### Physical Plant

**Number of buildings:**

Auditors should count all buildings that are part of the facility, whether inmates are formally allowed to enter them or not. In situations where temporary structures have been erected (e.g., tents) the auditor should use their discretion to determine whether to include the structure in the overall count of buildings. As a general rule, if a temporary structure is regularly or routinely used to hold or house inmates, or if the temporary structure is used to house or support operational functions for more than a short period of time (e.g., an emergency situation), it should be included in the overall count of buildings.

| Number of buildings: | 18 |

**Number of inmate housing units:**

Enter 0 if the facility does not have discrete housing units. DOJ PREA Working Group FAQ on the definition of a housing unit: How is a “housing unit” defined for the purposes of the PREA Standards? The question has been raised in particular as it relates to facilities that have adjacent or interconnected units. The most common concept of a housing unit is architectural. The generally agreed-upon definition is a space that is enclosed by physical barriers accessed through one or more doors of various types, including commercial-grade swing doors, steel sliding doors, interlocking sally port doors, etc. In addition to the primary entrance and exit, additional doors are often included to meet life safety codes. The unit contains sleeping space, sanitary facilities (including toilets, lavatories, and showers), and a dayroom or leisure space in differing configurations. Many facilities are designed with modules or pods clustered around a control room. This multiple-pod design provides the facility with certain staff efficiencies and economies of scale. At the same time, the design affords the flexibility to separately house inmates of differing security levels, or who are grouped by some other operational or service scheme. Generally, the control room is enclosed by security glass, and in some cases, this allows inmates to see into neighboring pods. However, observation from one unit to another is usually limited by angled site lines. In some cases, the facility has prevented this entirely by installing one-way glass. Both the architectural design and functional use of these multiple pods indicate that they are managed as distinct housing units.

Audit Findings

Audit Narrative

The auditor’s description of the audit methodology should include a detailed description of the following processes during the pre-on-site audit, on-site audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor’s process for the site review.

Process

This audit of the FCI McDowell was conducted in 2021 to determine the institution’s compliance with the standards of the Prison Rape Elimination Act (PREA). The institution chose to use the paper audit instrument rather than the Online Audit System (OAS). The audit methodology strictly followed the guidance of the PREA Auditor Handbook, Version 2, issued March 2021. Documents, photographs, and auditor notes supporting this report are securely stored in the OAS.

The lead auditor and primary author of this report is Bruce Kuennen. He received his Department of Justice (DOJ) certification to conduct audits on July 11, 2016 and was re-certified on December 31, 2019. A contract between the Bureau of Prisons (BOP) and PREA Auditors of America (PAOA) to conduct this audit was approved on December 11, 2019. PAOA contracted with Mr. Kuennen.

The institution provided electronic versions of policies, procedures, and evidence relevant to this audit to PAOA, which made it available to the auditor. During the onsite audit, certain files containing Personally Identifiable Information (PII) were provided to the auditor for review in their original form; after his review and confirmation that they were the records requested, inmate and staff names and other PII were redacted prior to releasing copies to the auditor. No barriers to the conduct of the audit were encountered.

The four active phases of the audit were conducted between the following dates:

- Pre-on-site – May 31 – July 12, 2021
- On-site – July 13 - 15, 2021
- Post-on-site July 16 – August 25, 2021
- Corrective Action – August 26 – September 21, 2021

Audit - Pre-on-site Phase

Logistics for the audit were handled by the primary auditor. The primary point of contact (POC) for the audit was Robert Barnett, Management Analyst, ACA/PREA Audit Section, Program Review Division (Central Office).

The auditor discussed the following logistical issues in email exchanges and a telephone call with Mr. Barnett:

- Shift scheduling
- Update of the Pre-Audit Questionnaire (PAQ)
- Posting of notice
- Other logistics
The required Notice of Audit was posted, in English and Spanish, in all housing units and common areas of the institution on May 31, 2021, approximately six weeks before the scheduled on-site audit. Photographic, date-stamped evidence of these notices was provided to the auditor, who further verified the postings on July 13 on-site. No letters were received from inmates or staff.

The institution provided information related to compliance with each of the standards by providing files to PREA Auditors of America (PAOA). The primary auditor was given access to these files. The documents included the completed pre-audit questionnaire (PAQ), policies, procedures, forms, examples of completed forms and computer printouts, and statistical reports. The shared drive materials were reviewed by the auditor prior to the on-site visit.

Clarification was requested via email for the following items:

- Staffing plan
- Units in operation
- Correctional officer shift schedules

The institution was asked to produce the following lists to allow audit verification via random sampling in interviews and document reviews:

- Complete inmate roster, by housing location
- Inmates with disabilities
- Inmates who have Limited English Proficiency (LEP)
- LGBQ Inmates
- Transgender and Intersex inmates
- Inmates in segregated housing or isolation
- Inmates who reported sexual abuse
- Inmates who reported sexual victimization during risk screening
- Staff rosters, by job classification and date of hire
- Rosters of volunteers and contractors who have contact with inmates

During the pre-on-site phase, the following advocacy organization was identified: the Women's Resource Center (WRC) of Beckley, WV. The institution provided a copy of a Memorandum of Understanding (MOU) between the BOP and the center approved in 2019. The services noted in the MOU included a 24/7 phone hotline.

The MOU provided by the institution during the pre-audit phase indicated that the WRC provided advocacy services to inmates either directly or via referral to other qualified agencies. However, no evidence was found during the on-site visit that inmates are notified of the phone number and address of the center. No interviewed inmates or staff were aware that these services were available. Upon being notified of this deficiency, the Warden issued a memorandum to all staff that identified the center and its contact information. Also, on day two of the on-site audit, the institution posted appropriate notices of the WRC’s availability and contact information throughout the facility. During the corrective action period, the inmate handbook was revised to include the WRC address and phone number and detailed information about how to access this service.

An Internet search and an open Google Alert for “FCI McDowell” and “McDowell Prison” during the audit yielded no information relating to the prison’s handling of sexual abuse and harassment. A review of the BOP’s website, conducted May 6, 2021, revealed several links to PREA information, including:

- Sexual Abuse Prevention:
  https://www.bop.gov/inmates/custody_and_care/sexual_abuse_prevention.jsp
• FBOP Annual PREA Report – Calendar Year 2019. The calendar year 2020 annual report was issued while this report was being finalized, and the calendar year 2019 was no longer available to access online.
• Prior FCI McDowell Final PREA Audit Report, based on on-site audit dated July 25-27, 2017. The prior PREA audit report was accessed online, but it will no longer be available when this audit report is posted.

The linked pages included a statement of the agency’s zero-tolerance policy, methods of reporting allegations of inmate sexual abuse and general information about the purposes of the federal law. The annual report for 2020 indicated that FCI McDowell had one allegation of sexual abuse; it was not found to be substantiated.

The institution reported that there were no recent or current lawsuits pending, or judicial orders applicable to the prison at the time of the pre-audit questionnaire.

On-site Audit Phase

On the first day of the on-site review, the auditor provided random letters of the alphabet for the categories of staff and inmates who would be interviewed, and which records would be reviewed. The auditor’s basic randomization method began with a random number generator in an Excel spreadsheet – specifically, =RANDBETWEEN(1,26). Letters were chosen for each category to correspond to the number generated. 1=A, 2=B, etc. A letter was applied to each given list in this manner. For example, the institution was asked to provide records for the first five inmates whose last name began with the letter B. If there were not five inmates whose last name began with B, they were asked to go on to C, and so on. This same method was used during the on-site audit as additional names needed to be generated.

To ensure “geographic coverage” for randomly chosen inmate interviews – i.e., to ensure that all housing units were represented – the auditor asked for the first two inmates from each unit whose last name began with the randomly chosen letter. The auditor interviewed one from each housing area, and then others alphabetically until a total of 15 random inmates were interviewed. If an inmate chosen for a random interview proved to be a part of an identified group, the auditor converted that interview into a targeted interview.

All housing units and common spaces were toured during the on-site audit. The auditor had unrestricted access to view and enter every area of the institution. Some housing areas were being used for COVID-19 quarantine areas; the auditor reviewed these areas, in accordance with BOP COVID-19 safety guidelines. All inmate and staff interviews were conducted following COVID-19 safety precautions and with Personal Protective Equipment (PPE) as appropriate.

During the site review (tour), the auditor observed privacy barriers in shower and toilet areas, possible blind spots, and posted information. No significant blind spots were noted. The primary subject of informal questions to institution staff was the adequacy of the minimum shift coverage of each housing, work, and program area.

Inmate interviews began on day one, with inmates chosen by the method noted above. The following inmate interviews were conducted:

• Twenty random, representing all housing units
• Four inmates in segregated housing
• Two transgender
• Three gay, bisexual, or queer inmates
• Two Limited English Proficiency (LEP)
• Three inmates with cognitive or physical disabilities
• Four inmates who had reported sexual abuse or harassment
• Six inmates who had disclosed prior sexual victimization during risk screening
A total of 40 inmate interviews were conducted. (The breakdown of the number in each category may not add to this number, because some inmates were counted in more than one category.)

The days and hours of the audit were originally scheduled as specified in the contract between the BOP and the PREA Auditors of America, as follows:

- Tuesday, July 13, 2021 – 7:30 a.m. to 4:00 p.m.
- Wednesday, July 14, 2021 – 9:00 a.m. to 5:30 p.m.
- Thursday, July 15, 2021 – 6:00 a.m. to 2:30 p.m.

This schedule allowed the auditor to interview randomly chosen line staff from each of five scheduled shifts, as follows:

- 6:00 a.m. to 2:00 p.m. – two officers
- 2:00 to 10:00 p.m. – three officers
- 8:00 a.m. to 4:00 p.m. – one officer
- 4:00 p.m. to 12:00 a.m. – three officers
- 12:00 to 8:00 p.m. – three officers

Staff interviews included the following. All were chosen randomly from lists of staff in each category (or they were the only person in the role described).

- Twelve randomly chosen correctional officers, as noted above (all were also first responders)
- One investigator who was assigned to investigate incidents and allegations of sexual abuse or harassment
- One correctional officer who was assigned to work on the Special Housing Unit (SHU)
- One case manager responsible for intake processes
- The Institution PREA Compliance Manager, Associate Warden (P) Robert Brown, also interviewed as the staff person monitoring retaliation and as a member of the sexual incident review team, and responses to issues identified during the process
- One program staff – education
- One supervisor responsible for conducting unannounced rounds
- One other member of the sexual assault program review team
- One mental health staff
- One medical staff
- Warden’s designee, Associate Warden for Operations (O)

A total of 23 staff interviews were conducted. None of the regular volunteers were currently active, for reasons of COVID-19 control, and none were present on the last day of the on-site audit, so none were interviewed.

Documents reviewed included:

- Documents verifying initial screening and provision of PREA educational materials to inmates
- Documents verifying subsequent education and screening, including a detailed outline of the content of the Institution PREA Compliance Manager’s presentation at the monthly Admission and Orientation meetings
- Duty officer logs for a randomly chosen week, showing unannounced rounds
- Detailed investigation reports of seven completed investigations of allegations of sexual abuse
- Tracking logs of investigations completed in past year
- Tracking logs of investigations currently in progress
- Criminal background checks for staff
Staff training records

Document review indicated that the appropriate screening form was completed for each inmate. The form includes a question for each required element of the standards, as well as areas for intake staff to enter objective information based on their observation of the inmate. Review of the documentation of unit team decisions, interviews with unit team staff, and inmate interviews indicated that inmates appeared to be housed in appropriate units.

Approximately once a month, and usually within 30 days of arrival, the Institution PREA Compliance Manager or other administrative staff provides an orientation to all new inmates concerning their PREA rights, responsibilities, and reporting procedures. However, at the time of the on-site audit, so-called “holdover” inmates did not receive this orientation. Also, the orientation did not include notification of contact information for the local rape crisis advocacy organization. Both issues were corrected before the on-site audit was completed, and follow-up information provided during the corrective action period confirmed that these practices continued in force. The institution reported that they discontinued the practice of housing holdover inmates on August 20, 2021.

The auditor reviewed printed materials, including the inmate handbook, pamphlets, and posted signs prior to the on-site visit. While on-site, he confirmed that these materials were continuously available to inmates. Both staff and inmate interviews confirmed that this information was also available via the TRULINCS electronic system.

Inmates may report incidents of sexual abuse and harassment by a variety of methods, to include 1) notify a correctional officer orally, 2) notify a correctional officer or higher-ranking staff person via an inmate communication form, 3) notify the Institution PREA Compliance Manager, 4) write the Bureau of Prisons (BOP), or 5) through the offender grievance program. The telephone system can be used to notify a family member or other approved contact to call the Warden, the BOP, or other officials.

During the site review (tour) staff of the opposite gender announced their presence when they entered a housing unit where same gender staff were not already present. It appears from inmate and staff interviews and auditor observations that gender announcement by opposite gender staff is in regular practice.

On the PAQ, the institution reported that there were ten allegations of sexual abuse or harassment in the past year; two additional reports were received by the time of the on-site audit. Four of the twelve reports were of incidents alleged to have occurred at a previous facility. The remaining eight were referred for administrative review; seven investigations were completed, and one was still under review. Six were found to be unfounded and one unsubstantiated. The auditor reviewed evidence of compliance for these seven completed investigations. All the steps required by the standards were followed.

The on-site phase of the audit concluded with an out-briefing for administrative staff on July 15, 2021. The audit was concluded on schedule on the third day, when all required interviews and file and documentation reviews were complete.

**Post On-site Audit Phase**

In the week following the on-site visit, the auditor began the process of reviewing the evidence to arrive at the standards compliance findings below. An Interim Report was completed and provided to the BOP on August 26, 2021. All 45 standards were found to be applicable and 42 were met. A corrective action plan for the three standards not fully met was developed with input from institution and BOP staff.

**Corrective Action Plan**
The following corrective action plan was developed in consultation with the Institution PREA Compliance Manager, other institution management staff, and the BOP central office management analyst:

means. Provide list of inmate numbers for inmates received since time of on-site audit.

Respond to auditor’s request for documentation of such reassessment for 10% sample of inmates from the list provided. October 10, 2021 (45 days)

On September 7 and 9, the institution provided extensive documentation that corrective action had been taken on each of the three standards not fully met at the time of the on-site. Although this was in advance of the two check dates indicated in the corrective action plan, the auditor reviewed and accepted the materials provided. The 10% sampling envisioned in the corrective action plan was also not necessary, because the institution provided the requested data for 100% of the inmates for whom the issues applied. Finally, inasmuch as the institution discontinued the practice of housing holdover inmates on August 20, 2021, there is no purpose in waiting for the check dates to judge compliance and issue this final report.

The following documentation was provided for the standards indicated:

- 115.33 (b) (c)
  - A complete list of holdover inmates held 30 days or longer
  - Signed forms indicating receipt of comprehensive PREA education for each listed inmate

Upon receipt of the above documentation, the auditor made a determination of full compliance with the three standards previously found non-compliant and issued this final report.

**Facility Characteristics**

The auditor’s description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

Federal Correctional Institution (FCI) McDowell is located at 101 Federal Drive, Welch, WV. It is operated by the Federal Bureau of Prisons (BOP). The institution is overseen by Warden Christopher Maruka. The institution has a designated capacity of 1,664 beds, housing 1,465 adult male at the time the Pre-Audit Questionnaire was completed on May 11, 2021. On the first day of the on-site audit, the population of FCI McDowell was 1,384.

The institution employs 293 full-time staff, including administrators, custody, and program staff. Housing at the institution is cell block style, with 12 general population units, a Special Housing Unit (SHU), and open dormitory style at the Camp. The SHU provides segregated housing for up to 96 inmates in two-person cells. Separate areas house dining, laundry, chapel, medical, and educational programming functions.
At the time of the institution’s completion of the pre-audit questionnaire, 6 volunteers were approved to assist inmates at the complex, but due to COVID-19 restrictions, very few of them were active between March 2020 and the time of the on-site audit. None were available to interview on the third day of the on-site audit.

Summary of Audit Findings

The summary should include the number and list of standards exceeded, number of standards met, and number and list of standards not met.

_Auditor Note:_ No standard should be found to be “Not Applicable” or “NA”. A compliance determination must be made for each standard.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The following evidence was analyzed in making the compliance decision for this standard:

The agency’s primary document which outlines its commitment to zero-tolerance and its policies, procedures, and approach to prevent, detect, and respond to sexual abuse and sexual harassment is Program Statement 5324.12 Sexually Abusive Behavior Prevention and Intervention Program, dated June 4, 2015.

Policies, posted signs, staff and inmate interviews, observations of interaction between staff and inmates all support the conclusion that a culture of zero-tolerance is well established at the institution. A review of an outline of PREA presentation for Admission & Orientation provided to inmates within 30 days of arrival also supports this conclusion.

The agency’s PREA Coordinator is Jill Roth. Her position is full-time, dedicated to overseeing the agency’s efforts to comply with PREA standards. She was interviewed by another auditor from PREA Auditors of America, and the notes were provided to this auditor.

The primary evidence that the Institution PREA Compliance Manager has sufficient time and authority to complete his job is the achievement of compliance with all but three of the standards. The response from almost every interviewed inmate that they felt safe being housed at FCI McDowell is further evidence that the purpose and intent of the standards is being met.

- Interview with Institution PREA Compliance Manager

**Site Review Observations**

- Observations of staff on duty in housing units, program and workspaces, and other assignments
- Discussion with the administrators conducting tour on the units of minimum staffing at each location

The institution provided a detailed staffing plan that outlines the minimum staffing levels for both line and supervisory staff. Upon questioning by the auditor, an agency representative outlined how each of the requirements – (a) (1) through (11) was met in setting the minimum staffing levels.

The auditor confirmed the minimum staffing levels of each housing unit during the site review. At each housing unit and program area, he questioned institution staff as to the minimum level of staff that was always present on each unit.
No blind spots were observed in the housing units; the facility is well equipped with security cameras, which are monitored and recorded. Cells are equipped with distress alarm buttons. In the opinion of the auditor, the housing units are adequately staffed – i.e., the staffing levels met the minimum necessary to prevent, detect, and respond to incidents of sexual abuse and sexual harassment.

The auditor also reviewed the adequacy of security staffing in work, program, and chapel areas. Here also the staffing levels appeared to be adequate. The auditor noted that there are significant numbers of unit management staff, mental health providers, education staff, religious services staff, and treatment service staff, all of whom contribute to the safety and security of inmates.

The 2020 agency annual report, after an analysis of the 22 substantiated cases (systemwide) of that year, included the following statement: “Staffing levels did not appear to have caused or contributed to the sexual abuse cases.”

The total of zero substantiated report of sexual abuse and sexual harassment for the one-year period prior to the on-site visit is further evidence of the adequacy of the staffing levels. Likewise, inmate interviews uncovered zero incidents of sexual abuse or harassment. A very high percentage of inmates reported feeling safe is evidence that the facility meets this standard.

Interviews
- Inmate interviews

Site Review Observations
- Observation of apparent age of inmates

The institution provided data showing the age of inmates indicating that none were under 18 years of age. On the site review (tour) the auditor observed no inmates whose youthful appearance required him to ask for verification of age.

Forty inmate interviews were conducted of inmates chosen at random from the general population (or who were the only representative of the category requested). Many documents were reviewed which contained the ages of inmates. None of these interviews or records indicated that an inmate was under the age of 18.

All evidence leads to a finding of compliance with standard 115.14.

Interviews

- Staff interviews
- Inmate interviews

Site Review

- Observation of shower curtains, other privacy barriers
- Observation of posted signs re: opposite gender working on units
- Observation of switch system which activates a recorded message regarding opposite gender staff entering unit

Statements of facts, staff interviews, and auditor observations consistently indicated that the institution does not conduct cross-gender visual body searches. One hundred percent of inmate interviews indicated that the interviewed inmates had not been subject to such searches.

BOP Program Statement 5324.12 requires that correctional officers make their best efforts to allow offenders to shower, perform bodily functions, and change clothing without staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. The auditor observed physical barriers including curtains in every shower facility.

The BOP Correctional Services Procedures Manual also requires that staff of the opposite gender announce their presence when entering an offender housing area. The auditor verified that this occurred consistently during the site review. During the site review (tour) staff of the opposite gender...
announced their presence when they entered a housing unit where same gender staff were not already present.

Staff interviews also indicated that this practice was consistently followed. Inmate answers to this interview question ranged from “No”, to “sometimes” to “every time”. In the auditor’s judgment, the institution substantially complies with this aspect of the standard.

The auditor confirmed that proper means of conducting inmate pat searches were a part of both preservice and in-service training. All interviewed staff confirmed that they had received this training.

Upon review of all of the evidence, the auditor concluded that the institution complies with each provision of this standard in all material ways.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. • Memo from Acting Chief of BOP National Acquisitions Section regarding telephonic on demand language translations contract

Interviews
• Agency Head interview
• Staff interviews
• Inmate interviews

Site Review Observations
• Observations of Spanish versions of posted signs

BOP Program Statement 5324.12 outlines the agency’s requirements to effectively communicate with inmates with disabilities. Targeted inmate interviews with each of these groups – blind or low vision, deaf or hard of hearing, and cognitive limitations – indicated that the interviewed inmates understood their rights and the means of reporting abuse or harassment.

Staff interviews indicated that the facility does not rely solely on printed materials in English to communicate with inmates; intake, education, acceptance of complaints and reports of abuse or harassment, and investigations all involve face-to-face staff/inmate contact so that an assessment can be made of the inmate’s understanding of the communication. All interviewed staff understood the means available to find a staff person or interpretation services when necessary for a PREA-related communication.

Policy statements, inmate and staff interviews, all indicate compliance with this standard.

Interviews

- Interview with Human Resource representative

Review of documents and staff interviews indicate that the institution ensures that it does not hire or promote anyone who will have contact with inmates who has engaged in prior sexual abuse or harassment at a correctional facility by the following means:

- Criminal background checks
- Signed staff acknowledgment of affirmative duty to disclose such behavior.
- Criminal background checks of all staff upon 5th anniversary of hire

The auditor requested and reviewed the evidence provided by the institution for six randomly chosen employees – two who had been hired within the last year and four who had been at the institution more than five years. The first two had passed the background check process before they began work at the facility and all four in the second group had all been checked, and passed, within the last five years.

These same procedures are followed for volunteers and contractors who have contact with inmates. Supervisory staff and contractor interviews verified that this practice is followed in practice.

The auditor’s review of all of this evidence leads him to the conclusion that this standard is met in all material ways.
Standard 115.18: Upgrades to facilities and technologies

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.18 (a)

- If the agency designed or acquired any new facility or planned any substantial expansion or modification of existing facilities, did the agency consider the effect of the design, acquisition, expansion, or modification upon the agency’s ability to protect inmates from sexual abuse? (N/A if agency/facility has not acquired a new facility or made a substantial expansion to existing facilities since August 20, 2012, or since the last PREA audit, whichever is later.)
  □ Yes  □ No  ☒ NA

115.18 (b)

- If the agency or updated a video monitoring system, electronic surveillance system, or other monitoring technology, did the agency consider how such technology may enhance the agency’s ability to protect inmates from sexual abuse? (N/A if agency/facility has not installed or updated a video monitoring system, electronic surveillance system, or other monitoring technology since August 20, 2012, or since the last PREA audit, whichever is later.)
  □ Yes  □ No  ☒ NA

Site Review
- Observation of video camera monitoring station (control room)
The interview with the Institution PREA Compliance Manager indicated that there has not been any substantial expansion or modification of facilities, but the institution does have a video monitoring system. Because the institution has a process in place to consider the need for video cameras and other factors related to the prevention of sexual abuse when undertaking such expansion or modification, the institution complies with this standard.

BOP policy requires the following procedural steps for an investigation. The institution tracks the procedural steps required by this standard, as follows:
- Access to forensic medical examinations
- Examination by SAFE or SANE practitioners where available
- Access to a victim advocate where available

The auditor reviewed the documentation of the completed investigations from the last year. In all cases, the documentation indicated that the inmate was offered access to a forensic medical examination when appropriate.

The institution has a working relationship with a local rape crisis center, Women’s Resource Center (WRC) of Beckley, WV, which provides advocacy services upon request. A Memorandum of Understanding (MOU) exists between the WRC and the Bureau of Prisons (BOP). The services described in the MOU are provided by the center.

The institution does not employ SAFE or SANE staff. Inmates are transported to a local hospital, which provides SAFE practitioners to conduct such forensic examinations as may be necessary.

The auditor’s review of this evidence leads him to the conclusion that this standard is met in policy, procedure, and practice.

Standard 115.22: Policies to ensure referrals of allegations for investigations

Interviews
- Interview with investigations staff
- Agency Head interview
The agency has the above-listed policy statement by the BOP and the BOP/FBI MOU which require administrative and criminal investigations in the event of inmate or third-party allegations of sexual abuse or harassment. The institution provided documentation of the four completed investigations as requested by the auditor. The auditor verified in documents and interviews that these recent allegations were thoroughly investigated, and that the procedural steps required by the standard were met.

The policies clearly delineate the responsibilities of institution investigative staff and that of the external investigative agency, the FBI. The role of the FBI is specified on a website at

https://www.bop.gov/inmates/custody_and_care/sexual_abuse_prevention.jsp

where it is available to the public. On this page, the Bureau indicates that incidents of staff abuse of inmates are to be reported to the FBI. The auditor verified that the link functions as appropriate during the post-on-site phase of the audit.

The auditor’s review of this evidence leads him to the conclusion that this standard is met in policy, procedure, and practice.

**Documents**

- BOP Program Statement 5324.12
BOP policies and directives require that all staff who have contact with inmates receive PREA training upon hire (before being assigned to work on a unit), and annually thereafter. The training includes:

- Zero-tolerance
- Prevention, detection, reporting, and response
- Inmates’ rights
- Retaliation

Site Review Observations

- Posted signs

Approximately once a month, and usually within 30 days of arrival, the Associate Warden (P) / Institution PREA Compliance Manager, Chief Psychologist, or other designated staff provides an individual inmate orientation to PREA rights, responsibilities, and reporting procedures. The auditor reviewed randomly chosen forms documenting the receipt of this orientation. At the time of the on-site audit, the admission and orientation process had consistently occurred within 30 days of an inmate’s admission date, except for so-called “holdover”, non-designated inmates. The institution corrected this deficiency during the on-site audit by providing and documenting this education to all holdover inmates held 30 days or longer. They further documented the continuation of this process for holdover inmates during the corrective action period and until August 20, 2021 when they discontinued the practice of holding non-designated inmates.

The auditor interviewed 40 inmates; approximately 75% indicated that they remembered receiving the required information upon intake. Approximately the same percentage indicated that they remembered the subsequent education sometime within the ensuing 30 days, with a typical response of “within a couple weeks”. Staff interviews also indicated that this is the normal process. Holdover inmates reported not having received this 30-day educational information.

Inmates who are unable to understand the materials for reasons of limited English proficiency or disability can have a staff interpreter or other assistance to help them understand the institution’s policies and procedures.
Targeted inmate interviews included one inmate whose primary language was Spanish, one who was visually impaired, one who had a cognitive disability, and one who had another physical disability. The institution provided a Spanish interpreter for the Limited English Proficiency (LEP) inmate, and all were able to understand the auditor’s questions without additional assistance. All verified that they had received and understood the required educational materials.

The auditor’s review of this evidence leads him to the conclusion that this standard was not met at the time of the on-site visit, but that it now is fully met in all substantial aspects.

Corrective Action Plan.

The following corrective action plan was developed with input from the central office management analyst and the Institution PREA Compliance Manager:

<table>
<thead>
<tr>
<th>Standard</th>
<th>Action</th>
<th>Check Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>115.33 (b) (c), comprehensive PREA education within 30 days</td>
<td>Develop means of providing comprehensive PREA education for holdover inmates housed at, but not designated for FCI McDowell, within first 30 days of arrival. Provide memorandum or policy and procedure change to auditor.</td>
<td>September 25, 2021 (30 days)</td>
</tr>
<tr>
<td></td>
<td>Gather data for holdover inmates held at FCI McDowell. Gather documentation that all receive comprehensive PREA education. Provide list of all holdover inmates held more than 30 days.</td>
<td>September 25, 2021 (30 days)</td>
</tr>
<tr>
<td></td>
<td>Respond to auditor’s request for documentation of such education for 10% sample of inmates from the list provided.</td>
<td>October 10, 2021 (45 days)</td>
</tr>
</tbody>
</table>

On September 7 and 9, the institution provided extensive documentation that corrective action had been taken. Although this was in advance of the two check dates indicated in the corrective action plan, the auditor reviewed and accepted the materials provided. The 10% sampling envisioned in the corrective action plan was also not necessary, because the institution provided the requested data for 100% of the inmates for whom the issue applied. Finally, inasmuch as the institution discontinued the practice of housing holdover inmates on August 20, 2021, there is no purpose in waiting for the check dates to judge compliance for this standard.

Documentation of this training is contained in employees’ files. An interview with a randomly chosen health care and a randomly chosen mental health care employee, and a review of documentation indicated that this training was received and understood.

The auditor’s review of this evidence leads him to the conclusion that this standard is met in policy, procedure, and practice.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Documents

• BOP Program Statement 5324.12
• Institution responses to PREA Pre-Audit Questionnaire
• Completed inmate screening forms
• Attachment A: PREA Intake Objective Screening Instrument
• Inmate Activity Records – showing program review with case manager
• Signed memorandum from Acting Warden to staff re: new procedure
• Completed Individualized Needs Plan – Initial Classification forms for each holdover inmate held 30 days or longer

Interviews

• Interview with Institution PREA Compliance Manager
• Interview with a randomly chosen member of a unit team
• Staff interviews
• Inmate interviews

The auditor reviewed the completed inmate screening forms for seven randomly chosen inmates; the form requires that the intake officer ask specific questions and make his or her observations of the presence of risk factors. In the auditor’s opinion, these criteria are objective in nature, and they are applied objectively. The criteria include:

• Whether the inmate has a mental, physical, or developmental disability
• The age and physical build of the inmate
• Whether the inmate has previously been incarcerated
• Whether the inmate’s criminal history is exclusively nonviolent
• Whether the inmate has prior convictions for sex offenses
• Whether the inmate identifies or appears to the intake officer as LGBQTI or otherwise gender nonconforming
• Previous sexual victimization
• The inmate’s own perception of vulnerability

Note: the facility does not house inmates solely for civil immigration purposes.

In addition to screening inmates for their vulnerability and risk factors for victimization, the form and intake process are used to assess inmates’ risk for being sexually abusive. Prior acts of sexual abuse, prior convictions for violent offenses, and prior history of institutional violence are considered.

Most interviewed inmates reported that they had been asked these questions on the first day of their arrival. Interviews with a randomly chosen member of the unit team also supported that the practice conforms with Bureau policy and this provision of the standard.

Bureau policy and procedure require that inmates be reassessed between day 15 and day 30 of their time at the institution. The institution normally complies with this requirement. Document review and inmate and staff interviews indicated that this practice is consistently followed for inmates designated to the institution. However, interviews and document review indicated that this practice is not followed for so-called “holdover” inmates. Two housing units held holdover inmates at the time of the on-site audit.

A review of randomly chosen records indicated that holdover inmates do not receive this reassessment. Staff interviews confirmed that this is the case.

An inmate’s risk level can be reassessed by at least two different means, if warranted:

• Referral to the Unit Team
• Following an investigation of report or allegation of sexual abuse or harassment

Bureau policy prohibits discipline of inmates for refusing to answer screening questions, or for not disclosing complete information in response to screening inquiries. No examples of such discipline were uncovered in inmate or staff interviews. Likewise, the auditor found no instances of inappropriate dissemination of screening information.

The auditor’s review of this evidence led him to the conclusion that this standard was not fully met at the time of the on-site visit but it is now fully met in all substantial aspects.

Corrective Action Plan.

The following corrective action plan was developed with input from the central office management analyst and the Institution PREA Compliance Manager:

<table>
<thead>
<tr>
<th>Standard</th>
<th>Action</th>
<th>Check Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>115.41 (f), reassessment of inmate risk within 30 days</td>
<td>Develop means of providing risk reassessment for holdover</td>
<td>September 25, 2021 (30 days)</td>
</tr>
</tbody>
</table>
inmates housed at, but not designated for FCI McDowell, within first 30 days of arrival. Provide memorandum or policy and procedure change to auditor.

<table>
<thead>
<tr>
<th>Gather data for holdover inmates held at FCI McDowell. Gather documentation that all receive risk reassessment. Provide list of all holdover inmates held more than 30 days.</th>
<th>September 25, 2021 (30 days)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Respond to auditor’s request for documentation of such reassessment for 10% sample of inmates from the list provided.</td>
<td>October 10, 2021 (45 days)</td>
</tr>
</tbody>
</table>

On September 7 and 9, the institution provided extensive documentation that corrective action had been taken. Although this was in advance of the two check dates indicated in the corrective action plan, the auditor reviewed and accepted the materials provided. The 10% sampling envisioned in the corrective action plan was also not necessary, because the institution provided the requested data for 100% of the inmates for whom the issue applied. Finally, inasmuch as the institution discontinued the practice of housing holdover inmates on August 20, 2021, there is no purpose in waiting for the check dates to judge compliance for this standard.

Documents

- BOP Program Statement 5324.12
- Completed Offender Screening Forms

Interviews

- Staff interviews
- Inmate interviews
- Interview with Assistant Warden (P) / Institution PREA Compliance Manager

Bureau policies and procedures govern the use of screening information in making housing, bed, work, education, and other program assignments. All describe an individualized process designed to ensure the safety of inmates, staff, and the overall institution. Staff and inmate interviews consistently indicated that the process is followed and nearly unanimously indicated that inmates feel safe at this institution. Completed Offender Screening Forms records and other inmate records indicated referrals to various assignments were made on an individualized, case-by-case basis.

Two transgender inmates were interviewed at the institution at the time of the on-site audit. Their interviews indicated that the process was followed and that they felt safe in their current housing and program assignments. Both indicated that they are allowed to shower separately from other inmates.

The auditor's review of this evidence leads him to the conclusion that this standard is met in policy, procedure, and practice.

- Memos from Warden regarding inmate placement in segregated housing

Interviews

- Staff interviews
- Inmate interviews

Site Review Observations

- Observation of Special Housing Unit

A review of applicable BOP policies, plans, and procedures indicates that alternatives are considered for all at risk offenders, not just those at risk of sexual victimization, prior to involuntary placement in segregated housing. Likewise, all inmates in segregation have access to programs to the extent that they can be adequately supervised in program areas, or where programs can be brought to them.

Segregated housing logs and daily activity logs document the degree to which opportunities are limited and the duration of the limitation. The segregated housing review process is conducted no less frequently than monthly.
The institution documents the basis for the institution’s concern for the inmate’s safety and the reasons why alternative means of separation cannot be arranged. Staff and inmate interviews indicated that these procedures are followed in actual practice.

The auditor’s review of this evidence leads him to the conclusion that this standard is met in policy, procedure, and practice.

Site Review Observations

Inmates learn of the ways they can report sexual abuse or harassment in multiple ways, including:

- Inmate handbook
- Posted signs
- Admission and Orientation Briefing (PREA Video)
- Brochures and pamphlets

The internal ways include:

- Verbal report to a correctional officer or other staff
- Written report via inmate communication form to any Institution staff person
- Verbal or written report to the Institution PREA Compliance Manager
- TRULINCS
- Filing an offender grievance

The external ways include:
A PREA Auditors of America (PAOA) DOJ-certified auditor interviewed the Agency Head. Based on these discussions, and a review of BOP policies, the auditor believes that the FBI operates independently in its investigative role. None of the completed investigative files offered for review were criminal investigations conducted by the FBI.

A written complaint can be submitted anonymously; an anonymous report is accepted and investigated. A letter to a “special correspondent” can be submitted sealed and without the inmate’s name. No inmates wrote to the auditor during the pre-onsite period.

Inmate interviews consistently verified that inmates know of the various internal and external ways of reporting. Staff interviews confirmed that they understand the importance of documenting verbal reports and the requirement to promptly pass all reports up the chain of command to be addressed. Staff interviews also verified their knowledge of policy regarding their own methods of privately reporting sexual abuse and harassment of inmates.

Line staff interviews indicated that the normal means of notification is to the lieutenant on duty. Staff also indicated that they could report to others in the administration, including the Associate Warden (P) / Institution PREA Compliance Manager regardless of a strict interpretation of the chain of command.

The auditor’s review of this evidence leads him to the conclusion that this standard is met in policy, procedure, and practice.

**Standard 115.52: Exhaustion of administrative remedies**

**All Yes/No Questions Must Be Answered by the Auditor to Complete the Report**

**115.52 (a)**

- Is the agency exempt from this standard? NOTE: The agency is exempt ONLY if it does not have administrative procedures to address inmate grievances regarding sexual abuse. This does not mean the agency is exempt simply because an inmate does not have to or is not ordinarily expected to submit a grievance to report sexual abuse. This means that as a matter of explicit policy, the agency does not have an administrative remedies process to address sexual abuse. ☐ Yes ☒ No

**115.52 (b)**

▪ If the agency claims the maximum allowable extension of time to respond of up to 70 days per 115.52(d)(3) when the normal time period for response is insufficient to make an appropriate decision, does the agency notify the inmate in writing of any such extension and provide a date by which a decision will be made? (N/A if agency is exempt from this standard.) ☒ Yes ☐ No ☐ NA

▪ At any level of the administrative process, including the final level, if the inmate does not receive a response within the time allotted for reply, including any properly noticed extension, may an inmate consider the absence of a response to be a denial at that level? 115.52 (e)

▪ Are third parties, including fellow inmates, staff members, family members, attorneys, and outside advocates, permitted to assist inmates in filing requests for administrative remedies relating to allegations of sexual abuse? (N/A if agency is exempt from this standard.) ☒ Yes ☐ No ☐ NA

▪ Are those third parties also permitted to file such requests on behalf of inmates? immediate corrective action may be taken? (N/A if agency is exempt from this standard.) ☒ Yes ☐ No ☐ NA

- After receiving an emergency grievance described above, does the agency provide an initial response within 48 hours? (N/A if agency is exempt from this standard.) ☒ Yes ☐ No ☐ NA

The auditor’s review of BOP Policy and the Inmate Handbook indicates that the institution has plans and procedures in place to ensure the following:

- No time limit is imposed on when an inmate may submit a grievance regarding an instance of sexual abuse
- Inmates are not required to use an informal grievance process to resolve an alleged incident of sexual abuse
- Inmates are not required to submit a grievance to a staff member who is the subject of a complaint
- Such grievances are not referred to a staff member who is the subject of a complaint
- The agency issues a final decision within 90 days of the initial filing of the grievance, such 90-day period not including the inmate’s time preparing an administrative appeal
- If the agency claims an extension of time to respond, it will notify the inmate in writing of the extension and provide a date by which a decision will be made
- Third parties are permitted to assist inmates in filing requests for administrative remedies, and to file such requests on behalf of inmates
- The agency will document an inmate’s decision to decline assistance
- Emergency grievances may be filed if an inmate alleges that he is at substantial risk of imminent sexual abuse
- Emergency grievances are immediately forwarded to a level of review at which corrective action can be taken, a response is provided within 48 hours, and a final agency decision is issued within 5 calendar days.
- The determination of substantial risk and the action taken are documented

Although there were no cases to review to test these plans and procedures in practice, interviews with the associate wardens indicated that such procedures would be followed. In the auditor’s judgment, the institution complies in all material ways with this standard.

During the pre-on-site phase, the following advocacy organization was identified: the Women’s Resource Center (WRC) of Beckley, WV. The institution provided a copy of a Memorandum of
Understanding (MOU) between the BOP and the center approved in 2019. The services noted in the MOU included a 24/7 phone hotline.

The MOU provided by the institution during the pre-audit phase indicated that the WRC provided advocacy services to inmates either directly or via referral to other qualified agencies. However, no evidence was found during the on-site visit that inmates were notified of the phone number and address of the center. No interviewed inmates or staff were aware that these services were available.

Upon being notified of this deficiency, the Warden issued a memorandum to all staff that identified the center and its contact information. Also, on day two of the on-site audit, the institution posted an appropriate notice of the WRC’s availability and contact information throughout the facility.

The auditor’s review of this evidence led him to the conclusion that this standard was not met at the time of the on-site visit but it is now met in all substantial aspects.

On September 7 and 9, the institution provided photographic evidence that the notices are still posted. They also provided a copy of a revised inmate handbook which includes the two required methods of contacting the victim services agency – mail and telephone. The facility now complies with this standard in every material way.

BOP and institution policy directives require that the institution receive reports of sexual abuse and harassment from third parties, including other agencies, public officials, family members, or a member of the public. This policy is communicated to inmates by way of the inmate handbook and to these groups by way of a general information guide, which can be easily accessed on the BOP website. Staff interviews confirmed that grievances are handled in accordance with these policies. Inmate interviews also supported the conclusion that the institution complies with this standard.

Interviews
- Staff interviews

- Interview with BOP Agency PREA Coordinator

BOP policies and directives, and staff training require immediate reporting of circumstances placing an inmate in immediate risk of sexual abuse, and action to protect the inmate in danger. These same policies clarify that such reporting is limited to the extent necessary to allow administrators to make treatment, investigation, and other management decisions. Staff interviews and signed Employee Acknowledgment Forms consistently demonstrated an understanding of these requirements.

Likewise, medical and mental health providers are required by policy, procedure, and initial training to report such circumstances, and to inform inmates of this duty and the limits of confidentiality. The targeted medical staff interview and signed training acknowledgement forms demonstrated an understanding of these practices.

The auditor’s review of this evidence leads him to the conclusion that this standard is met in policy, procedure, and practice.

**Instructions for Overall Compliance Determination Narrative**

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.
The auditor’s review of BOP Policy indicates that the agency has plans and procedures in place to require the following:

- Reports to and from other facilities within the agency are communicated immediately.
- Allegations of abuse at facilities outside the BOP are reported to the head of that institution, no later than 72 hours after the receipt of the allegation.
- Such notifications are to be documented.

Supervisory staff interviews verified that these policies are consistently carried out in practice. Three examples of same-day notifications were provided.

This evidence leads the auditor to the conclusion that the institution complies with this standard.

BOP Program Statement 5324.12 and staff training require separation of the alleged victim and abuser by the first responder, and actions to preserve the crime scene and preserve evidence. Staff interviews and signed employee and contract staff acknowledgement forms consistently demonstrated an understanding of these requirements. The auditor’s review of this evidence leads him to a conclusion of full compliance with this standard.

The auditor reviewed the documentation of completed investigations at the facility which required this formal process. In his opinion, the process appears to be smoothly coordinated and well-documented. Investigative staff and medical staff interviews confirmed this opinion.

The auditor’s review of this evidence leads him to the conclusion that this standard is met in policy, procedure, and practice.

**Interviews**

The auditor’s review of the above-listed master agreement found no evidence of a collective bargaining agreement or other agreement that limits the agency’s ability to remove alleged staff sexual abusers from contact with any inmates pending the outcome of an investigation or of a determination of whether and to what extent discipline is warranted.

In fact, the directives require this separation and prohibit retaliation by accused staff against inmates bringing such complaints. Interviews confirmed that this is the policy and procedure that is followed in the event of an inmate complaint of sexual abuse by staff.

The auditor’s review of this evidence leads him to the conclusion that this standard is met in policy, procedure, and practice.

BOP Program Statement 5324.12 outlines the plan to monitor an inmate’s housing, program, and disciplinary status for 90 days following the investigation of an incident of sexual abuse. Policies dictate the prohibitions against retaliation and the disciplinary consequences for those who do so.

The auditor reviewed the documentation of completed investigations. Although none of the allegations or reports was found to be substantiated, the institution was able to provide documentation of retaliation for two of the completed cases.

The auditor’s review of this evidence leads him to the conclusion that this standard is met in policy, procedure, and in actual practice.

- Observation of Special Housing Unit (SHU)

A review of applicable BOP policies, plans, and procedures indicates that alternatives are considered for all at risk offenders, not just those at risk of sexual victimization, prior to involuntary placement in segregated housing. Likewise, all inmates in segregation have access to programs to the extent that programs can be brought to them. Segregated housing logs and daily activity logs document the degree to which opportunities are limited and the duration of the limitation. The segregated housing review process is conducted no less frequently than monthly.

This process documents the basis for the facility’s concern for the inmate’s safety and the reasons why alternative means of separation cannot be arranged. Targeted staff and inmate interviews indicated that these procedures are followed in actual practice.

• Staff interviews

BOP policies and directives require the following:

• Prompt, thorough, and objective investigations
• Investigation of all allegations, including those from third parties
• Use of available physical and DNA evidence and available electronic monitoring data (video)
  ▪ Interviews of alleged victims, suspected perpetrators, and witnesses
• Review of prior reports and complaints of sexual abuse involving the suspected perpetrator
• Assessment of the credibility of an alleged victim, suspect, or witness on an individual basis
• Efforts to determine whether staff actions or failures to act contributed to the abuse

Further, BOP policies and directives require:

• Investigations performed by persons who have received specialized training to conduct such investigations
• Written reports which contain a description of the physical evidence and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings
• That the departure of an alleged abuser or victim from the employment or custody of the agency does not provide a basis for terminating an investigation

Records retention policies require that such records “must be retained.”

Staff interviews, and the review of recent investigations indicate that these policies and procedures are consistently followed.

The auditor’s review of this evidence leads him to the conclusion that this standard is met in policy, procedure, and practice.

BOP policies, training materials, and staff interviews indicate that the standard determining whether allegations of sexual abuse or sexual harassment are substantiated is a preponderance of the evidence. A review of four completed investigations revealed no instances of applying a higher standard.

The auditor’s review of this evidence leads him to the conclusion that this standard is met in policy, procedure, and practice.

Documents

- BOP Program Statement 5324.12
- Institution responses to PREA Pre-Audit Questionnaire
- Investigative files, including proof of offender notification
Interviews

- Institution PREA Compliance Manager interview
- Staff interviews

BOP policies and directives require notification of the reporting inmate of the results of administrative investigations, investigations by the OIG, and investigations referred for criminal prosecution. Each of the reviewed investigative files included proof of offender notification.

Following an inmate’s allegation that a staff member has committed sexual abuse against him, these same policies require that the agency subsequently inform the inmate:

- When the staff member is no longer posted within the inmate’s unit
- When the staff member is no longer employed at the institution
- When the agency learns that the staff member has been indicted on a charge related to sexual abuse in the institution
- When the agency learns that the staff member has been convicted on a charge related to sexual abuse within the facility

These steps are not required by standard or policy if the agency has determined that the allegation is unfounded, or unless the inmate has been released from custody. The randomly chosen files included one case where the allegation was against a staff member, but the allegation was determined to be unfounded, so the latter parts of the standard could not be confirmed in practice.

Further, BOP policies and directives require notification of the reporting inmate following his allegation that he or she has been sexually abused by another inmate, that the agency subsequently inform the alleged victim:

- When the agency learns that the alleged abuser has been indicted on a charge related to sexual abuse within the institution; and/or
- When the agency learns that the alleged inmate abuser has been convicted on a charge related to sexual abuse within the institution.

These notifications are documented by one or more of the following forms:

- Attachment M, UCC Notification of OPI Outcome
- Attachment F, Staff-on-Offender Sexual Abuse Investigative Worksheet
- Attachment J, Offender Protection Investigation
- Offender Notification Brochures

Staff interviews, examples of completed documentation of notification, and a review of recent investigations indicate that these policies and procedures are consistently followed. The auditor’s review of this evidence leads him to the conclusion that this standard is met in policy, procedure, and practice.

BOP policies, plans, and directives all require that contractors and volunteers who have been found to engage in sexual abuse be prohibited from contact with inmates. Likewise, they require that incidents of sexual abuse be reported to law enforcement and the appropriate licensing agencies.

In the case of any other violation of agency sexual abuse or sexual harassment policies by a contractor or volunteer, policy requires that the facility take appropriate remedial measures, and consider whether to prohibit further contact with inmates.

Staff and contract interviews indicate that these policies are followed in practice. The auditor’s review of this evidence leads him to the conclusion that this standard is met in policy, procedure, and practice.

### Standard 115.78: Disciplinary sanctions for inmates

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

#### 115.78 (a)

BOP policies, plans, and directives require that:

- Offenders are subject to disciplinary sanctions pursuant to a formal disciplinary process following an administrative finding that the offender engaged in offender-on-offender sexual abuse, sexual harassment, extortion, substantiated acts of violence, or following a criminal finding of guilt for offender-on-offender sexual abuse
- Sanctions are appropriate to the nature of abuse committed, the offender’s disciplinary history, and the sanction imposed for comparable offenses by other offenders with similar histories
- The disciplinary process considers whether an offender’s mental disabilities or mental illness contributed to his behavior when determining what type of sanction, if any, should be imposed
- The facility offers therapy, counseling, or other interventions designed to address and correct possible underlying reasons or motivations for the abuse, and consideration is made to determine if participation should be a requirement for access to programming or other benefits
- An offender may be disciplined for sexual contact with staff only if it is determined the staff member did not consent to the contact
- Disciplinary actions related to staff-on-offender sexual abuse or sexual harassment violations are handled in accordance with BOP Policy
• Sexual activity between offenders is prohibited and when discovered, it results in disciplinary sanctions in accordance with the BOP policy. However, sexual activity between offenders is not considered sexual abuse if it is determined the activity is consensual
• Engaging in consensual sexual acts with others, defined as “intentional contact between the genitals of one person and the genitals, mouth, anus, or hands of another person with the consent of both participants” is considered a lesser disciplinary violation
• A report of sexual abuse made in good faith, based on a reasonable belief that the alleged conduct occurred, does not in itself constitute falsely reporting an incident or lying, even if an investigation does not establish evidence sufficient to substantiate the allegation
• When the preponderance of evidence exists supporting a false allegation, the offender involved in the false allegation shall be disciplined in accordance with the BOP policy

Special considerations are required for offenders charged with or suspected of a disciplinary infraction who are developmentally disabled or psychiatric patients. These procedures are followed when dealing with developmentally disabled offenders or psychiatric patients.

Staff and contractor interviews indicate that these policies are followed in practice. The auditor’s review of this evidence leads him to the conclusion that this standard is met in policy, procedure, and practice.

BOP policies require that if the screening pursuant to this section indicates an offender has experienced prior sexual victimization or previously perpetrated sexual abuse, whether it occurred in an institutional setting or in the community, medical staff ensure the offender is offered a follow-up meeting with a medical or mental health practitioner within 14 days of the intake screening. The screening forms included in these policies are used daily at the institution. Four targeted inmate interviews confirmed that this referral was made.

BOP policy requires that the use of any information related to sexual victimization or abusiveness that occurred in an institutional setting is strictly limited to medical and mental health practitioners and other staff, as necessary, who are assisting with making treatment plans and other management decisions, including those related to housing, bed, work, education, and program assignments, or as otherwise required by federal, state, or local law.
BOP policy requires medical staff to obtain informed consent from offenders before reporting information about prior sexual victimization that did not occur in an institutional setting.

Review of inmate records and staff, contractor, and inmate interviews indicated that these policies are followed in practice. The auditor’s review of this evidence leads him to the conclusion that this standard is met in policy, procedure, and practice.

BOP policies require an administrative review of all alleged sexual abuse and sexual harassment incidents, unless determined unfounded. The warden is required to obtain input from supervisory staff, investigators, and medical or mental health practitioners when completing the review. The review team includes upper-level management, with input from line supervisors, investigators, and medical or mental health practitioners. The facility is required to implement recommendations that result from the review, or to document the reasons for not doing so. Administrative reviews were conducted and documented for the cases reviewed.

BOP Program Statement 5324.12 requires the warden or designee to conduct a prompt, thorough investigation, after reporting a serious or unusual incident and to complete an Administrative Incident Review. The review is required to include:
- A review of the circumstances of the incident
- The name(s) of the person(s) involved
- Events leading up to and following the incident
- A consideration of whether the actions taken were consistent with BOP policies and procedures
- A review of whether lesser alternative means of managing the situation were available
- An identification of actions, if any, that could be taken to avoid future incidents of a similar nature and identification of training needs
- A determination of whether Incident Command System levels or response levels were used during the incident
- A determination of whether employee action or inaction was a factor
- Corrective action taken

The review is required to be submitted with 20 days of notification. Although not specifically required by the policies cited, the reviews reviewed by the auditor included:
- Consideration of whether the allegation or investigation indicated a need to change policy or practice to better prevent, detect, or respond to sexual abuse
  - Consideration of whether the incident or allegation was motivated by race; ethnicity; gender identity; lesbian, gay, bisexual, transgender, or intersex identification, status, or perceived status; gang affiliation; or other group dynamics at the facility
  - Examination of the area in the facility where the incident allegedly occurred to assess whether physical barriers in the area may enable abuse
  - An assessment of the adequacy of staffing levels in that area
  - An assessment of whether monitoring technology should be deployed or augmented to supplement supervision by staff

The auditor’s review of incident review records and supervisory staff interviews indicates that these policies and the other requirements of the standard are followed in practice. The auditor’s review of the evidence leads him to the conclusion that this standard is met in policy, procedure, and practice.
