As a general rule, if a temporary structure is regularly or routinely used to hold or house inmates, or if the temporary structure is used to house or support operational functions for more than a short period of time (e.g., an emergency situation), it should be included in the overall count of buildings.</p>	24
<p>Number of inmate housing units:</p> <p>Enter 0 if the facility does not have discrete housing units. DOJ PREA Working Group FAQ on the definition of a housing unit: How is a "housing unit" defined for the purposes of the PREA Standards? The question has been raised in particular as it relates to facilities that have adjacent or interconnected units. The most common concept of a housing unit is architectural. The generally agreed-upon definition is a space that is enclosed by physical barriers accessed through one or more doors of various types, including commercial-grade swing doors, steel sliding doors, interlocking sally port doors, etc. In addition to the primary entrance and exit, additional doors are often included to meet life safety codes. The unit contains sleeping space, sanitary facilities (including toilets, lavatories, and showers), and a dayroom or leisure space in differing configurations. Many facilities are designed with modules or pods clustered around a control room. This multiple-pod design provides the facility with certain staff efficiencies and economies of scale. At the same time, the design affords the flexibility to separately house inmates of differing security levels, or who are grouped by some other operational or service scheme. Generally, the control room is enclosed by security glass, and in some cases, this allows inmates to see into neighboring pods. However, observation from one unit to another is usually limited by angled site lines. In some cases, the facility has prevented this entirely by installing one-way glass. Both the architectural design and functional use of these multiple pods indicate that they are managed as distinct housing units.</p>	6

Audit Findings

Audit Narrative

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, and observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

Prior to the on-site visit, representatives from the External Auditing Branch, Program Review Division of the BOP, conducted an on-site "pre-audit" of the facility to assist with the PREA audit preparation. The results of the internal audit were discussed with the auditor prior to the on-site visit. In addition, the External Audit Branch, Program Review Division forwarded agency and institution policies and supporting documentation, including the completed Pre-Audit Questionnaire (PAQ), administrative reports, contracts, incident reports, memorandums, brochures, staff rosters, staffing plans, training information, and other reference materials for examination. Program Statements are agency-wide governing policies developed by the Bureau of Prisons and Institution Supplements stipulate institution specific guidelines when there is no agency-wide policy or when site specific policy is required to expand on agency Program Statements. Updates to the PAQ, and other issues discovered in the pre-audit phase were discussed prior to the beginning of the audit.

The on-site visit for the Prison Rape Elimination Act (PREA) audit of the Federal Correctional Institution (FCI) Loretto was conducted by The Nakamoto Group, Inc. certified auditor Robert Manville from August 27-29, 2019. The audit was originally scheduled to be conducted by James Roland, however due to a family emergency, the audit was conducted by Robert Manville. All correspondences and pre-audit tasking completed by Mr. Roland were transferred to Mr. Manville and the auditors discussed the upcoming audit on August 16, 2019. Notices of the upcoming audit and the Auditor's contact information were posted throughout the institution on June 24, 2019. The facility updated auditor name on Audit Notice postings on August 16, 2019. This is the third PREA audit for this facility. Upon arrival at the facility, an in-briefing meeting was held with the Warden, Associate Warden-Operations/Institution PREA Compliance Manager (IPCM), Associate Warden-Programs, Executive Assistant, Captain, several department heads, correctional officers, support staff, an American Correctional Association (ACA) Auditor, and a representative from the BOP Program Review Division. The standards used for this audit became effective August 20, 2012.

The tour of the FCI/SCP included the intake processing areas, all housing units, the Special Housing Unit (SHU), the Health Services Department, Recreation, Food Service, facility support areas, Education, visiting rooms and programming areas. During the tour, it was noted that there were sufficient staffing to ensure a safe environment for inmates and staff. Signs were posted, in English and Spanish, that indicated employees of the opposite gender were present in the housing units. Inmates can shower, dress and use the toilet without exposing themselves to employees of the opposite gender. Postings, regarding PREA violation reporting

and the agency's zero-tolerance policy toward sexual abuse and sexual harassment were prominently displayed in all housing units, meeting areas and throughout the facility. Audit notice postings with the PREA auditor's contact information were in the same areas. These notices were posted on June 24, 2019. The auditor received three confidential correspondence from inmates who was interviewed during the onsite portion of the audit.

A total of eighteen randomly selected correctional staff members were interviewed, to include staff from the FCI and SCP. All BOP employees at the institution are considered correctional workers. Correctional officers and lieutenants from all shifts were included in the interview process. All were aware of the agency's zero-tolerance policy and their responsibilities to protect inmates from sexual abuse/sexual harassment and could explain their new employee and annual PREA training and their duties as first responders as part of a coordinated response. The Agency Director, Agency PREA Coordinator and Agency Contract Administrator had been previously interviewed (the auditor is in receipt of the completed interview questionnaires). All required specialized staff members were also interviewed and included the Warden, the IPCM, the Chief of Psychology Services, one investigator, the Human Resource Specialist, Intake staff, the SHU Lieutenant, the Health Services Administrator, Reentry Coordinator, two contractors, and a local hospital Emergency Room Nurse. In addition, a victim advocate representative, that serves the facility, was also interviewed. All interviewed staff, and contractors demonstrated an understanding of the PREA and their responsibilities under this program, relative to their position in or with the organization and employment status. One staff member declined to be interviewed.

A total of forty-seven inmates were selected to be interviewed. The interviewed inmates were of various ages, nationalities and ethnic backgrounds. The interviews (targeted inmates) included five inmates who self-identified as being transgender, one who self-identified as being gay and four inmates who reported being previous victims of sexual abuse (at intake). No inmates self-identified as being bisexual and/or intersex. Three limited English proficient (LEP), and six disabled inmates (three with cognitive disabilities and three with physical disabilities) were also included in the group of inmates interviewed. Two inmates housed in the SHU were interviewed. The Auditor also interviewed inmates who were randomly selected from each of the housing units. There were no inmates in Protective Custody for any PREA related issue. The facility does not place alleged victims or those considered to be of high risk of victimization in the SHU. Overall, all inmates interviewed demonstrated a good understanding of the PREA compliance program, the intake screening process, the prevention and protection process and reporting mechanisms. The inmates further stated that staff members were responsive to their needs and that they felt safe at the facility. One transgender inmate refused to be interviewed.

The auditor received three letters from inmates at FCI Loretto and they were interviewed. One letter was from a self-identified transgender inmate involving his housing placement disregarding his safety, and information using the term "homosexuality" contained in the inmate Admissions and Orientation Handbook. Upon review of the issues raised, the inmate indicated that he was satisfied with his roommate and the handbook was updated to remove any derogatory information. Four other self-identified transgender inmates were satisfied with their roommates and stated they were allowed to help determine their room assignment and could talk to their unit manager about room assignments. The Case Management Coordinator and a Clinical Psychologist were interviewed and reported that the facility maintains a roster of

inmates who claim victimization, who are considered to be subject to victimization, and/or considered to be predators. The classification process uses the list to ensure an inmate's safety in housing and room placement. One letter was from an inmate who complained that a gay correctional officer is allowed to conduct pat down searches. He stated he had filed an administrative remedy because the gay officer touched his private area while conducting a pat down search. A preliminary investigation did not find an intentional touching during the pat search. Inmate agreed that the touching may have been unintentional however, he feels that the BOP should require gay staff to announce that they are gay prior to conducting a pat down search. A review of policies and local procedures raised by the inmate found that the agency and local procedures comply with PREA standards. The third letter was determined to be a non PREA issue.

Investigations

During the audit period, there were two reported allegations of sexual abuse/sexual harassment and each case was investigated. A review of the investigative packets revealed that the investigations were complete and met the requirements of the standard. The cases were found to be unsubstantiated.

Facility Characteristic

The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

FCI Loretto, is part of the Federal Bureau of Prisons, a division of the United States Department of Justice. The facility is located in western Pennsylvania, approximately 90 miles east of Pittsburgh. The facility is part of the Federal Bureau of Prisons' Northeast Region. The Federal Correctional Institution was previously a Seminary that was converted to a correctional facility. The Federal Correctional Institution (FCI) has three multiple occupancy housing units that accommodate low security male inmates. The FCI also has an administrative and disciplinary special housing unit that has 24 cells. The cells are two person cells that can be converted to a one-person cell, if required. The adjacent Satellite Prison Camp (SCP) has a single dormitory style housing unit that accommodates minimum security inmates. The facility occupies approximately 134 acres and has 27 acres within the secure perimeter. The average daily population for the last 12 months for the FCI/SCP was 982 inmates. The facility does not house youthful offenders.

Inmates arrive to the facility from other facilities by the FBOP bus system, by the Justice Prisoner and Alien Transport System (JPATS), and through self-commitments. New arrivals receive printed information regarding the facility's PREA program and watch a video that provides additional information about the program. The facility offers medical, dental, mental health, and social services. The design of the prison permits inmates to shower, change clothes and use toilet facilities with an adequate degree of privacy which avoids cross-gender viewing. Inmates requiring health care beyond the scope of services provided in the facility are transported to community providers and/or the local hospital. Following allegations of sexual

abuse/assault, forensic examinations are conducted by certified SANE/SAFE provider at the University of Pittsburgh Medical Center, in Altoona, Pennsylvania. Follow up medical and mental health care, testing and treatments are delivered by providers at FCI Loretto.

The facility has three housing units that are made up of two man, four man and six man rooms. Each of the housing units are managed by a unit manager that manages the day to day operations of the inmates assigned. At the end of each housing unit is a private shower with curtains in the front of each shower. The toilets areas have privacy stalls with a door which provides adequate privacy. Female staff members announce their presence when they enter the living areas. There were no blind spots noted in any of the housing units.

The Special Housing Unit (SHU) has 24 cells that are utilized to meet the management needs of the inmate population. There was adequate staff to provide inmate supervision. The SHU has a sally port that requires additional credentialing to be authorized access to enter this area. There were zero-tolerance posters found in several areas of the SHU. The inmates housed in the SHU have access to TRULINCS for reporting PREA allegations.

The Receiving/Discharge area has holding cells with partitions for inmates to use restrooms in privacy. There is also an area for strip searches and for inmates to change clothes in privacy. There are offices located in this area which allow private interviews to be conducted. There were zero-tolerance posters displayed in the intake area.

The Health Services Department contains treatment rooms, four observation rooms, an inmate companion room, a pharmacy, an X-ray room and dental offices. There is a bulletin board that contains PREA information located in the waiting area. There are correctional officers assigned to the area whenever inmates are present. The health unit is operational 16 hours a day with staff available for call back during off duty hours.

There are two recreation areas located within the facility. These recreational areas include a gymnasium, activity center, exercise equipment, hobby craft rooms, music rooms and an outside recreation area. There is a computer area that inmates can utilize to access leisure gaming. This area can also be utilized for inmates to access the TRULINCS email system. Zero-tolerance posters are located throughout the recreation area. The bathroom areas in each of the recreational areas include partitions and doors to provide privacy. There were PREA information boards in each of the recreational areas.

The Education building contains classrooms and support services. The Education Department provides various programs for the inmates, including:

- General Educational Development (GED)
- Adult Continuing Education (ACE)
- Advanced Occupational Education
- English as a Second Language
- Release Readiness Program
- Law Library
- Leisure Library

The Psychology Department contains a small conference room and individual offices for staff. There is a bulletin board that includes several information posters for inmates and a hotline number for PREA complaints.

The Religious Services Department consists of a chapel area, group rooms, music area and offices. There were PREA posters located in the religious services hallway and in the front entrance area. There were no blind spots noted in this area.

The Food Service Department has a large dining room with a food service preparation area attached. Except for the staff dining room, all areas of food service are under constant surveillance with cameras, mirrors or staff supervision. There are zero-tolerance posters in all food service areas.

The Laundry is supervised by correctional staff and employs inmate workers. The laundry is under continuous supervision and is monitored by cameras and mirrors. There were no blind spots noted in the laundry. The laundry area had a bulletin board with PREA information including zero-tolerance and PREA audit notices.

The SCP is comprised of approximately 12 acres, with one structure. The building houses the Visiting Room, Education, Unit Management, Food Service, officer station, Psychology Services, Health Services and inmate housing. The housing unit has showering and dressing areas that provide privacy for inmates to dress and change clothing without being viewed by a staff member of the opposite gender. There were no blind spots noted at the Camp.

The areas listed below were also toured by the auditor. These areas have privacy bathrooms and PREA posters located in conspicuous places. There are cameras and mirrors strategically placed which provide additional supervision of the inmates assigned to work in these areas.

Auditor Overall Compliance Determination

Exceeds Standard (*Substantially exceeds requirement of standards*)

- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Program Statement (PS) 5324.12, Sexually Abusive Behavior Prevention and Intervention Program, pages 2, 13, 24, 26, 27, 28 & 49, clearly meets the mandates of this standard. The agency's zero-tolerance against sexual abuse is clearly established and the policy also outlines the agency's approach to preventing, detecting and responding to sexual abuse and sexual harassment allegations. The Associate Warden serves as the Institution PREA Compliance Manager (IPCM). In addition to the IPCM, there is a designated National PREA Coordinator and a PREA Coordinator assigned to each regional office in the agency to ensure adherence to the PREA. The IPCM reports directly to the Warden.

Zero-tolerance posters are displayed throughout every area of the institution. The agency and institution policies outline a zero-tolerance for all forms of sexual abuse and sexual harassment. Inmates are informed orally about the zero-tolerance policy and the PREA program during in-processing and are required to view a video during additional admission and orientation presentations. The video is offered in English and in Spanish. Additional program information is contained in the A&O Handbook, the Sexually Abusive Behavior Prevention and Intervention Pamphlet (SABPIP) and postings distributed throughout the facility (observed during the tour). All written documents are available in English and Spanish. Additional interpretive services are available for inmates who do not speak or read English. Both institution staff and inmates are provided with a wealth of opportunities to become aware of PREA policies and procedures. All employees receive initial training and annual training, as well as updates throughout the year. The institution meets the standards with all the programs they have implemented to ensure the inmates and staff understand its position on zero-tolerance. Compliance was determined by review of pamphlets, orientation power point presentations, posters and interviews with staff, contractors, volunteers and inmates.

Standard 115.12: Contracting with other entities for the confinement of inmates

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.12 (a)

- If this agency is public and it contracts for the confinement of its inmates with private agencies

or other entities including other government agencies, has the agency included the entity's obligation to comply with the PREA standards in any new contract or contract renewal signed on or after August 20, 2012? (N/A if the agency does not contract with private agencies or other entities for the confinement of inmates.) Yes No NA

115.12 (b)

- Does any new contract or contract renewal signed on or after August 20, 2012 provide for agency contract monitoring to ensure that the contractor is complying with the PREA standards? (N/A if the agency does not contract with private agencies or other entities for the confinement of inmates.) Yes No NA

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The agency and facility meet the mandates of this standard. A review of the documentation submitted substantiates that the agency and facility require the entities which they contract for the confinement of inmates (privatized prisons and residential reentry centers or "halfway houses") to adopt and comply with the PREA standards. All agency contractual agreements were modified effective February 1, 2013, to incorporate the language requiring contractors to adopt and comply with PREA standards. FCI Loretto does not individually contract for the confinement of inmates.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 3000.03, Human Resource Management Manual, pages 8-12, PS 5324.12, page 17, the staffing report and the Workforce Utilization Committee meeting minutes address the mandates of this standard. Quarterly Workforce Utilization minutes are on file at the facility and a copy was provided during the onsite audit.

Agency policy requires each facility to review the staffing plans on an annual basis. Interviews with the Warden and executive staff revealed compliance with the PREA, and that other safety

and security issues are always a primary focus when they consider and review their respective staffing plans. In addition to the quarterly Workforce Utilization meeting, the facility also has a staffing report that is developed for each pay period. This report includes the number of positions authorized, the number filled, the number vacant, recruitment efforts and any staffing concerns during the pay period. At the time of the audit, the facility had 97 correctional positions with only four vacancies. The Warden meets weekly with her executive staff, including the Business Manager, Captain, SIS Lieutenant and the Human Resource Manager (HRM) to address staffing issues as they relate to the PREA.

The institution has been provided with all necessary resources to support the programs and procedures to ensure compliance with the PREA standards. The audit included an examination of all video monitoring systems; staff interviews; and rosters. Supervisory and administrative staff members routinely make unannounced rounds covering all shifts and these rounds are documented. PREA rounds are documented in Operations Lieutenants' computerized logs and at the officer's station logs for housing units.

There have been no judicial findings of inadequacy, findings of inadequacy from federal investigative agencies or findings of inadequacy from internal or external oversight bodies relevant to this standard. All essential posts are filled each shift and no essential posts are kept open for salary savings. When special programs are offered, staffing is increased to provide additional supervision. The review of Institution Duty Officer (IDO) unannounced PREA rounds logs confirmed that intermediate-level or higher-level supervisors, including shift supervisors and department heads, conduct and document such visits throughout the institution. Additionally, the IDO on duty during the audit was interviewed. Staff members are prohibited from alerting other employees regarding unannounced rounds. Interviews with inmates and housing unit officers also confirmed that random, unannounced rounds are conducted by Institution Duty Officers daily, including nights and weekends. PREA rounds are documented in Operations Lieutenants' computerized logs and in the logbook in each housing unit. Compliance with the standard was determined by staff interviews conducted during the tour of all areas of the facility, to include the Operations Lieutenants on all three shifts, the Captain, Human Resource Manager and correctional staff; reviews of documented staffing rosters, daily supervisory checks and facility workforce quarterly meeting records; pay period staffing reports and the examination of the video monitoring system. A comprehensive tour of the facility was conducted on the first day of the audit that included looking for blind spots, reviewing camera coverage and available staff in areas that inmates are assigned. Subsequently, areas of the facility were also reviewed while going through the facility to meet with staff on the first, second and third shift and to interview inmates in the Special Housing Unit (SHU).

Auditor Overall Compliance Determination

- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 5324.12, page 17 and PS 5521.06, Searches of Housing Units, Inmates, and Inmate Work Areas, page 5, address this standard. Cross-gender strip or cross-gender body cavity searches are prohibited, except in emergency situations or when performed and documented by a medical practitioner. Officers would be required to document all cross-gender strip searches and cross-gender visual body cavity searches. Interviews with staff confirmed that they were aware of the prohibition of visual body cavity or strip searches of the inmates of the opposite sex except in exigent circumstances. Staff interviews also confirmed that female officers had been trained to conduct cross-gender pat searches. Staff interviews indicated they received cross-gender pat search training during initial and annual training. The auditor observed that each unit has individual shower stalls for privacy. The facility has implemented a policy that all opposite gender staff working the units will announce themselves prior to walking the range to allow inmates the opportunity to prepare themselves from a privacy perspective. Inmates interviewed acknowledged they were allowed to shower, dress and use the toilet without being viewed by staff of the opposite gender.

Staff and most of inmates interviewed indicated employees of the opposite gender announce their presence before entering a housing unit. Unit staff also announce the possibility of opposite gender staff entering the housing units at the beginning of each shift. Additionally, the auditor observed written notifications which clearly stated the possibility of opposite gender staff routinely entering the units posted in the unit common areas. The postings were written in both English and Spanish. Staff members were aware of the policy prohibiting the search of a

transgender or intersex inmate for the sole purpose of determining the inmate's genital status. During the past 12 months, there were no exigent circumstances that required cross-gender viewing of an inmate by a staff member at the FCI/SCP. The dormitory areas have showers with curtains that provides for inmate privacy while showering. Toilet areas have partitions with doors to allow inmates to use the restroom without being viewed by staff. Based on the review of policies and notices regarding the presence of female staff in the units, observation of the showering/dressing areas and interviews with staff and inmates, it has been determined that FCI Loretto is in compliance with this standard.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 5324.12 and the Admissions and Orientation (A&O) Handbook address the requirements of the standard. Institution Supplement LOR 5324.12D, Sexually Abusive Behavior Prevention and Intervention, establishes and implements local procedures to prevent sexually abusive behavior while responding to the needs of inmates with disabilities or who are limited English proficient. The institution has established a contract with an organization in the local community to coordinate American Sign Language services for inmates who are deaf or hard of hearing and interpretive services are also available for inmates. Upon identification of an inmate with a disability which prevents them from reading or understanding inmate PREA educational materials, staff conducting initial intake screenings coordinate with other staff as needed to obtain appropriate accommodations addressing the inmate's disability.

Through policy and practice, institution staff ensure that inmates with all disabilities listed in 115.16a have an equal opportunity to participate in and benefit from all aspects of the Agency's efforts to prevent, detect and respond to sexual abuse and sexual harassment. The disabled inmates interviewed stated they were instructed about PREA compliance and felt safe from sexual abuse/harassment. All PREA related written information, including postings, brochures and handouts are available in English, Spanish and other languages. Staff also may read information to inmates when necessary. The facility does not rely on inmate interpreters, inmate readers or other types of inmate assistants in the performance of first responder duties or during the investigation of an inmate's sexual abuse/sexual harassment allegations. Interviews with first responders, medical, mental health and investigative staff confirmed their awareness of the prohibition of using inmate interpreters for PREA compliance functions. Interviews with three non-English proficient inmates confirmed the availability and use of the staff interpreters and telephonic interpretive services. Interviews with staff and inmates and an examination of policy/supporting documentation also confirm compliance with this standard. The facility also employs staff who are bi-lingual in languages other than English. Compliance with this standard was confirmed by review of policies, review of supportive documentation, interviews with staff and disabled inmates.

All employees who have contact with inmates have had a full field background investigation in addition to fingerprinting and inquiry into the FBI's National Crime Information Center (NCIC). Employee backgrounds are re-checked every five years. Contractors and volunteers who have regular contact with inmates also have criminal background checks completed prior to having contact with inmates. Volunteer and contractor background checks are repeated yearly. The facility does not hire or promote anyone who may have contact with inmates and does not enlist the services of any contractor who may

have contact with inmates who has engaged in any type of sexual abuse/sexual harassment; there are no exceptions. Nine employee files were reviewed to assess compliance with this standard. The Human Resource Manager was interviewed and stated that all components of this standard have been met. The HRM provided a voucher that is completed prior to any promotions. This voucher includes background investigative reports. Recently promoted staff files contain copies of this voucher. A tracking system is in place to ensure that updated background checks are conducted every five years. Policy clearly states the submission of false information by any applicant is grounds for termination. The agency makes its best efforts to contact all prior institution employers for information on substantiated allegations of sexual abuse or resignations occurring during a pending investigation of sexual abuse/sexual harassment involving former employees, when requested by a potential institutional employer, unless prohibited by law. Appropriate licensing and certifying agencies are notified, when professional employees are terminated for substantiated allegations of sexual abuse/sexual harassment. Compliance was determined by the review of personnel files and policies and interviews with the HRM.

Auditor Overall Compliance Determination

Exceeds Standard (*Substantially exceeds requirement of standards*)

- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 5324.12, pages 4, 5, 23 & 24; PS 6031.04, Patient Care, pages 42 & 43; LOR 5324.12D, Sexually Abusive Behavior Prevention and Intervention; Guide for First Responders/Operations Lieutenant; and PREA Checklist and Instructions address the mandates of this standard. Correctional and medical staff members were interviewed concerning this standard and all were knowledgeable of the procedures required to secure and obtain usable physical evidence when sexual abuse is alleged. Staff members were also aware that the Special Investigative Services (SIS) Lieutenant conducts investigations relative to sexual abuse/harassment allegations. Staff carry a "First Responder" card to provide reminders and expected responses to allegations of sexual abuse.

All forensic medical examinations are conducted by SAFE/SANE staff at University of Pittsburgh Medical Center (UPMC) in Altoona, Pa. An interview with the SAFE/SANE representative verified that the hospital had access to trained staff to conduct forensic examinations. The representative indicated that a SAFE/SANE is available 24 hours a day, seven days a week. The hospital representative indicated in our telephone interview that the hospital works with a victim advocacy group located at the hospital to provide advocacy services including staff to accompany inmates that have been sexually abused. The facility attempted to implement a MOU with UPMC rape crisis center. While the hospital and rape crisis center will provide advocacy services while an inmate is at the hospital, they would not continue the services when inmate is released. Therefore, the facility has a MOU with Victim Services, Inc. to provide follow up victim advocacy services and counseling services when the inmate returns to the institution. The Chief of Psychology Services indicated that he and other institution psychologists are trained as advocates and would report to the institution and escort the inmate that has alleged sexual abuse to the hospital. There were no forensic examinations conducted during the past 12 months.

The representative from Victim Services, Inc. stated that all staff have been trained in providing advocacy services and completed background checks to provide services in the prison. The Victim Services, Inc. works with Pennsylvania Coalition Against Rape (PCAR) for training and outpatient services. Ways of reporting or contacting Victim Services or the National Sexual Assault Hotline are located on PREA posters and in the A&O Handbook.

The institution exceeds the requirements of this standard based on the institution working with the SANE/SAFE at the medical center and developing a community based relationship to

continue services once inmate is released from the medical center and returned to the prison. This Auditor confirmed services through telephone interviews with Victim Services, Inc., UPMC SANE staff, review of memo from IPCM, a review of the MOU, and interviews with the HSA and first responders.

- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 5324.12, pages 43, 44, & 45 and the FBI Memorandum of Understanding (MOU) address the mandates of this standard. Administrative and criminal investigations are completed on all allegations of sexual abuse/sexual harassment. The SIS, the Office of Internal Affairs (OIA), the FBI and the OIG conduct all investigations. Normally, the FBI would conduct criminal investigations for the FCI/SCP involving inmate-on-inmate sexual abuse and the OIG would investigate staff-on- inmate criminal sexual abuse. An investigation would never be discontinued because the inmate was transferred or discharged from the facility.

The facility has an Evidence Recovery Team (ERT), which is a group of specialty trained staff who would be called to a potential crime scene to preserve evidence. A review of training documents confirmed that all investigators received instruction in conducting sexual assault investigations in confined spaces/prisons. Interviews with staff, an ERT team member and the investigator, as well as an examination of policy/supporting documentation, confirm compliance with this standard. The SIS Lieutenant was interviewed and proved very knowledgeable concerning the protocols for conducting investigations of alleged sexual abuse/sexual harassment. The BOP/FBI MOU, dated August 1996, delineates each agency's responsibilities relative to an incident involving a criminal act. There were two allegations of sexual abuse during the auditing period. An investigation was initiated and completed in accordance with the PREA standards and agency policy. The documentation related to the investigation was contained in the SIS files and was reviewed by the auditor. The facility utilizes an IPCM Information Tracking Log to ensure all required steps of the investigation are completed and are timely. The tracking log is maintained by the SIS. The information contained in the log includes the date of the allegation, name of the victim/perpetrator, SHU placement/reviews, initial two-day after-action review, full protocol, investigation outcome/date and retaliation monitoring. A review of training documents confirmed that all investigators received training in conducting sexual assault investigations in confined spaces/prisons. Interviews with staff and two investigators, as well as an examination of supporting documentation, confirm the facility's compliance with this standard.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 5324.12 and LOR 5324.12D address the requirements of the standard. All BOP employees are considered correctional workers first and may perform the same duties as correctional officers. All new employees attend training locally and at the Federal Law Enforcement Training Center in Glynco, GA. This training addresses all the topics identified in the standard. Related education and updates are provided annually during refresher training. The review of facility lesson plans, training logs and PREA Power Point presentations confirmed that the provided training also addressed all elements identified in the standard. Staff must acknowledge in writing their understanding of the PREA. Employees have PREA information noted on their desk computers (screen saver reminders) and carry a PREA first responder reference card.

A sampling of staff annual training files (12) was reviewed and contained documentation supporting compliance with this standard. All staff interviewed indicated that they received the required PREA training initially and annually. General and department head staff meetings are also held that may address PREA issues. Officers receive additional PREA training/updates when needed and officers assigned to the SHU also receive additional training. The extensive training provided and staff's knowledge of PREA requirements confirmed that the facility is compliant with this standard.

PS 5324.12, page 26; Annual Training 2019 Lesson Plan; and Annual Training 2019 Agenda/Presentation address the mandates of this standard. There are 77 volunteers and 15 contractors who have received the PREA training, to include the zero-tolerance policy, and reporting and responding requirements. The training is documented and maintained on file. Copies of training sign-in sheets and other related documents were reviewed by the auditor. One contract staff member was interviewed and indicated he had received the training and was able to discuss what they learned during the training. The Reentry Affairs Coordinator and the Chaplain manage the volunteer and contractor background checks and training program.

Compliance was verified by interviews with staff and contractors and the review of the volunteer and contractor files.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 5324.12, pages 26 & 27; A&O Handbook (English and Spanish); SABPI Pamphlet (English and Spanish) and A&O Checklist/Signature Sheets address the mandates of this standard. The facility puts forth its best efforts to educate the inmates regarding the PREA. Inmates receive information during the intake process, including a pamphlet and inmate handbook, printed in English and Spanish. A staff member goes over the pamphlet and inmate handbook during the first day of arriving at the facility. A staff member conducts an additional education program regarding the PREA for all inmates within 30 days of their arrival at the facility. If an inmate is transferred to another facility, policy requires that this training process be repeated at the new institution, as confirmed through interviews with newly arrived inmates. The program includes definitions of sexually abusive behavior and sexual harassment, prevention strategies and reporting modalities. Inmates also view a comprehensive orientation video that explains the facility's zero-tolerance policy and covers the inmate's right to be free from sexual abuse, sexual harassment and retaliation. The inmates have access to the TRULINCS computer system which also provides them with PREA information. There are PREA posters displayed

throughout the facility and in each housing unit and a "Hotline" telephone number, which may be called to report sexual abuse or sexual harassment. Since the "Hotline" telephone number is an 800-toll-free number, inmates are advised via the SABPI pamphlet to contact a member of their unit team to place the call. The OIG mailing address is listed in the A&O Handbook and posted in each housing unit for inmate correspondence concerning any sexual abuse or sexual harassment allegation.

There is also a translation language line available to LEP inmates. The auditor was provided a random sampling of A&O Checklists/Signature Sheets to verify that inmates, admitted during the auditing period, received the SABPI education and relevant written materials. All inmates are required to acknowledge completion of PREA education. During the interview process, randomly selected inmates indicated they received information about the facility's rules against sexual abuse/sexual harassment, when they arrived at the facility. They further indicated they were advised about their right not to be sexually abused/sexually harassed, how to report sexual abuse/sexual harassment and their right not be punished for reporting sexual abuse/sexual harassment. Inmates were aware of available services outside of the facility for dealing with sexual abuse.

Unit teams discuss the PREA with the inmate population during monthly interviews and during unit team meetings. Several inmates shared that PREA training was continuously provided. The determination that the facility meets the requirements of this standard was based on reviews of the inmate education program, documentation of the training and interviews with inmates and staff.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. PS 5324.12, pages 28 & 29; Annual Training Lesson Plan 2018; Introduction to Correctional Techniques; SABPIP Power Point Presentation; and 6-hour PREA Video Series address the mandates of this standard. Other training includes online specialized training for psychologists including victim advocacy training. The agency ensures all full- and part-time medical and mental health practitioners, who work regularly in its facilities, have been trained according to the practitioner's status in the Bureau. All mental health and medical staff have received the required specialized training on victim identification, interviewing, reporting and clinical interventions. During the last 12 months, mental health and medical staff received training titled “PREA for Medical and Mental Health” which was completed on June 18, 2019 and additional video training of Sexual Abuse Prevention and Intervention for Mental Health and Medical staff. Medical and mental health care staff acknowledged, in writing, that they both received and understood the training, as it relates to the PREA. Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 5324.12, pages 29-35 & 49, and LOR 5324.12D Sexually Abusive Behavior Prevention and Intervention addresses the mandates of this standard. Policies and procedures require the use of a screening instrument (reviewed by auditor) to determine proper housing, bed assignment, work assignment, education and other program assignments, with the goal of keeping inmates at high risk of being sexually abused/sexually harassed separate from those inmates who are at high risk of being sexually abusive. BOP policy requires all inmates to be screened within 72 hours of arrival; however, they are routinely screened on the day of arrival.

When inmates arrive at the facility, they enter the intake area and are told the Bureau of Prisons has a zero-tolerance policy against sexual abuse or sexual harassment. Inmates remain in the intake area until they complete three initial screenings. The Victimization screening is conducted by one of the unit staff. A medical staff conducts an initial medical screening including questions of prior sexual abuse. Additional screening is conducted by a member of the Psychology Services Department utilizing a mental health screening instrument. The three staff members share information during the screening process and establish additional follow up by appropriate staff. Within the first 30 days of arriving at the facility, the unit team meets with the inmate and discusses short-term and long-term program needs and reviews their first 30 days, and all new information that has developed or was received to ensure an appropriate treatment program.

During the team meeting, inmates are asked if they have any concerns for their safety and a review of documents relative to any victim/predator behavior is conducted. The facility has

developed a rescreening form that provides documentation that facility staff discussed additional information received at the facility or facility safety issues with the inmate. The inmate is required to sign the form, documenting the meeting. Case managers meet with inmates on a regular basis and the team will reconvene based on a case manager or psychologist's concerns and a reassessment of victimization or predator behavior will be conducted.

The unit team or psychology staff can request a reassessment based on a case manager's concerns of an inmate's victimization or predator behavior. Agency policy prohibits inmates from being disciplined for refusing to answer or for not disclosing complete information in response to questions regarding their mental/physical health, developmental disability, sexual preferences, sexual victimization history and perception of vulnerability. Housing and program assignments are made on a case-by-case basis and inmates are not placed in housing units based solely on their sexual identification or status. Interviews with unit management staff, psychologist, medical administrator, Unit Manager, inmates and a random review of 15 risk screening assessments support the finding that the facility exceeds compliance with this standard.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 5324.12 and LOR 5324.12D Sexually Abusive Behavior Prevention and Intervention addresses the requirements of the standard. Risk screening information is used to determine housing, bed, work, education and program assignments, with the goal of keeping separate those inmates at high risk of being sexually victimized from those at high risk of being sexually abusive. Determinations for these assignments are made on a case-by-case basis. Staff members assigned to conduct intake screening have been provided additional training and resource materials to complete this task. Normally, the Agency (through a committee) decides whether to assign a transgender or intersex inmate to a facility for male or female inmates. The BOP has no dedicated facilities for transgender or intersex inmates. The facility determines other housing and programming assignments for transgender or intersex inmates on a case-by-case basis, to include whether a placement would ensure the inmate’s health and safety and whether the placement would present management or security problems.

Placement and programming assignments for each transgender or intersex inmate are reassessed at least once every six months. Policy states that a transgender or intersex inmate’s own view with respect to his own safety should be given serious consideration when making these assignments. Transgender and intersex inmates are given the opportunity to shower, dress and use the toilet facilities separately from other inmates. Interview with one transgender who wrote a letter to the auditor conflicted with the facility and agency policy. However, a review of the housing plan for self-identified transgender inmates and interviews with the self-identified transgender inmates confirmed that the inmates were able to shower privately, felt safe, and their own views with respect to their safety and programming was given serious consideration. Unit, medical and mental health personnel meet on a weekly basis to

assess the status of any inmate thought to be at risk for abuse or who may be exhibiting adjustment problems. The interview with the Agency's PREA Coordinator confirmed that a transgender inmate's genital status is not the sole criteria for placement in a specific facility. Interviews with staff and inmates, to include four transgender inmates (the facility had no intersex inmates), observations of housing assignments and unit activities, as well as an examination of documentation/policy, confirm that the facility is in compliance with this standard.

Standard 115.43: Protective Custody

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.43 (a)

Yes No
- If a facility cannot conduct such an assessment immediately, does the facility hold the inmate in involuntary segregated housing for less than 24 hours while completing the assessment? Yes No

115.43 (b)

- Do inmates who are placed in segregated housing because they are at high risk of sexual victimization have access to: Programs to the extent possible? Yes No
- Do inmates who are placed in segregated housing because they are at high risk of sexual victimization have access to: Privileges to the extent possible? Yes No
- Do inmates who are placed in segregated housing because they are at high risk of sexual victimization have access to: Education to the extent possible? Yes No
- Do inmates who are placed in segregated housing because they are at high risk of sexual victimization have access to: Work opportunities to the extent possible? Yes No
- If the facility restricts any access to programs, privileges, education, or work opportunities, does the facility document the opportunities that have been limited? (N/A if the facility *never* restricts access to programs, privileges, education, or work opportunities.) Yes No NA
- If the facility restricts any access to programs, privileges, education, or work opportunities, does the facility document the duration of the limitation? (N/A if the facility *never* restricts access to programs, privileges, education, or work opportunities.) Yes No NA

115.43 (e)

Auditor Overall Compliance Determination

- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 5324.12 and LOR 5324.12D Sexually Abusive Behavior Prevention and Intervention addresses the requirements of the standard. The Special Housing Unit (SHU) houses both administrative (protective custody) and disciplinary cases. Policy states inmates at high risk for sexual victimization shall not be placed in involuntary SHU status unless an assessment of all available alternatives has been made and there is no available means of separating the victim from the abuser. No inmates were placed in this status within the last year. In practice, victims would almost never be placed in involuntary protective custody. If necessary, placement in the SHU would only be for a very short time for protection only and only to determine the facts of

the incident. If protection is necessary for an inmate, they may be transferred to another housing area or facility. All inmates are reassessed by a committee every seven days after entering the SHU. Interviews with SHU officers and a SHU Acting Lieutenant confirm that to the extent possible, access to programs, privileges, education and work opportunities are not limited to inmates placed in the SHU for the purpose of PREA protective custody, except when there is a safety or security concern. The facility would document the reasons for restricting access and the length of time the restriction would last. Mental health and unit staff meet with each inmate in SHU status at least once each week. A Safeguarding of Inmates Alleging Sexual Abuse/Assault Allegation Form is completed when considering all appropriate alternatives for safeguarding alleged inmate victims. Interviews with staff (including SHU assigned staff), an examination of SHU operations and an examination of policy/documentation confirm compliance with this standard.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 5324.12, page 36 a-d; PREA Notices; and the A&O Handbook (English and Spanish) address the mandates of this standard. A review of supportive documentation and staff/inmate interviews indicated that there are multiple ways (verbally, in writing, anonymously, privately, and from a third party) for inmates to report sexual abuse/sexual harassment. The facility has procedures in place for staff to document all allegations. Throughout the facility, there are posters and other documents on display which also explain reporting methods. During the tour, several TRULINCS computers were observed in each housing unit. Inmates were able to demonstrate to the auditor how to log into the TRULINCS computer system and how they would file a PREA complaint.

Staff members promptly accept and document all verbal, written, anonymous, private and third-party reports of alleged sexual abuse/ harassment. Family and friends of inmates may report sexual abuse/sexual harassment by using the BOP website, contacting the OIG or institution staff. All interviewed inmates confirmed awareness of the multiple methods of reporting sexual abuse/sexual harassment allegations. Inmates at the facility are not detained solely for civil immigration purposes. Interviews with staff and inmates, the observation of posters addressing reporting methods and an examination of policy/documentation confirm the facility's compliance with this standard.

Standard 115.52: Exhaustion of administrative remedies

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.52 (a)

- Is the agency exempt from this standard? NOTE: The agency is exempt ONLY if it does not have administrative procedures to address inmate grievances regarding sexual abuse. This does not mean the agency is exempt simply because an inmate does not have to or is not ordinarily expected to submit a grievance to report sexual abuse. This means that as a matter of explicit policy, the agency does not have an administrative remedies process to address sexual abuse. Yes No

115.52 (b)

- Does the agency permit inmates to submit a grievance regarding an allegation of sexual abuse without any type of time limits? (The agency may apply otherwise-applicable time limits to any portion of a grievance that does not allege an incident of sexual abuse.) (N/A if agency is exempt from this standard.) Yes No NA
- Does the agency always refrain from requiring an inmate to use any informal grievance process, or to otherwise attempt to resolve with staff, an alleged incident of sexual abuse? (N/A if agency is exempt from this standard.) Yes No NA

115.52 (c)

- Does the agency ensure that: An inmate who alleges sexual abuse may submit a grievance without submitting it to a staff member who is the subject of the complaint? (N/A if agency is exempt from this standard.) Yes No NA
- Does the agency ensure that: Such grievance is not referred to a staff member who is the subject of the complaint? (N/A if agency is exempt from this standard.) Yes No NA

115.52 (d)

- Does the agency issue a final agency decision on the merits of any portion of a grievance alleging sexual abuse within 90 days of the initial filing of the grievance? (Computation of the 90-day time period does not include time consumed by inmates in preparing any administrative appeal.) (N/A if agency is exempt from this standard.) Yes No NA
- If the agency claims the maximum allowable extension of time to respond of up to 70 days per 115.52(d)(3) when the normal time period for response is insufficient to make an appropriate decision, does the agency notify the inmate in writing of any such extension and provide a date by which a decision will be made? (N/A if agency is exempt from this standard.) Yes No NA
- At any level of the administrative process, including the final level, if the inmate does not receive a response within the time allotted for reply, including any properly noticed extension, may an

inmate consider the absence of a response to be a denial at that level? (N/A if agency is exempt from this standard.) Yes No NA

115.52 (e)

- Are third parties, including fellow inmates, staff members, family members, attorneys, and outside advocates, permitted to assist inmates in filing requests for administrative remedies relating to allegations of sexual abuse? (N/A if agency is exempt from this standard.)
 Yes No NA
- Are those third parties also permitted to file such requests on behalf of inmates? (If a third-party files such a request on behalf of an inmate, the facility may require as a condition of processing the request that the alleged victim agree to have the request filed on his or her behalf, and may also require the alleged victim to personally pursue any subsequent steps in the administrative remedy process.) (N/A if agency is exempt from this standard.) Yes No NA
- If the inmate declines to have the request processed on his or her behalf, does the agency document the inmate's decision? (N/A if agency is exempt from this standard.)
 Yes No NA

115.52 (f)

- Has the agency established procedures for the filing of an emergency grievance alleging that an inmate is subject to a substantial risk of imminent sexual abuse? (N/A if agency is exempt from this standard.) Yes No NA
- After receiving an emergency grievance alleging an inmate is subject to a substantial risk of imminent sexual abuse, does the agency immediately forward the grievance (or any portion thereof that alleges the substantial risk of imminent sexual abuse) to a level of review at which immediate corrective action may be taken? (N/A if agency is exempt from this standard.)
 Yes No NA
- After receiving an emergency grievance described above, does the agency provide an initial response within 48 hours? (N/A if agency is exempt from this standard.) Yes No NA
- After receiving an emergency grievance described above, does the agency issue a final agency decision within 5 calendar days? (N/A if agency is exempt from this standard.)
 Yes No NA
- Does the initial response and final agency decision document the agency's determination whether the inmate is in substantial risk of imminent sexual abuse? (N/A if agency is exempt from this standard.) Yes No NA
- Does the initial response document the agency's action(s) taken in response to the emergency grievance? (N/A if agency is exempt from this standard.) Yes No NA
- Does the agency's final decision document the agency's action(s) taken in response to the emergency grievance? (N/A if agency is exempt from this standard.) Yes No NA

115.52 (g)

- If the agency disciplines an inmate for filing a grievance related to alleged sexual abuse, does it do so ONLY where the agency demonstrates that the inmate filed the grievance in bad faith? (N/A if agency is exempt from this standard.) Yes No NA

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 1330.18, Administrative Remedy Program, pages 1, 2, 14, 15 &16, and LOR 5324.12D Sexually Abusive Behavior Prevention and Intervention addresses the mandates of this standard. All allegations of sexual abuse/sexual harassment, when received by staff, will immediately be referred for investigation. Inmates are not required to use an informal grievance process and procedures also allow an inmate to submit a grievance alleging sexual abuse/sexual harassment without submitting it to the staff member who is the subject of the complaint. Additionally, policy prohibits the investigation of the allegation by either staff alleged to be involved in the incident or any staff who may be under their supervision. Policy states that there is no time frame for filing a grievance relating to sexual abuse/sexual harassment. Allegations of physical abuse by staff shall be referred to the OIA, in accordance with procedures established for such referrals.

Policy also addresses the filing of emergency administrative remedy requests. If an inmate files the emergency grievance with the institution and believes he is under a substantial risk of imminent sexual abuse, an expedited response is required to be provided within 48 hours. Best efforts are made to provide Regional Office and Central Office expedited appeal responses within five calendar days. If an inmate reasonably believes the issue is sensitive and the inmate's safety or well-being would be placed in danger, if the remedy became known at the institution, the inmate may submit the remedy directly to the appropriate Regional Office.

There is no prohibition that limits third parties, including fellow inmates, staff members, family members, attorneys and outside victim advocates in assisting inmates in filing requests for grievances relating to allegations of sexual abuse or filing such requests on behalf of inmates. There were no grievances filed involving PREA related issues during the past 12 months. There were no grievances alleging sexual abuse/harassment that involved an extension due to the final decision not being reached within 90 days. Additionally, there were no grievances

alleging sexual abuse/harassment filed by inmates in which the inmate declined third-party assistance. Inmates are held accountable for manipulative behavior and false allegations. Disciplinary action would generally be taken if a grievance was filed in bad faith. Compliance was determined by review of policy and grievance logs, as well as an interview with the Grievance Coordinator.

Standard 115.53: Inmate access to outside confidential support services

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.53 (a)

- Does the facility provide inmates with access to outside victim advocates for emotional support services related to sexual abuse by giving inmates mailing addresses and telephone numbers, including toll-free hotline numbers where available, of local, State, or national victim advocacy or rape crisis organizations? Yes No
- Does the facility provide persons detained solely for civil immigration purposes mailing addresses and telephone numbers, including toll-free hotline numbers where available of local, State, or national immigrant services agencies? (N/A if the facility *never* has persons detained solely for civil immigration purposes.) Yes No NA
- Does the facility enable reasonable communication between inmates and these organizations and agencies, in as confidential a manner as possible? Yes No

115.53 (b)

- Does the facility inform inmates, prior to giving them access, of the extent to which such communications will be monitored and the extent to which reports of abuse will be forwarded to authorities in accordance with mandatory reporting laws? Yes No

115.53 (c)

- Does the agency maintain or attempt to enter into memoranda of understanding or other agreements with community service providers that are able to provide inmates with confidential emotional support services related to sexual abuse? Yes No
- Does the agency maintain copies of agreements or documentation showing attempts to enter into such agreements? Yes No

Auditor Overall Compliance Determination

Does Not Meet Standard (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 5324.12 addresses the requirements of the standard. Although the facility does house inmates who have immigration detainees, no inmates placed in this facility are incarcerated solely for civil immigration purposes. The facility has successfully entered into an agreement with Victim Services Inc., a local advocacy group to provide emotional support services related to sexual abuse (confirmed through a telephone interview with a victim advocate representative from the agency). Institution psychology staff have also been trained as victim advocates. Inmates are informed as part of their orientation process that all telephone calls (except properly placed legal calls) are subject to monitoring and recording and that all mail, except for legal mail, is subject to monitoring as well. Inmates are informed that emails to the Office of the Inspector General through TRULINCS - Request to Staff tab and selecting the Department Mailbox titled DOJ Sexual Abuse are not monitored by the facility or BOP.

The PREA pamphlet and the A&O handbook provide inmates information on how to report confidential allegations of sexual abuse or sexual harassments. The facility enables reasonable communication between inmates, organizations, and agencies in as confidential a manner as possible. Interviews with staff and inmates, auditor observation of postings in the housing unit, interviews with the local victim advocates and an examination of policy/documentation confirm compliance with this standard.

Standard 115.54: Third-party reporting

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.54 (a)

- Has the agency established a method to receive third-party reports of sexual abuse and sexual harassment? Yes No
- Has the agency distributed publicly information on how to report sexual abuse and sexual harassment on behalf of an inmate? Yes No

The SABPI pamphlet (English and Spanish); A&O Handbook (English and Spanish); PREA posters: How You Can Report (English and Spanish); the OIG address; and BOP website: (www.bop.gov) meet the mandates of this standard. The website and posted notices assist in the third-party reporting of sexual abuse/sexual harassment allegations. The inmates interviewed indicated they were aware of third-party reporting and would feel more comfortable reporting an incident of sexual abuse to someone outside the facility. A National Sexual Abuse Hotline (800-656-HOPE) is also available to the inmate population for reporting incidents of sexual abuse/sexual harassment. Compliance was determined by review of policy, posters, and the TRULINCS email system and a call to the National Sexual Abuse Hotline. The facility was required to post PREA posters: How You Can Report in the visitation room to provide readily available information to inmate visitors. The posting was verified during the on-site audit.

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 5324.12, pages 37 & 38, addresses the mandates of this standard. Staff, contractors and volunteers must report and respond to allegations of sexually abusive behavior, regardless of the source of the report. Interviewed staff members were aware of their duty to immediately report all allegations of sexual abuse, sexual harassment and retaliation relevant to the PREA standards. The reporting is ordinarily made to the Shift Operations Lieutenant but could be made privately or to a third party (FBI, OIG or OIA). Policy requires the information concerning the identity of the alleged inmate victim and the specific facts of the case be shared with staff on a need-to-know basis, because of their involvement with the victim's welfare and/or the investigation of the incident. The facility does not house inmates under the age of 18. A review

of established policy and interviews with staff members, support the finding that the facility is in compliance with this standard.

Standard 115.62: Agency protection duties

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.62 (a)

- When the agency learns that an inmate is subject to a substantial risk of imminent sexual abuse, does it take immediate action to protect the inmate? Yes No

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 5324.12, page 38, addresses the mandate of this standard. Interviewed staff members were aware of their duties and responsibilities when they become aware or suspect an inmate is being or has been sexually abused or sexually harassed. All staff indicated they would act immediately to protect the victim, to include separating the victim/predator, securing the scene to protect possible evidence, preventing the destruction of potential evidence and contacting the Operations Lieutenant and medical staff. In the past 12 months, there was no instance in which institution staff members determined that an inmate was subject to a substantial risk of imminent sexual abuse. A review of the investigations and interviews with the inmate and staff confirm that, according to the requirements of the standard, facility staff protect the inmate victim and separate victim from the alleged predator.

Standard 115.63: Reporting to other confinement facilities

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.63 (a)

- Is such notification provided as soon as possible, but no later than 72 hours after receiving the allegation? Yes No

115.63 (c)

- Does the agency document that it has provided such notification? Yes No

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 5324.12, pages 39 & 40, addresses the mandates of this standard. Policy requires that any inmate allegation of sexual abuse that occurred while confined at another facility be reported to the head of the facility where the alleged abuse occurred within 72 hours of receipt of the allegation. Procedures are in place that require the Warden to immediately notify the Chief Executive Officer of the other confinement facility, in writing, of the nature of the sexual abuse allegation. When the inmate reports sexual abuse/sexual harassment from state, non-Bureau privatized facilities, jails, juvenile facilities, or Residential Reentry Centers, the Warden contacts the appropriate office of the facility and/or notifies the Residential Reentry Management Branch of the BOP, if appropriate. The notification is to occur as soon as possible, but always within 72 hours of receiving the allegation. Policy also requires that an investigation be initiated. In the past 12 months, there was no allegation from an inmate that he was abused while confined at another facility. Compliance was determined through review of agency policy and interviews with IPCM and Warden.

Standard 115.64: Staff first responder duties

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 5324.12 and LOR 5324.12D Sexually Abusive Behavior Prevention and Intervention address the requirements of the standard. Policy and several documents such as the PREA card provided to all staff which gives initial guidance to employees regarding the expected coordinated actions to take place in response to an incident of sexual abuse/sexual harassment. The BOP has developed and implemented a first responder check list that Operations Lieutenants use to aid in their response to allegations of sexual abuse/sexual harassment, as confirmed through interviews. The policies and information provide direction to correctional staff, medical/mental health practitioners, investigators, staff and community victim advocates, the forensic examination service providers and facility leadership. Staff and community service provider interviews confirmed that they were knowledgeable regarding their responsibilities in the coordinated response. An examination of policy/documentation also confirms compliance with this standard.

Standard 115.65: Coordinated response

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.65 (a)

PS 5324.12 and DOJ/BOP One Source First Responder Reference Guide and LOR 5324.12D Sexually Abusive Behavior Prevention and Intervention address the mandates of this standard. The policies were reviewed by the auditor. The policy specifies the guidelines and procedures that prevent sexual abuse/sexual assault and provide for prompt and effective intervention, in the event a case of abuse or assault occurs. The policy also includes procedures for the reporting, protecting, physical care, psychological crisis intervention, crime scene preservation, and after action review. The One Source First Responder Reference

Guide was developed to assist staff in responding to allegations of prohibited and/or illegal sexually abusive behavior. Compliance was determined through the review of policies, the First Responder Reference Guide and investigative files; interviews with the SIS Lieutenant, correctional staff, victim advocate; and conversations with case managers, Human Resource Manager and IPCM.

Standard 115.66: Preservation of ability to protect inmates from contact with abusers

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.66 (a)

- Are both the agency and any other governmental entities responsible for collective bargaining on the agency's behalf prohibited from entering into or renewing any collective bargaining agreement or other agreement that limits the agency's ability to remove alleged staff sexual abusers from contact with any inmates pending the outcome of an investigation or of a determination of whether and to what extent discipline is warranted? Yes No

115.66 (b)

The Collective Bargaining Agreement (CBA), examined by the auditor, between the BOP and the Council of Prison Locals, American Federation of Government Employees, dated July 21, 2014-July 20, 2017, and the local supplement agreement with Local 3951 complies with this standard. The agreement does not limit the agency's ability to remove alleged staff sexual abusers from contact with any inmates pending the outcome of an investigation or of a determination of whether and to what extent discipline is warranted. The Warden and Human Resource Manager were interviewed and verified information provided during the Pre- Audit

Questionnaire. There were no incidents requiring protection for inmates from staff during the last 12 months. Compliance was confirmed through review of the Collective Bargaining Agreement and interviews with administrative staff.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 5324.12, pages 43 & 44 a-e, address the mandates of this standard. The policy prohibits any type of retaliation against any staff or inmate who reports sexual abuse or sexual harassment or cooperates in related investigations. The IPCM is charged with monitoring

retaliation. During the interview, the IPCM stated he follows up on all 30-, 60- and 90-day reviews to ensure policy is being enforced. He stated he would conduct periodic status checks on the frequency of incident reports, housing reassignments, program changes, any negative consequences for reporting abuse and negative performance reviews/staff job reassignments. In the event of possible retaliation, IPCM indicated he would monitor the situation indefinitely. There were two (2) incidents that included investigation and retaliation protocol. The investigative files included documentation of contacts with staff psychologists, IPCM and SIS Lieutenant and dates that inmate was interviewed to monitor retaliation. Compliance with this standard was determined by a review of established policy and supporting documentation and staff interviews.

Standard 115.68: Post-allegation protective custody

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.68 (a)

- Is any and all use of segregated housing to protect an inmate who is alleged to have suffered sexual abuse subject to the requirements of § 115.43? Yes No

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 5324.12 addresses the requirements of the standard. Policy requires staff to consider all appropriate alternatives for safeguarding alleged inmate victims of sexual abuse/sexual harassment. Staff must first consider other alternatives based on the circumstances of the allegation before considering the placement of an inmate in protective custody (SHU), placing him in another housing unit or transferring the inmate to another facility. To aid in that decision, policy requires the facility to complete the BOP's Safeguarding of Inmates Alleging Sexual Abuse/Assault Allegation Form. The form serves to document consideration of all options. Interviews with staff and the tour of the facility confirmed that there are viable alternatives to placing victims of sexual abuse/sexual harassment in involuntary segregated housing (SHU). In practice, inmates would almost never be placed in this status. To the extent possible, access to programs, privileges, education and work opportunities would not be limited to

inmates placed in the SHU for the purpose of protective custody. If restrictions were imposed, the reasons would be documented for restricting access and the length of time the restrictions would last. There were no inmates placed in post-allegation protective custody status within the last twelve months. Compliance with this standard was determined by a review of policy and documentation, as well as staff interviews including shift operations lieutenants, SHU acting lieutenant, IPCM and the warden.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 5324.12 addresses the requirements of the standard. The facility investigator (SIS Lieutenant) may conduct administrative investigations at the FCI/SCP and were interviewed by the auditor. When an allegation appears to be criminal in nature, the SIS, in conjunction with the BOP’s Office of Internal Affairs and the facility Warden, will refer the incident to the FBI for a criminal investigation, if the investigation involves an inmate-on-inmate allegation. Staff-on-inmate criminal investigations are normally conducted by the Office of the Inspector General. The FBI or the OIG investigator consults with the Assistant U.S. Attorney, when necessary. If the FBI or the OIG substantiates the allegation, the case is referred to the local United States Attorney for possible prosecution. Although there were two completed investigations of inmate-on-inmate sexual abuse investigated over the previous 12 months, there were no referrals for criminal investigations.

The credibility of an alleged victim, suspect or witness is assessed on an individual basis and is not determined by the person’s status as inmate or staff. The Agency does not require an inmate who alleges sexual abuse to submit to a polygraph examination or other truth assessment device as a condition for proceeding with the investigation of such an allegation. The review of the completed case files of inmates alleging sexual abuse/sexual harassment revealed that all investigations were completed promptly, thoroughly and in compliance with policy. Compliance with this standard was determined by a review of policy/documentation, of all completed investigations and staff interviews, to include the investigator.

Standard 115.72: Evidentiary standard for administrative investigations

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.72 (a)

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 5324.12, page 46a, addresses the mandates of this standard. The evidence standard is a preponderance of the evidence in determining whether allegations of sexual abuse/sexual harassment are substantiated. Investigator training programs provide in-depth clarification of this standard. When interviewed, the investigator was aware of the evidence standard. The evidence standard was utilized in the case reviewed by the auditor. Compliance was determined by review of policy, investigator training curriculum, interview with the investigator and IPCM.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does

not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 5324.12, pages 45 & 46, addresses the mandates of this standard. When an allegation involves staff, the inmate would be informed if the staff member is no longer posted within their housing unit, is no longer employed at the facility, if the staff member was indicted on a charge related to sexual abuse within the facility or when the Agency learned that the staff member was convicted on a charge related to sexual abuse. These findings would also be communicated to the inmate if the investigation was completed by an outside agency (FBI or OIG). When an inmate's allegation that he or she suffered sexual abuse in an agency facility, the agency will inform the inmate as to whether the allegation has been determined to be substantiated, unsubstantiated, or unfounded. When the agency did not conduct the investigation into an inmate's allegation of sexual abuse in an agency facility, the agency request the relevant information from the investigative agency in order to inform the inmate.

When an inmate's allegation that he or she has been sexually abused by another inmate, the agency subsequently informs the alleged victim whenever the agency learns that the alleged abuser has been indicted/convicted on a charge related to sexual abuse within the facility. The inmates involved in the two investigations completed during the audit period were transferred or released from the facility before the investigations were completed. Compliance with this standard was determined by a review of policy, and staff interviews and an examination of documents that would be utilized to notify inmates.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 3420.11 and PS 5324.12 address the requirements of the standard. Staff members are subject to disciplinary action for violating Agency sexual abuse or sexual harassment policies. Discipline would be commensurate with the nature and circumstances of the acts committed, the staff member's disciplinary history and the sanctions imposed for comparable offenses by other staff with similar histories. There have been no substantiated cases of staff engaging in sexual abuse or sexual harassment in the last twelve months. The Collective Bargaining Agreement (examined by the auditor) between the Federal Bureau of Prisons and Council of Prison Locals, American Federation of Government Employees, dated July 21, 2014-July 20, 2017 (still in effect), allows for disciplinary sanctions against staff, including termination. Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 3420.11 and PS 5324.12 address the requirements of the standard. Any contractor or volunteer who engages in sexual abuse/sexual harassment would be prohibited from contact with inmates and would be reported to the appropriate investigator and law enforcement or relevant professional/licensing/certifying bodies, unless the activity was clearly not criminal in nature. In cases that were not criminal in nature, the facility would take appropriate remedial measures and consider whether to prohibit further contact with inmates. During the previous year, there were no incidents where a contractor or volunteer was suspected of, accused of, or found guilty of sexual abuse or sexual harassment at the FCI/SCP. Standard 115.78: Disciplinary sanctions for inmates

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.78 (a)

- Following an administrative finding that an inmate engaged in inmate-on-inmate sexual abuse, or following a criminal finding of guilt for inmate-on-inmate sexual abuse, are inmates subject to disciplinary sanctions pursuant to a formal disciplinary process? Yes No

115.78 (e)

- Does the agency discipline an inmate for sexual contact with staff only upon a finding that the staff member did not consent to such contact? Yes No

115.78 (f)

- For the purpose of disciplinary action does a report of sexual abuse made in good faith based upon a reasonable belief that the alleged conduct occurred NOT constitute falsely reporting an incident or lying, even if an investigation does not establish evidence sufficient to substantiate the allegation? Yes No

- If the agency prohibits all sexual activity between inmates, does the agency always refrain from considering non-coercive sexual activity between inmates to be sexual abuse? (N/A if the agency does not prohibit all sexual activity between inmates.) Yes No NA

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does

not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 5324.12, page 48, addresses the mandates of this standard. Information on inmate disciplinary sanctions is provided as part of the orientation process upon entry into the facility. Inmates interviewed indicated a good understanding of their freedom to make allegations without consequences for making good faith allegations. The Inmate Discipline Program defines sexual assault of any person, involving non-consensual touching by force or threat of force, as the greatest severity level prohibited act. The program identifies inmates engaging in sexual acts and making sexual proposals or threats to another as a high severity level prohibited act. Consensual sex or sexual harassment of any nature is prohibited and will result in discipline. Consensual sex between inmates does not constitute sexual abuse. Sanctions are commensurate with the nature and circumstances of the abuse committed, along with the inmate's disciplinary history and the sanctions imposed for comparable offenses by other inmates with similar histories.

Inmates are subject to disciplinary sanctions pursuant to the formal disciplinary process defined in the Inmate Discipline Program PS 5270.09. The disciplinary process considers whether an inmate's mental disabilities or mental illness contributed to the inmate's behavior when determining what type of sanction, if any, should be imposed. The FCI/SCP considers the offer of therapy, counseling, or other interventions designed to address and correct underlying reasons or motivations for the abuse. The institution does not discipline inmates who make an allegation in good faith, even if an investigation does not establish evidence sufficient to substantiate the allegation. There were no disciplinary actions regarding PREA violations per a memorandum from the Warden. Compliance with this standard was determined by a review of policy/documentation and the inmate discipline process, as well as staff and inmate interviews.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 5324.12, pages 29-30, 32 & 49, addresses the mandates of this standard. Interviews with medical and specialized staff confirm the institution has a very thorough system for collecting medical and mental health information and has the capacity to provide continued re-assessment and follow-up services. Inmates who disclosed prior victimization during screening were offered a follow-up meeting with a medical or mental health practitioner. Additionally, inmates who have previously perpetrated sexual abuse, as indicated during the screening,

were offered a follow-up meeting with a mental health practitioner. Treatment services are offered without financial cost to the inmate. This was confirmed by observation and a review of intake screening documents. Screening for prior sexual victimization in any setting is conducted by unit team staff during in-processing procedures. In-processing procedures also screen for previous sexually assaultive behavior in an institutional setting or in the community. During the intake process, and when requested, a unit team member, a medical provider, and a mental health staff member separately interview the incoming inmate.

During this process, mental health staff offer follow-up meetings with inmate that have history of sexual abuse or are identified as a sexual predator. When requested, staff members ensure that the inmate is offered a follow-up meeting with a mental health practitioner within 14 days of the intake screening. Information related to sexual victimization or abusiveness is limited to medical and mental health practitioners and other staff with a need-to-know for treatment plans, security, housing, work, program assignments and management decisions. Signed and dated informed consents are obtained from inmates before reporting prior sexual victimization which did not occur in an institutional setting.

The institution does not house inmates under the age of 18. All screenings are recorded in the Bureau's Electronic Medical Record and Psychology Data System. All information is handled confidentially and interviews with intake screening staff support a finding that the facility is in compliance with this standard. Compliance was confirmed by a review of policies and intake screening documents, as well as interviews with three inmates who self-identified as having experienced prior victimization during intake and inmates who self-identified as transgender requested a follow-up with the Clinical Psychologist. Compliance was determined by review of the screening instrument, interviews with Unit Manager, medical and mental health staff.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The institution has fully implemented all policies, practices and procedures outlined in the PREA standards. The auditor reviewed applicable standards and, through the review of supporting documentation, interviews with staff and inmates and the observation of physical evidence, concluded that this facility fully meets and substantially complies in all material ways with the PREA standards for the relevant review period. BOP policies are directly tied to the PREA standards and staff expectations. The agency and facility's leadership are fully committed to eliminating sexual abuse/sexual harassment, as evidenced in the realistic staffing analysis and the recommendations for enhanced supervision techniques. Substantiated allegations of abuse are processed in accordance with the standards, to include incident reviews, disciplinary actions, if required, and outcome notifications.

PREA training for staff and inmates is documented and all stakeholders receive the appropriate level of training and are knowledgeable of the intent of the PREA and the tools available to ensure prevention, detection, reporting and response to sexual abuse incidents. Sexual abuse and victimization propensity screening is well established and tracked in an organized fashion. Referrals for mental health counseling are integrated in the intake and allegations of sexual abuse processes. Medical networks for the inmates are established in the community. The public has access to reporting mechanisms and BOP PREA trends data via the BOP website. The FCI and SCP currently meet all applicable PREA standards and while clarification was required post on-site review, no corrective actions are required.

During the post on-site audit, the facility provided clarification of services provided for inmates who are transferred to the local hospital for forensic examination. This information included the forensic examination and victim advocacy provided in the review of standard 115.21.
