## Facility AUDIT FINDINGS

### Summary of Audit Findings

The OAS automatically populates the number and list of Standards exceeded, the number of Standards met, and the number and list of Standards not met.

Auditor Note: In general, no standards should be found to be "Not Applicable" or "NA." A compliance determination must be made for each standard. In rare instances where an auditor determines that a standard is not applicable, the auditor should select "Meets Standard" and include a comprehensive discussion as to why the standard is not applicable to the facility being audited.

#### Number of standards exceeded:

2

- 115.31 - Employee training
- 115.41 - Screening for risk of victimization and abusiveness

#### Number of standards met:

39

#### Number of standards not met:

0

#### Not audited at the facility level:

Audited at the agency-level, and not relevant to the facility-level audit because the facility has no independent responsibility for the operation of these standards.

<b>Targeted Inmate/Resident/Detainee Interviews</b>	
<b>58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:</b>	10
<p>As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".</p>

## SITE REVIEW AND DOCUMENTATION SAMPLING

### Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

<b>84. Did you have access to all areas of the facility?</b>	<input checked="" type="radio"/> Yes <input type="radio"/> No
<b>Was the site review an active, inquiring process that included the following:</b>	
<b>85. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?</b>	<input checked="" type="radio"/> Yes <input type="radio"/> No
<b>86. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?</b>	<input checked="" type="radio"/> Yes <input type="radio"/> No
<b>87. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?</b>	<input checked="" type="radio"/> Yes <input type="radio"/> No
<b>88. Informal conversations with staff during the site review (encouraged, not required)?</b>	<input checked="" type="radio"/> Yes <input type="radio"/> No

**89. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).**

The Auditor had full, unimpeded access to all areas of the facility. During the review of the physical plant, the Auditor observed the facility layout, staff supervision of offenders, security rounds, interaction between staff and offenders, shower and toilet areas, placement of PREA posters, observation of availability of PREA information located adjacent to and in the inmate housing areas, observation of communication in general population housing areas, as well as restrictive housing cells, search procedures, and availability and access of medical and mental health services. The Auditor observed and made note of the video monitoring system and camera placement throughout the facility, including reviewing the monitors in the control room.

Facility staff allowed the Auditor full access to all areas in FCI Morgantown. The tour included the administrative area, visitation, classrooms, recreation yards, warehouse, commissary, library, medical, kitchen, receiving and discharge, and all offender housing units. During the tour, the Auditor was observing for blind spots, opposite gender announcements, the overall level of supervision and staff interactions.

Observations were made of PREA posters and other PREA related materials prominently displayed throughout the facility. The Auditor observed staff performing security rounds, commissary operations, food service operations, offenders working in various areas and staff making opposite gender announcements. Medical personnel were observed conducting treatments with offenders. The Auditor observed offenders inside and outside of housing units. All offender restrooms and shower areas were observed to ensure offenders could utilize the restroom, change clothing and shower without staff of the opposite gender observing the offenders fully naked.

## Documentation Sampling

Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.

**90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?**

Yes

No

**91. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).**

The Auditor conducted a document review of employee and inmate files, and a spot check of documents that were previously provided to the auditor along with the PAQ. The Auditor reviewed a random sampling of personnel files to determine compliance related to standards on hiring and promotion and background check procedures for officers and contract staff. The Auditor reviewed the annual PREA training rosters maintained by the training staff and cross referenced the staff files with the training rosters to ensure training was verified. The training coordinator explained the process for relaying the mandated PREA information to new hires, as well as the procedure for annual refresher training. Random offender case files were reviewed to evaluate intake procedures, including screening and subsequent housing decisions, and verify offender PREA education. In addition, the intake and receiving procedures were observed and intake screenings are conducted in private. The Auditor requested additional supporting documentation to include: training records for randomly chosen staff, randomly chosen inmate medical records, randomly chosen inmate classification records, volunteer records, contractor records, and staff personnel files including PREA disclosure forms for hiring and promotions if applicable.

# SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY

## Sexual Abuse and Sexual Harassment Allegations and Investigations Overview

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

115.11 (a): Agency Directives and Policies address the requirements of this provision. The agency mandates a zero-tolerance directive towards all forms of sexual abuse and sexual harassment and outlines the agency's strategies on preventing, detecting, and responding to such conduct. The agency has a comprehensive PREA Policy: PS 5324.12 as well numerous other policies and procedures that supplement the PREA Plan. The agency policies outline the strategies on preventing, detecting, and responding to such conduct and include definitions of prohibited behavior. Agency policies address "preventing" sexual abuse and sexual harassment through the designation of a PREA Coordinator and PREA Compliance Manager, criminal history background checks (staff, volunteers, and contractors), training (staff, volunteers, and contractors), staffing, intake/risk screening, classification, inmate education, posting of signage (PREA posters, etc.), and contract monitoring.

The policies and directives address "detecting" sexual abuse and sexual harassment through training (staff, volunteers, and contractors), and intake/risk screening.

The policies and directives address "responding" to allegations of sexual abuse and sexual harassment through reporting, investigations, victim services, medical and mental health services, disciplinary sanctions for staff and inmates (PS 3420.11 and PS 5270.09), incident reviews and data collection and analysis. The policy is consistent with the PREA standards and outlines the agency's approach to sexual safety.

The Inmate Handbook, PREA Posters, and PREA Brochure address sexual abuse by another inmate, and the Inmate Handbook addresses sanctions for inmates when involved in such conduct. Based on staff interviews and a review of practices, the Auditor noted staff monitor for inmate-on-inmate sexual misconduct in accordance with the PREA program. All allegations are reported and investigated, and inmates are held accountable.

115.11 (b): Agency Directives and the BOP PREA Plan addresses the position of the agency PREA Coordinator, which outlines the roles and responsibilities of the position and calls for the position being allowed enough time and authority to develop, implement, and oversee agency efforts to comply with the PREA standards in each facility.

The agency's organizational chart reflects that the agency PREA Coordinator position (referred to as the National PREA Coordinator) is an upper-level position with agency-wide oversight. The PREA Coordinator is a Psychologist under the Psychology Services Branch and reports to the Assistant Director, Reentry Services Division. The PREA Coordinator provides guidance through regional agency PREA Coordinators and facility PREA Compliance Managers. The position is full-time and the PREA Coordinator reported having enough time to manage all the PREA related responsibilities, with the freedom to divert responsibilities to other staff as needed to focus on the audit.

Based on the agency directive, agency's organization chart, and the interview with the designated agency PREA Coordinator, the Auditor determined the agency demonstrates it meets the requirements of this provision of this standard.

	<p>115.11 (c): The Program Statement (PS) 5324.12, Sexually Abusive Behavior Prevention and Intervention Program and Institution Supplement (IS) 5324.12E, Sexually Abusive Behavior Prevention and Intervention Program, address the requirements identified in the standard. The agency has appointed a psychologist assigned to the BOP Reentry Services Division as their National PREA Coordinator. This position reports to an Assistant Director.</p> <p>The facility has designated the Associate Warden as the staff member responsible for ensuring PREA compliance. The PAQ indicated that the PREA Compliance Manager has sufficient authority and time to coordinate the facility's PREA efforts. The facility's organizational chart confirms that the Associate Warden is responsible for PREA compliance and that he/she reports directly to the Warden regarding all PREA-related concerns. The interview with the PREA Compliance Manager indicated he has sufficient time to coordinate the facility's PREA compliance.</p> <p>The evidence shows that the agency has a PREA policy, has designated an upper-level, agency-wide PREA Coordinator as verified through the organizational chart and the facility has a PREA Compliance Manager as verified through the organizational chart. Based on the review of the PAQ and related documents, PREA implementation appears to comply with the standard under the PREA Coordinator and PREA Compliance Manager. The preparedness for the audit and overall incorporation of institutionalized sexual safety practices demonstrates that the PREA Coordinator and PREA Compliance Manager have sufficient time and authority to accomplish PREA responsibilities for the agency and facility. As such, this standard appears to be compliant.</p> <p>Corrective Action: None</p>

The agency reported the agency-wide contract requires the agency to monitor the contractor's compliance with the PREA standards.</p>

	<p>The agency reported there were a total of zero contracts for the confinement of inmates and 160 Residential Reentry Centers (RRCs) that the agency had entered or renewed with private entities or other government agencies.</p> <p>The agency-wide contract requires the agency to monitor the contractor's compliance with the PREA standards.</p> <p>A review of the contract reflected the entity's obligation to adopt and comply with the PREA standards. A review of the agency directive and of the contract that the agency had entered or renewed with private entities or other government agencies reflected all the contracts met the required entity's obligation to adopt and comply with the PREA standards.</p> <p>The agency's Contract Administrator reported she is required to maintain regular contact with every inmate placed in a contract facility. If there are concerns, agency protocol requires the inmate be removed from the facility and the facility allowed time to make corrective action and address the concerns. Corrective actions are addressed before the facility is reconsidered and notification would also be made to law enforcement. The Contract Administrator annually collects credentialing documentation for each facility including, facility license; staff licenses or certifications; daily schedule; and monitoring reports or the licensing agency's website regarding the facility's status; as well as tours the facility.</p> <p>The BOP is no longer actively soliciting new contracts with private facilities. All contracts have expired; thus, the BOP no longer contracts with private agencies/entities for the confinement of federal inmates.</p> <p>The Contract Administrator reported PREA compliance results are completed and that the PREA Coordinator has implemented a tracking process for this. A review of the agency directive, agency contract and interview with the contract administrator and PREA Coordinator demonstrated the agency meets the requirements of this provision and this standard appears to be compliant.</p> <p>Corrective Action: None</p>

### Findings (By Provision):

115.13 (a): PS 3000.03, Human Resource Management Manual addresses the agency's staffing plan development. Agency policy, the facility staffing plan and the Workforce Utilization Committee meeting minutes address the requirements of the standard. The policy indicates that the Workforce Utilization Committee will formulate a staffing plan based on the number of allocated positions, historical turnover and anticipated vacancies. Additionally, the policy states that the committee will review departmental rosters, review findings of program, operational and other management reviews and recommend actions designed to increase effective use of resources. Per the policy, the vacancy rate will not exceed ten percent during any eighteen-month period. The staffing plan takes into consideration generally accepted detention practices, any judicial findings of inadequacy, any finding of inadequacy from Federal investigative agencies, any finding of inadequacy from internal or external oversight bodies, all components of the facility's physical plant, the composition of the inmate population, the number and placement of supervisory staff, the institutional programs occurring on a particular shift, any applicable State or local laws, the prevalence of substantiated and unsubstantiated incidents of abuse and any other relevant factors.

The PAQ indicated that the current staffing is based on 1,302 inmates. The facility currently employs 141 staff. Custody staff mainly make up three shifts: first shift is 8:00am-4:00pm, second shift is 4:00pm-12:00am, and third shift works is 12:00am-8:00am. The facility operates on a unit management concept. Officers are assigned to each housing unit, along with a case manager. Additional officers are assigned to other ancillary areas. Medical, mental health and administrative staff have varying work schedules from 6:00am till 6:00pm. Interviews with the Warden and the PREA Compliance Manager confirmed that the facility has a staffing plan that provides adequate staffing levels and that they comply with the plan on a regular basis.

Staff reported they follow the agency directives and PREA standards, taking into consideration the composition of the inmate population and their needs, scheduled programming, and staff placement.

Interviews with the Warden, PREA Compliance Manager and Supervisory Staff indicate that in order to ensure compliance with the staffing plan, the facility monitors staffing

throughout the shifts and thoroughly review all serious incident reports. During the on-site audit, a review of the agency directive, staff interviews, and the facility's staffing plan indicated all the elements are addressed.

115.13 (b): The facility indicated in the PAQ that no deviations from the staffing plan had occurred during the previous twelve months. The interview with the Warden indicated that deviations would not occur as policy does not allow for correctional service rosters to be unmanned. The Warden stated that the facility continually evaluates the staffing plan to eliminate any blind spots, to place staff in high traffic areas and areas that may have special populations. The Warden stated via memo that the Workforce Utilization Committee had determined that staffing levels were found to be adequate, video monitoring systems are utilized but could be enhanced with additional funding, and any deviations from the staffing plan would be documented in accordance with policy requirements. The PREA Compliance Manager indicated that staff review the population to include aggressors and victims and determine any areas of weakness at the facility or areas that need closer supervision for these individuals. Based on the security level of the facility and other restrictions, multiple staff report they rarely, if ever have inmates that are at high risk of abusiveness.

The Warden indicated that required staffing levels would be maintained through voluntary or mandated overtime (if needed), and/or augmentation using non-custody staff. At the time on the on-site review, the Warden and PREA Compliance Manager stated that the facility was at nearly at 100% staffing for custody staff. Staff indicated that they had requested to over hire 10 positions to offer more opportunities for staff. The Warden stated that there are a lot of tenured staff who are respectful and professional and want to do the right thing.

115.13 (c): A review of the facility staffing plan and the quarterly Salary and Workforce Utilization Committee annual meeting minutes confirm that PREA issues were considered when filling positions and developing work rosters/assignments. The plan was reviewed to assess, determine and document whether any adjustments were needed to the staffing plan, the deployment of video monitoring technologies and/or the resources available to commit to ensuring adherence to the staffing plan. Interviews with the Warden and PREA Compliance Manager confirmed that the facility considers the items detailed in the standard when developing the staffing plan. The facility and the agency review the staffing plan at least quarterly. There have been no judicial findings of inadequacy, findings of inadequacy from federal investigative agencies or findings of inadequacy from internal or external oversight bodies relevant to this standard. The agency reported no deviations with the staffing plan in place.

115.13 (d)(e): PS 5324.12 indicates that the Institution Duty Officer (IDO) is required to make weekly unannounced rounds on all shifts to identify and deter sexual abuse and sexual harassment. These rounds are required to be documented and forwarded to the PREA Compliance Manager for retention. Additionally, MRG-5324.12E indicates that unannounced rounds by supervisory staff conducted with the intent of identifying and deterring sexual abuse and sexual harassment are conducted every week. Additionally, PS 5324.12 prohibits staff from alerting other staff members that the

	<p>supervisory rounds are occurring, unless such announcement is related to legitimate operational functions of the facility.</p> <p>A review of supplemental documentation indicated that rounds are being conducted weekly by the IDO in all locations at the facility. The review of Institution Duty Officer unannounced PREA rounds logs confirmed that intermediate-level or higher-level staff conduct and document such visits throughout the institution, including nights and weekends. Logbooks are used to document unannounced rounds, which are the responsibility of the posted officer to maintain. Interviews with supervisory staff indicate that they vary their route, deviating their times and locations when making rounds, not following a consistent pattern to prohibit staff from alerting other staff about the rounds. Interviews with inmates and housing unit officers confirmed that random, unannounced rounds are conducted by Institution Duty Officers daily, including nights and weekends.</p> <p>During the walk-thru of the facility, the auditor identified a potential blind spot in the kitchen. The staff immediately corrected this by adding a mirror to improve the sight line.</p> <p>Based on a review of the PAQ, PS 3000.03, PS 5324.12, MRG-5324.12E, the staffing plan, staffing plan reviews, documentation of unannounced rounds, observations made during the tour and interviews with supervisory staff, this standard appears to be compliant.</p> <p>Corrective Action: None</p>

FCI Morgantown does not permit cross-gender strip searches or cross-gender visual body cavity searches, except in exigent circumstances or when performed by medical practitioners. There was no cross-gender visual body cavity or strip searches conducted at the facility during the audit period. Officers would be required to document all cross-gender strip searches and cross-gender visual body cavity searches. In such a case, this exception would be documented in the inmate's central file. Interviews with staff confirmed that they were aware of the prohibition of visual body cavity or strip searches of the inmates of the opposite gender except in exigent circumstances.</p> <p>Random staff interviews confirmed that male and female officers had been trained to</p>

conduct cross-gender pat searches. As confirmed by observations during the on-site review of inmate housing units, inmates are permitted to shower, perform bodily functions, and change clothing privately. The agency and facilities require staff of the opposite gender to announce their presence or otherwise notify the inmates when entering an inmate housing unit. Inmate interviews confirmed that staff members of the opposite gender announce their presence when entering housing units. The auditor observed this practice during the on-site review of the facility. Staff would not search or physically examine a transgender or intersex inmate for the sole purpose of determining the inmate's genital status. Interviews with inmates confirmed that officers were professional and respectful when performing pat searches. Interviews with staff/inmates, auditor observations and an examination of policy/supporting documentation confirm compliance with this standard.

The agency reported there have been no incidents of cross-gender strip or cross-gender visual body cavity searches of inmates. This was confirmed through staff interviews.

115.15 (b): Agency Directives and BOP PREA Plan address this provision. Agency policy requires strip searches be conducted by staff of the same gender as the inmate. There have been no incidents of cross-gender strip or cross-gender visual body cavity searches of inmates. Staff interviews revealed staff are aware they are prohibited from conducting cross-gender strip searches, but are trained to conduct cross-gender pat-down searches.

Staff indicated staffing levels are sufficient to ensure cross-gender strip searches do not occur. Staff interviewed reported they had not conducted a cross-gender strip search or knew of this practice taking place. Inmates stated they have always been searched by same-gender staff. A review of the agency directive and staff interviews indicates no cross-gender strip searches have been conducted. Inmate interviews confirmed no cross-gender strip searches are conducted.

115.15 (c): Agency Directives and BOP PREA Plan address this provision. Agency directive requires strip searches are conducted by staff of the same gender as the inmate. PS 5521.06 discusses visual searches and body cavity searches. Visual searches are to be conducted by staff of the same gender as the inmate, except where circumstances as such that a delay would mean the loss of contraband. In such a case, this exception would be documented in the inmate's central file. Agency policy states that body cavity searches are only conducted by qualified health personnel upon the approval of the Warden or Acting Warden and such searches are documented in the inmate's central file. The facility does not house female inmates and as such, no cross-gender pat searches of female inmates would be conducted or documented. The PAQ indicated that no cross-gender searches have been conducted in the previous twelve months. Female inmates are not housed at the facility.

115.15 (d): Agency Directives and BOP PREA Plan address this provision. During the on-site audit, the Auditor observed that inmates have sufficient privacy to perform bodily functions. There is no opportunity for staff of the opposite gender to view inmates performing bodily functions.

The Auditor noted that staff of the opposite gender would announce themselves accordingly when entering a housing unit. Staff interviews revealed staff are aware of the requirement to announce themselves when entering a housing unit with inmates of the opposite gender. There is information posted about this and an announcement is routinely made over the loud speaker. Inmates interviewed reported staff of the opposite gender do announce themselves upon entering the housing unit and that they would never be in a state of undress in front of opposite gender staff. Interviews with random inmates and interviews with random staff indicated that inmates have privacy when showering, using the restroom and changing clothes.

A Memorandum from the Warden indicated that the facility refers to PS 5324.12 for policies and procedures that enable inmates to shower, perform bodily functions, and change clothing without non-medical staff of the opposite gender viewing their breasts, buttock, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks.

The auditor observed during the site review that all housing areas have showers and toilets that are sufficiently private while still allowing for custody staff to ensure the safety of the offenders.

115.15 (e): Agency Directives and BOP PREA Plan address this provision. Staff interviews indicate staff are aware of the prohibition of searching or physically examining a transgender or intersex inmate for the sole purpose of determining the inmate's genital status. Staff stated the determination of the inmate's genital status would be made by medical staff if there were any question. There were no transgender inmates at the time of the onsite review.

A Memorandum from the Warden indicated that a staff member at FCI Morgantown shall not search or physically examine a transgender or intersex inmate for the sole purpose of determining the inmate's genital status. The PAQ indicated that there had been no searches of this nature within the past twelve months.

115.15 (f): Training documentation reflected staff attended and participated in "Cross-Gender and Transgender Pat Searches" training during onboarding, and refresher training is available online. The Sexually Abusive Behavior Prevention and Intervention Program Annual Training Curriculum indicated that staff are trained on conducting cross gender pat searches and searches of transgender and intersex inmates in a professional and respectful manner on the first day of the annual training.

A review of the agency directive, training documentation, and staff interviews indicate staff are prohibited from conducting cross-gender strip searches or visual body cavity searches, however, all staff are trained on how to conduct cross-gender pat-down searches if exigent circumstances exist which exceeds the requirements of this provision.

A review of the training curriculum confirms that the training covers cross-gender pat-searches and searches of transgender and intersex inmates. The PAQ indicated that 100% of staff had received this training. The Auditor reviewed training records which

	<p>indicated all facility staff had received this training. Interviews with a random sample of staff indicated that they all had received this training during the previous year.</p> <p>Based on a review of the PAQ, PS 5521.06, the Sexually Abusive Behavior Prevention and Intervention Program Training Curriculum, Memorandum from the Warden, staff training records, observations made during the tour including physical layout and the opposite gender announcement, as well as information from interviews with random staff, random inmates and transgender inmates indicate this standard appears to be compliant.</p> <p>Corrective Action: None</p>

Through agency policy and practice, the facility ensures that inmates with all disabilities as listed in the standard have an equal opportunity to participate in and benefit from all aspects of the agency's efforts to prevent, detect and respond to sexual abuse and sexual harassment. The PREA Compliance Manager is responsible for reaching out to local disabilities assistance offices to ensure the facility is providing effective communication accommodations when needed. Additionally, the Warden provided a Memorandum indicating that FCI</p>

Morgantown shall take appropriate steps to ensure that inmates with disabilities have an equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. The memo indicates that FCI Morgantown has access to community resources for individuals with disabilities thru WVU Center for Excellence in Disabilities. The auditor reviewed documentation of the facility's continued collaboration with the agency.

All written PREA-related information, including postings, brochures and handouts are available in English, Spanish, and other languages. Staff will also read information to inmates when necessary. Translation services are available through a contracted language service for inmates who are not English proficient, and the facility has staff who are proficient in languages other than English. The facility does not rely on inmate interpreters, inmate readers or other types of inmate assistance in the performance of first responder duties or during the investigation of an inmate's allegations. Interviews with staff confirmed their awareness of the prohibition of using inmate interpreters for PREA compliance functions. Interviews with two non-English proficient inmates confirmed the availability and use of the staff and telephonic interpretive services. Interviews with staff, other inmates and an examination of policy/supporting documentation also confirm compliance with the provisions of this standard.

The interview with the Agency Head indicated that inmates receive PREA information in a format that they can understand. A review of inmate files indicated that inmates with disabilities received PREA information in a way that they understood. The Auditor observed PREA signage to be in large text and in bright colors. Interviews with disabled inmates revealed they are aware of the PREA program and their rights.

115.16 (b): Agency directive, BOP PREA Plan and a review of posters, inmate handbooks, and training certificates, address this provision. PS 5324.12 and MRG-5324.12E establishes the procedure to ensure meaningful access to all the aspects of the facility's efforts to prevent, detect and respond to sexual abuse and sexual harassment to inmates who are Limited English Proficient (LEP). Per agency policy, the PREA Compliance Manager is responsible for reaching out to available interpretation services to ensure the facility is providing effective communication accommodations. The facility has staff that are bilingual and assist in translation when needed. The agency has a contract with LanguageLine Solutions to provide translation services for inmates who are LEP. This is a telephonic service the facility can utilize that will translate information between the staff member and LEP inmate.

The auditor interviewed four Limited English Proficient (LEP) inmates. The inmates reported getting the written PREA-related information in Spanish and received PREA information in a format that they can understand.

A review of PREA posters, the inmate handbook, PREA directives and inmate distributed information confirmed that information is available in both English and Spanish. A review of the files for the two LEP inmates interviewed indicated that they received PREA information and they understood the information. During the tour, it was observed that PREA signage was posted throughout the facility in English and

	<p>Spanish.</p> <p>115.16 (c): Agency directive, BOP PREA Plan and review of posters, inmate handbooks, and training certificates address this provision. PS 5324.12 and MRG-5324.12E prohibits the use of inmate interpreters, readers or any other type of inmate assistants for allegations of sexual abuse and sexual harassment, except in limited circumstances where an extended delay could compromise the inmate’s safety. The facility has identified staff that can translate in Spanish. The LEP inmates interviewed reported being provided PREA-related information verbally from staff and understanding their rights as it pertained to PREA and had an understanding on how to report an allegation.</p> <p>The PAQ indicated that there were no instances where an inmate was utilized to interpret, read or provide other types of assistance. Interviews with a random sample of staff indicated that inmates are not utilized to translate for PREA purposes. All staff interviewed reported they would never use inmates to interpret for another inmate for a PREA related situation unless there was an emergency.</p> <p>Interviews with LEP inmates and inmates with cognitive disabilities indicated that other inmates were not typically utilized for translation. One LEP inmate stated that during his intake processing another inmate was used to explain some of the information to him. This had already been identified and addressed by the Associate Warden. The Auditor did not feel as if any further action was necessary. The facility rarely receives inmates that are Limited English Proficient. Further, interviews revealed that the facility has resources for translation, and both staff and inmates are aware of these services.</p> <p>Based on a review of the PAQ, PS 5324.12, MRG-5324.12E, the LanguageLine Solutions contract, the memo from the Warden, a review of PREA signage and information, the inmate handbook, observations made during the tour to include the PREA signage as well as interviews with staff, and inmates with a cognitive disability and LEP inmates indicates that this standard appears to be compliant.</p> <p>Corrective Action: None</p>

1. Interview with Human Resource Staff

Findings (By Provision):

115.17 (a)(e)(h): PS 3000.03 Human Resource Management Manual, PS 3420.11, Standards of Employee Conduct, the Pre-Employment Guide, SF85P (Questionnaire for Public Trust Positions) and a BOP recruitment document address the requirements of the standard. PS 3000.03 indicates that a statement indicating eligible external applicants must meet all application criteria and conditions of employment. All employees who have contact with inmates have had a full field background investigation in addition to fingerprinting and inquiry into the FBI's National Crime Information Center (NCIC). The PAQ and interviews with staff indicated that the agency will not hire or promote anyone who may come in contact with inmates, and shall not enlist the services of any contractor who may have contact with inmates if they have: engaged in sexual abuse in prison, jail, lockup or any other institution; been convicted of engaging or attempting to engage in sexual activity in the community or has been civilly or administratively adjudicated to have engaged in sexual abuse by force, overt or implied threats of force or coercion. Additionally, the facility does not hire or promote anyone who has engaged in any type of sexual abuse/harassment. Employees have a duty to disclose such misconduct and material omissions regarding such misconduct would be grounds for termination. Submission of false information by any applicant is grounds for not hiring the applicant.

All staff had a background completed which included their criminal history, credit history and other record inquiries. Contractors and volunteers who have regular contact with inmates also have criminal background checks completed prior to having contact with inmates. Volunteer and contractor background checks are repeated yearly. Files reviewed for contractors hired within the previous year indicated contractors had a background check completed prior to enlisting their services. Employee backgrounds are re-checked every five years based on their anniversary date.

The Memorandum for Human Resource Managers documented that the agency provides information related to substantiated allegations of sexual abuse or sexual harassment involving a former employee to institutional employers for whom the employee has applied to work. Specifically, the memo indicates that all requests should be forwarded to the Office of Internal Affairs and that this office will respond to all requests. The Human Resource Manager was interviewed and confirmed that the agency attempts to contact prior employers for information on substantiated

allegations of sexual abuse or resignations which occurred during a pending investigation of sexual abuse. The Human Resource Manager also confirmed that the agency, not the facility, provides information on substantiated allegations of sexual abuse or sexual harassment involving a former employee, upon receiving a request from an institutional employer for whom such employee has applied to work. The agency, not the FCI, notifies appropriate licensing/certifying agencies when professional staff members are terminated for substantiated allegations of sexual abuse or sexual harassment. Human resource staff indicated that this information would be provided when requested. A review of policy, personnel forms, and relevant supporting documentation, including staff interviews, confirm compliance with this standard.

A review of the eligibility questions on the USA Jobs Application indicated that the three questions are required to be answered electronically for all applicants. A review of personnel files for staff who were hired in the previous twelve months indicated that all had completed an application and as such were required to answer the eligibility questions. The interview with Human Resource staff indicated that the questions are part of the hiring process.

115.17 (b): Agency Directives and BOP PREA Plan address this provision. The Auditor interviewed the Human Resource Staff. Staff reported the agency has incorporated and implemented the "Affirmative Duty to Disclose," which all staff were required to affirm and sign. The form includes a "material omissions" clause.

The General Employment Considerations for Staff indicates that the applicant's character or past conduct might impose a statutory bar to employment or impede employment by adversely impacting on the Bureau's efficiency by jeopardizing the ability to accomplish its mission successfully.

The PAQ indicated that the agency considers any incidents of sexual harassment in determining whether to hire or promote any staff or enlist the services of any contractor who may have contact with an inmate. Human Resource staff informed the auditor that sexual harassment is considered when hiring or promoting staff or enlisting services of any contractors.

115.17 (c): Agency Directives and BOP PREA Plan address this provision. The agency directive requires job applicants to have background checks completed and address any issue of prior sexual misconduct. The background checks are completed prior to any inmate contact. All contractor staff are screened using the same process. The Human Resource staff confirmed this process.

Standard Form 85P and the BOP Recruitment Flyer indicates that employment is subject to satisfactory completion of a background investigation, which also includes law enforcement and criminal records checks, credit checks, inquiries with previous employers and personal references.

The PAQ indicated that 100% of the 21 staff hired in the past twelve months that may have contact with inmates had received a criminal background check and prior institutional employers were contacted. A review of personnel files indicated that all

staff had a criminal background check completed and all prior institutional employers contacted. Additionally, all staff are fingerprinted and any future arrest is automatically reported to the agency through the National Background Investigations Bureau. Human Resource staff indicated that staff have an affirmative duty to disclose any contact with law enforcement.

115.17 (d): Agency Directive(s) and BOP PREA Plan address(es) the elements of this provision. Agency directive defines staff to include volunteer or contracted program services staff. All staff are subjected to a criminal background check. PS 3000.03 indicates that the agency performs criminal background checks before enlisting the services of any contractor who may have contact with inmates via a check of the National Crime Information Center (NCIC).

The PAQ indicated that there has been one contract and 10 individual contractors at the facility within the past twelve months. A review of contractor personnel files indicated that a criminal background check had been conducted. Human Resource staff confirmed that all contractors have a criminal background check completed prior to enlisting their services.

115.17 (f): Agency Directive(s) and BOP PREA Plan address(es) this provision. The application process includes the "Affirmative Duty to Disclose" form for new hires, volunteers and contractors, and a review of personnel files indicated this process was being implemented. All staff files reviewed indicated the forms had been signed in accordance with directive. Staff interviews confirm the practice is in place and meets the requirements of this provision.

The agency will ask all applicants and employees who have contact with inmates directly about whether they have: engaged in sexual abuse in prison, jail, lockup or any other institution, been convicted of engaging or attempting to engage in sexual activity in the community or been civilly or administratively adjudicated to have engaged in sexual abuse by force, overt or implied threats of force or coercion through a written application, during any interviews or through any written self-evaluations as part of a review of current employees. A review of the eligibility questions on the USA Jobs Application indicated that the three questions are required to be answered electronically for all applicants. A review of personnel files for staff who were hired in the previous twelve months indicated that all had completed an application and as such were required to answer the eligibility questions. Additionally, all staff had a background completed which included their criminal history, credit history and other record inquiries. The interview with Human Resource staff confirmed that these questions are required to be answered by all applicants.

115.17 (g): Agency Directives and BOP PREA Plan address this provision. Agency directive defines staff to include volunteer or contracted program services staff. Material omissions regarding sexual misconduct or the provision of materially false information is grounds for termination. The Questionnaire for Public Trust Positions indicates that falsifying or concealing facts is a felony which can result in fines and up to five years in prison. An interview with Human resource staff confirms that any false information or omissions would result in an employee or contractor being terminated.

	<p>Based on a review of the PAQ, PS 3000.03, Standard Form 85P, BOP Recruiting Flyer, National Background Investigations Bureau (NBIB), General Employment Considerations for Staff, Memorandum for Human Resource Manager, the Eligibility Questions, a review of personnel files for staff and contractors and information obtained from the Human Resource staff interview indicates that this standard appears to be compliant.</p> <p>Corrective Action: None</p>

FCI</p>

Morgantown offers all inmates a forensic examination if sexually abused. The medical staff will contact Utilization Review who determines the best location with the available services for SANE/SAFE requirements. The Prison Rape Elimination Act Investigation Policy Memorandum indicates that medical forensic examinations are conducted in accordance with standards set forth in "A National Protocol for Sexual Assault Medical Forensic Examinations, Adult/Adolescents, DOJ Office of Violence Against Women, second edition, April 2013".

The facility reported no SAFE/SANE examinations were conducted at a local hospital during the last 12 months. All forensic exams are at no cost to the inmate and are available at any time. The victim will be escorted to the Emergency Department, at WVU Medicine J. W. Ruby Memorial Hospital, which provides trauma - informed care for victims of sexual assault 24/7, 365 days a year. Victim advocates are available through the hospital emergency room, who have an agreement with the local Rape Crisis Center. In addition, Psychology staff at the facility are trained as victim advocates and are available at the request of the inmate.

A review of the agency directive and supporting documentation indicated the agency coordinates and ensures the protocol implemented is appropriate and in compliance with this provision.

115.21 (c): The Prison Rape Elimination Act Investigation Policy Memorandum indicates that all inmate victims of sexual abuse are offered a forensic medical examination, whether on-site, or at an outside facility, without financial cost. PS 6031.04 specifically states that only in institutions where extreme security concerns exist may an in-house physician be used. Forensic medical exams are provided at no cost to the inmate at WVU Medicine J. W. Ruby Memorial Hospital in Morgantown, WV through the emergency department.

The PAQ indicated that during the previous twelve months, there have been zero forensic exams conducted. During the audit period, there was not an instance where an inmate was provided a forensic medical examination so no documentation was able to be reviewed.

Interviews with correctional and health services personnel confirmed that they were all knowledgeable of the required procedures for obtaining, preserving, and securing physical evidence, when sexual abuse is alleged. Staff were aware that the Special Investigative Services (SIS), the Office of Internal Affairs (OIA), Office of the Inspector General (OIG) or the Federal Bureau of Investigation (FBI) conduct investigations relative to sexual abuse/harassment allegations. Victims of sexual assault are referred to health services for initial examination and treatment.

Such treatment would be for life preservation only and the victim would be transported to a community hospital for examination, treatment and forensic evidence gathering by a Sexual Assault Nurse Examiner (SANE). The practice was confirmed through interview with medical staff. All sexual abuse victim advocacy, examinations, treatment, testing, and follow-up care are provided without cost to the victim. Facility staff members (psychology staff) have also been trained as victim advocates.

Administrative investigations are conducted by trained investigators who are full-time employees of the facility. The Warden generates the referral to the outside agency (OIG or FBI). A review of facility training records confirmed that investigators have received investigator training offered by the BOP on the investigation of sexual abuse and harassment in confinement settings. An examination of policy/supporting documentation also confirm compliance with this standard. There were no forensic exams performed at a local hospital within the last year.

115.21 (d): Agency Directives and BOP PREA Plan address this provision. Victims of sexual assault are referred to health services for initial examination and treatment. Such treatment would be for life preservation only and the victim would be transported to a community hospital for examination, treatment and forensic evidence gathering by a Sexual Assault Nurse Examiner. All sexual abuse victim advocacy, examinations, treatment, testing, and follow-up care are provided without cost to the victim. This practice was confirmed by medical staff. Facility staff members (Psychology staff) have also been trained as victim advocates. A review of the agency directive and staff interviews indicate an established collaborative effort to ensure victim advocacy services are available for the inmates if needed through facility staff or outside resources.

The agency attempts to make available to the victim a victim advocate from a rape crisis center, and if a rape crisis center is not available, a qualified staff member from a community-based organization or a qualified agency staff member. An interview with the Warden indicated that the facility has attempted to establish an MOU with the Rape and Domestic Violence Information Center, Inc. to provide advocacy services for inmate victims. The auditor reviewed emails from the facility attempting to establish the MOU. The Warden stated that the Rape Crisis Center had concerns about confidentiality and had thus far been unwilling to sign an agreement. This satisfies the provision of the standard. Additionally, the facility has available qualified staff members in the psychology department to serve as advocates, if necessary. There were no inmates who reported sexual abuse at the facility at the time of the onsite audit. The inmates have access to the victim advocacy information as it is included in the inmate handbook and the pamphlet.

115.21 (e): Agency Directives and BOP PREA Plan address this provision. FCI Morgantown does not have an agreement with a community-based organization as stated above. However, advocacy services are available through the emergency department at the hospital with the rape crisis center for victim advocacy while the inmate is at the hospital.

A review of the agency directive and staff interviews indicate an established collaborative effort to ensure victim advocacy services are available for the inmates, if needed. As requested by the victim, the victim advocate, qualified agency staff member or qualified community-based organization staff member shall accompany and support the victim through the forensic medical examination process and investigatory interviews. Inmates are transported to the WVU Medicine J. W. Ruby Memorial Hospital in Morgantown for forensic examinations. Additionally, the facility will ensure that an advocate will provide victim support services during the forensic

	<p>medical exam and during investigatory interviews. The psychology staff will inform inmate victims about the availability of these services. The facility also has available qualified staff members to serve as advocates, if needed.</p> <p>The interview with Psychology staff indicated that they would respond to the hospital to accompany the inmate during a forensic exam, if requested.</p> <p>115.21 (f)(g): The agency is responsible for conducting administrative investigations, while the FBI is responsible for conducting criminal investigations. A review of the MOU between the BOP and the FBI as well as the letter from the FBI to the BOP dated March 2, 2014 indicate that the FBI complies with all investigatory requirements under PREA standards 115.21, 115.34 and 115.71. Additionally, the FBI follows a uniform evidence protocol and utilizes the FBI Domestic Investigations and Operations Guide for training.</p> <p>115.21 (h): The qualified agency staff member is one of the Psychologists at the facility. They have received training titled: Forensic Medical Exams: An Overview for Victim Advocates.</p> <p>Based on a review of the PAQ, The PREA Investigation Policy Memo, PS 6031.04, the memo related to forensic exams and advocacy, the attempts at establishing an MOU with the rape crisis center, the MOU with the FBI, the letter from the FBI, the qualified staff member documents and information from interviews with the PREA Compliance Manager indicates this standard appears to be compliant.</p> <p>Corrective Action: None</p>

3. Interview with Investigative Staff
4. Interview with PREA Compliance Manager

Findings (By Provision):

115.22 (a): PS 5324.12 addresses the requirement of the standard and outlines the administrative and criminal investigative process. Policy requires administrative or criminal investigations to be completed on all allegations of sexual abuse/harassment. The AG Memo and AG Order 2835-2006 indicates that the Office of the Inspector General has the authority to conduct criminal and administrative investigations throughout the Department. Additionally, the MOU with the FBI as well as PS 5508.02 confirms that the FBI is responsible for conducting criminal investigations related to Title 18 and/or any criminal activities at Bureau facilities. Allegations are reported to the Operations Lieutenant and immediately forwarded to the facility investigator for investigation. Administrative investigations are routinely assigned for completion by the Special Investigative Services Lieutenant. If, during an investigation, evidence surfaces indicating criminal misconduct, the case would be initially referred to the OIG and then to the FBI for criminal investigation. The SIS Lieutenant and Special Investigative Agent (SIA) were interviewed and are aware of their responsibilities in the investigative process.

The FBI would conduct criminal investigations for FCI Morgantown involving inmate-on-inmate sexual abuse and the OIG would investigate staff-on-inmate criminal sexual abuse. An investigation would never be terminated due to an inmate being transferred or released or an employee leaving the agency.

A review of training documents confirmed that all investigators received instruction in conducting sexual assault investigations in confined spaces/prisons. Interviews with staff and an examination of policy/supporting documentation confirm compliance with this standard.

Per the facility and a review of records, there was one allegation of sexual harassment reported within the previous twelve months, and no allegations of sexual abuse. An administrative investigation was completed for the allegation. A review of the investigative report revealed that the allegation was investigated as required. Interviews with the agency head, PREA Compliance Manager, Investigators and Warden indicated that all allegations are investigated. Specifically, the OIG investigates potential criminal cases involving staff-on-inmate sexual abuse; the OIA investigates administrative cases of staff-on-inmate sexual abuse or sexual harassment and the Special Investigative Services (SIS) Lieutenant at the facility investigates all other cases.

115.22 (b)(c): The agency's directive is posted on the agency's website in accordance with this provision. PS 5324.12 outlines the administrative and criminal investigative process. An administrative or criminal investigation is completed for all allegations of sexual abuse and sexual harassment. The AG Memo and AG Order 2835-2006 indicates that the Office of the Inspector General has the authority to conduct criminal and administrative investigations throughout the Department. Additionally,

	<p>the MOU with the FBI as well as PS 5508.02 confirms that the FBI is responsible for conducting criminal investigations related to Title 18 and/or any criminal activities at Bureau facilities. A review of the BOP website indicated that PS 5508.02 which describes the FBI's authority to conduct criminal investigations is available at <a href="https://www.bop.gov/PublicInfo/execute/policysearch?todo=query">https://www.bop.gov/PublicInfo/execute/policysearch?todo=query</a>.</p> <p>115.22 (d)(e): This provision is not applicable as the agency is not required to respond to this provision.</p> <p>Based on a review of the PAQ, PS 5324.12, PS 5508.02, the AG Memo, AG Order 2835-2006, the MOU with the FBI, the agency's website and information obtained via interviews with staff, this standard appears to be compliant.</p> <p>Corrective Action: None</p>

PS 5324.12, as well as MRG-5324.12E indicate that all staff will receive the Sexually Abusive Behavior Prevention and Intervention Program training during institutional familiarization, and yearly thereafter as part of the annual refresher training. A review of the agency directive, training curriculum, various training documents, and staff interviews demonstrate PREA-related training is being conducted as required. A review of the Sexually Abusive Behavior Prevention and Intervention Program Training Curriculum outline and PowerPoint slides confirmed that the training includes information on: the agency's zero tolerance policy, how to fulfill their responsibilities under the agency's sexual abuse and sexual harassment policies and procedures, the inmates' right to be free from sexual abuse and sexual harassment, the right of the inmate to be free from retaliation for reporting sexual abuse or sexual harassment,</p>

the dynamics of sexual abuse and sexual harassment in a confinement setting, the common reactions of sexual abuse and sexual harassment victims, how to detect and respond to signs of threatened and actual sexual abuse, how to avoid inappropriate relationship with inmates, how to communicate effectively and professionally with lesbian, gay, bisexual, transgender and intersex inmates and how to comply with relevant laws related to mandatory reporting. The agency directive and curriculum address all the required topics.

The Auditor interviewed a total of 12 randomly selected staff. Staff interviewed acknowledged attending and participating in the PREA training within the past year, and confirmed the required topics were covered during the training. Interviews revealed the staff have PREA training annually with their annual employee training, and they are given PREA refresher training periodically throughout the year. Employees are also given a PREA response card.

A review of staff training records indicated that 100% of those reviewed received PREA training. Interviews with random staff confirmed that they had received PREA training during annual training and that they receive information through supplemental BLU (Bureau Learning University) Trainings.

115.31 (b): Agency Directives and BOP PREA Plan address this provision. All agency employees, contractors, and volunteers are trained to meet the PREA standards. In the past 12 months, all facility staff were trained or retrained.

The agency has a comprehensive training program which includes pre-service and annual in-service training and is tailored to meet the gender needs of the facility. The training documentation includes a signature roster and PREA Acknowledgement that indicates the trainees understand the training presented.

The interview process also documented those employees understood the materials presented. Refresher information is available in the employee handbook, through BLU trainings, and in-shift briefings. Staff reported all staff get the exact same training, regardless of working with male or female inmates in the agency.

PS 5324.12 indicates that the annual refresher takes into consideration the gender of the inmate population at each facility. A review of the training curriculum confirmed that the annual training includes information on male and female inmates.

115.31 (c): Agency Directives and BOP PREA Plan address this provision. Agency directive requires staff receive PREA-related training during orientation and on an annual basis.

The Auditor reviewed employee/contractor/volunteer training documents. A review of the selected training documents indicated all had participated and completed the required PREA training. Training documentation supported the participation of all correctional staff, including participation by management and administrative support staff, in the PREA training.

The PAQ indicated that 141 (100%) staff have been trained in PREA requirements and

	<p>that they receive PREA training annually. PS 5324.12 indicates that new employees receive the Sexually Abusive Behavior Prevention and Intervention Program training and that current employees receive the training as part of their annual training. A review of documentation confirmed that all staff received PREA training and that all hired prior to the previous twelve months had received annual refresher training.</p> <p>115.31 (d): Agency Directives and BOP PREA Plan address this provision. The agency maintains the signed acknowledgement forms which affirm the trainees understand the training they have received. Through staff interviews, it was evident to the Auditor that the staff understood the PREA training.</p> <p>All staff are required to physically sign or electronically acknowledge that they received and understood the PREA training. A review of the training records indicate that all staff sign a training acknowledgement that states “I have received and understand the training conducted regarding the agency’s sexual abuse and sexual harassment policies and procedures.” A review of staff training records indicated that staff have signed the acknowledgment form. The facility conducts annual training, as well as BLU trainings.</p> <p>The Auditor conducted an interview with the facility Training Coordinator. The Training Coordinator gave the Auditor a detailed description of the training materials, process and methods of instruction. In the targeted interview with the Warden, she stated that they have completed a mock PREA incident with the staff, including a review of all the steps, as well as a thorough debrief to ensure that the staff understand the process and the importance of all the steps involved in the response. In addition, they continually provide refresher information to the staff regarding PREA during briefings.</p> <p>Based on a review of the PAQ, PS 5324.12, MRG-5324.12E, the Sexually Abusive Behavior Prevention and Intervention Program training curriculum, a review of staff training records, as well as interviews with random staff and the Training Coordinator, it appears the standard is compliant. Based on a review of all evidence, the Auditor determined that the facility substantially exceeds the requirements of the standard.</p> <p>Corrective Action: None</p>

6. Training Documentation

Interviews:

1. Interview with Volunteers or Contractors who have Contact with Inmates
2. Human Resources

Findings (By Provision):

115.32(a): Agency Directives and BOP PREA Plan address volunteer and contractor training. All contractors who have contact with inmates at this facility have been trained to understand the requirements of PREA and the zero-tolerance directive. All contract staff were trained in and acknowledge they understand PREA.

The Auditor reviewed training documentation and the signatures that documented that they understood the training presented. An interview with contract staff verified that they understood the PREA requirements associated with being a contractor. The contract staff recalls having training on PREA and was able to articulate aspects of the training, including awareness of the zero-tolerance policy and first responder duties.

There were no volunteers available during the onsite review. The auditor interviewed the PREA Compliance Manager, who stated that he does PREA training with the volunteers. They receive annual refresher training. The Auditor reviewed volunteer files and found that they are receiving PREA information, as well as annual refresher training.

Per the PAQ, there are 27 contractors and volunteers who have contact with inmates, who have been trained in agency policies and procedures regarding sexual abuse/harassment prevention, detection, and response.

115.32(b): Agency Directive and BOP PREA Plan address volunteer and contractor training. The agency's PREA training addresses the zero-tolerance directive. Training documentation reflected training specifically for contract staff and volunteers. The Auditor interviewed a randomly selected contract staff. The contracted staff interviewed reported being trained on the agency's zero-tolerance directive regarding sexual abuse and sexual harassment, and of the reporting requirements, including the duty to report.

115.32(c): Agency Directive and BOP PREA Plan address volunteer and contractor training. The acknowledgment forms contained the proper affirmation statement. It was clear through interviews with contract staff that they understood the PREA training they had received.

Based on a review of the PAQ, the PREA Training for Level I Volunteers, a review of a sample of contractor and volunteer training records, as well as interviews with contractor staff, this standard appears to be compliant.

1. Observations during on-site review of physical plant

Findings (By Provision):

115.35(a): Agency policies PS 5324.12 and MRG-5324.12E address the requirements of this standard. The Auditor reviewed training documentation, which indicated medical and mental health staff participated in the specialized medical and mental health PREA training.

115.35(b): The agency reported the facility's medical staff do not conduct forensic exams; therefore, this provision is not applicable. This was confirmed through interviews with medical and mental health staff.

115.35(c): Agency Directives and BOP PREA Plan address this provision. A review of training records for medical and mental health personnel by the auditor confirmed that these employees (part-time, full-time and contractors) receive the same general PREA training as all other correctional staff and have a duty to report when they have knowledge of sexual abuse/harassment, even when disclosed during a healthcare encounter.

In addition, all mental health and medical staff have also received specialized training on victim identification, interviewing, evidence preservation, reporting and required clinical interventions. This was confirmed by the auditor through further review of training records.

All cases requiring the processing of sexual assault evidence collection kits are transported to a community hospital where Sexual Assault Nurse Examiners are always available.

Interviews with medical and mental health staff confirmed the provision of specialized training and that they are aware of their duty to report and address allegations and suspicions of sexual abuse/harassment. A review of the training documentation and policy also confirm compliance to this standard.

115.35(d): Training documentation reviewed reflected medical and mental health staff, including contract staff, participated in the general PREA training.

Observations of Location(s) of Inmate Files</li> </ol> <p>Findings (By Provision):</p> <p>115.41(a)(f)(g)(h): PS 5324.12 addresses the requirement of the standard. Upon arrival to FCI Morgantown, all inmates are immediately assessed for a history of sexual abusiveness and risk of sexual victimization during in-processing procedures performed in the Receiving and Discharge (R&amp;D) area, in accordance with the requirements listed in 115.41 d and e. Policy prohibits disciplining inmates for refusing to answer or for not disclosing complete information during the screening. Staff confirmed inmates are not disciplined for refusal to answer screening questions. If/when transferred to another facility, the inmate would receive an entirely new</p>

screening upon arrival.

Per the Warden, the screening of inmates into FCI Morgantown begins with the Case Management Coordinator (CMC). Each day, the CMC runs a designation roster to ascertain if any inmate has been designated to the institution. Once the inmate is designated, the CMC pre-screens the inmate, prior to arrival, by reviewing records to include the inmate's Presentence Investigation, SENTRY, Judgement and Commitment, and Statement of Reasons. Upon arrival, Unit Team at FCI Morgantown screens inmates for risk of sexual abusiveness or victimization during intake screening. This screening includes unit team meeting with each inmate individually and reviewing questions on all forms pertaining to sexual abuse. Those deemed at risk at intake screening, are referred to Psychology Services. Additionally, the Chief of Correctional Services (Captain) may also be notified, when appropriate. If staff believe there is an immediate concern after hours, prior to release to general population, the psychology on-call and PREA Compliance Manager will be contacted for guidance.

A member of the inmate's housing unit team (case manager or counselor) screens all new arrivals within the first 72 hours of the inmate's arrival, but this activity ordinarily occurs within a few hours on the day of arrival.

A review of case files for randomly selected inmates, as well as all inmates interviewed (27) reflected all inmates had an initial risk assessment within 72 hours of arrival at FCI Morgantown. Documentation showed that the initial assessment occurred on the same day of arrival for all reviewed files.

Through interviews with the Warden, PREA Compliance Manager, Case Management Counselor, and Unit Team staff, the auditor confirmed that inmates identified at high risk for sexual victimization or at risk of sexually abusing other inmates were referred to a mental health professional and received further assessment. The Case Management Counselor Unit team staff also conduct screenings by reviewing records or other information from other facilities, new referrals, or for any other relevant reason. A unit team member reviews all relevant information from other facilities and continues to reassess an inmate's risk level within 28 days of his arrival. Staff meet with the inmate and this review is documented. These practices were confirmed by the auditor through interviews with Intake Staff, Unit Team Staff, Mental Health Staff and a review of screenings and related documentation.

115.41(b): The objective screening instrument is completed within the first 72 hours of arrival, typically within hours of arrival at FCI Morgantown. The screening document does ask questions to determine if any inmate might have any prior history as a sexual abuser and the responses are documented. Based on a review of the inmate record and responses to the screening, a decision is made regarding where to properly house the inmate. Intake staff conduct the screening, and the information is secured.

The PAQ indicates that 487 inmates entering the facility (either through intake or transfer) within the past 12 months (whose length of stay in the facility was for 72 hours or more) were screened for risk of sexual victimization or risk of sexually abusing other inmates within 72 hours of their entry into the facility.

	<p>115.41(c): The agency's PREA Risk Screening Instrument reflects all the required elements in this provision. Staff interviews confirm they use the agency's screening tool during intake. Staff interviewed were able to articulate the required elements of the provision that inmates are screened for during the risk screening process.</p> <p>115.41(d): Interviews with staff confirmed that information for the risk screening is ascertained through inmate interviews, as well as from information collected through the PREA Screening tool, intake medical screening, and a review of case file records.</p> <p>115.41(e): Intake staff reported they do not have access to the inmate's medical or mental health information. The inmate's medical information is retained and only available to medical staff. Any medical related information is released on an as needed basis, based upon the treatment modality and a relevant need for the information.</p> <p>115.41(f): The PAQ reflects that 451 inmates entering the facility (either through intake or transfer) within the past 12 months (whose length of stay in the facility was for 30 days or more) were reassessed for their risk of sexual victimization or of being sexually abusive within 30 days after their arrival at the facility based upon any additional, relevant information received since intake. The reassessment is completed at the inmate's first meeting with the unit team staff, within 28 days of arrival.</p> <p>A review of case files for randomly selected inmates, plus all inmates interviewed (27) reflected all inmates had a re-assessment as required and within 30 days of arrival at FCI Morgantown.</p> <p>The CMC and Unit Team staff do an exemplary job of pre-screening any arriving inmates and ensuring that they are aware of any potential risk factors.</p> <p>Based on a review of the PAQ, PS 5324.12, the Intake Screening Form, the PREA Intake Objective Screening Instrument, the Memo on Intake Screening Guidance, a review of inmate files and information from staff interviews this standard appears to substantially exceed the requirements of the standard.</p> <p>Corrective Action: None</p>

2. Housing Assignments of LGBTI Inmates
3. Shower Area in Housing Units

Findings (By Provision):

115.42(a): PS 5324.12 addresses the requirement of the standard. The information obtained in the inmate screening process is used to make individualized determinations to ensure the inmates' safety. This information is used to make decisions to place each inmate in appropriate housing, work, and program assignments. The placement decisions are made by a classification committee. If an inmate is determined to be at high risk for sexual victimization, safeguards are put in place to ensure the inmate's safety with respect to housing, programming and work assignments, with input from the inmate.

Per memo from the Warden, FCI Morgantown screens all arriving inmates for risk of sexual abusiveness or victimization during intake screening. If an inmate is found to be at risk of sexual abusiveness or victimization, they are further assessed by a Psychologist. Once an inmate has been identified as a victim or perpetrator, this information is loaded into TRUintel under the group labeled as "at risk" for either victimization or abusiveness. This information is utilized when determining housing, bed, work, education, and program assignments with the goal of keeping separate those inmates at risk of being sexually victimized from those inmates at risk of being sexually abusive. An inmate may be reassessed for risk of victimization or abusiveness at any point after the intake screening. If the inmate is determined to be "at risk" for either victimization or abusiveness, the following departments must be notified by the department that identified him as being at risk: Health Services, Unit Management, Psychology Services, and Correctional Services. Monitoring and changes to housing, work and programing assignments are made accordingly, to ensure the safety of all inmates. Inmates are reviewed during the weekly SHU meeting, as necessary.

Staff reported information secured through the screening process is used to determine the need for additional medical or mental health follow-up, and to make classification decisions based on risk factors. Staff also reported that due to the facility being a camp, as well as being near a school, they would likely not ever

	<p>receive anyone that is at high risk of abusiveness.</p> <p>115.42(b): Agency Directive and BOP PREA Plan address this provision. Staff reported segregated housing is used as a last resort and staff look for other options, such as housing unit changes. There was no indication during the site review that segregated housing is used on a regular basis due to PREA risk factors.</p> <p>Staff indicated the safety and welfare of the inmate is always a high consideration. Medical and mental health staff reported they would conduct daily visits for any inmates placed in segregated housing for PREA risk factors.</p> <p>115.42(c): Agency Directives and BOP PREA Plan address this provision. Staff reported the facility does not have specific housing units designated for lesbian, gay, bisexual, transgender, or intersex inmates. All housing, program and work assignments are made on a case-by-case basis. A review of the housing rosters and interviews with LGBTI inmates confirmed this information.</p> <p>115.42(d)(e)(f): In accordance with the standard, placement and programming assignments for each transgender or intersex inmate are reassessed at least twice each year to review any threats to safety experienced by the inmate. The transgender or intersex inmate’s own views with respect to his or her own safety is given consideration. Transgender inmates would be able to shower separately. At the time of the on-site review, there were no transgender inmates housed at the facility. The staff reported that there had been no transgender inmates at the facility during the audit period.</p> <p>Based on a review of the PAQ, PS 5324.12, MRG-5324.12e, the PREA at Risk list, a review of inmate housing assignments, a review of transgender and intersex inmate assessments and information from interviews this standard appears to be compliant.</p> <p>Corrective Action: None</p>

## 2. Interview with Staff who Supervise Inmates in Segregated Housing

### Site Review Observations:

#### 1. Observations in the Special Housing Unit

#### Findings (By Provision):

115.43(a)-1: PS 5324.12 addresses the requirement of the standard. Policy states inmates at high risk for sexual victimization shall not be placed in involuntary segregated housing status unless an assessment of all available alternatives has been made and there is no available means of separating the victim from the abuser. The inmates would be reassessed every 7 days after entering segregated housing. If protection is necessary for an inmate, they may be transferred to another housing unit. FCI Morgantown's Special Housing Unit (SHU) houses both administrative (protective custody) and disciplinary cases.

Interviews with SHU staff confirmed, that to the extent possible, access to programs, privileges, education, and work opportunities would not be limited to inmates placed in the SHU for the purposes of protective custody for being at high risk of sexual victimization, except when there are safety or security concerns. The facility would document the reasons for restricting access and the length of time the restriction would last. Staff indicated that there are normally other housing options and inmates are not kept in SHU strictly for being at high risk of victimization. Mental health and unit staff meet with each inmate in segregated housing status at least once each week. A Safeguarding of Inmates Alleging Sexual Abuse/Assault Allegation form is completed when considering all appropriate alternatives for safeguarding alleged inmate victims. Interviews with staff, an examination of SHU operations and a review of policy/supporting documentation confirm compliance with this standard.

115.43 (a)-2: Agency Directives and BOP PREA Plan address this provision. SHU staff reported an inmate's health and safety are taken into consideration during placement and programming assignments. FCI Morgantown reported zero inmates were held in segregated housing in the past 12 months for the purpose of protecting a possible sexual abuse victim. Agency directives require review every 30 days for any inmate in segregated housing.

115.43(c): Agency Directives and BOP PREA Plan address this provision. FCI Morgantown reported zero inmates were held in segregated housing in the past 12 months for longer than 30 days awaiting alternative placement.

115.43 (d)(e): Agency Directives and BOP PREA Plan address this provision. The agency reported there have been no PREA-related incidents involving the involuntary assignment of any inmate to SHU in the past 12 months. Agency directive does afford an inmate who is involuntarily assigned to segregated housing to be reviewed every 30 days.

FCI Morgantown reported zero inmates were involuntarily held in segregated housing in the past 12 months awaiting alternative placement. Therefore, there were no case files to review specific to this provision.

	<p>Based on a review of the PAQ, PS 5324.12, BP-A1002, observations from the onsite review related to SHU, as well as information from staff interviews, this standard appears to be compliant.</p> <p>Corrective Action: None</p>

A review of facility operations and documentation revealed that there are multiple ways (including verbally, in writing, privately, from a third-party and anonymously) for inmates and staff to report sexual abuse or sexual harassment. The Auditor noted the availability and prevalence of PREA Posters and information. PREA reporting hotline information is posted and grievance forms are accessible to the inmates in each housing unit and in common areas.</p> <p>Inmates are informed about the reporting methods through the A&amp;O Handbook, postings in the housing units and common areas and as part of the initial orientation process. Inmates also have access to TRULINCS, a computer system which provides PREA information and a reporting outlet, both internal to staff and external to OIG. Through TRULINCS, the inmate can contact Office of the Inspector General anonymously and the email is untraceable at the institution level. Inmates have access to telephones in each unit that can be used as a reporting outlet. There were</p>

numerous posters on display explaining the reporting procedures. Staff members accept reports made verbally, in writing, anonymously and from third parties and promptly document and refer any form of reporting. Staff members are required to immediately document any allegation. Family and friends of inmates may report sexual abuse/harassment by using the BOP website, making a phone call to the OIG or by contacting facility staff. All inmates interviewed confirmed that they were aware of the multiple methods of reporting sexual abuse/harassment allegations and feel like staff would take any such report seriously.

No inmates at the facility are detained solely for civil immigration purposes. Interviews with staff, inmates, observations of posters and other reporting methods and an examination of policy/supporting documentation confirm compliance with this standard.

115.51(b): Agency Directives and BOP PREA Plan address this provision. Staff reported inmates could make anonymous reports to anyone. Inmates reported they could call a family member, write to a Rape Crisis Center, or contact OIG if they needed to contact someone outside of the facility. The inmates reported they were aware they could make reports anonymously.

115.51(c): Agency Directives and BOP PREA Plan address this provision. Staff reported they would accept reports in writing, anonymously, verbally and through third parties, and that any reports received verbally would be documented immediately and referred to Operations. Inmates reported there are multiple ways that they can report allegations of sexual abuse or sexual harassment. They stated they could make reports verbally to any staff member, anonymously, in writing, by filing a grievance, through a family member, or to OIG.

115.51(d): Agency Directives and BOP PREA Plan address this provision. Staff are informed of how to report privately any sexual abuse or harassment during the initial facility training upon hire. They can verbally discuss sexual abuse/harassment with chain of command/supervisors in a private setting. They can also report in writing, via Information Report Form, email, memo, etc. Staff are informed of these requirements with required PREA training and employee handbooks. The staff understanding of this process was verified in the interviews.

Based on a review of the PAQ, PS 5324.12, PS 3420.11, the Sexually Abusive Behavior Prevention and Intervention Program, Memo from the Warden, PREA signage, observations from the facility tour related to PREA signage and posted information and interviews with random inmates and staff, this standard appears to be compliant.

Documents:

1. Pre-Audit Questionnaire
2. PS 1330.18
3. Sexually Abusive Behavior Prevention and Intervention Program
4. Grievance Log and Sample Grievances
5. Inmate Handbook

Findings (By Provision):

115.52(a): PS 1330.18, Administrative Remedy Program, addresses the requirements of the standard. In accordance with agency directive, the inmate grievance process meets the requirements of PREA. The process allows the inmate to file an oral or written complaint/grievance at any time about sexual abuse or on any correctional issue. The complaint can be filed with any staff and will be directed to the Warden or designee for response if necessary. Inmates reported they would go normally directly to a staff member.

115.52(b)(f): Agency Directive and BOP PREA Plan address this provision. BOP Policy states that there is no time frame for filing a grievance relating to sexual abuse or harassment and does not require an inmate to use any informal grievance process before filing an allegation involving sexual abuse/harassment. Allegations of abuse by staff are referred to the Office of Internal Affairs (OIA), in accordance with procedures established for such referrals.

Policy addresses the filing of emergency administrative remedy requests. If an inmate files the emergency grievance with the institution and believes they are under a substantial risk of imminent sexual abuse, an expedited response is required to be provided within 48 hours. Best efforts are made to provide Regional Office and Central Office expedited appeal responses within five calendar days. If an inmate reasonably believes the issue is sensitive and the inmate's safety or well-being would be placed in danger, the inmate may submit the grievance directly to the appropriate Regional Office.

There is no prohibition that limits third parties, including other inmates, staff members, family members, attorneys, and outside victim advocates, in assisting inmates in filing requests for grievances relating to allegations of sexual abuse or filing such requests on behalf of inmates.

There were zero emergency grievances alleging imminent sexual abuse/harassment filed at FCI Morgantown within the last 12 months.

115.52(c): Agency Directive and BOP PREA Plan address this provision. All staff interviewed reported they would accept reports in writing, anonymously, verbally and through third parties, and that any reports received verbally would be documented immediately and referred.

By agency directive, the inmate is not required to use an informal grievance process nor refer any grievance to the staff member who is the subject of the complaint.

	<p>115.52(d)(e): Agency Directives and BOP PREA Plan address this provision. In the past 12 months, the PAQ indicates there have been zero grievances filed that alleged sexual abuse/harassment. A review of documentation indicates compliance with the standard. Agency directive allows third-party assistance to inmates in the grievance process. If the inmate declines assistance of a third-party, that decision to decline assistance would be documented. No assistance has been requested during the audit period.</p> <p>Emergency grievances are permitted in reporting a grievance concerning sexual abuse/harassment. If received, the grievance is immediately addressed.</p> <p>Agency directive requires that a response to an emergency grievance must be completed within 48 hours and a final decision must be made within five calendar days. Agency directive allows discipline for an inmate for filing a grievance related to alleged sexual abuse, only where the agency demonstrates that the inmate filed the grievance in bad faith.</p> <p>115.52(g): Agency Directive does limit any sanctions to an inmate who filed the grievance in bad faith. According to the PAQ, in the past 12 months, there were zero grievances filed concerning sexual abuse that was found to be in bad faith and resulted in disciplinary action.</p> <p>The auditor interviewed the person responsible reviewing and routing grievances. She stated that she had never received a grievance related to PREA. However, if that were to occur, she would route it directly to the Warden, who would ensure that an investigation was initiated immediately. She also stated that inmates had the option for a PREA related (sensitive) grievance to be sent to the Regional Director.</p> <p>Based on a review of the PAQ, PS 1330.18, the Sexually Abusive Behavior Prevention and Intervention Program education, the grievance log and an interview with staff, this standard appears to be compliant.</p> <p>Corrective Action: None</p>

Interviews:

1. Interview with Random Inmates

Site Review Observations:

1. Observations of Victim Advocacy Information

Findings (By Provision):

115.53(a): Agency Directives and BOP PREA Plan address this provision. FCI Morgantown provides confidential access to outside victim advocates by providing the name of the organization, toll-free telephone number, and posters. This information is in the inmate handbook. The agency attempts to make available a victim advocate from a rape crisis center, and if a rape crisis center is not available, a qualified staff member from a community-based organization or a qualified agency staff member. An interview with the Warden indicated that the facility has attempted to establish an MOU with the Rape and Domestic Violence Information Center, Inc. to provide advocacy services for inmate victims. The auditor reviewed emails from the facility attempting to establish the MOU. The Warden stated that the Rape Crisis Center had concerns about confidentiality and had thus far been unwilling to sign an agreement. This satisfies the provision of the standard. Additionally, the facility has available qualified staff members in the psychology department to serve as advocates, if necessary. There were no inmates who reported sexual abuse at the facility at the time of the onsite audit. The inmates have access to the victim advocacy information as it is included in the inmate handbook and the pamphlet.

Victim Advocacy services would be available thru the emergency department at the hospital, as the hospital has an agreement with the rape crisis center.

The victim advocate service includes in-person support services to the victim through the forensic medical exam process, as well as the investigatory interview process and at no charge to the inmate. This is coordinated through Psychology upon request by the inmate.

115.53(b): Agency Directive and BOP PREA Plan address this provision. Inmates reported they had not needed to request support services from outside agencies. Some inmates interviewed were aware of the availability of services. The facility advocate informs the inmates of limits to confidentiality prior to receiving services.

115.53(c): PS 5324.12 addresses the requirement of the standard. SANE/SAFE staff at one of the local hospitals provides victim advocate services to the inmate population at FCI Morgantown. All facility psychology staff have been trained as victim advocates. Inmates are informed as part of their orientation process that all telephone calls, except legal calls, are subject to monitoring and recording and that all mail, except for legal mail, is subject to search and monitoring as well. Inmates are informed that emails to Office of the Inspector General through TRULINCS are not monitored by FCI Morgantown or BOP. Postings in the housing units and common areas, the PREA pamphlet issued upon the inmate's arrival and the A&O Handbook provide the address to the OIG and explain that inmates may confidentially submit written allegations of sexual abuse/harassment to this entity. The facility enables

	<p>reasonable communication between inmates and these organizations and agencies in as confidential a manner as possible.</p> <p>Based on a review of the PAQ, PS 5324.12, MRG-5324.12E, the Sexually Abusive Behavior Prevention and Intervention Program, the emails from the PREA Compliance Manager, observations from the onsite review related to PREA signage and posted information and interviews with staff and inmates, this standard appears to be compliant.</p> <p>Corrective Action: None</p>

	<p>115.62(a): PS 5324.12 addresses the requirements of the standard. Staff reported immediate action would be taken if they were to become aware of any inmate being at substantial risk of imminent sexual abuse. Staff reported any allegation would be taken seriously, regardless of the source of the allegation, and due diligence would be followed to ensure staff respond to inmates immediately.</p> <p>Per the Warden, when the agency or facility learns an inmate is subject to a substantial risk of imminent sexual abuse, it takes immediate action to protect the inmate (i.e., it takes some action to assess appropriate protective measures without unreasonable delay). She indicated that FCI Morgantown has not learned of any inmate being subject to a substantial risk of imminent sexual abuse. If staff were to learn of an inmate being subject to a substantial risk of imminent sexual abuse, the staff would respond immediately. The inmate would immediately be escorted to the Lieutenant's Office. During normal business hours, the inmate would be interviewed by a staff member from the Special Investigation Services (SIS) and a psychologist. The appropriate protective measures would be determined and implemented. During non- business hours, if a staff member from SIS is not in the institution, the inmate will be interviewed by the Operations Lieutenant and the on-call Psychologist would be immediately notified. If necessary, the inmate will be placed in the Special Housing Unit until someone from SIS and Psychology Services can interview him. He will not remain in the Special Housing Unit any longer than necessary.</p> <p>In the past 12 months, FCI Morgantown determined that there were zero inmates subject to a substantial risk of imminent sexual abuse. The Auditor found no evidence to dispute this conclusion.</p> <p>Management staff reported that they work hard to create a safe environment and ensure the staff take any allegations seriously. Randomly selected staff reported the immediate steps they would take to respond to any allegation of an inmate reporting they are at a substantial risk of imminent sexual abuse. The Warden stated that she feels the staff at FCI Morgantown have a good rapport with the inmate population and there is good communication at all levels between staff to monitor and address any potential issues. She feels that the staff truly want to do the right thing and are always respectful and professional.</p> <p>Based on a review of the PAQ, PS 5324.12 and interviews with staff this standard appears to be compliant.</p> <p>Corrective Action: None</p>

2. PS 5324.12
3. Notification Letters
4. Investigative Reports

Interviews:

1. Interview with the Agency Head
2. Interview with the Warden
3. Interview with the PREA Compliance Manager

Findings (By Provision):

115.63(a): PS 5324.12 addresses the requirement of the standard. The agency has a directive that requires notification to another facility when they learn of an inmate that had been sexually abused at that other facility. In the past 12 months, the facility reported two allegations of sexual abuse from an inmate that occurred at another facility. The auditor reviewed documentation of Warden-to-Warden notifications. An interview with the Warden confirmed her awareness of the requirements of this standard.

115.63(b)(c): Agency Directive and BOP PREA Plan address this provision. Policy requires the reporting of any PREA-related allegation by an inmate that occurred at another facility to the Warden (or equivalent person) of the facility where the incident is alleged to have occurred, by the Warden of the facility in which the inmate is currently housed.

When the inmate reports sexual abuse/harassment from state, non-Bureau privatized facilities, jails, juvenile facilities and Residential Reentry Centers, the Warden contacts the appropriate office of the facility and/or notifies the Residential Reentry Management Branch of the BOP if appropriate. The notification is to occur as soon as possible, but always within 72 hours of receiving the allegation. Policy also requires that an investigation be initiated.

115.63(d): Agency Directives and BOP PREA Plan address this provision. Staff reported they would initiate an investigation just like any other, regardless of the source of the information. Inmates making allegations at the audited facility regarding incidents from another facility were being investigated through cooperation from both facilities. The same would occur if the inmate made an allegation at a new facility after leaving the audited facility regarding an alleged incident that happened prior to leaving. The facilities would work together to conduct the investigation to include interviews, statements, and evidence collection. All information and evidence would be provided to the facility responsible for completing the investigation, which is the facility that received the complaint.

In the past 12 months, FCI Morgantown reported receiving no notifications of allegations received from other facilities. Documentation reviewed from investigative reports verified that no allegations that were investigated were reported at other facilities.

conducted promptly, thoroughly, and objectively.

Staff reported investigations are initiated immediately and that third-party and anonymous reports are also considered, documented and the information included in the final report.

115.71(b): Agency Directives and BOP PREA Plan address this provision. A review of the investigative staff training documents indicated all investigative staff are trained in the required specialized investigative staff training. Investigative staff interviewed reported receiving the required training and were able to articulate aspects of the training.

115.71(c): Agency Directives and BOP PREA Plan address this provision. A review of the investigative files reflected the required supporting documentation was maintained in the files.

Staff reported, in detail, the steps to follow in an investigation, information to be collected and documented during an investigation and retained in the files in accordance with the standard.

In accordance with the standard, the investigative file reviewed reflects that investigators gather and preserve direct and circumstantial evidence, including any available physical and DNA evidence and any available electronic monitoring data; interview alleged victims, suspected perpetrators, and witnesses; and review prior complaints and reports of sexual abuse involving the suspected perpetrator. The investigator confirmed this information.

115.71(d): Agency Directives and BOP PREA Plan address this provision. Staff reported investigations are not terminated solely because the victim recants the allegation, and they would move forward with the investigation.

115.71(e)(h): PS 5324.12 addresses the requirement of the standard. The facility investigator (SIS) may conduct administrative investigations within the facility and was interviewed by the auditor. Staff-on-inmate administrative investigations are conducted by the facility Special Investigative Agent (SIA). The interview indicates investigative staff are well aware of their responsibilities with respect to the standard.

115.71(f): Agency Directives and BOP PREA Plan address this provision. Staff reported all information would be considered, documented, and assessed as part of the investigation. Staff also reported a polygraph is not part of the investigative process.

The auditor reviewed the investigative file for the one allegation of sexual misconduct within the last 12 months. The investigative report reflected that the administrative investigations include an effort to determine whether staff actions or failures to act contributed to the abuse; and include a description of the physical and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings.

When an allegation appears to be criminal in nature, the SIS, in conjunction with the BOP's Office of Internal Affairs and the facility Warden, will refer the incident to the FBI for a criminal investigation, if the investigation involves an inmate-on-inmate allegation.

Staff-on-inmate criminal investigations are conducted by Office of the Inspector General. The FBI or the OIG investigator consults with the Assistant U.S. Attorney when necessary.

If the FBI or the OIG substantiates the allegation, the case is referred to the local United States Attorney for possible prosecution. The credibility of an alleged victim, suspect or witness is assessed on an individual basis and is not determined by the person's status as inmate or staff. Staff reported that each case is looked at on its own merits and credibility is assessed based on the allegation's specific circumstances.

The agency does not require an inmate who alleges sexual abuse to submit to a polygraph examination or other truth assessment device as a condition for proceeding with the investigation of such an allegation. The review of case files of inmates alleging sexual abuse/harassment revealed that the investigations were completed promptly, thoroughly and in compliance with BOP policies and the PREA standards.

An interview with the SIS Lieutenant revealed that he ensures that all allegations are investigated in such a way as to provide consistency in the investigative process, as well as record-keeping. A review of the investigative file confirms this information.

115.71(g): Agency Directives and BOP PREA Plan address this provision. Staff interviewed reported everything is considered in the course of the investigation, including whether staff actions or failure to act contributed to the abuse. A review of the investigative file for the previous 12 months indicated the investigation was completed in accordance with the standard and agency policy. The incident review process, which addresses this provision, was not required for this allegation.

115.71(i): Agency Directives and BOP PREA Plan address this provision. Agency Directives require written reports be developed and retained per PREA standards, for as long as the alleged abuser is incarcerated or employed by the agency, plus five years and per local/state retention requirements. Should a victim or abuser (staff or inmate) resign or be transferred to another facility, the case will continue to be investigated.

115.71(j): Agency Directive(s) and BOP PREA Plan address(es) this provision and requires investigation reports will be kept in perpetuity. A review of the investigative file shows compliance with this provision.

115.71(k): Staff interviewed reported an investigation would continue regardless of whether the alleged abuser or alleged victim left the facility. The investigative file reflects compliance with this provision.

	<p>115.71(l): By law and policy, the FBI has authority to investigate criminal activity within the BOP, they are a separate entity/component of DOJ. Per agency policy and the MOU, the FBI and BOP work collaboratively.</p> <p>Based on a review of the PAQ, PS 5324.12, the MOU with the FBI, the letter from the FBI, investigative report, training records and information from interviews with staff, this standard appears to be compliant.</p> <p>Corrective Action: None</p>

- 3. Sexually Abusive Behavior Prevention and Intervention Program
- 4. Investigative Reports
- 5. Notification Memos

Interviews:

- 1. Interview with the Warden
- 2. Interview with Investigative Staff

Findings (By Provision):

115.73(a): Agency Directives and BOP PREA Plan address this provision and requires notification for both sexual abuse and sexual harassment investigations. Staff interviewed reported the inmate would be notified in writing.

The agency directive requirements to notify the inmate on the outcome of sexual abuse and sexual harassment investigations meets the standard requirements. Documentation reviewed support compliance with the standard.

Notification to the inmate is made through a standardized memo format, which is delivered to the inmate by the investigative staff. Documentation of such is maintained in the investigative files.

115.73(b): The agency contacts FBI or OIG to conduct criminal investigations on PREA-related allegations.

115.73(c): Agency Directive PS 5324.12 was reviewed, and case files are thoroughly investigated in accordance with PREA protocols and proper action was completed. There were no substantiated allegations against staff during the audit period. In the previous 12 months, there have been no allegations of sexual abuse against staff.

115.73(d): Agency Directive and BOP PREA Plan address this provision. Agency directive requires that the inmate be informed of the outcome of the investigation of all sexual abuse/harassment complaints that the inmate has filed. For complaints directed towards staff, the inmate would be advised as to staff relocation, no longer employed, whether staff member has been indicted or convicted.

115.73(e): Agency Directive(s) and BOP PREA Plan address(es) this provision. A review of the investigative directives reflected FBI investigators conduct all criminal investigations.

Based on a review of the PAQ, PS 5324.12, the Sexually Abusive Behavior Prevention and Intervention Program, review of the investigative file and information from interviews with staff and inmates who reported sexual abuse, this standard appears to be compliant.

## 5. Memo Related to Inmate Discipline

### Interviews:

1. Interview with the Warden
2. Interview with Medical and Mental Health Staff

### Findings (By Provision):

115.78(a)(b)(c): PS 5270.09, Inmate Discipline Program and PS 5324.12, Sexually Abusive Behavior Prevention and Intervention Program, address the requirements of the standard. The Inmate Discipline Program defines sexual assault of any person, involving non-consensual touching by force or threat of force, as the greatest severity level prohibited act. The program identifies inmates engaging in sexual acts and making sexual proposals or threats to another as a high severity level prohibited act. Consensual sex or sexual harassment of any nature is prohibited and will result in discipline. Consensual sex between inmates does not constitute sexual abuse, but will be addressed in accordance with disciplinary procedures.

Sanctions are commensurate with the nature and circumstances of the abuse committed, along with the inmate's disciplinary history and the sanctions imposed for comparable offenses by other inmates with similar histories. Inmates are subject to disciplinary sanctions pursuant to the formal disciplinary process defined in the Inmate Discipline Program.

An interview with the Disciplinary Hearing Officer confirmed that inmates found to have engaged in consensual sexual behavior would be disciplined, but this behavior would not be considered sexual abuse unless the investigation revealed otherwise.

FCI Morgantown does not discipline inmates who make an allegation in good faith, even if an investigation does not establish evidence sufficient to substantiate the allegation. Interviews with investigative staff confirmed compliance with this standard.

The disciplinary process considers whether an inmate's mental disabilities or mental illness contributed to the inmate's behavior when determining what type of sanction, if any, should be imposed. If mental disabilities or mental illness is a factor, FCI Morgantown considers the offer of therapy, counseling or other interventions designed to address and correct underlying reasons or motivations for the abuse, in consultation with mental health staff.

115.78(d): Agency Directives and BOP PREA Plan address this provision. Staff reported the offending inmate is offered therapy, counseling, or other intervention services, but would not require the inmate's participation as a condition of access to any rewards-based behavior management system or programming or education.

115.78(e)(f)(g): Agency Directives and BOP PREA Plan address this provision. The facility reported there were no incidents of staff-on-inmate sexual contact for which the inmate received disciplinary action in the previous 12 months.

Based on a review of the PAQ, PS 5324.12, the memo, and information from

	<p>interviews with the staff, this standard appears to be compliant.</p> <p>Corrective Action: None</p>

1. Interview with the Warden
2. Interview with the PREA Compliance Manager
3. Interview with Incident Review Team

Findings (By Provision):

115.86(a): Agency Directives and BOP PREA Plan address this provision. Per the Warden, the facility conducts a sexual abuse incident review at the conclusion of every sexual abuse investigation, unless the allegation has been determined to be unfounded. There have been zero sexual abuse investigations that were determined to be substantiated or unsubstantiated, therefore there have been zero sexual abuse incident reviews in the past 12 months. In the instance where a sexual abuse incident review would need to occur, a review team would meet within 30 days of the conclusion of the investigation. The team typically would be comprised of the Warden, Associate Warden, Captain, Special Investigation Services staff, Unit Management, and Health Services.

The Auditor reviewed the Institution Executive Staff Review (IESR) template. The review, which is a standardized template covered all aspects of the standard and is required to be completed within 30 days of completion of the investigation.

115.86(b): Agency Directive and BOP PREA Plan address this provision. Interviews with staff confirm compliance. There have been no allegations of sexual abuse during the review period, therefore no documentation was available to be reviewed.

115.86(c): The Incident Review Team consists of the Warden, Institution PREA Compliance Manager, the Chief Psychologist, the Captain, and other administrative staff. Based on interviews with members of the Incident Review Team, the review is conducted within 30 days of the conclusion of the investigation and consideration is given to all required elements of the standard, including whether the allegation or investigation indicates a need to change policy or practice to better prevent, detect, or respond to sexual abuse; whether the incident was motivated by race, ethnicity, gender identity, physical barriers and status or gang affiliation. The team also examines the area in the facility where the incident allegedly occurred to assess whether physical barriers in the area may enable abuse reviews, assesses the adequacy of staffing levels in that area during different shifts, and recommends whether additional monitoring technology or staffing/monitoring procedures should be added to enhance inmate supervision. The facility implements the recommendations for improvement or documents its reasons for not doing so. The Warden and PREA Compliance Manager confirmed compliance with the provisions of the standard.

115.86(d)(e): Agency Directives and BOP PREA Plan address this provision. Staff interviewed referenced all the elements needing to be considered, examined, and assessed. The Incident Review Team members provided detailed information of all the elements addressed by the team. Staff interviewed acknowledged a report is completed by the PREA Compliance Manager, forwarded to the Warden, and includes any recommendations for improvement.

Documents:

- 1. Pre-Audit Questionnaire
- 2. PS 5324.12
- 3. Annual PREA Reports

Interviews:

- 1. Interview with the Agency Head
- 2. Interview with the PREA Coordinator
- 3. Interview with the PREA Compliance Manager

Findings (By Provision):

115.88 (a): Agency Directives and BOP PREA Plan address this provision. PS 5324.12 indicated that the agency reviews data collected and aggregated pursuant to 115.87 in order to assess and improve the effectiveness of its sexual abuse prevention, detection and response policies and training. A review of the annual report reflects all the elements required by this provision. Staff reported the process followed when reviewing the data, identifying problem areas and corrective action, and preparing the annual report.

115.88 (b): PS 5324.12 addresses the requirement of the standard. PS 5324.12 indicated that the agency's annual report includes a comparison of the current year's data and corrective actions with those from prior years and provides an assessment of the progress in addressing sexual abuse. A review of annual reports indicates that reports include aggregated data for all facilities. The data is broken down by incident type and includes investigative outcomes. The report also includes general information related to each substantiated incident. The report compares the data from the current year with the previous year. Additionally, the report includes problem areas and corrective action.

The Bureau of Prisons and the institution reviews and assesses all sexual abuse/sexual harassment data at least annually to improve the effectiveness of its sexual abuse prevention, detection, and response policies, to identify any trends, issues, or problematic areas and to take corrective action if needed. The PREA Compliance Manager forwards data to the respective BOP Regional PREA Coordinator and then to the National BOP PREA Coordinator. An Annual Report is prepared and placed on the BOP website. The Annual Report was reviewed by the auditor. The report can be found at the following website address: [www.bop.gov](http://www.bop.gov).

115.88 (c): Agency Directive and BOP PREA Plan address this provision. PS 5324.12 indicated that the agency's annual report is approved by the Agency Head and made available to the public through its website. Staff interviewed reported all personal

	<p>identifying information and personal health information is redacted. The reports would reflect only basic demographic information. A review of the agency website confirmed that the current annual report is available to the public online.</p> <p>115.88 (d): Agency Directive and BOP PREA Plan address this provision. PS 5324.12 indicated that the agency may redact specific material from the reports when publication would present a clear and specific threat to the safety and security of a facility, but must indicate the nature of the material redacted. Policy states that the agency complies with the Federal Privacy Act and the Freedom of Information Act. A review of the annual report confirmed that no personal identifying information was included in the report nor any security related information.</p> <p>Based on a review of the PAQ, the annual report, the website and information obtained from interviews, this standard appears to be compliant.</p> <p>Corrective Action: None</p>

<b>115.401</b>	<b>Frequency and scope of audits</b>
	<p><b>Auditor Overall Determination:</b> Meets Standard</p> <p><b>Auditor Discussion</b></p> <p>Findings (By Provision):</p> <p>115.401 (a): The facility is part of the Federal Bureau of Prisons. The agency ensured that each facility operated by the agency, or by a private organization on behalf of the agency, was audited at least once in the previous three-year audit cycle.</p> <p>115.401 (b): The facility is part of the Federal Bureau of Prisons. The BOP has a schedule for all their facilities to be audited within the three-year audit cycle, with one third being audited in each year. This is the Agency’s second year of the fourth cycle, and at least two thirds have been audited in the second year. The agency is following their audit cycle and planned future audits.</p> <p>115.401 (h) – (n): The auditor had full, unimpeded access to all areas of the facility. The Auditor reviewed areas of this facility in person, by photographs and/or via security cameras during the on-site review. The auditor was permitted to receive and copy any relevant policies, procedure or other requested documents needed for the audit. The auditor was permitted to conduct private interviews with both staff</p>

<b>115.11</b>	<b>Zero tolerance of sexual abuse and sexual harassment; PREA coordinator</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<b>Auditor Discussion</b>
	<p>115.11(a)</p> <p>DIRECTIVE AND DOCUMENT REVIEW:</p> <p>Pre-Audit Questionnaire.</p> <p>BOP PREA Plan</p> <p>Agency zero-tolerance statement.</p> <p>Organizational charts, interviews.</p> <p>INTERVIEWS.</p> <p>Agency PREA Coordinator.</p> <p>FINDINGS:</p>

Agency Directives and BOP PREA Plan address the requirements of this provision. The agency mandates a zero-tolerance directive towards all forms of sexual abuse and sexual harassment and outlines the agency's strategies on preventing, detecting, and responding to such conduct. Agency policies addressed "Preventing" sexual abuse and sexual harassment through the designation of a PREA Coordinator and PREA Compliance Manager, Criminal Background Checks (Staff, Contractors, and Volunteers, as applicable), Training (Staff, Volunteers, and Contractors), Staffing, Intake Screening, Classification, Inmate Education, Posting of Signage (PREA Posters, etc.) and Contract Monitoring. The Directives addressed "Detecting" sexual abuse and sexual harassment through Training (Staff, Volunteers, and Contractors), and Intake Screening.

The policies addressed "Responding" to allegations of sexual abuse and sexual harassment through Reporting, Investigations, Victim Services, Medical and Mental Health Services, Disciplinary Sanctions for Staff (including notification to licensing agencies), Incident Review Teams, and Data Collections and Analysis.

The Inmate Handbook, PREA Posters, and PREA Brochures do address sexual abuse by another inmate, and the Inmate Handbook does address sanctions for inmates when involved in such conduct. Based on interviews and a review of agency policies, BOP staff closely monitor for inmate-on-inmate sexual misconduct in accordance with the agency's PREA policies; allegations are reported and investigated, and inmates are held accountable. By policy, the Inmate handbooks are reviewed and updated at least annually at each BOP institution.

#### DIRECTIVE AND DOCUMENT REVIEW:

Agency Directives and BOP PREA Plan.

Agency's organizational chart.

#### INTERVIEWS:

PREA Coordinator.

#### FINDINGS:

Agency Directive(s) and BOP PREA Plan address(es) the position of the agency PREA Coordinator, which outlines the roles and responsibilities of the position and calls for the position being allowed enough time and authority to develop, implement, and oversee agency efforts to comply with the PREA standards in each facility.

The agency's organizational chart reflects that the agency PREA Coordinator position is an upper-level position with agency-wide oversight. The agency PREA Coordinator position reports to the Assistant Director, Reentry Services Division.

The PREA Coordinator was interviewed and reported to have enough time to focus on the PREA standards and the freedom to divert responsibilities to other staff as needed to focus on the audit. A review of the agency directive, agency's organization chart,

	<p>and based on the interview with the designated agency's PREA Coordinator, the Auditor determined the agency demonstrates it meets the requirements of this provision of this standard.</p>

	<p>115.12(a) (b)</p> <p>DIRECTIVE AND DOCUMENT REVIEW:</p> <p>Agency Directives and BOP PREA Plan.</p> <p>FINDINGS:</p> <p>Agency Directive(s) and BOP PREA Plan address(es) this provision. The agency reported there were a total of zero contracts for the confinement of inmates and 161 Residential Reentry Centers (RRCs) that the agency had entered or renewed with private entities or other government agencies.</p> <p>A review of the agency directive reflected all contracts will meet the required entity's obligation to adopt and comply with the PREA standards.</p> <p>Agency Directive(s) and BOP PREA Plan address(es) this provision. The agency reported the agency-wide contracts would require the agency to monitor the contractor's compliance with the PREA standards.</p> <p>If the agency contracted the confinement of its inmates, the agency's Contract Administrator would be required to maintain regular contact with every inmate placed in a contract facility. If there are concerns, agency protocol requires the inmate be removed from the facility and the facility allows time to make corrective action and address the concerns.</p> <p>Corrective actions are addressed before the facility is reconsidered. Notification would also be made to law enforcement. The Contract Administrator would annually collect credentialing documentation for each facility: facility license; staff licenses or certifications; daily schedule; and monitoring reports or the licensing agency's website regarding the facility's status; and tours the facility. The BOP is no longer actively soliciting new contracts with private facilities.</p>

**DIRECTIVE AND DOCUMENT REVIEW:**

Supporting Documentation.

**FINDINGS:**

PS 3000.03 Human Resource Management Manual, PS 3420.11, Standards of Employee Conduct, the Pre-Employment Guide, SF85P (Questionnaire for Public Trust Positions) and a BOP recruitment document address the requirements of the standard. All employees who have contact with inmates have had a full field background investigation in addition to fingerprinting and inquiry into the FBI's National Crime Information Center (NCIC). Employee backgrounds are re-checked every five years. Contractors and volunteers who have regular contact with inmates also have criminal background checks completed prior to having contact with inmates. Volunteer and contractor background checks are repeated yearly. The facility does not hire or promote anyone who may have contact with inmates and does not enlist the services of any contractor who may have contact with inmates who has engaged in any type of sexual abuse/harassment (no exceptions). Employees have a duty to disclose such misconduct and material omissions regarding such misconduct would be grounds for termination. Submission of false information by any applicant is grounds for not hiring the applicant.

The Agency Head designee was interviewed and confirmed that the agency HR attempts to contact prior employers for information on substantiated allegations of sexual abuse or resignations which occurred during a pending investigation of sexual abuse. The Agency Head designee also confirmed that the agency provides information on substantiated allegations of sexual abuse or sexual harassment involving a former employee, upon receiving a request from an institutional employer for whom such employee has applied to work. The agency notifies appropriate licensing/certifying agencies when professional staff members are terminated for substantiated allegations of sexual abuse or sexual harassment. A review of policy, personnel forms, and relevant supporting documentation, including staff interviews, confirm compliance with this standard.

INTERVIEWS:

Agency Head.

FINDINGS:

Agency Directives and BOP PREA Plan address this provision. The agency directive requires job applicants to have background checks completed looking at any issue of prior sexual misconduct. The background checks are completed prior to any inmate contact. All contractors are screened by using the same process.

In existing institutions, we review all “Substantiated” and “Unsubstantiated” cases of inmate sexual abuse to determine if modifications to design or the addition or upgrade of technology would help prevent a similar occurrence in the future.</p> <p>115.18(b)</p> <p>DIRECTIVE AND DOCUMENT REVIEW:</p> <p>Video Surveillance Schematic.</p> <p>INTERVIEWS:</p> <p>Interviews with the Agency Head designee confirm that the standard is being met.</p> <p>FINDINGS:</p>

	<p>Institution reviews are ongoing to determine if upgrades or additions to our existing technology would enhance the protection of inmates from incidents of sexual abuse. The technology serves as a deterrent but also allows us to identify unreported victims and perpetrators of sexually abusive behavior. It also aids in successful criminal prosecutions. It is recommended that BOP receive the funding to procure additional cameras and an inmate RFID system to enhance the safety and security of the staff and inmates for each of its institutions.</p>

DIRECTIVE AND DOCUMENT REVIEW:

Agency Directives and BOP PREA Plan.

INTERVIEWS:

Agency PREA Coordinator.

FINDINGS:

PS 5324.12 addresses the requirement of the standard. The National PREA Coordinator reviews data compiled by each BOP facility, from SENTRY, from each Regional PREA Coordinator, from the Information Technology and Data Division of the BOP and from the Office of Internal Affairs and issues a report to the Director on an annual basis. Facility data is maintained in locked files or on computer databases that are user ID and password protected. Agency PREA data is securely retained and is published on the BOP website after removing all personal identifying information.
