AUDIT FINDINGS

NARRATIVE

The on-site visit for the Prison Rape Elimination Act (PREA) compliance audit of the Federal Correctional Institution, McKean County, PA (FCI) was conducted August 18-20, by The Nakamoto Group Inc. auditor Carolyn Rickards Williams. When the auditor first arrived at the facility, an in-briefing meeting was held with the Warden, PREA Compliance Manager, Associate Wardens, Executive Assistant, Captain, several support staff, Bureau of Prisons (BOP) PREA/ACA Liaison, the ACA Auditor and a representative from the BOP Program Review Division. After the introductions, the audit process was discussed during the briefing.

The Federal Correctional Institution is an all male facility and is currently accredited by the American Correctional Association (ACA).

The Federal Correctional Institution is a medium security level federal prison with an adjacent minimum security camp. There are four housing units which are shaped like bow ties. The unit staff offices are located in the center and a housing unit on each side has 156 inmate beds, for a total of 312 inmates per unit. The four housing units can provide housing for approximately 1,265 inmates. The facility has a design capacity of 856 and a current inmate population of 1158. The average length of stay is eight to approximately nine years.

The adjacent prison camp consists of five buildings and a greenhouse. Each of the two housing units can house approximately 165 inmates. The camp provides support to the main institution, UNICOR warehouse, the safety department's recycling operation, the food service warehouse operation and landscape/grounds - general maintenance operations. The camp has a design capacity of 292 and a current inmate population of 256. The average length of stay is approximately five and one-half years.

Support services include human resources, employee development, financial management, safety, facilities, computer services, inmate systems management, religious services, psychology services, education/recreation, health services, food services and correctional services. The Warden and other key staff meet quarterly to discuss work force utilization, staffing plans and other institution issues.

The standards used for this audit became effective August 20, 2012. This auditor discussed the information contained in the Pre-Audit Questionnaire with the institution PREA Compliance Manager. The National PREA Coordinator and the National PREA Contract Administrator for the Bureau of Prisons were previously interviewed telephonically, as was the Director's designee. As part of the audit, a review of all agency and local facility PREA policies was conducted, as well as an extensive tour of the facility. A total of 25 inmates were interviewed by the auditor. One inmate refused to be interviewed and four inmates were limited English proficient. During the auditing period of 1/1/2014-1/19/2015, there were zero reported allegations of sexual abuse/sexual harassment. A total of 79 institution staff were interviewed. Twenty correctional officers (from all three 8 hour shifts), four administrative staff, one volunteer, and 54 specialized and random staff were interviewed. The administrative staff interviewed included the Warden, one Associate Warden, the Human Resource Manager and the Captain.

DESCRIPTION OF FACILITY CHARACTERISTICS

The mission of the Federal Bureau of Prisons is to protect society by confining offenders in the controlled environments of prisons and community-based facilities that are safe, humane, cost efficient, appropriately secure, and that provide work and other self-improvement opportunities to assist offenders in becoming law abiding citizens. In addition to providing a safe, secure and humane environment, it is also the mission of FCI McKean and the satellite camp to provide the highest quality of care, custody and program opportunities to the inmates, as well as emphasizing the importance of emergency preparedness and providing the local community with a high degree of security and public safety. Staff take pride in the level of dedication and professionalism exhibited at the facility and they continuously strive to "set the standard" for the field of corrections and other public sector organizations.

FCI McKean currently has a staff complement of 314. There are only 13 female correctional officers and just 18% of the staff complement are female. Excluding the Warden's secretary, all secretarial staff at the institution are male.

The Education Department provides a wide variety of academic and vocational programs for the inmate population. Academic programs include instruction from the literacy level, taught on site, to post-secondary classes, which are available through correspondence. The Literacy, as well as the English-as-a-Second Language Program, is mandatory for all inmates, who do not possess a verifiable high school diploma/GED certificate or who are non-English speaking. Satisfactory completion of the GED Program will merit a GED Certificate. On average, over 200 inmates are enrolled at any given time in the literacy program. In addition to the academic programs, a variety of vocational training programs are offered, to include culinary arts and building trades. The ICON computer lab, located both at the main facility and the satellite camp, allows inmates the opportunity to work on their keyboarding skills and create resumes for their reentry into the community. In the fall of 2015, approximately 18 inmates from the satellite camp are being afforded the opportunity to take one college class offered by the University of Pittsburgh at Bradford. The class will take place on institution grounds.

A voluntary Residential Drug Abuse Program is available at the satellite camp. The program lasts from nine to ten months for a minimum of 500 hours of intensive treatment, with a focus on the identification, challenge and correction of criminal thinking. The Non-Residential Drug Abuse Program is also available at the main institution for those inmates who are not eligible for the residential treatment program due to time or program requirements. Community volunteers add substantially to the quality of these programs.

All inmates, who have been medically cleared, are provided work assignments, to include Food Service, Environmental Health Services (Safety), Facilities, Education/Recreation, Laundry, Commissary, Health Services, tutoring, sanitation workers and unit orderlies. Ordinarily, each inmate is required to work five (5) days per week, seven hours per day, in an effort to develop a more solid work ethic. Additionally, the institution has a cooperative agreement with the USDA Forest Service, in which inmates perform a variety of jobs, to include cleaning campgrounds, assisting in maintenance of forest improvements, trail upkeep/construction and the planting/thinning of trees, on the federal lands of the Allegheny National Forest.

FCI McKean manages two recycling programs. Their recycling of mixed metals, paper, oil, batteries, cardboard, anti-freeze, grease and light bulbs, for a combined waste total of 187,969 pounds, netted a cost savings of \$17,164.50. Additionally, the food service organic recycling program nets an approximate savings of \$9-10k per annum in tipping fees, the required payment (based on the weight) for dumping waste daily.

The auditor concluded, through interviews and a review of policy and documentation, that all staff and a majority of inmates were very knowledgeable concerning their responsibilities involving PREA. During the interviews, the inmates acknowledged that they received information about the facility's Zero Tolerance policy against sexual abuse upon their arrival to the facility, that staff were respectful and that they felt safe at the facility. Staff were able to describe in detail their specific duties and responsibilities, including being a "first responder", if an incident occurred or an allegation of sexual abuse/sexual harassment was made.

SUMMARY OF AUDIT FINDINGS

When the on-site audit was completed, an "out-briefing" meeting was conducted. In addition with the PREA auditor, the Bureau of Prisons PREA/ACA Liaison and the executive staff, the Warden invited the institution department heads. The auditor was provided extensive and lengthy files prior to the audit for review to support a conclusion of compliance with the PREA. There was one area of concern during the audit. A total of four blind spots were found in the laundry operation. In order to enhance staff supervision and the security of inmates in that area, four conclave mirrors were installed, so that every corner of that particular work area could be visible at all times. Institution staff were found to be extremely courteous, cooperative and professional. All areas of the facility were found to be clean and well maintained. At the conclusion of the audit, the auditor thanked the FCI McKean staff for their dedication to the PREA process.

Number of standards exceeded: 1

Number of standards not met: 0

Number of standards not applicable: 1

Standard 115.11 Zero tolerance of sexual abuse and sexual harassment; PREA Coordinator

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Program Statement (PS) 5324.12, pages 2, 13,24,26,27, 28 and 49 and Institution Supplement (IS) 5324.12, page 3 clearly meet the mandates of this standard. The agency's zero tolerance against sexual abuse is clearly established and the policy also outlines the agency's approach to preventing, detecting and responding to sexual abuse and sexual harassment allegations. In addition to the facility PREA Compliance Manager, there is a designated National PREA Coordinator and PREA Compliance Manager assigned to each regional office in the agency to ensure adherence to PREA. The facility PREA Compliance Manager reports to the Warden. Zero tolerance posters are displayed throughout every area of the institution. Both institution staff and inmates are provided with a wealth of opportunities to become well aware of PREA policies and procedures. Staff receive initial training and annual training, as well as updates throughout the year. The pocket size PREA Standards/First Responder Guideline, which was issued to staff to be carried at all times for reference, was clearly visible during the interview process. Additionally, the PREA Compliance Manager sends out an electronic quiz each month and the first staff member to respond with the correct answers is rewarded with an institutional coin. Each employee has a PREA ICON on their office computer, which automatically takes them to the First Responder Guideline. Throughout the audit, staff advised that it was not unusual for supervisors to enter their work areas and ask if they are carrying their First Responder Card and ask them to produce said card. The inmate population was required to attend monthly town hall meetings and a PREA Facts Sheet was developed and placed on bulletin boards throughout the facility.

Standard 115.12 Contracting with other entities for the confinement of inmates

This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The agency and facility meet the mandates of this standard. A review of the documentation submitted substantiated the agency and facility require other entities contracted with (i.e. Corrections Corporation of America, Management and Training Corporation, The GEO Group, Inc.) for the confinement of inmates to adopt and comply with the PREA standards. All agency contractual agreements were modified effective February 1, 2013, to incorporate the language requiring contractors to adopt and comply with PREA standards.

PS 3000.03, pages 8-12; the Current Staffing Report and the Workforce Utilization Committee Meeting Minutes address the mandates of this standard. Agency policy requires each facility to review the staffing plans on an annual basis. Interviews with the Warden and members of the executive staff revealed compliance with PREA and that other safety and security issues are always a primary focus when they consider and review their staffing plan. Workforce utilization issues are always reviewed and discussed at the Quarterly Workforce Utilization Meeting and minutes are on file. The institution has been provided with all necessary resources to support the programs and procedures to ensure compliance with PREA standards. The audit included an examination of all video monitoring systems, inmate access to telephones and the Tru Lincs e-mail system, staff interviews and rosters. Additionally, documentation of unannounced rounds covering all shifts by administrative staff was reviewed. Interviews with staff confirmed unannounced rounds to all areas of the institution are conducted on a weekly basis, with no warning to staff. [REDACTED] are visible throughout the institution where blind spots are of concern and the need for supervision is required. [REDACTED]

Staff indicated they received cross-gender pat search training during initial and annual training. The auditors observed each unit has individual shower stalls with metal swing doors or no-see-through shower curtains, that can be adjusted according to the inmate's height for privacy purposes. Inmates, officers and administrative staff stated inmates are allowed to shower, dress and use the toilet privately, without being viewed by the opposite gender. Inmates and employees reported staff of the opposite gender announce their presence before entering a housing unit. Additionally, scheduled automated announcements are made over the PA system throughout the day. Staff are well aware of the policy prohibiting the search of a transgender or intersex inmate for the sole purpose of determining the inmate's genital status.

There are PREA posters throughout the facility and, in each housing unit, a "Hotline" telephone number, which may be called to report abuse or harassment, is posted on the bulletin boards. Additionally, all inmates are required to attend unit town hall meetings, which address the PREA. The Office of Inspector General's mailing address is listed in the A&O Handbook and posted in each housing unit for inmates to write concerning any sexual abuse or sexual harassment allegation. There is a language line, which this auditor had the opportunity to use during the inmate interview process, available to limited English speaking inmates. This auditor reviewed a random sampling of A&O Checklists to verify those inmates admitted during the auditing period received Sexual Assault/Assault Prevention & Intervention Education and relevant written materials. All inmates are required to acknowledge in writing they completed PREA education..

PS 5324.12 and the corresponding local policy address this standard. All inmates are assessed at intake, immediately upon arrival at the facility for their risk of being sexually abused or harassed by other inmates or being sexually abusive towards other inmates. A unit staff member screens all new arrivals within their first 72 hours. They are almost always seen the first day of intake. The staff reviews all relevant information from other facilities and continues to reassess an inmate's risk level within 30 days of his arrival. Inmates identified as high risk for sexual victimization or at high risk of sexually abusing other inmates are referred to the mental health staff for additional assessment. A PREA Intake Screening Form is utilized to conduct the initial risk assessment on a new commitment. Agency and facility policy require the use of a screening instrument (reviewed by auditor) to determine proper housing, bed assignment, work assignment, education and other program assignments, with the goal of keeping inmates at high risk of being sexually abused/sexually harassed separate from those inmates who are at a high risk of being sexually abusive. Housing and program assignments are made on a case-by-case basis and inmates are not placed in housing units based solely on their sexual identification or status. Interviews with risk management staff also support the finding that the facility is in compliance with this standard.
