Physical Plant

<p>Number of buildings:</p> <p>Auditors should count all buildings that are part of the facility, whether inmates are formally allowed to enter them or not. In situations where temporary structures have been erected (e.g., tents) the auditor should use their discretion to determine whether to include the structure in the overall count of buildings. As a general rule, if a temporary structure is regularly or routinely used to hold or house inmates, or if the temporary structure is used to house or support operational functions for more than a short period of time (e.g., an emergency situation), it should be included in the overall count of buildings.</p>	28
<p>Number of inmate housing units:</p> <p>Enter 0 if the facility does not have discrete housing units. DOJ PREA Working Group FAQ on the definition of a housing unit: How is a "housing unit" defined for the purposes of the PREA Standards? The question has been raised in particular as it relates to facilities that have adjacent or interconnected units. The most common concept of a housing unit is architectural. The generally agreed-upon definition is a space that is enclosed by physical barriers accessed through one or more doors of various types, including commercial-grade swing doors, steel sliding doors, interlocking sally port doors, etc. In addition to the primary entrance and exit, additional doors are often included to meet life safety codes. The unit contains sleeping space, sanitary facilities (including toilets, lavatories, and showers), and a dayroom or leisure space in differing configurations. Many facilities are designed with modules or pods clustered around a control room. This multiple-pod design provides the facility with certain staff efficiencies and economies of scale. At the same time, the design affords the flexibility to separately house inmates of differing security levels, or who are grouped by some other operational or service scheme. Generally, the control room is enclosed by security glass, and in some cases, this allows inmates to see into neighboring pods. However, observation from one unit to another is usually limited by angled site lines. In some cases, the facility has prevented this entirely by installing one-way glass. Both the architectural design and functional use of these multiple pods indicate that they are managed as distinct housing units.</p>	12

When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols.</i></p> <p><i>For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed.</i></p> <p><i>If a particular targeted population is not applicable in the audited facility, enter "0".</i></p>	<p>16</p>

Site Review and Documentation Sampling

Site Review

PREA Standard 115.401(h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: discussions related to testing critical functions are expected to be included in the relevant Standard-specific overall determination narratives.

<p>59. Did you have access to all areas of the facility?</p>	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
<p>a. If no, explain what areas of the facility you were unable to access and why.</p>	

Was the site review an active, inquiring process that included the following:

<p>60. Reviewing/examining all areas of the facility in accordance with the site review component of the audit instrument?</p>	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
<p>a. If no, explain why the site review did not include reviewing/examining all areas of the facility.</p>	
<p>61. Testing and/or observing all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., intake process, risk screening process, PREA education)?</p>	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
<p>a. If no, explain why the site review did not include testing and/or observing all critical functions in the facility.</p>	
<p>62. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?</p>	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
<p>63. Informal conversations with staff during the site review (encouraged, not required)?</p>	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No

64. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).

Note: as this text will be included in the audit report, please do not include any personally identifiable information or other information that could compromise the confidentiality of any persons in the facility.

Staff and Inmates were open and polite and answered all my questions.

Documentation Sampling

Where there is a collection of records to review—such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files—auditors must self-select for review a representative sample of each type of record.

65. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?

Yes No

66. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).

Note: as this text will be included in the audit report, please do not include any personally identifiable information or other information that could compromise the confidentiality of any persons in the facility.

Policy States:

Staff and inmates are informed of the policy of “zero tolerance” of sexually abusive behavior, and sexual harassment, as defined in the policy; Standard procedures are in place to detect and prevent sexually abusive behavior and sexual harassment at all bureau facilities; Victims of sexually abusive behavior and sexual harassment receive timely and effective responses to their physical, psychological, and security needs; Allegations of sexually abusive behavior and sexual harassment receive timely intervention upon report; and the perpetrators of sexually abusive behavior and sexual harassment will be disciplined and, when appropriate, prosecuted in accordance with Bureau policy and Federal law. Operations: All staff and inmates interviewed stated they understood the zero-tolerance policy for sexual abuse and sexual harassment. There are posters throughout the facility explaining how to report sexual abuse or harassment. The facility PREA Compliance Manager states she has the time needed to ensure compliance with the PREA standards. Policy States:

The facility has implemented policies and procedures that enable inmates to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. Policies and procedures require staff of the opposite gender announce their presence when entering an inmate housing unit. For purposes of pat searching, inmates will be pat searched in accordance with the gender of the institution, or housing assignment, in which they are assigned. Transgender inmates may request an exception. The exception must be pre-authorized by the Warden, after consultation with staff from Health Services, Psychology Services, Unit Management, and Correctional Services. Operations: All inmates and staff interviewed stated the inmates could shower, dress, and use the restroom without the opposite gender staff viewing. The transgender inmates stated they could request an exemption and choose which gender searched them and they stated that their request was approved. No other cross gender searches are conducted. The female inmates stated they never missed any activities due to not having a female staff on duty. All staff state they announce themselves prior to entering an opposite gender unit. I observed staff announcing themselves during the tour.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policy States:

During the intake process, inmates receive information explaining the agency's zero-tolerance policy regarding sexual abuse and sexual harassment and how to report incidents or suspicions of sexual abuse or sexual harassment. A staff member, designated by the Warden, presents the Sexually Abusive

Behavior Prevention and Intervention Program. This presentation includes definitions of sexually abusive behavior and sexual harassment and prevention strategies the inmate can take to minimize his/her risk of sexual victimization while in BOP custody. Methods of reporting an incident of sexually abusive behavior against oneself, and for reporting allegations of sexually abusive behavior involving other inmates, including reporting procedures directly to Regional Staff, if desired. Methods of reporting an incident of sexual harassment against oneself, and for reporting allegations of sexual harassment involving other inmates. Treatment options and programs available to inmate victims of sexually abusive behavior and sexual harassment. Monitoring, discipline, and prosecution of sexual perpetrators. Operations: I sampled the signed documentation that inmates were given the information of the zero-tolerance policy on sexual abuse or harassment, that they have the right never to be sexually abused or harassed, and how to report such conduct. The inmates interviewed stated they received this information upon arrival at the facility. The training is provided in English and Spanish.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policy States:

All inmates are assessed during an intake screening and upon transfer to another facility for their risk of being sexually abused by other inmates or sexually abusive toward other inmates. When, during the intake screening process, staff identify inmates with a history of sexual predation (e.g., from self-report or from review of available documents such as judgment and commitment orders, criminal records, presentence investigation reports, Inmate Central File data, etc.), staff must refer the inmate to Psychology Services. Intake screening shall ordinarily take place within 72 hours of arrival at the facility. Such assessments shall be conducted using an objective screening instrument. Staff are required to use the Bureau's Program Statement Intake Screening, which outlines issues and steps to take during the intake screening process generally, including issues concerning sexual abuse and sexual assault. The Unit Team uses the Intake Screening Form during the intake process. Operations: I reviewed a sample of the intake screening forms in English and Spanish that is given within hours of arrival. All inmates who score high risk for victimization or high risk for predatory behavior are immediately sent to Psychology Services for review. All other intake forms also go to Psychology Services for a review that is completed within 14 days. I interviewed two psychologists.

115.42 (c)

- When deciding whether to assign a transgender or intersex inmate to a facility for male or female inmates, does the **agency** consider, on a case-by-case basis whether a placement would ensure the inmate's health and safety, and whether a placement would present management or security problems (NOTE: if an agency by policy or practice assigns inmates to a male or female facility on the basis of anatomy alone, that agency is not in compliance with this standard)? Yes No
- When making housing or other program assignments for transgender or intersex inmates, does the agency consider on a case-by-case basis whether a placement would ensure the inmate's health and safety, and whether a placement would present management or security problems? Yes No

115.42 (g)

- Unless placement is in a dedicated facility, unit, or wing established in connection with a consent decree, legal settlement, or legal judgment for the purpose of protecting lesbian, gay, bisexual, transgender, or intersex inmates, does the agency always refrain from placing: lesbian, gay, and bisexual inmates in dedicated facilities, units, or wings solely on the basis of such identification or status? Auditor Overall Compliance Determination

- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policy States:

The agency uses information from the risk screening to inform housing, bed, work, education, and program assignments with the goal of keeping separate those inmates at high risk of being sexually victimized from those at high risk of being sexually abusive. Once an inmate has been identified as a victim or perpetrator, or as "at risk" for victimization or perpetration, Unit Management reviews classification options. These options may include transfer to a special treatment program, offender management program, transfer to a greater or lesser security facility or changes in housing units, cell assignments, work assignments, and/or education assignments. The facility makes individualized determinations about how to ensure the safety of each inmate and in making other housing and programming assignments, the facility considers on a case-by-case basis whether a placement would ensure the inmate's health and safety, and whether the placement would present management or security problems. Placement and programming assignments for each transgender or intersex inmate are reassessed at least twice each year to review any threats to safety experienced by the inmate. A transgender or intersex inmate's own views with respect to his or her own safety shall be given serious consideration. Operations: The facility uses the information from the screening form to determine housing, programs, and work assignments. I reviewed a sample of the screening and determined that recommendations for housing, programs and work are sent to the unit team. I interviewed two of the psychologists and one intake officer that confirmed the policy requirements. All high-risk inmates

screening forms are sent to the unit team to insure the follow up is completed and that the facility is not housing victims with predators.

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. Policy States:

Where sexual abuse is alleged, the facility uses investigators who have received special training in sexual abuse investigations. Investigators shall gather and preserve direct and circumstantial evidence, including any available physical and DNA evidence and any available electronic monitoring data; shall interview alleged victims, suspected perpetrators, and witnesses; and shall review prior complaints and reports of sexual abuse involving the suspected perpetrator. Previous unsubstantiated or unfounded complaints and reports may not be used as evidence. The credibility of an alleged victim, suspect, or witness shall be assessed on an individual basis and shall not be determined by the person's status as inmate or staff. Administrative investigations: (1) Shall include an effort to determine whether staff actions or failures to act contributed to the abuse; and (2) Shall be documented in written reports that include a description of the physical and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings. Administrative investigations should also consider information on whether other factors such as physical layouts, staffing patterns, institution operations, etc., contributed to the abuse. Criminal investigations shall be documented in a written report that contains a thorough description of physical, testimonial, and documentary evidence and attaches copies of all documentary evidence where feasible. Substantiated allegations of conduct that appears to be criminal shall be referred for prosecution. The departure of the alleged abuser or victim from the employment or control of the facility or agency shall not provide a basis for terminating an investigation. Operations: I interviewed the investigator, and he explained his investigative techniques. He explained that he interviews all witnesses and gathers any physical evidence and researches the history of the victim and perpetrator. He also reviews reports, videos and staff logs. He then makes a determination on whether the allegation can be substantiated or not. He then submits a report that documents all the information gathered.

Policy States:

Procedures for Inmate Victims. Medical staff are responsible for examination, documentation, and treatment of inmate injuries arising from sexually abusive behaviors, including testing when appropriate for pregnancy and sexually transmissible infections (STIs), including HIV. When an inmate self-reports, or is referred to Health Services, medical staff notify Psychology Services and Correctional Services prior to conducting an injury assessment. The forensic examination should occur as soon as practicable, but within 72 hours of BOP staff becoming aware that an inmate reported involvement in a sexually abusive assault. An inmate's refusal of a forensic examination is documented in the electronic health record. If a trip to a local community facility is needed, Health Services staff coordinate with Correctional Services to transport the inmate to the facility. When community care is completed, institution providers render follow-up care, including screening for infectious disease (HIV, viral hepatitis, or other sexually transmissible infections), pregnancy testing for female victims, and administration of prophylactic medication (if exposure to bloodborne pathogens is suspected) if these services were not already rendered during the community visit. Operations: During my interviews with medical and mental health staff they indicated if an inmate alleges sexual abuse they are transported to the local hospital for a forensic exam and then the facility explains the testing procedures for infectious infections and if needed pregnancy tests. The female inmate who alleged sexual abuse stated the medical and mental health explained the procedures for testing and she stated she was satisfied with how she was treated.

I interviewed 41 inmates both male and female.

I interviewed 25 staff.

I reviewed all policies.

Toured the facility

I reviewed logs, forms and other documentation that was provided to ensure compliance.

I reviewed the policy for each standard and then looked at the operational practices and interviews with staff and inmates to ensure compliance for each standard.

The facility is older, so its design is not the best for supervision, but the facility requires staff to be out and make continuous rounds to ensure the safety of inmates. They need a lot more cameras for a better view of all areas. One of the things I noticed was the quietness of the prison. The inmates were polite and would answer any questions. I observed staff and inmates communicating and everyone I encountered was professional and helpful. There were a lot of outstanding areas of the prison, but UNICOR stands out. The supervisor runs a wonderful program and the inmates love working in that area. The Warden is open and honest in his communication and takes PREA compliance very seriously. He uses his management team to put all their efforts into safety for the inmates and staff. You could see that staff and inmates have high level of respect for staff. Most inmates stated they would go to staff if they had any PREA issues. The facility was prepared for the audit and provided evidence for each standard.
