The OAS automatically populates the number and list of Standards exceeded, the number of Standards met, and the number and list of Standards not met.

Auditor Note: In general, no standards should be found to be "Not Applicable" or "NA." A compliance determination must be made for each standard. In rare instances where an auditor determines that a standard is not applicable, the auditor should select "Meets Standard" and include a comprehensive discussion as to why the standard is not applicable to the facility being audited.

Targeted Inmate/Resident/Detainee Interviews	
58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:	22
<p>As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".</p>	
60. Enter the total number of interviews conducted with inmates/residents/detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol:	0

Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).</p>	<p>According to staff interviews, on-site review, and inmate rosters, there were no inmates in this category being housed at this facility.</p>

SITE REVIEW AND DOCUMENTATION SAMPLING

Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

84. Did you have access to all areas of the facility?	<input checked="" type="radio"/> Yes <input type="radio"/> No
---	--

Was the site review an active, inquiring process that included the following:

85. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
86. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?	<input checked="" type="radio"/> Yes <input type="radio"/> No

87. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
88. Informal conversations with staff during the site review (encouraged, not required)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
89. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).	Staff were very professional and accommodating.

Documentation Sampling

Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.

90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?	<input checked="" type="radio"/> Yes <input type="radio"/> No
--	--

91. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).	Reviewed additional rosters, files, and reports while on-site.

SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY

Sexual Abuse and Sexual Harassment Allegations and Investigations Overview

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term "inmate" in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

92. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual abuse allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations

Sexual Abuse and Sexual Harassment Investigation Outcomes

Sexual Abuse Investigation Outcomes

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for "convicted.") Do not double count. Additionally, for question brevity, we use the term "inmate" in the following questions. Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

94. Criminal SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

ON-SITE REVIEW:

No on-site observations were required for this provision.

FINDINGS:

The Program Statement (PS) 5324.12, Sexually Abusive Behavior Prevention and Intervention Program and Institution Supplement (IS) 5324.12G, Sexually Abusive Behavior Prevention and Intervention Program, address the requirements identified in the standard. The agency has appointed a psychologist assigned to the BOP Reentry Services Division as their National PREA Coordinator. This person reports to an Assistant Director. The Warden has appointed an Associate Warden as the Institution PREA Compliance Manager (IPCM) and the Chief of Psychology Services to assist the IPCM. The IPCM report directly to the Warden regarding all PREA-related concerns. Interviews with the agency PREA Coordinator and IPCM confirmed that each has sufficient time and authority to coordinate efforts to comply with PREA standards, the Auditor determined the agency demonstrates it meets the requirements of this standard.

DIRECTIVE AND DOCUMENT REVIEW:

Agency Directives and BOP PREA Plan

INTERVIEWS:

Warden, PREA Coordinator and PREA Compliance Manager.

FINDINGS:

PS 3000.03, Human Resource Management Manual, the facility staffing plan and the Workforce Utilization Committee meeting minutes address the requirements of the standard. A review of the facility staffing plan and the quarterly Salary and Workforce Utilization Committee annual meeting minutes confirmed that PREA issues were considered when filling positions and developing work rosters/assignments (all requirements under 115.13a were met). Interviews with the Warden and Human Resource Manager confirmed that the facility considers the items detailed in the standard when developing the staffing plan. The facility and the agency review the staffing plan at least quarterly. The IPCM is a member of the Salary and Workforce Utilization Committee and may provide input as to whether adjustments to the staffing plan may be required to meet PREA requirements. There have been no judicial findings of inadequacy, findings of inadequacy from federal investigative agencies or findings of inadequacy from internal or external oversight bodies relevant to this standard. The agency reported no deviations with the staffing plan in place, documentation reviewed, and proper alternate staffing plan procedure was reviewed. The inmate population to which the staffing plan is based is 1272 inmates.

The review of Institution Duty Officer unannounced PREA rounds logs confirmed that intermediate-level or higher-level supervisors, including shift supervisors, and department heads, at a minimum conduct and document such visits throughout the institution also at night and on the weekends. Staff are prohibited from alerting other employees regarding unannounced rounds. Interviews with inmates and housing unit officers also confirmed that random, unannounced rounds are conducted by Institution Duty Officers daily, including nights and weekends. An examination of policy, supporting documentation and all interviews confirms this facility has exceeded compliance with this standard with no PREA allegations in the past 12 months.

Staff reported they follow the agency directives and PREA standards, take into consideration the composition of the inmate population and their needs, scheduled programming, and staff placement. Additionally, staff reported other relevant factors considered include the needs of the LGBTI inmates and incidents of substantiated and unsubstantiated sexual abuse.

Staff reported, to ensure compliance with the staffing plan, they monitor staffing during shifts and thoroughly review serious incident reports. During the on-site audit, a review of the agency directive, staff interviews, and the facility's staffing plan indicated all the elements are addressed.

115.13(b) (c) (d)

DIRECTIVE AND DOCUMENT REVIEW:

The agency reported no deviations with the staffing plan in place, documentation reviewed, and proper alternate staffing plan procedure was reviewed and deemed appropriate for this facility.

INTERVIEWS:

PREA Compliance Manager.

FINDINGS:

Based on the staff interviews, there has been no deviations with the staffing plan in place, documentation reviewed, and proper alternate staffing plan procedures are in place which allows for all essential posts to be filled each shift.

The Auditor interviewed the PREA Compliance Manager who reported he is consulted regarding any assessments of, or adjustments to, the staffing plan, which occur annually. During the on-site audit, a review of the agency directive, staff interview, and the facility's current staffing plan indicate all the elements of this standard are in place.

INTERVIEWS:

Intermediate and Higher-Level Facility Staff

ON-SITE REVIEW:

A review of log entries indicated the upper management unannounced rounds, which are separately documented, are documented and provide additional supporting documentation.

FINDINGS:

Agency Directive(s) and BOP PREA Plan address(es) this provision. Logbooks are used to document unannounced rounds, which are the responsibility of the posted officer to maintain. Intermediate and Higher-Level Facility Staff were interviewed by the Auditor.

Staff reported different strategies utilized to prevent staff from alerting other staff that an unannounced round was being conducted.

A review of the agency directive and staff interviews indicate multiple levels of management conducting unannounced rounds on all shifts. The senior management rounds are also documented in the post logbook. This Auditor recommends the BOP considers additional funding for FCI Manchester for the procurement of additional cameras to be placed in the locations identified to the PREA Compliance Manager during the on-site review and an RFID/Auto logging/inmate tracking system. This will enhance the safety and security of the staff and inmates at FCI/SCP Manchester.

FCI Manchester does not permit cross-gender strip searches or cross-gender visual body cavity searches, except in exigent circumstances or when performed by medical practitioners. There was no cross-gender visual body cavity or strip searches conducted at the facility during the audit period. Officers would be required to document all cross-gender strip searches and cross-gender visual body cavity searches. Interviews with staff confirmed that they were aware of the prohibition of visual body cavity or strip searches of the inmates of the opposite gender except in exigent circumstances. Staff interviews also confirmed that male and female officers had been trained to conduct cross-gender pat searches. As confirmed by observations during the on-site review of housing units, inmates are permitted to shower, perform bodily functions, and change clothing privately. The agency and facilities have a “knock and announce” policy and procedures requiring staff of the opposite gender to announce their presence or otherwise notify the inmates when entering an inmate housing unit. Inmate interviews confirmed that staff members of the opposite gender announce their presence in this manner when entering housing units. The practice was observed during the on-site review of the entire facility. Staff would not search or physically examine a transgender or intersex inmate for the sole purpose of determining the inmate’s genital status. Interviews with inmates confirmed that they had been pat searched by officers properly and professionally. Interviews with staff/inmates, auditor observations and an examination of policy/supporting documentation confirm compliance with this standard.</p> <p>The agency reported there have been no incidents of cross-gender strip or cross-gender visual body cavity searches of inmates. DIRECTIVE AND DOCUMENT REVIEW:

Agency Directives and BOP PREA Plan.

FINDINGS:

Agency Directive(s) and BOP PREA Plan address(es) this provision. Agency directive requires strip searches are conducted by staff of the same gender as the inmate.

The agency reported there have been no incidents of cross-gender strip or cross-gender visual body cavity searches of inmates, therefore, there was no documentation to review.

DIRECTIVE AND DOCUMENT REVIEW:

Agency Directives and BOP PREA Plan.

INTERVIEWS:

Random Selection of Staff, and Random Selection of Inmates.

ON-SITE REVIEW:

During the on-site review of the facility, the Auditor noted every time staff of the opposite gender entered a housing unit, the staff would announce themselves accordingly.

FINDINGS:

Agency Directive(s) and BOP PREA Plan address(es) this provision. During the on-site audit, the Auditor observed there is no opportunity for staff of the opposite gender to view inmates performing bodily functions.

Staff interviews reflected staff are aware of this standard and are required to announce themselves when entering a housing unit with inmates of the opposite gender and inmate interviews reflected staff of the opposite gender consistently announce themselves upon entering their housing units.

Inmates interviewed reported staff of the opposite gender do announce themselves and that they would never be in a state of undress in front of opposite gender staff.

A review of the agency directive, staff and inmate interviews, and observations of staff announcing themselves when entering a housing unit with inmates of the opposite gender has demonstrated every precaution is made to ensure inmates are afforded privacy when using the toilet, showering, and changing clothes.

FINDINGS:

Training documentation reflected staff attended and participated in "Cross-Gender and Transgender Pat Searches" training during pre-service and refresher training is available online. A review of the agency directive, training documentation, and staff interviews indicate staff are prohibited from conducting cross-gender strip searches or visual body cavity searches, however, all staff are trained on how to conduct cross-gender pat-down searches if exigent circumstances exist which exceeds the requirements of this provision.

Random Staff

FINDINGS:

PS 5324.12 and the Admission and Orientation (A&O) Handbook address the requirements of the standard. Through policy and practice, the facility ensures that inmates with all disabilities listed in 115.16a have an equal opportunity to participate in and benefit from all aspects of the agency's efforts to prevent, detect and respond to sexual abuse and sexual harassment.

All PREA-related information (written information), including postings, brochures and handouts are available in English, Spanish, and other languages. Staff also read information to inmates when necessary. Translation services are available through a contracted language service for inmates who are not English proficient, and the facility has staff who are proficient in languages other than English. The facility does not rely on inmate interpreters, inmate readers or other types of inmate assistance in the performance of first responder duties or during the investigation of an inmate's allegations. Interviews with first responders, medical, mental health and investigative staff confirmed their awareness of the prohibition of using inmate interpreters for PREA compliance functions. Interview with a non-English proficient inmate confirmed the availability and use of the staff and telephonic interpretive services. Interviews with staff, other inmates and an examination of policy/supporting documentation also confirm compliance with this standard.

The agency follows a uniform evidence protocol as described in the U.S. Department of Justice's Office on Violence against Women</p>

publication, "A National Protocol for Sexual Assault Medical Forensic Examinations, Adults/Adolescents." Victims of sexual assault are referred to health services for initial examination and treatment.

Such treatment would be for life preservation only and the victim would be transported to a community hospital for examination, treatment and forensic evidence gathering by a Sexual Assault Nurse Examiner (SANE). All sexual abuse victim advocacy, examinations, treatment, testing, and follow-up care are provided without cost to the victim. Facility staff members also have been trained as victim advocates.

Administrative investigations are conducted by trained investigators who are full-time employees of the facility. The Warden generates the referral to the outside agency (OIG or FBI). The review of training records confirmed that investigators have received investigator training offered by the BOP on the investigation of sexual abuse and harassment in confinement settings. An examination of policy/supporting documentation also confirm compliance with this standard. No forensic exams were performed at a local hospital within the last year.

Agency Directives and BOP PREA Plan.

INTERVIEWS:

PREA Compliance Manager.

Inmates who had reported a sexual abuse during screening.

FINDINGS:

Agency Directive(s) and BOP PREA Plan address(es) this provision.

Victims of sexual assault are referred to health services for initial examination and treatment. Such treatment would be for life preservation only and the victim would be transported to a community hospital for examination, treatment and forensic evidence gathering by a Sexual Assault Nurse Examiner. All sexual abuse victim advocacy, examinations, treatment, testing, and follow-up care are provided without cost to the victim. Facility staff members also have been trained as victim advocates.

A review of the agency directive and staff interview indicated an established collaborative effort to ensure victim advocacy services are available for the inmates if needed.

DIRECTIVE AND DOCUMENT REVIEW:

Agency Directives and BOP PREA Plan.

Investigative files.

INTERVIEWS:

Investigative Staff

FINDINGS:

PS 5324.12 addresses the requirement of the standard. The institution's investigator (SIS) may conduct administrative investigations within the facility and was interviewed by the auditor.

When an allegation appears to be criminal in nature, the SIS, in conjunction with the BOP's Office of Internal Affairs and the facility Warden, will refer the incident to the FBI for a criminal investigation, if the investigation involves an inmate-on-inmate allegation.

Staff-on-inmate criminal investigations are conducted by Office of the Inspector General. The FBI or the OIG investigator consults with the Assistant U.S. Attorney when necessary.

If the FBI or the OIG substantiates the allegation, the case is referred to the local United States Attorney for possible prosecution. The credibility of an alleged victim, suspect or witness is assessed on an individual basis and is not determined by the person's status as inmate or staff.

The agency does not require an inmate who alleges sexual abuse to submit to a polygraph examination or other truth assessment device as a condition for proceeding with the investigation of such an allegation. The review of case files of inmates alleging sexual abuse/harassment revealed that the investigations were completed promptly, thoroughly and in compliance with BOP policies and the PREA standards.
