. §115.81, any information related to sexual victimization or abusiveness that occurred in an institutional setting shall be strictly limited to

medical and mental health practitioners and other staff, as necessary, to inform treatment plans, as well as security and management decisions, including housing, bed, work, education, and program assignments, or as otherwise required by federal, state, or local laws. As noted by medical and mental health staff during the interview process, medical and mental health practitioners shall obtain informed consent from inmates before reporting information about prior sexual victimization that did not occur in an institutional setting, unless the inmate is under the age of 18 years or considered a vulnerable adult. In speaking with medical/mental health staff, adherence to this policy was confirmed.

Reasoning & Findings Statement:

Within the audit time frame, 100% of inmates who had disclosed prior victimization during risk screening were offered a follow-up meeting with a medical or mental health practitioner. Within the audit time frame, 100% of inmates who had previously perpetrated sexual abuse as indicated during risk screening were offered a follow-up meeting with a medical or mental health practitioner. As noted by medical/mental health staff, as well as affected inmates, the FMC Fort Worth is providing routine and regular medical screens and other health services in accordance to qualified medical assessments, as well as to policy. Documentation specific to the PREA Intake Objective Screening Instrument for medical and mental health staff reflects the appropriate use of the screening tool to determine appropriate housing and medical needs. As such, the facility is meeting all provisions as established within this standard.

(A) In accordance with policy (P5324.12), "inmate victims of sexual abuse shall receive timely, unimpeded access to emergency medical treatment and crisis intervention services, the nature and scope of which are determined by medical and mental health practitioners according to their professional judgment." In interviewing medical and mental health staff, said staff confirmed the ability to treat inmates in accordance to their professional medical judgment.

(B) Policy (P5324.12) requires that if there isn't any qualified medical or mental health staff on duty when a sexual abuse report is filed, then custody staff will need to "take preliminary steps to protect the victim pursuant to section 115.62 and shall immediately notify the appropriate medical and mental health practitioners." During interviews with first responders, as well as random custody staff, all personnel recognized with immediacy the need to notify medical and Mental health staff of any sexual abuse allegations.

(C) Policy (P5324.12) requires that inmates are offered timely and appropriate prophylactic information, as well as emergency contraception, if appropriate. In speaking with medical staff, adherence to this policy was confirmed. Inmates who had previously made allegations of sexual abuse also confirmed that they had received medical or mental health treatment, as appropriate, in a timely manner.

(D) Policy (P5324.12) requires that "treatment services shall be provided to the victim without financial cost and regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident." In speaking with medical and mental health staff, adherence to this policy was confirmed. Additionally, inmates who had previously received medical treatment for allegations of sexual

Inmates who had previously received mental health services for allegations of sexual abuse further indicated that they were not charged a fee for these services.</p> <p>Reasoning & Findings Statement:</p> <p>This standard is designed to provide inmates access to emergency medical and mental health services. In this, facility staff are meeting all provisions within this standard. Policy (P5324.12) allows that upon receipt of an inmate into the Medical Department, medical staff shall determine the inmate's course of treatment; specifically, what is medically indicated based on evidence collection or physical trauma. Inmate interviews further acknowledge that inmates are provided appropriate medical/mental health treatment. Lastly, documentation reflecting access to medical and mental health care was reviewed. In reviewing the totality of the information provided, the FMC Fort Worth has clearly met the minimum provisions of this standard.</p>

- Review of Medical/Mental Health PREA Screening Form
- Review of sexual abuse case files

Standard Subsections:

(A) Policy (P5324.12, FTW 5324.12D) requires that all allegations of sexual assault must be evaluated immediately by facility medical and mental health staff. In speaking with medical and mental health staff, adherence to this policy was confirmed. In speaking with random staff, as well as inmates, there weren't any instances where any staff or inmates indicated that the medical or mental health departments had ever, or would ever, refuse to provide medical/mental health treatment to any inmate who claimed to have been a victim of sexual abuse. In speaking with inmates who were receiving mental health treatment services at the time of facility transfer within the BOP, they confirmed that upon said transfer, they were automatically placed on the mental health rosters of their newly assigned facility. For other inmates who requested to utilize mental health services after transfer, they were subsequently scheduled to speak with medical health staff.

(B) Policy (P5324.12, FTW 5324.12D) requires that mental health services are offered to both victims of sexual assault and the abusers. Per policy (P5324.12) "the evaluation and treatment of such victims shall include, as appropriate, follow-up services, treatment plans, and, when necessary, referrals for continued care following their transfer to, or placement in, other facilities, or their release from custody." In interviewing inmates who had previously alleged sexual abuse or sexual harassment, it was noted that medical services were offered to these inmates appropriately in accordance to their allegations. As well, all inmates stated they were provided the opportunity to speak with staff from mental health services.

(C) Policy (P5324.12) requires that all victims of sexual abuse shall receive timely, unimpeded access to emergency medical treatment and crisis intervention services, the nature and scope of which are determined by medical and mental health practitioners according to their professional judgment. If not referred to an outside hospital emergency department, the inmate is treated in the facility infirmary after evaluation by a primary care provider. In either instance, medical and mental health services are provided in accordance to the judgment of qualified health care providers. During interviews with medical and mental health staff, it was noted that inmates routinely receive services consistent with the community level of a care. As well, the agency's coordinated medical and mental health care far exceeds the level of dedicated trauma care that one would expect to receive in the community.

(D) In speaking with medical staff, it was noted that if deemed medically appropriate, inmate victims of sexually abusive vaginal penetration while incarcerated would be offered pregnancy tests.

(E) If pregnancy were to result from a sexual assault, policy (P5324.12) does require that these victims receive "timely and comprehensive information about all lawful pregnancy-related medical services." In speaking with medical staff, it was noted that said information would be provided to inmate victims of sexually abusive vaginal penetration

	<p>(F) Policy (P5324.12) requires that all victims of sexual assault are to be provided tests for sexually transmitted diseases as medically appropriate. In speaking with medical staff, departmental adherence to this policy was confirmed.</p> <p>(G) Policy (P5324.12) requires that inmates are not charged for medical and mental health services received as a consequence of sexual assault. In fact, treatment services shall be provided to the victim without financial cost and regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident. In speaking with medical staff, adherence to this policy was confirmed. As well, when speaking to inmates who had previously utilized medical or mental health services because of an alleged sexual assault or sexual harassment, said inmates noted that there had not been a charge for such services.</p> <p>(H) Policy (P5324.12) requires that “all prisons shall attempt to conduct a mental health evaluation of all known inmate-on-inmate abusers within 60 days of learning of such abuse history and offer treatment when deemed appropriate by mental health practitioners.” In speaking with mental health staff, to help ensure the safekeeping of all inmates, it was noted that while agency policy allows for 60 days to evaluate abusers, known abusers are generally evaluated at a much faster rate.</p> <p>Reasoning & Findings Statement:</p> <p>This standard is designed to ensure ongoing medical and mental health care for sexual abuse victims and abusers. The BOP, and by extension the FMC Fort Worth, offers qualified and coordinated medical and mental health care regardless of an inmate’s ability to pay for said services. As appropriate, inmates are provided the opportunity to attend follow-up treatments, for both medical and mental health services. Once established, access to said treatment follows the inmate throughout the BOP system and can be coordinated with community care upon the inmate’s release from the BOP. The medical and mental health services provided are consistent with the community level of care. Additionally, because this level of care is coordinated to ensure that inmates receive every aspect of sexual abuse treatment, addressing both medical and mental health needs on a regular and timely basis, without regard to cost, the opportunity for treatment received in the institutional setting far exceeds that of individuals receiving similar treatments within the community. Accordingly, the FMC Fort Worth Medical and Mental Health Departments have collectively exceeded the provisions of this standard.</p>

Standard Subsections:

(A) Policy (P5324.12) states that “the facility shall conduct a sexual abuse incident review at the conclusion of every sexual abuse investigation, including where the allegation has not been substantiated, unless the allegation has been determined to be unfounded.” During the audit time frame, the FMC Fort Worth had six (6) investigations of alleged sexual abuse filed at the facility. Of those, all six (6) have been completed. Of the completed investigations, the FMC Fort Worth conducted sexual incident reviews on all unsubstantiated and/or substantiated allegations. Documentation associated with the sexual incident reviews was examined to ensure completion within the required time frame. As well, in speaking with the FMC Fort Worth PREA Compliance Manager and FMC Fort Worth Investigative Staff, each person explained their role within the Incident Review Team process.

(B) Policy (P5324.12) requires the Incident Review Team to complete the review process within 30 calendar days of the incident. Incident Review Team members did affirm, and documentation did corroborate, that incident reviews do occur within 30 calendar days of the incident.

(C) Policy (P5324.12) requires that, at a minimum, the incident “review team shall include upper-level management officials, with input from line supervisors, investigators, and medical or Mental health practitioners.”

(D) Policy (P5324.123) requires that the incident review team considers:

- o Whether the allegation or investigation indicates a need to change policy or practice to better prevent, detect, or respond to sexual abuse;
- o Whether the incident or allegation was motivated by race, ethnicity, gender identity, lesbian, gay, bisexual, transgender, or intersex identification, status, or perceived status; or gang affiliation; or was motivated or otherwise caused other group dynamics at the facility;
- o Whether the area in the facility where the incident allegedly occurred contains physical barriers in the area may enable abuse;
- o The adequacy of staffing levels in that area during different shifts; and

	<p>o Whether monitoring technology should be deployed or augmented to supplement supervision by staff.</p> <p>(E) Concluding the Incident Review Team Meeting, policy (P5324.12) requires a designated team member to prepare a brief report noting any team findings or recommendations for the future. Afterward, per policy (P5324.12), “the facility shall implement the recommendations for improvement, or shall document its reasons for not doing so.” In speaking with the PREA Compliance Manager, the implementation process was explained.</p> <p>Reasoning & Findings Statement:</p> <p>Within the audit time frame, FMC Fort Worth received six (6) sexual abuse investigations. Of the completed investigations, the FMC Fort Worth conducted sexual incident reviews on all closed allegations, save unfounded claims. Documentation relative to these reviews was examined to ensure that the Incident Review Team consisted of the appropriate committee members, that due considerations were given to the factors noted within Section D of the current standard, the incident review report was completed with appropriate subsequent action taken, and that these reviews were generally conducted within 30 days of the incident. In speaking with the FMC Fort Worth PREA Compliance Manager and FMC Fort Worth Investigative Staff, each person explained their role within the incident review process. Given the totality of the information reviewed, policies, documented evidence, as well as staff interviews, it is apparent that the FMC Fort Worth has maintained compliance with each of the aforementioned provisions and is thus in compliance with the entire standard.</p>

(A) Policy (P5324.12) provides all staff within the BOP a standardized FTW of definitions specific to sexual abuse/sexual harassment allegations. Policy (P5324.12) further mandates that “the agency shall collect accurate, uniform data for every allegation of sexual abuse at facilities under its direct control using a standardized instrument and FTW of definitions.” In speaking with FMC Fort Worth Investigative Staff, adherence to this provision was confirmed.

(B) Policy (P5324.12) further requires that “the agency shall aggregate the incident-based sexual abuse data at least annually.” In speaking with FMC Fort Worth PREA Compliance Manager, adherence to this provision was confirmed.

(C) Policy (P5324.12) requires that the information collected “shall include, at a minimum, the data necessary to answer all questions from the most recent version of the Survey of Sexual Violence conducted by the Department of Justice.” In speaking with FMC Fort Worth PREA Compliance Manager, adherence to this provision was confirmed.

(D) Policy (P5324.12) requires that “the agency shall maintain, review, and collect data as needed from all available incident-based Documents, including reports, investigation files, and sexual abuse incident reviews.” The FMC Fort Worth PREA Compliance Manager confirmed the agency’s overall adherence to this policy.

(E) Policy (P5324.12) mandates that the agency PREA coordinator/designee must ensure all aggregated sexual misconduct data received from private facilities with which it contracts is readily available to the public at least annually through the facility internet site. The BOP National PREA Coordinator confirmed the agency’s overall adherence to this provision. As well, this information is publicly available via the BOP website.

(F) Policy (P5324.12) states “upon request, the agency shall provide all such (statistical PREA) data from the previous calendar year to the Department of Justice no later than June 30.” The BOP National PREA Coordinator confirmed the agency’s overall adherence to this provision.

Reasoning & Findings Statement:

This standard works to ensure that specific data relative to promoting sexual safety within the correctional institution is collected on a monthly basis. The data is then aggregated and made available for public review on an annual basis. The FMC Fort Worth has complied with the timely collection of said data and subsequently furnishes such to the appropriate entities as required. Hence, the FMC Fort Worth has met all provisional requirements and is following the overall requirements of this standard.

Site Review Observations:

Standard Subsections:

(A) Policy (P5324.12) requires the PREA Coordinator to prepare aggregated data relative to sexual abuse and sexual harassment across all BOP facilities. Following which, the BOP then uses that data to assess and improve the effectiveness of its sexual abuse prevention, detection, response policies, as well as its related training programs. Specifically, the BOP works to identify problem areas, take corrective action on an ongoing basis, as well as prepares an annual report of its findings from the data review and any corrective actions for each facility, along with the agency as a whole. The PREA Coordinator confirmed adherence to this policy. As well, the BOP Annual PREA Report (2022) is available on the agency website.

(B) Policy (P5324.12) requires that annual statistical reports “shall include a comparison of the current year’s data and corrective actions with those from prior years and shall provide an assessment of the agency’s progress in addressing sexual abuse.” The PREA Coordinator confirms adherence to this policy. As well, a review of the agency’s annual statistical reports demonstrates the progressive assessment of agency efforts to prevent, detect, and response to sexual abuse and sexual harassment.

(C) Policy (P5324.12) requires that upon completion of each year’s Annual Report, “the agency’s report shall be approved by the agency head and made readily available to the public through its website or, if it does not have one, through other

	<p>means.” A review of the BOP website reflects this data to be publicly available for citizen consumption.</p> <p>(D) Policy (P5324.12) requires that any information redacted from the report due to a clear and specific threat to the safety and security of the facility must indicate the reason for redaction.</p> <p>Reasoning & Findings Statement:</p> <p>This standard works to determine if agency, and by extension, facility staff use aggregated data to promote the overall safety and security of the facility. In speaking with the agency-wide PREA Coordinator, the FMC Fort Worth PREA Compliance Manager, and the FMC Fort Worth Warden, the manner in which staff utilized the data to improve overall institutional safety, based on their role within the agency, was explained. Accordingly, the BOP, and by extension, the FMC Fort Worth, has demonstrated clear compliance with each of the provisions, and as such, has reached the overall requirements of this standard.</p>

Interviews:

- Agency PREA Coordinator

Site Review Observations:

- Review of documentation available via the BOP PREA web page.

Standard Subsections:

(F) A review of the agency web page reflects that the BOP has published all final audit reports for prior audits completed during the last three years preceding this audit. The PREA Coordinator affirms that all facilities within the BOP have been audited, and their reports subsequently published, on the agency's web page.

Reasoning & Findings Statement:

The function of this standard is to promote transparency in government by ensuring that all facility PREA audits for the previous three years are available for public review, by way of, for example, the agency's web page. In this case, the BOP does have an agency web page and has made all facility PREA reports conducted within the previous three years conveniently accessible to the public. As such, the agency, and by extension, the facility, has meet the provisions of this standard.

115.11	Zero tolerance of sexual abuse and sexual harassment; PREA coordinator
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>115.11(a)</p> <p>DIRECTIVE AND DOCUMENT REVIEW:</p> <p>Pre-Audit Questionnaire.</p> <p>BOP PREA Plan</p> <p>Agency zero-tolerance statement.</p> <p>Organizational charts, interviews.</p> <p>INTERVIEWS.</p> <p>Agency PREA Coordinator.</p> <p>FINDINGS:</p>

Agency Directives and BOP PREA Plan address the requirements of this provision. The agency mandates a zero-tolerance directive towards all forms of sexual abuse and sexual harassment and outlines the agency's strategies on preventing, detecting, and responding to such conduct. Agency policies addressed "Preventing" sexual abuse and sexual harassment through the designation of a PREA Coordinator and PREA Compliance Manager, Criminal Background Checks (Staff, Contractors, and Volunteers, as applicable), Training (Staff, Volunteers, and Contractors), Staffing, Intake Screening, Classification, Inmate Education, Posting of Signage (PREA Posters, etc.) and Contract Monitoring. The Directives addressed "Detecting" sexual abuse and sexual harassment through Training (Staff, Volunteers, and Contractors), and Intake Screening.

The policies addressed "Responding" to allegations of sexual abuse and sexual harassment through Reporting, Investigations, Victim Services, Medical and Mental Health Services, Disciplinary Sanctions for Staff (including notification to licensing agencies), Incident Review Teams, and Data Collections and Analysis.

The Inmate Handbook, PREA Posters, and PREA Brochures do address sexual abuse by another inmate, and the Inmate Handbook does address sanctions for inmates when involved in such conduct. Based on interviews and a review of agency policies, BOP staff closely monitor for inmate-on-inmate sexual misconduct in accordance with the agency's PREA policies; allegations are reported and investigated, and inmates are held accountable. By policy, the Inmate handbooks are reviewed and updated at least annually at each BOP institution.

DIRECTIVE AND DOCUMENT REVIEW:

Agency Directives and BOP PREA Plan.

Agency's organizational chart.

INTERVIEWS:

PREA Coordinator.

FINDINGS:

Agency Directive(s) and BOP PREA Plan address(es) the position of the agency PREA Coordinator, which outlines the roles and responsibilities of the position and calls for the position being allowed enough time and authority to develop, implement, and oversee agency efforts to comply with the PREA standards in each facility.

The agency's organizational chart reflects that the agency PREA Coordinator position is an upper-level position with agency-wide oversight. The agency PREA Coordinator position reports to the Assistant Director, Reentry Services Division.

The PREA Coordinator was interviewed and reported to have enough time to focus on the PREA standards and the freedom to divert responsibilities to other staff as needed to focus on the audit. A review of the agency directive, agency's organization chart,

	<p>and based on the interview with the designated agency's PREA Coordinator, the Auditor determined the agency demonstrates it meets the requirements of this provision of this standard.</p>

	<p>115.12(a) (b)</p> <p>DIRECTIVE AND DOCUMENT REVIEW:</p> <p>Agency Directives and BOP PREA Plan.</p> <p>FINDINGS:</p> <p>Agency Directive(s) and BOP PREA Plan address(es) this provision. The agency reported there were a total of zero contracts for the confinement of inmates and 161 Residential Reentry Centers (RRCs) that the agency had entered or renewed with private entities or other government agencies.</p> <p>A review of the agency directive reflected all contracts will meet the required entity's obligation to adopt and comply with the PREA standards.</p> <p>Agency Directive(s) and BOP PREA Plan address(es) this provision. The agency reported the agency-wide contracts would require the agency to monitor the contractor's compliance with the PREA standards.</p> <p>If the agency contracted the confinement of its inmates, the agency's Contract Administrator would be required to maintain regular contact with every inmate placed in a contract facility. If there are concerns, agency protocol requires the inmate be removed from the facility and the facility allows time to make corrective action and address the concerns.</p> <p>Corrective actions are addressed before the facility is reconsidered. Notification would also be made to law enforcement. The Contract Administrator would annually collect credentialing documentation for each facility: facility license; staff licenses or certifications; daily schedule; and monitoring reports or the licensing agency's website regarding the facility's status; and tours the facility. The BOP is no longer actively soliciting new contracts with private facilities.</p>

DIRECTIVE AND DOCUMENT REVIEW:

Agency Directives and BOP PREA Plan.

Supporting Documentation.

FINDINGS:

PS 3000.03 Human Resource Management Manual, PS 3420.11, Standards of Employee Conduct, the Pre-Employment Guide, SF85P (Questionnaire for Public Trust Positions) and a BOP recruitment document address the requirements of the standard. All employees who have contact with inmates have had a full field background investigation in addition to fingerprinting and inquiry into the FBI's National Crime Information Center (NCIC). Employee backgrounds are re-checked every five years. Contractors and volunteers who have regular contact with inmates also have criminal background checks completed prior to having contact with inmates. Volunteer and contractor background checks are repeated yearly. The facility does not hire or promote anyone who may have contact with inmates and does not enlist the services of any contractor who may have contact with inmates who has engaged in any type of sexual abuse/harassment (no exceptions). Employees have a duty to disclose such misconduct and material omissions regarding such misconduct would be grounds for termination. Submission of false information by any applicant is grounds for not hiring the applicant.

The Agency Head designee was interviewed and confirmed that the agency HR attempts to contact prior employers for information on substantiated allegations of sexual abuse or resignations which occurred during a pending investigation of sexual abuse. The Agency Head designee also confirmed that the agency provides information on substantiated allegations of sexual abuse or sexual harassment involving a former employee, upon receiving a request from an institutional employer for whom such employee has applied to work. The agency notifies appropriate licensing/certifying agencies when professional staff members are terminated for substantiated allegations of sexual abuse or sexual harassment. A review of policy, personnel forms, and relevant supporting documentation, including staff interviews, confirm compliance with this standard.

DIRECTIVE AND DOCUMENT REVIEW:

Agency Directives and BOP PREA Plan.

INTERVIEWS:

Agency Head designee.

FINDINGS:

Agency Directives and BOP PREA Plan address this provision. Agency Head designee reported the agency has incorporated and implemented the "Affirmative Duty to Disclose," which all staff were required to affirm and sign. The form includes a "material omissions" clause.

DIRECTIVE AND DOCUMENT REVIEW:

Agency Directives and BOP PREA Plan.

INTERVIEWS:

Agency Head.

FINDINGS:

Agency Directives and BOP PREA Plan address this provision. The agency directive requires job applicants to have background checks completed looking at any issue of prior sexual misconduct. The background checks are completed prior to any inmate contact. All contractors are screened by using the same process.

	<p>Auditor Discussion</p> <p>115.18(a)</p> <p>INTERVIEWS:</p> <p>Interviews with the Agency Head designee confirm that the standard is being met.</p> <p>FINDINGS:</p> <p>The agency considers how all new facility designs and technology upgrades may enhance the Bureau’s ability to protect against sexual abuse. In existing institutions, we review all “Substantiated” and “Unsubstantiated” cases of inmate sexual abuse to determine if modifications to design or the addition or upgrade of technology would help prevent a similar occurrence in the future.</p> <p>115.18(b)</p> <p>DIRECTIVE AND DOCUMENT REVIEW:</p> <p>Video Surveillance Schematic.</p> <p>INTERVIEWS:</p> <p>Interviews with the Agency Head designee confirm that the standard is being met.</p> <p>FINDINGS:</p>

	<p>Institution reviews are ongoing to determine if upgrades or additions to our existing technology would enhance the protection of inmates from incidents of sexual abuse. The technology serves as a deterrent but also allows us to identify unreported victims and perpetrators of sexually abusive behavior. It also aids in successful criminal prosecutions. It is recommended that BOP receive the funding to procure additional cameras and an inmate RFID system to enhance the safety and security of the staff and inmates for each of its institutions.</p>

Agency Directives and BOP PREA Plan.

INTERVIEWS:

Agency PREA Coordinator.

FINDINGS:

PS 5324.12 addresses the requirement of the standard. The National PREA Coordinator reviews data compiled by each BOP facility, from SENTRY, from each Regional PREA Coordinator, from the Information Technology and Data Division of the BOP and from the Office of Internal Affairs and issues a report to the Director on an annual basis. Facility data is maintained in locked files or on computer databases that are user ID and password protected. Agency PREA data is securely retained and is published on the BOP website after removing all personal identifying information.

115.401 (a)	Frequency and scope of audits	
	During the prior three-year audit period, did the agency ensure that each facility operated by the agency, or by a private organization on behalf of the agency, was audited at least once? (Note: The response here is purely informational. A "no" response does not impact overall compliance with this standard.)	yes
115.401 (b)	Frequency and scope of audits	
	Is this the first year of the current audit cycle? (Note: a "no" response does not impact overall compliance with this standard.)	yes

	If this is the second year of the current audit cycle, did the agency ensure that at least one-third of each facility type operated by the agency, or by a private organization on behalf of the agency, was audited during the first year of the current audit cycle? (N/A if this is not the second year of the current audit cycle.)	na
	If this is the third year of the current audit cycle, did the agency ensure that at least two-thirds of each facility type operated by the agency, or by a private organization on behalf of the agency, were audited during the first two years of the current audit cycle? (N/A if this is not the third year of the current audit cycle.)	na
115.403 (f)	Audit contents and findings	
	The agency has published on its agency website, if it has one, or has otherwise made publicly available, all Final Audit Reports. The review period is for prior audits completed during the past three years PRECEDING THIS AUDIT. The pendency of any agency appeal pursuant to 28 C.F.R. § 115.405 does not excuse noncompliance with this provision. (N/A if there have been no Final Audit Reports issued in the past three years, or, in the case of single facility agencies, there has never been a Final Audit Report issued.)	yes
