Audit Findings

Audit Narrative
The auditor’s description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor’s process for the site review.

Pre-Audit Preparation

Prior to the on-site visit, a representative from the External Auditing Branch, Program Review Division of the BOP, conducted an on-site “pre-audit” of the facility to assist with the preparation for the onsite audit. The agency representative from the External Auditing Branch, Program Review Division forwarded the Agency and the institution specific policies and supporting documentation, including but not limited to, the completed Pre-Audit Questionnaire, administrative reports, contracts, incident reports, memorandums, brochures, staff rosters, PREA audit notices, staffing plans, training information, and other reference materials for examination. The agency head and agency PREA Coordinator were previously interviewed. The Auditor contacted victim advocacy representatives at Just Detention International and The Women’s Center in Carbondale, Illinois. Neither agency had any concerns over the facility’s services for victims of sexual assault.

The facility has had the following internal audits over the last three years: Program Reviews in Psychology, Human Resources/Affirmative Employment, Religious Services, Financial Management/Trust Fund, Education/Recreation, Correctional Programs, Health Services, Environmental and Safety Compliance, Facilities, Correctional Services, Food Service, and Computer Services. They have achieved accreditation by the American Correctional Association and the Accreditation Association for Ambulatory Health Care, Inc. (AAAHC).

Entrance Briefing and Tour

The on-site visit for the PREA (Prison Rape Elimination Act) compliance audit of United States Penitentiary (USP) Marion was conducted May 20-23, 2019 by The Nakamoto Group, Inc. certified auditor Diane Lee. This is the second PREA audit for this facility. Upon arrival at the facility, an in-briefing meeting was held with the Warden, two Associate Wardens, Executive Assistant, Captain, Human Resource Manager, two Human Resource Specialists, Unit Manager, two American Correctional Association (ACA) Auditors and several representatives from the BOP Program Review Division. The standards used for this audit became effective August 20, 2012. As part of the audit, a review of all agency and local facility PREA policies was conducted, staff and inmates were interviewed, and a tour of the facility was conducted.

The tour of USP Marion included the intake processing areas, all housing units, as well as the Special Housing Units (SHU), the Health Services Department, Recreation, Food Service, facility support areas, Education, Visiting Rooms, UNICOR, programming areas and the Camp. During the tour, it was noted that there was sufficient staffing to ensure a safe environment for inmates and staff. The auditor observed among other things the facility configuration, location of cameras, staff supervision of offenders, housing configurations (including shower/toilet areas), placement of posters, PREA informational resources, security monitoring, offender entrance and search procedures, and offender programming. Modifications that have been made throughout the facility were pointed out during the tour.
including areas where blind spots were closed off and additional mirrors installed. Signs were posted (in English and Spanish) that indicated employees of the opposite gender were present in the housing units. Inmates were able to shower, dress, and use the toilet facilities without exposing themselves to employees of the opposite gender. Postings, regarding the PREA violation reporting and the agency’s zero-tolerance policy toward sexual abuse and sexual harassment, were prominently displayed in all housing units, visiting rooms, and other areas throughout the facility. Audit notice postings with the PREA auditor's contact information were located in the same areas. These notices were posted on January 31, 2019. The auditor received correspondence from nine inmates. File sampling was conducted in the human resources, training, classification, and special investigative services departments. Documents related to background investigations for new staff as well as staff considered for promotions were reviewed. PREA training documentation for staff, volunteers, and contractors were reviewed. Classification documents were reviewed to assess propensity for sexual victimization or abusiveness. Files related to referrals for mental health follow-up were also reviewed.

**Staff-Inmate Interviews**

The auditor talked informally with staff and offenders during the tour of the facility. The Auditor requested a listing of inmates by housing units and randomly selected inmates from each housing unit which included inmates who were limited English proficient (LEP) or had hearing/vision impairment to be in interviewed. In addition, I requested to interview any inmate who self-identified as transgender, gay, bi-sexual and/or inter-sex. There were 41 inmates formally interviewed. These included one who was physically disabled, six who were victims of sexual abuse discovered during intake screening, four who had reported sexual abuse, six who self-identified as transgender, one inmate in the Special Management Unit and eight who had written a letter to the Auditor. There were no inmates who were limited English proficient housed at the facility during the on-site audit.

A total of 24 staff were formally interviewed, which included 13 correctional officers, from all three shifts. Specialized staff interviewed included the Warden, Associate Warden of Programs/ PREA Compliance Manager, Human Resource Manager, Human Resource Specialist, Special Investigative Services Lieutenant, Health Services Administrator, Unit Manager, Case Manager, Administrative Lieutenant, Religious Volunteer and one medical contract staff.

The auditor concluded, through interviews and the review of policies and documentation, that all staff and inmates were very knowledgeable concerning their responsibilities involving the PREA. During the interviews, the inmates acknowledged that they received information about the facility's zero-tolerance policy against sexual abuse upon their arrival, that staff were respectful, and they felt safe at the facility. Staff were able to describe in detail their specific duties and responsibilities, including being a “first responder”, if an incident occurred or an allegation of sexual abuse/sexual harassment was made.

**Investigations**
During the current auditing period, there were a total of 7 reported allegations of sexual abuse/harassment. Of these, five were unsubstantiated and two regarding staff were unfounded. The auditors reviewed five investigation files. The auditor reviewed the sexual abuse/harassment allegations and all pertinent documentation related to the allegations. All allegations were found to be appropriately investigated and adjudicated in accordance with the PREA standards.

Facility Characteristics

The auditor’s description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

The United States Penitentiary is located in Williamson County, Illinois, approximately nine miles south of the city of Marion. The facility is situated on 935 acres of land skirting the Crab Orchard National Wildlife Refuge. The facility opened in 1963 housing adult male offenders. Between 1963 and 1978, Marion was used as a traditional high security facility for several types of inmates, including youthful offenders. It was distinguished from other penitentiaries at the time primarily because all inmates lived in single cells and there was somewhat closer supervised movement and perimeter controls in force. As a result, inmates who required more supervision, who were deemed by staff to function better in a smaller facility, were housed at the USP. The critical juncture in the history of the institution was reached in 1978. At that time, the Federal Prison System adopted a new security designation system which rated facilities from level one, the lowest security level, to level six, the highest security level. As part of this system, Marion was designated as the only level-six institution in the Federal Prison System. In 1983, the decision was made to convert the institution to a long-term, highly controlled operation. Marion became the nation’s first “Supermax” facility. USP Marion’s mission was replaced by the Administrative Maximum (ADX) Facility in Florence, Colorado, in 1995.

During the fall of 2003, construction was completed on a new cell house project which was activated in the spring of 2004. The unit featured state-of-the-art electronics and incorporated the most recent innovations in security technology. The new unit is divided into four pods and has a total capacity of 640 inmates. In the summer of 2006, the facility was converted to a medium-security facility. Large percentages of the institution are classified as sex offenders and are designated to the Sex Offender Management Program (SOMP). This program involves intensive review, supervision, and a determination of the potential for sexually dangerous behavior by the inmate upon release. Inmates who are deemed sexually dangerous will be referred for civil commitment at the conclusion of their sentences. The Communications Management Unit (CMU) at USP Marion was activated on May 18, 2008. The main institution has 10 general population units containing 136 three-man cells, 116 two-man cells, and 418 one-man cells. There is a Special Housing Unit (SHU) for administrative segregation/disciplinary segregation that has 67 one-man cells. A Satellite Camp lies outside the secure perimeter which has one dormitory that contains three and four-man cubicles. The camp can house 200 adult male short-term offenders and longer-term offenders who are nearing completion of their sentences. There is no contact between camp inmates and those housed at the USP. The institution has dining and kitchen facilities, health services, maintenance shops, commissary, laundry, UNICOR, visiting areas, education, religious
services, recreation, and a host of other programs. In addition, psychology-based programs and counseling services are available to all inmates. The Sex Offender Management Program currently manages approximately 56% of the inmate population. UNICOR employs approximately 450 inmates. The main factory operation produces fiber optic and electronic cable assemblies and components for the U.S. Military and civilian organizations.

Summary of Audit Findings

Through formal and informal interviews with staff, contractors, and inmates and review of policy and documentation, it was evident that USP Marion has an effective program in place to effectively educate all concerned in the zero-tolerance policy against sexual abuse. USP Marion employs a video camera system for video surveillance. Cameras are placed strategically throughout the institution to ensure safety and security of both inmates and staff. There are plans to add several new cameras to continue to improve safety and security. The auditor found the staff and inmates to be very aware of the PREA. Staff were very knowledgeable about their responsibilities to ensure a safe facility. They were aware of reporting responsibilities, preservation of evidence, as well as dealing with victims of sexual assault and/or sexual harassment. The staff have all had extensive training on how to identify signs of sexual assault/harassment and how to deal and treat victims of sexual assault and/or sexual harassment.

Upon completion of the on-site visit, an exit briefing was held to discuss the audit findings. This briefing was held in the administrative conference room with the Warden, the Associate Warden of Programs/PREA Compliance Manager, the Management Analyst, ACA Auditors and several department heads. The auditor had been provided with extensive files prior to and during the audit for review to support a conclusion of compliance with the PREA. There are adequate limits to cross-gender viewing and searches. The facility has adaptive measures in place to ensure disabled and LEP inmates can participate in and benefit from all aspects of the PREA process. Hiring and promotion practices are consistent with sexual abuse safety measures. The facility has appropriate medical and victim advocacy networks in place and available, as needed.

PREA education and training is documented. Inmates acknowledged the admissions screening process included questions regarding any history of sexual abuse or victimization and whether they would like to identify a sexual preference. Intake, classification assessment and medical/mental health processes are efficient and seamless in addressing referrals based on victimization or abusiveness screening data. Related supporting documentation is organized and stored in information systems available on a need-to-know basis. Reporting mechanisms are displayed in a conspicuous manner and inmates and staff members are aware of all reporting methods available to them.

Systems are in place for coordinated responses to incidents of sexual abuse, as needed. The facility also has sufficiently trained personnel to conduct administrative investigations. The Special Investigative Services (SIS) Unit conducts administrative investigations. The Federal Bureau of Investigation (FBI) and the Office of the Inspector General (OIG) conduct criminal investigations.
Staff indicated adequate training in all aspects of the PREA, particularly First Responder duties or actions to be taken in the event of a reported sexual abuse related incident. All interviews and observations also supported compliance. The facility staff were found to be cooperative and professional. Staff morale appeared to be very good and the observed staff/inmate relationships were determined to be good. All areas of the facility were observed to be extremely clean and well maintained. The auditor thanked the Warden and staff for their hard work and dedication to the PREA audit process.

The summary should include the number of standards exceeded, number of standards met, and number of standards not met, along with a list of each of the standards in each category. If relevant, provide a summarized description of the corrective action plan, including deficiencies observed, recommendations made, actions taken by the agency, relevant timelines, and methods used by the auditor to reassess compliance.

Auditor Overall Compliance Determination

☒ Exceeds Standard (Substantially exceeds requirement of standards)
☐ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)
☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s
conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 5324.12, Sexually Abusive Behavior Prevention and Intervention Program, pages 2, 13, 24, 26, 27, 28 & 49 and Institution Supplement (IS) 5324.12 clearly meet the mandates of this standard. The agency's zero tolerance against sexual abuse/harassment is clearly established and the policy also outlines the agency's approach to preventing, detecting and responding to sexual abuse and sexual harassment allegations. The Associate Warden of Programs serves as the Institution PREA Compliance Manager (IPCM) for the USP. In addition to the IPCM, there is a designated National PREA Coordinator and a PREA Coordinator assigned to each regional office in the agency to ensure adherence to the PREA. The IPCM reports to the Warden. Zero tolerance posters are displayed throughout every area of the institution. Agency and facility directives outline a zero-tolerance policy for all forms of sexual abuse and sexual harassment. Inmates are informed orally about the zero-tolerance policy and the PREA program, during in-processing and are required to view a video during additional admissions and orientation presentations. The video is offered in English and in Spanish. Additional program information is contained in the A&O Handbook, the Sexually Abusive Behavior Prevention and Intervention Pamphlet (SABPIP) and postings distributed throughout the facility (observed during the tour). All written documents are available in English and Spanish. Additional interpretive services are available for inmates who do not speak or read English. Both institution staff and inmates are provided with a wealth of opportunities to become aware of the PREA policies and procedures. All employees receive initial training and annual training, as well as updates throughout the year.

All interviews with staff, contractors and inmates confirmed that each was aware of the zero-tolerance policy towards all forms of sexual abuse/sexual harassment. The commitment to the enforcement and implementation of the PREA exceeds the required mandates of this standard. An examination of policy and supporting documentation also confirms compliance with this standard.

Standard 115.12: Contracting with other entities for the confinement of inmates

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.12 (a)

- If this agency is public and it contracts for the confinement of its inmates with private agencies or other entities including other government agencies, has the agency included the entity’s obligation to comply with the PREA standards in any new contract or contract renewal signed on or after August 20, 2012? (N/A if the agency does not contract with private agencies or other entities for the confinement of inmates.) ☒ Yes ☐ No ☐ NA

115.12 (b)

- Does any new contract or contract renewal signed on or after August 20, 2012 provide for agency contract monitoring to ensure that the contractor is complying with the PREA standards? (N/A if the agency does not contract with private agencies or other entities for the confinement of inmates OR the response to 115.12(a)-1 is "NO".) ☒ Yes ☐ No ☐ NA
Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The agency and facility meet the mandates of this standard. A review of the documentation submitted substantiates that the agency requires the entities which they contract for the confinement of inmates (privatized prisons or residential reentry centers or “halfway houses”) to adopt and comply with the PREA standards. All agency contractual agreements were modified effective February 1, 2013, to incorporate the language requiring contractors to adopt and comply with PREA standards.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 3000.03, Human Resource Management Manual, pages 8-12, PS 5324.12, page 17, the facility staffing report and the Workforce Utilization Committee meeting minutes address the mandates of this standard. Agency policy requires each facility to review its staffing plans on an annual basis. Interviews with the Warden and executive staff revealed compliance with the PREA and that other safety and security issues are always a primary focus when they consider and review their respective staffing plans. In addition to the quarterly Workforce Utilization meeting, the Warden meets regularly with his executive staff to address staffing issues as they relate to the PREA. Quarterly Workforce Utilization minutes are on file.

The facility has been provided with all necessary resources to support the programs and procedures to ensure compliance with the PREA standards. The audit included an examination of all video monitoring systems; inmate access to telephones; the TRULINCS email system; staff interviews; and rosters. Supervisory and administrative staff members routinely make unannounced rounds covering all shifts and these rounds are documented. Interviews with staff confirmed unannounced rounds to all areas of the facility are conducted on a weekly basis, with no warning to employees. The facility does utilize convex mirrors to supplement
security in areas where there are numerous corners or potential blind spots. During the tour, there were no areas identified by the auditors as blind spots or areas of concern. Compliance was determined by interviews with the Warden, Lieutenants, IPCM, Human Resource Manager, and other correctional staff, reviews of staff rosters, daily supervisory checks, examining video monitoring system, inmate access to telephone, the TRULINCS email system and the facility’s workforce quarterly meeting records. Interview and the examination of supporting documentation confirms compliance with this standard.

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)
☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)
☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 5324.12, page 17 and PS 5521.06, Searches of Housing Units, Inmates, and Inmate Work Areas, page 5, address this standard. Cross-gender strip or cross-gender body cavity searches are prohibited, except in emergency situations or when performed and documented by a medical practitioner. Staff interviews indicated they received cross-gender pat search training during initial and annual training. The auditor observed that each of the units have a variety of configurations of shower stalls and toilets. The showers all have curtains and toilets have partitions or curtains for privacy purposes. Supervisory and Administrative staff routinely make unannounced rounds covering all shifts and these rounds are documented. Interviews with staff confirmed unannounced rounds to all areas of the facility are conducted on a weekly basis, with no warning to employees. Inmates, correctional officers and administrative staff stated inmates are allowed to shower, dress and use the toilet privately, without being viewed
by female staff. The inmates interviewed acknowledged they can shower, dress and use the toilet privately, without being viewed by staff of the opposite gender.

Staff and inmates interviewed indicated that employees of the opposite gender announce their presence before entering a housing unit. The possibility of opposite gender staff entering the housing units is also announced over the speaker system at the beginning of each shift. Additionally, the auditor observed written notifications posted in the housing units which clearly stated the possibility of opposite gender staff routinely entering the units. The postings were written in both English and Spanish. Staff members were aware of the policy prohibiting the search of a transgender or intersex inmate for the sole purpose of determining the inmate's genital status. The above factors support compliance of this standard. There have not been any instances of cross gender strip or body cavity searches during the applicable audit period.

PS 5324.12, pages 19 & 20 and the A&O Handbook meet the mandates of this standard. USP Marion takes appropriate steps to ensure inmates with disabilities and inmates with LEP have an opportunity to participate in and benefit from the facility’s efforts to prevent, detect and respond to sexual abuse and sexual harassment. PREA handouts, bulletin board postings and inmate handbooks are in both English and Spanish. The above-mentioned documents were submitted to and reviewed by the auditor. Employees interviewed were aware of the policy that under no circumstances, are inmate interpreters or assistants to be used when dealing with PREA issues. The DOJ has set up a blanket purchase agreement for on-demand over-the-phone interpreter services (LanguageLine Solutions), which are available to all BOP institutions to assist staff with inmates who don't have a basic command of the English language. There was one disabled inmate interviewed during this audit. The review of documentation and staff and inmate interviews support a finding that the facility is in compliance with this standard.

PS 3000.03, pages 28, 41 & 45; PS 3420.11, Standards of Employee Conduct, pages 6 & 7; Pre-Employment Guide, page 2; SF85P, Questionnaire for Public Trust Positions, page 1; and BOP Recruitment Flyer, page 1, address the mandates of this standard. Employee files were reviewed for the components of this standard. A Human Resource Specialist was interviewed and stated that all components of this standard have been met. Background checks have been completed on all employees, contractors and volunteers. BOP regional office personnel also conduct background checks before approving staff promotions. A tracking system is in place to ensure that updated background checks are conducted every five years. The Office of Personnel Management (OPM) is experiencing delays in processing background investigations. The FBI notifies the OPM on a monthly basis concerning any arrest of BOP employees. They would then notify the Human Resource Manager at the USP. Policy clearly states the submission of false information by any applicant is grounds for termination. The agency makes its best efforts to contact all prior institution employers for information on substantiated allegations of sexual abuse or resignations occurring during a pending investigation of sexual abuse.

The agency also provides information on substantiated allegations of sexual abuse/sexual harassment involving former employees, when requested by a potential institutional employer. Appropriate licensing and certifying agencies are notified, when professional employees are terminated for substantiated allegations of sexual abuse/sexual harassment. Based upon policies and interviews with the Human Resource Manager and Human Resource Specialist, USP Marion is in full compliance with this standard. Documentation on file supports a finding that the facility is in compliance with this standard.

When installing or updating a video monitoring system, electronic surveillance system, or other monitoring technology, consideration would be given to how such technology may enhance the agency’s ability to protect inmates from sexual abuse. Since August 20, 2012, there have been no substantial expansions/modifications to the facility. Through an interview with the Warden, there are plans to add 27 new cameras in strategic locations throughout the facility in the near future.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 5324.12, pages 4, 5, 23 & 24; PS 6031.04, Patient Care, pages 42 & 43; Guide for First Responders/Operations Lieutenant; and PREA Checklist and Instructions address the mandates of this standard. Correctional and medical staff members were interviewed concerning this standard and all were knowledgeable of the procedures required to secure and obtain physical evidence when sexual abuse is alleged. Staff knew the Special Investigative Services (SIS) Lieutenant conducts investigations relative to sexual abuse/harassment
allegations. All forensic medical examinations are conducted by SAFE/SANE staff at the local hospital (Herrin Hospital). Victim advocate services are available through a Gratuitous Services Agreement with The Women’s Center in Carbondale to provide victim services to inmates. The auditor contacted the Executive Director to discuss and confirm the agreement to provide rape crisis intervention services. She indicated that they have a good partnership. Just Detention, Inc. was also contacted and has had no contact from USP Marion inmate victims. There were two forensic exams conducted during the past 12 months. Inmates are not charged for any services related to PREA compliance. The Chief Psychologist indicated that he and other Psychologists are trained as advocates and would report to the institution and escort the inmate that has alleged sexual abuse to the hospital, if requested. The facility also has a Memorandum of Understanding (MOU) with the Federal Bureau of Investigation (FBI) to conduct criminal investigations. Staff reported knowledge of the facility’s procedures to obtain usable physical evidence if sexual abuse is alleged. The facility also has a specially trained Evidence Recovery Team to gather all evidence. Staff indicated they are aware that Special Investigative Services (SIS) conducts all sexual abuse investigations.

PS 5324.12, pages 43, 44, & 45 and the FBI Memorandum of Understanding address the mandates of this standard. Administrative and criminal investigations are completed on all allegations of sexual abuse/sexual harassment. The SIS, the Office of Internal Affairs (OIA), the FBI and the OIG conduct all investigations. The SIS Lieutenant was interviewed and is very knowledgeable concerning the protocols for conducting investigations of alleged sexual abuse/sexual harassment. There are 253 agency investigators in the BOP and twenty-two trained investigators at USP Marion. The FBI conducts the criminal investigations for the institution. The BOP/FBI MOU, dated August 1996, delineates each agency’s responsibilities relative to an incident involving a criminal act. There were seven allegations of sexual abuse and sexual harassment during the auditing period. All investigations were initiated and completed in accordance with the PREA standards and agency policy. Documentation related to the investigations was contained in the SIS files and was reviewed by the auditor. The facility utilizes the IPCM Information Tracking Log to ensure all required steps of the investigation are completed and are timely. The tracking form is maintained by the SIS.

The information tracked includes the date of the allegation, name of the victim/perpetrator, SHU placement/reviews, initial two-day after-action review, full protocol, investigation outcome/date, date inmate notified of outcome and retaliation monitoring. A review of training documents confirmed that all investigators received instruction in conducting sexual assault investigations in confined spaces/prisons. Interviews with staff and an investigator, as well as an examination of supporting documentation confirm the facility’s compliance with this standard.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 5324.12, pages 13, 14, 24, 25 & 26; IS 5324.12; and the Annual Training 2018 Lesson Plan address the mandates of this standard. The BOP provides extensive PREA training at the Federal Law Enforcement Training Center (FLETC). All newly hired employees must attend and successfully complete the course curriculum. All staff must also complete the female offender specialized training. Employees also have PREA information noted on their computer desktops and screensavers. All employees carry a PREA First Responder reference card in the event of a reported PREA incident. Additionally, contractors and volunteers are provided training relative to their duties and responsibilities. All staff members are mandated to receive training annually and the curriculum includes an extensive review of PREA requirements. Based on a sampling of employee records, and interviews, all staff receive required employee training. All staff interviewed indicated that they received the required PREA training initially and annually. The training curriculum, training sign-in sheets and other related training documentation were reviewed by the auditor. Interviewed staff verified the requirement to acknowledge, in writing, not only that they received PREA training, but that they understood the training.

PS 5324.12, pages 26 & 27; A&O Handbook (English and Spanish); SABPIP (English and Spanish) and A&O Program Checklist/Signature Sheets address the mandates of this standard. The facility puts forth its best efforts to educate the inmates regarding the PREA. Inmates receive information during the intake process, including a pamphlet and inmate handbook, printed in English and Spanish. There were 432 inmates admitted over the past year. The PREA intake screening is done the day they arrive by a member of the Unit Team. A staff member conducts an in-depth education program regarding the PREA for all inmates within 30 days of their arrival at the facility. The program includes definitions of sexually abusive behavior and sexual harassment, prevention strategies and reporting modalities. The inmates have access to the TRULINCS computer program which also provides them with PREA information. There are PREA posters displayed throughout the facility and in each housing unit and a "Hotline" telephone number, which may be called to report sexual abuse or sexual harassment. Since the "Hotline" telephone number is an 800-toll-free number, inmates are advised via the SABPIP to contact a member of their unit team to place the call. The OIG mailing address is listed in the A&O Handbook and posted in each housing unit for inmate correspondence concerning any sexual abuse or sexual harassment allegation.

There is also a translation language line available for LEP inmates. The auditor was provided a random sampling of A&O Checklists/Signature Sheets to verify that inmates, admitted during the auditing period, received the SABPIP education and relevant written materials. All inmates are required to acknowledge completion of PREA education. During the interview process,
randomly selected inmates indicated they received information about the facility’s rules against sexual abuse/sexual harassment, when they arrived at the facility. They further indicated they were advised about their right not to be sexually abused/sexually harassed, how to report sexual abuse/sexual harassment and their right not be punished for reporting sexual abuse/sexual harassment. Inmates were aware of available services outside of the facility for dealing with sexual abuse.

**Auditor Overall Compliance Determination**

☒ Exceeds Standard (*Substantially exceeds requirement of standards*)

☐ Meets Standard (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)

☐ Does Not Meet Standard (*Requires Corrective Action*)

**Instructions for Overall Compliance Determination Narrative**

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 5324.12, pages 29-35 & 49, addresses the mandates of this standard. Agency and facility policy require the use of a screening instrument (reviewed by auditor) to determine proper housing, bed assignment, work assignment, education and other program assignments, with the goal of keeping inmates at high risk of being sexually abused/sexually harassed separate from those inmates who are at high risk of being sexually abusive. Bureau policy requires all inmates be screened within 72 hours of arrival; however, they are routinely screened on the day of arrival. Unit team staff utilize the intake screening form, review the inmate’s pre-Sentence Investigation and central file to determine whether there is any history of sexually aggressive behavior or sexual victimization. Based on the information of the screening process, any inmates with risk factors are referred by Unit Team for follow-up with Psychology Services. During the team meeting, inmates are asked if they have any concerns for their
safety and review documents of any victim/predator behavior. Case managers meet with inmates on a regular basis and the team will reconvene based on case manager or psychology concerns for reassessment of victimization or predator behavior. Psychology Services staff conduct intake screening which uses the totality of the information, along with behavioral observations of the inmate to make an estimation on the level of risk. They offer on-going mental health services if requested by the inmate.

Agency policy prohibits inmates from being disciplined for refusing to answer or for not disclosing complete information in response to questions regarding their mental/physical health, developmental disability, sexual preferences, sexual victimization history and perception of vulnerability. Housing and program assignments are made on a case-by-case basis and inmates are not placed in housing units based solely on their sexual identification or status. Psychology staff do an excellent job in assessing, reassessing all inmates for potential victimization and/or potential perpetrator. Careful housing assignment placement in a housing unit with additional supervision or other appropriate action would then be considered to address the inmate's needs. Any information received after intake is immediately considered and may result in a change in housing or other necessary action. Status reassessments, by policy, will occur within 30 days of arrival. Inmates who arrived within the last 12 months stated they were asked if they had been abused, what was their sexual orientation, and could they be in danger for abuse. Identified victims were also asked again (within 30 days) if they needed counseling or if they felt that they were in danger of abuse. Staff and inmate interviews, a review of documentation, and observations of the intake process confirmed this information. The auditor reviewed documentation of classification assessments and reassessments and determined that screenings for victimization and abusiveness conducted exceed compliance with the standard.

**Auditor Overall Compliance Determination**

☐ Exceeds Standard *(Substantially exceeds requirement of standards)*

☒ Meets Standard *(Substantial compliance; complies in all material ways with the standard for the relevant review period)*

**Instructions for Overall Compliance Determination Narrative**

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 5324.12, pages 24, 26 & 33 meet the mandates of this standard. Agency and facility policy require the use of a screening instrument (reviewed by auditor) to determine proper housing, bed assignment, work assignment, education and other program assignments, with the goal of keeping inmates at high risk of being sexually abused/sexually harassed separate from those inmates who are at a high risk of being sexually abusive. Housing and program assignments are made on a case-by-case basis.

There were six self-identified transgender inmates interviewed. The staff do an excellent job addressing all the needs of the transgender inmates. During the audit, risk management staff indicated transgender and intersex inmates are reassessed bi-annually and their own views with respect to safety are given serious consideration. Any special issues with transgenders are discussed in the monthly multi-disciplinary meetings. Additionally, transgenders are given the opportunity to shower separately from other inmates. Operating procedures provide guidance consistent with the requirements of PREA standards relative to transgender issues. The facility does not have a designated unit or housing sections for gay, bisexual, transgender, or intersex offenders. The transgender inmates interviewed indicated that they can request a special notation on their identification card which allows them to request to be pat searched by female staff. The card has to be approved by the Warden. Based on a review of policies, tracking reports, and upon interviews conducted with classification staff, the information gained from propensity screening upon intake allows for housing and programming decisions consistent with the objectives of the PREA. Interviews with staff and the transgender inmates, as well as an examination of documentation/policy, confirm the facility is in compliance with this standard.

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 5324.12, pages 34 & 35 a-d, addresses the mandates of this standard. Agency policy states that inmates at high risk for sexual victimization shall not be placed in the SHU unless an assessment of all available alternatives has been made and there is no available means of separating the victim from the abuser. The inmates are reassessed every seven days after entering the SHU. There were no inmates at risk of sexual victimization held in the SHU in the past 12 months for one to 24 hours awaiting completion of an assessment. There were no inmates at risk of sexual victimization who were assigned to the SHU in the past 12 months for longer than 30 days while awaiting alternative placement.

Mental health and unit staff meet with each inmate in SHU status at least once each week. A Safeguarding of Inmates Alleging Sexual Abuse/Assault Allegation Form is completed when considering all appropriate alternatives for safeguarding alleged inmate victims. Interviews with staff assigned to the SHU and other employees, an examination of the SHU operations and an examination of policy/documentation confirm the facility’s compliance with this standard.

**Instructions for Overall Compliance Determination Narrative**

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 5324.12, page 36 a-d; PREA Notices; and the A&O Handbook (English and Spanish) address the mandates of this standard. A review of supporting documentation and staff/inmate interviews indicated that there are multiple ways (verbally, in writing, anonymously, privately, and from a third party) for inmates to report sexual abuse/sexual harassment. The facility has procedures in place for staff to document all allegations. Throughout the facility, there are posters and other documents on display which also explain reporting methods. During the tour of the facility, several TRULINCS computers were observed in each housing unit. Inmates were able to demonstrate to the auditor how to log into the TRULINCS computer system and file a PREA report. Staff members promptly accept and document all verbal, written, anonymous, private and third-party reports of alleged abuse. Family and friends of inmates may report sexual abuse/harassment by using the BOP website, phoning the OIG or contacting facility staff. All interviewed inmates confirmed awareness of the multiple methods of reporting sexual abuse/sexual harassment allegations. Inmates at facility are not detained solely for civil immigration purposes. Interviews with staff and inmates, the observation of posters addressing reporting methods and an examination of policy/documentation confirm the facility’s compliance with this standard.

- If the agency claims the maximum allowable extension of time to respond of up to 70 days per 115.52(d)(3) when the normal time period for response is insufficient to make an appropriate decision, does the agency notify the inmate in writing of any such extension and provide a date by which a decision will be made? (N/A if agency is exempt from this standard.) ☒ Yes ☐ No ☐ NA

- At any level of the administrative process, including the final level, if the inmate does not receive a response within the time allotted for reply, including any properly noticed extension, may an inmate consider the absence of a response to be a denial at that level? 115.52 (e)

- Are third parties, including fellow inmates, staff members, family members, attorneys, and outside advocates, permitted to assist inmates in filing requests for administrative remedies relating to allegations of sexual abuse? (N/A if agency is exempt from this standard.) ☒ Yes ☐ No ☐ NA

Auditor Overall Compliance Determination

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 1330.18, Administrative Remedy Program, pages 1, 2, 14, 15 &16, addresses the mandates of this standard. All allegations of sexual abuse/sexual harassment, when received by staff, will immediately be referred for investigation. Inmates are not required to use an informal grievance process and procedures also allow an inmate to submit a grievance
alleging sexual abuse without submitting it to the staff member who is the subject of the complaint. Additionally, policy also prohibits the investigation of the allegation by either staff alleged to be involved in the incident or any staff who may be under their supervision. Policy states that there is no time frame for filing a grievance relating to sexual abuse/sexual harassment. Allegations of physical abuse by staff shall be referred to the OIA, in accordance with procedures established for such referrals. Policy also addresses the filing of emergency administrative remedy requests. If an inmate files the emergency grievance with the institution and believes he is under a substantial risk of imminent sexual abuse, an expedited response is required to be provided within 48 hours. Best efforts are made to provide Regional Office and Central Office expedited appeal responses within five calendar days. If an inmate reasonably believes the issue is sensitive and the inmate’s safety or well-being would be placed in danger, if the remedy became known at the institution, the inmate may submit the remedy directly to the appropriate Regional Office. There is no prohibition that limits third parties, including fellow inmates, staff members, family members, attorneys and outside victim advocates in assisting inmates in filing requests for grievances relating to allegations of sexual abuse or filing such requests on behalf of inmates.

There were no grievances filed involving PREA related issues during the past 12 months. There were no grievances alleging sexual abuse that involved an extension due to the final decision not being reached within 90 days. Additionally, there were no grievances alleging sexual abuse filed by inmates in which the inmate declined third-party assistance. Inmates are held accountable for manipulative behavior and false allegations. Disciplinary action would generally be taken if a grievance was filed in bad faith. Compliance was determined by review of policy, grievance logs and interviews with grievance coordinator.

These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 5324.12, page 37 and the A&O Handbook (English and Spanish) address the mandates of this standard. The facility has established a MOU with a victim advocate crisis center. Victim advocate services are available through a Gratuitous Services Agreement with The Women’s Center in Carbondale. The auditor contacted the Executive Director to discuss and confirm the agreement to provide rape crisis intervention services. She indicated that they have a good partnership. Psychology staff have been trained to provide counseling and victim advocacy services, if needed. Inmates have access to the National Sexual Assault Hotline. Inmates are advised of the procedures to seek assistance from outside providers and facility staff. Staff also provide contact information and confidential communication services, as reasonably as possible. “Confidential” communications under this section are distinguished from privileged communications, such as in an attorney-client relationship. The inmate handbook outlines the process to obtain the contact information through the Psychology Department. Inmates stated that there was information in the Inmate Handbook and on TRULINCS concerning services available outside the facility to provide counseling and/or treatment for sexual abuse. Most stated that they thought there were some addresses and telephone numbers available to ask for services.

A National Sexual Abuse Hotline (800-656-HOPE) is also available to the inmate population for reporting incidents of sexual abuse/sexual harassment. Calls to toll-free telephone numbers must be coordinated with a member of the unit team, per the SABPIP. This standard is met based on a review of documentation and interviews.

PS 5324.12, pages 37 & 38 address the mandates of this standard. Staff, contractors and volunteers must report and respond to allegations of sexually abusive behavior, regardless of the source of the report. Staff members interviewed were aware of their duty to immediately report all allegations of sexual abuse, sexual harassment and retaliation relevant to the PREA standards. The reporting is ordinarily made to the shift operations lieutenant but could be made privately or to a third party (FBI, OIG or OIA). Officers produced a card during the interview, issued by the facility, outlining all actions to be taken by staff who became aware of an allegation of sexual abuse or harassment. Policy requires the information concerning the identity of the alleged inmate victim and the specific facts of the case to be shared with staff on a need-to-know basis, because of their involvement with the victim’s welfare and/or the investigation of the incident. PS 5324.12, pages 39 & 40, addresses the mandates of this standard. Policy requires that any inmate allegation of sexual abuse that occurred while confined at another facility be reported to the head of the facility where the alleged abuse occurred within 72 hours of receipt of the allegation. Procedures are in place that require the Warden to immediately notify the Chief Executive Officer of the other confinement facility, in writing, the nature of the sexual abuse allegation. When the inmate reports sexual abuse/sexual harassment from state, non-Bureau
privatized facilities, jails, juvenile facilities, or Residential Reentry Centers, the Warden
contacts the appropriate office of the facility and/or notifies the Residential Reentry
Management Branch of the BOP, if appropriate. The notification is to occur as soon as

investigation be initiated. In the past 12 months, there was one allegation from an inmate that
he was abused while confined at another facility. Investigative files for the allegation was
reviewed. During the audit period, two cases were received from other facilities who alleged
abuse while at USP Marion. This was confirmed by interviewing the IPCM, SIS and Warden.

Staff indicated they would separate the inmates, secure the scene, prevent the destruction of any evidence and contact the operations lieutenant and medical staff. All staff carry a first responder card. This card lists all the steps necessary for a first responder in the event of a PREA related incident. The shift lieutenant would continue to protect the victim and notify medical, mental health, and the administrative/executive staff. In the past 12 months, there were four allegations that an inmate was sexually abused. Of this one allegation allowed for collection of physical evidence. Auditor Overall Compliance Determination

☒ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)
Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 5324.12, pages 43 & 44 a-e, address the mandates of this standard. The policy prohibits any type of retaliation against any staff or inmate who reports sexual abuse or sexual harassment or cooperates in related investigations. The Associate Warden/IPCM is charged with monitoring retaliation. During the interview, he stated he follows-up on all 30-, 60- and 90-day reviews to ensure policy is being enforced and conducts periodic status checks on the frequency of incident reports, housing reassignments and negative performance reviews/staff job reassignments. In the event of possible retaliation, the Associate Warden indicated he would monitor the situation indefinitely. He keeps a Retaliation Log providing dates that inmate was interviewed, and files reviewed to monitor retaliation. Compliance with this standard was determined by a review of established policy, supporting documentation and staff interviews.

Standard 115.68: Post-allegation protective custody

115.68 (a)

- Is any and all use of segregated housing to protect an inmate who is alleged to have suffered sexual abuse subject to the requirements of § 115.43? ☒ Yes ☐ No

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 5324.12 addresses the requirements of the standard. Policy requires staff to assess and consider all appropriate alternatives for safeguarding alleged inmate victims of sexual abuse/sexual harassment. Staff must first consider other alternatives based on the
circumstances of the allegation before considering the placement of an inmate in protective custody (SHU), placing him in another housing unit or transferring the inmate to another facility. To aid in that decision, policy requires the facility to complete the BOP’s Safeguarding of Inmates Alleging Sexual Abuse/Assault Allegation Form. The form serves to document consideration of all options. Interviews with staff and the tour of the facility confirmed that there are usually viable alternatives to placing victims of sexual abuse/sexual harassment in the SHU. In practice, inmates are rarely placed in this status. To the extent possible, access to programs, privileges, education and work opportunities would not be limited to inmates placed in a SHU for the purposes of protective custody. The reasons would be documented for restricting access and the length of time the restrictions would last. There were no inmates placed in post-allegation protective custody status within the last twelve months until a determination was made to place him in a different housing unit. Compliance with this standard was determined by a review of policy and documentation, as well as a tour of the facility and staff interviews.

The SIS department is responsible for conducting administrative investigations within the facility and referring criminal investigations to the FBI and the OIG to determine if prosecution will be pursued. According to the Warden, the facility fully cooperates with any outside agency who initiates an investigation. The SIS department serves as the facility liaison and provides requested information to outside agencies and provides access to the inmate. The credibility of an alleged victim, suspect or witness is assessed on an individual basis and is not determined by the person’s status as inmate or staff. The agency does not require an inmate who alleges sexual abuse to submit to a polygraph examination or other truth assessment device as a condition for proceeding with the investigation of such an allegation. Five investigations were reviewed with the SIS staff who conducted the administrative investigations. The investigations were assigned an investigator within one workday. The retaliation monitoring was provided for 90 days and victim and abuser notification occurred within 45 days, unless the investigation is still pending an outcome. Compliance with this standard was determined by a review of policy/documentation, investigation case files and interviews with PREA Compliance Manager/Retaliation monitor and SIS staff who completed the investigations.

PS 3420.11, pages 6 & 7 and PS 5324.12 address the mandates of this standard. Employees are subject to disciplinary sanctions for violating agency sexual abuse or sexual harassment policies. There have been no reported cases of inmates engaging in sexual activity with staff in the past 12 months and no staff members were disciplined or terminated for violation of agency policy. The CBA (examined by auditor) between the BOP and Council of Prison Locals, American Federation of Government Employees, dated July 21, 2014-July 20, 2017, allows for disciplinary sanctions against staff, including termination, for the sexual abuse or sexual harassment of an inmate. PS 3420.11 and PS 5324.12 address the requirements of the standard. Any contractor or volunteer who engages in sexual abuse/sexual harassment would be prohibited from contact with inmates and would be reported to the appropriate investigator, law enforcement, or relevant professional/licensing/certifying bodies, unless the activity was clearly not criminal in nature. In cases that were not criminal in nature, the facility would take appropriate remedial measures and consider whether to prohibit further contact with inmates. During the previous year, there were no incidents where a contractor or volunteer was accused or found guilty of sexual abuse or sexual harassment of an inmate. Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 5324.12, page 48, and PS 5270.09, Inmate Discipline Program address the mandates of this standard. Information on inmate disciplinary sanctions is provided as part of the orientation process upon entry into the facility. Inmates interviewed indicated their understanding of freedom to make allegations without consequences for making good faith allegations. The Inmate Discipline Program defines sexual assault of any person, involving non-consensual touching by force or threat of force, as the greatest severity level prohibited act. The program identifies inmates engaging in sexual acts and making sexual proposals or
threats to another as a high severity level prohibited act. Consensual sex or sexual harassment of any nature is prohibited and will result in discipline. Consensual sex between inmates does not constitute sexual abuse. Sanctions are commensurate with the nature and circumstances of the abuse committed, along with the inmate’s disciplinary history and the sanctions imposed for comparable offenses by other inmates with similar histories. Inmates are subject to disciplinary sanctions pursuant to the formal disciplinary process defined in the Inmate Discipline Program. The disciplinary process considers whether an inmate’s mental disabilities or mental illness contributed to the inmate’s behavior when determining what type of sanction, if any, should be imposed. If mental disabilities or mental illness is a factor, USP Marion staff considers the offer of therapy, counseling, or other interventions designed to address and correct underlying reasons or motivations for the abuse. USP Marion does not discipline inmates who make an allegation in good faith, even if an investigation does not establish evidence sufficient to substantiate the allegation. Compliance with this standard was determined by a review of policy/documentation, a review of the inmate discipline process, staff and inmate interviews.

Auditor Overall Compliance Determination

☐ Exceeds Standard *(Substantially exceeds requirement of standards)*

☒ Meets Standard *(Substantial compliance; complies in all material ways with the standard for the relevant review period)*

☐ Does Not Meet Standard *(Requires Corrective Action)*

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 5324.12, pages 29-30, 32 & 49, addresses the mandates of this standard. Interviews with medical and specialized staff confirm the institution has a very thorough system for collecting medical and mental health information and has the capacity to provide continued re-assessment and follow-up services. Inmates who disclosed prior victimization during screening were offered a follow-up meeting with a medical or mental health practitioner. Additionally, inmates who have previously perpetrated sexual abuse, as indicated during the screening, were offered a follow-up meeting with a mental health practitioner. Treatment services are offered without financial cost to the inmate. This was confirmed by observation and a review of intake screening documents.

Screening for prior sexual victimization in any setting is conducted by unit team staff during in-processing procedures. In-processing procedures also screen for previous sexually assaultive behavior in an institutional setting or in the community. Information related to sexual victimization or abusiveness is limited to medical and mental health practitioners and other staff with a need-to-know for treatment plans, security, housing, work, and program assignments and management decisions. Signed and dated informed consents are obtained from inmates before reporting prior sexual victimization which did not occur in an institutional setting. Psychology staff offer on-going services for both victims and perpetrators.
USP Marion does not house inmates under the age of 18. All screenings are recorded in the Bureau's Electronic Medical Record and Psychology Data System. All information is handled confidentially and interviews with intake screening staff support a finding that the facility is in compliance with this standard. Compliance was confirmed by review of policies, intake screening documents, and interviews with inmates identified as prior victimization during intake, and Chief Psychologist.

**Instructions for Overall Compliance Determination Narrative**

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 5324.12, page 51, addresses the mandates of this standard. The facility will provide sexually abused victims with medical and mental health services consistent with the community level of care. Inmate victims of sexual abuse while incarcerated will be offered tests for sexually transmitted infections as medically appropriate. All treatment services provided to the victim without financial cost and regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident. The facility conducts a mental health evaluation of all known inmate-on-inmate abusers upon learning of such abuse history and offers treatment when deemed appropriate by mental health practitioners. Treatment services include Sex Offender Management Program, both residential and non-residential, drug treatment, and general mental health services. ☒ Meets Standard *(Substantial compliance; complies in all material ways with the standard for the relevant review period)*

☐ Does Not Meet Standard *(Requires Corrective Action)*

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PS 5324.12, pages 52 & 53, address the mandates of this standard. Administrative and criminal investigations are completed on all allegations of sexual abuse/sexual harassment. The SIS, the FBI and/or the OIG conduct all investigations. The Special Investigative Agent (SIA) was interviewed and found to be extremely knowledgeable concerning his duties and responsibilities. USP Marion had five incidents that required a review team conduct an incident review at the end of the sexual abuse investigation. The facility completed all of the reviews within 30 days of the conclusion of the investigation. The review team meeting did take into consideration as to whether the incident was motivated by race, ethnicity, gender identity, status, perceived status or gang affiliation. The team also made a determination as to whether additional monitoring technology should be added to enhance staff supervision. The review team is comprised of upper-level management officials, to include the IPCM, Chief Psychologist, SIS Lieutenant, Health Services Administrator and the Unit Manager of the alleged victim. Based on staff interviews with an Incident Review Team member, staff members are knowledgeable of their responsibilities in carrying post investigation case reviews. Therefore, based on a review of files, adequate policy guidance, and knowledgeable staff to carry out these responsibilities, this facility is compliant with this PREA standard.

This is the second PREA audit of this facility. The previous PREA audit was in December 2015. The auditor was allowed access to all areas of the facility and had access to all required supporting documentation. The auditor was able to conduct private interviews with both inmates and staff. All BOP facilities have received at least one PREA audit since August 20, 2012. The auditor was provided supporting documentation before and during the audit. Notifications of the audit (posted throughout USP Marion) allowed inmates to send confidential letters to the auditor prior to the audit. Nine letters from inmates were received by the auditor.

Standard 115.403: Audit contents and findings

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.403 (f)
The agency has published on its agency website, if it has one, or has otherwise made publicly available, all Final Audit Reports within 90 days of issuance by auditor. The review period is for prior audits completed during the past three years PRECEDING THIS AGENCY AUDIT. In the case of single facility agencies, the auditor shall ensure that the facility’s last audit report was published. Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

USP Marion has fully implemented all policies, practices and procedures outlined in the PREA standards. The auditor reviewed applicable standards and, through the review of supporting documentation, interviews with staff and inmates and the observation of physical evidence, concluded that this facility fully meets and substantially complies in all material ways with the PREA standards for the relevant review period. BOP policies are directly tied to the PREA standards and staff expectations. The facility’s leadership is fully committed to eliminating sexual abuse/sexual harassment, as evidenced in the realistic staffing analysis and the recommendations for enhanced supervision techniques. Substantiated allegations of abuse are processed in accordance with the standards, to include incident reviews, disciplinary actions, if required, and outcome notifications.

PREA training for staff and inmates is documented and all stakeholders receive the appropriate level of training and are knowledgeable of the intent of the PREA and the tools available to ensure prevention, detection, reporting and response to sexual abuse incidents. Sexual abuse and victimization propensity screening is well established and tracked in an organized fashion. Referrals for mental health counseling are integrated in the intake and allegations of sexual abuse processes. Medical networks for the inmates are established in the community. The public has access to reporting mechanisms and BOP PREA trends data via the BOP website. USP Marion currently meets all applicable PREA standards and no corrective actions are required.
