1. PURPOSE AND SCOPE: To implement local procedures necessary to comply with Program Statement 5267.08, Visiting Regulations, dated May 11, 2006. This supplement should be read in conjunction with Program Statement 5267.08.

Federal Correctional Institution Ray Brook encourages visiting by family, friends, and community groups to maintain the morale of the inmate and to develop closer relationships between the inmate and family members/others in the community.

The Warden has the authority to restrict or suspend an inmate’s regular visiting privileges temporarily when there is reasonable suspicion that the inmate has acted in a way that would indicate a threat to the good order or security of the institution. Ordinarily, the duration of the restriction or suspension should be limited to the time required to investigate and initiate the discipline process.

No visitors arriving at the Entrance Building 30 minutes (or less) prior to the conclusion of visiting hours, will be processed into the visiting room.

C. Visiting Limitations:

Visiting is a privilege that is extended to all inmates at FCI Ray Brook. However, due to the limited space available, restrictions must be placed on the number of visits, duration, frequency, and number of occupants in the Visiting Room at any one time. In order to accomplish this goal, the number of visitors per inmate is limited to five (5) adults. Children, under age 16, are not limited. Inmates and their adult visitors are responsible for the actions and conduct of children visitors.

D. Approved Visitors:

Unit Staff will establish a list of approved visitors (Attachment A) and prepare visiting folders to be maintained in the Visiting Room filing cabinet.

A Visiting List Request Form (Attachment B) will be completed by each inmate and submitted to the Unit Team for approval.

Inmates may have members of their immediate family, as defined in Program Statement 5267.08, and friends placed on the approved visiting list after review by unit staff.

1. To ensure the security and orderly running of the institution, staff may request all proposed visitors complete the visiting questionnaire, and an investigation will be conducted before placing them on the inmate’s approved visiting list.

2. If the immediate family relationship is not documented within the Pre-Sentence Investigation Report, a completed visiting questionnaire and investigation must be completed before the individual is placed on the inmate’s approved visiting list.
Inmates may have a maximum of twelve (12) friends and associates placed on their visiting list. This visiting privilege will be extended to friends and associates having an established relationship with the inmate prior to confinement, unless such visits could reasonably create a threat. In extraordinary cases, exceptions to the prior relationship rule may be made, particularly for inmates without other visitors, when it is shown that the proposed visitor is reliable and poses no threat to the security or good order of the institution. The placement of friends and associates affects only designated inmates.

1. When requesting placement of a visitor other than immediate family on the visiting list, a Visitor Information Form (BP-S629), along with an Institution Request for Visitor Information Form (Attachment C), must be completed by the potential visitor.

2. The top section of the Visitor Information Form (BP-S629 and the top section of the Institution Request for Visitor Information Form (Attachment C) will be completed by the inmate who is making the request. The inmate is responsible for mailing these forms to his potential visitor.

3. The forms must be completed by the visitor and sent directly to the Unit staff member (Correctional Counselor) responsible for the inmate’s case.

4. The signature of a parent or guardian on the Visitor Information Form (BP-S629) is necessary to process a request for an applicant under 18 years of age.

5. On occasion, an inmate visitors’ application, or a subsequent NCIC check may reveal information that would cause disapproval of the request. If such information is found, the original request, NCIC printout and memorandum explaining the request for denial will be forwarded through the appropriate Unit Manager to the Warden for review and final decision. After the final decision is made, the packet will be placed into the inmate’s Central File, FOI section, and the inmate will be told that the visitors will not be placed on the inmate’s visiting list. No information from the application or subsequent checks can be revealed to the inmate.

   Staff shall notify the inmate of each approval or disapproval of a requested person for their visiting list. The inmate is responsible for notifying the visitor of the approval or disapproval to visit and is expected to provide the approved visitor with a copy of the Instructions for Visiting (Attachment F).

6. The Instructions for Visiting (Attachment F) shall include specific directions for reaching the institution and shall cite 18 U.S.C. 1791, which provides a penalty of imprisonment for not more than twenty years, a fine, or both to any person who introduces, or attempts to introduce, into or upon the grounds of any Federal Institution, or takes or attempts to send therefrom, anything whatsoever, without the knowledge and consent of the Warden.

7. Visitors are not to be permitted to visit until they have been approved and added to the inmate’s list of approved visitors. Special exceptions may be made by the Unit Manager on a case by case basis.

8. An inmate’s visiting list may be amended at any time in accordance with the procedures of this section.

Normally, visitors may not be on more than one inmate’s visiting list, except where inmates have the same immediate family members. In these rare cases, the visitor may visit each inmate, either separately or together.
E. Special Visits:

Special visits may be permitted under the following circumstances: Family emergencies, pre-release planning interviews, attorney, business, court appointed investigation, interpreters, consular, or community group representatives.

Any inmate visit by an individual who is not associated with the Department of Justice on official business or who is not on the inmate's approved visiting list, is considered a special visit. A special visit must be arranged through unit staff. Unit staff will prepare a special visit memorandum (Attachment D) to the Captain, with copies routed to: the Visiting Room, Control Center, Lieutenant's Office, Duty Officer, and the C Building Officer.

The Institution Duty Officer or Operations Lieutenant may approve an immediate family member’s request to visit during normal visiting hours if no approved visiting list has been established for the inmate. This authority is for one visit and only after conferring with Unit staff or reviewing the Pre-Sentence Investigation Report. This authorization should be noted and maintained in the visiting file located in the Visiting Room.

1. **Attorney Visits:** Refer to Program Statement 1315.07, Inmate Legal Activities, dated November 5, 1999. Attorney Visits may occur at any time during regularly scheduled visiting hours and on weekdays during regular business hours, with an appointment prearranged with the inmate’s Unit Team.

   a. When an attorney must visit during regular visiting hours, the television room adjacent to the Visiting Room will be used for privacy. If this room is not available, the inmate and his attorney may visit in the Visiting Room, provided they have a degree of separation from other visitors for privacy.

   b. Attorneys must show a valid bar card or other suitable professional identification, and are subject to normal procedures for entrance into the institution, including passing through the metal detector, before entry will be allowed into the institution.

   c. Attorneys may bring legal papers and writing material with them while visiting inmates; however, all briefcases, file folders, etc., are subject to inspection for security purposes. With regard to the exchange of legal material in the Visiting Room, an inmate may not bring legal material into the Visiting Room, nor remove legal material obtained from his attorney, from the Visiting Room without prior approval from unit staff.

2. **Ministerial Visits:** Special visits to an inmate from an area clergyman or religious leader will be arranged by the Chaplain. The Chaplain will prepare a special visit memorandum (Attachment D) to the Captain, with copies routed to: the Visiting Room, Control Center, Lieutenant's Office, Duty Officer, and the Entrance Building Officer. All ministerial visitors must comply with the visiting rules, applicable policies and meet entrance requirements.

3. **Minister of Record:** An inmate wanting to receive visits from his minister of record must submit a written request to the Chaplain. Upon approval, Unit Staff will add the name and title of the minister of record to the inmate’s visiting list.
a. An inmate may have only one minister of record on his visiting list at a time. The addition of the minister of record will not count against the total number of authorized regular visitors an inmate is allowed to have on his visiting list and will not count against the total number of social visits allowed.

F. Visits to Inmates Not in Program Population Status:

1. Pretrial/Holdover Inmates: Pre-trial /holdover inmates may ONLY have immediate family members and attorneys on their visiting list, once it is established and reviewed by unit staff.

2. Inmates Housed in the Special Housing Unit (SHU): If an inmate is housed in SHU for disciplinary reasons, he may receive visits. The visit will be conducted in the Visiting Room and the inmate and visitor(s) will be seated in close proximity to the Visiting Room Officer’s desk for close observation. All security measures for inmates entering and exiting the Visiting Room and SHU will be followed.

3. Visits to Inmates Under Strict Medical Care: When visitors come to see an inmate who is under strict medical care, the situation shall be carefully and sensitively interpreted to the proposed visitor and documented in the inmate’s Central File. In such cases, the Clinical Director or HSA, in conjunction with the Captain, will determine whether a visit may take place, and if so, the location where it will be conducted.

Inmates admitted to outside facilities for medical treatment will not be allowed social visits unless authorized, in advance, by the Warden. When approved by the Warden, visitors will visit only according to the medical facility’s visiting times, and visitors will be limited to immediate family members and attorney only. Escorting staff must be present during the entire visit.

G. Visitor Entrance and Exit Procedures:

Visitors should not arrive on the institution grounds more than 15 minutes prior to the start of visitor processing times specified above. Visitors arriving at the Entrance Building 30 minutes or less from the conclusion of visiting hours will not be processed into the visiting room.

1. Identification of Visitors: Staff shall verify the identity of each visitor age 16 and older, through a driver’s license or other state or governmental issued photo identification, prior to admission of the visitor to the institution. Visitors under the age of 16, accompanied by a parent or legal guardian, are exempted from the identification provision.

All visitors, age 16 and older must be listed on the approved inmate visiting list before entry. Children under the age of 16 may not visit unless accompanied by a responsible adult. Exceptions in unusual circumstances may be made by special approval from the Warden.

2. Visitor Declaration of Contraband: Prior to all visits, visitors age 16 and older will be required to sign a Notification to Visitor Form (BP-224) declaring any contraband in their possession or in the possession of their children. In addition to the Notification to Visitor Form and the Declaration/ Acknowledgment Form, each visitor age 16 and older will be required to sign the Inmate Visitors’ log prior to each visit.
3. Metal Detector: All visitors entering the institution are required to pass through the metal detector located in the Front Lobby. Any visitor refusing to submit to this test or who fails to successfully pass the metal detector(s) will be denied access to the institution.

4. Ion Spectrometry: All visitors are subject to random testing. Random selection of visitors is impartial and non-discriminatory. This testing is to deter and prevent the introduction of prohibited substances. If selected, a visitor must successfully pass the Ion Spectrometry screening. If a visitor tests positive for any of the prohibited substances screened for, they will be denied entrance to the facility.

5. Electronic Search: All approved items being brought into the secure perimeter of the institution (entrance into the Visiting Room) must be submitted to and pass an electronic search (x-ray) before being allowed to be taken inside. This includes, but is not limited to, shoes, coats, jackets, diapers, and any item failing the metal detector.

6. Pat Searches: All visitors will be subject to random pat searches. Random selection of visitors is impartial and non-discriminatory. Except in an emergency situation, this search will be conducted by a staff member of the same sex. A pat search of your person involves a staff member pressing his/her hand on your other clothing, or the outer surface of your belongings to determine whether prohibited objects are present.

7. Black Light: All visitors admitted into the institution will be required to have their hand “blacklight” stamped for additional security and identification. When departing the institution, each visitor will submit to identification via the “blacklight.” Inmate visitors will be subject to this process prior to departing the Visiting Room and again before exiting the institution.

8. Visitor Personal Property: Lockers are located in the Front Lobby for storage of visitors’ handbags, shopping bags, etc. Visitors will be required to place all packages and purses in these lockers before going to the Visiting Room. The only exception to this will be small, clear billfolds or change purses and actual baby needs. No medication will be permitted inside the institution unless authorized by the Operations Lieutenant or Institution Duty Officer. FCI Ray Brook is not responsible for items left or lost inside the facility.

The following items are the only items outside of personal clothing, allowed to enter the Visiting Room:

a. A clear wallet or change purse (no larger than 5”x8”x4”) containing money and identification only, four baby diapers, two containers of processed baby food (commercially sealed), three baby bottles (with milk, formula or juice), one baby blanket (crib size) and one small diaper bag (paper or plastic) for baby items or female hygiene items.

b. Several other items specifically prohibited are: balloons, gum, candy, food, toys (including dolls and toy weapons), newspapers, magazines, books, legal material (unless pre-approved by memorandum), baby carriers, regular diaper bags, cosmetics, writing instruments, tobacco products, photographs, pagers, cell phones, and remote control door lock devices.

9. Proper Dress in the Visiting Room: It is necessary to uphold standards of appropriate dress in the Visiting Room. Visitors wearing transparent clothing will not be admitted into the institution. Tank tops, muscle shirts, halter tops, short shorts, mini-skirts, culottes or excessively tight fitting clothing will not be allowed.
Shorts and skirts will be no more than six inches above the knee. Persons wearing clothing of a suggestive or revealing nature will not be admitted into the institution. Furthermore, any male visitor dressed in attire similar to inmate clothing, i.e. khaki pants or shirts, will not be allowed to visit. Excluding babies, no bare feet will be permitted. Any questions regarding proper attire will be directed to the Operations Lieutenant or the Institution Duty Officer.

10. Escort of Visitors: All visitors will be escorted from the Entrance Building to the Visiting Room by staff. Visitors exiting the Visiting Room will be escorted back to the Entrance Building by Visiting Room staff. Visitors will not be permitted to move unescorted between the Entrance Building and the Visiting Room.

11. Video Monitoring: All areas of the institution, including the Visiting Room, may be monitored by video surveillance.

12. One Visit per Day: Visitors may not leave and return for visiting on the same day unless authorized, in advance, by the Warden.

13. Vehicle Searches: When random vehicle searches are conducted, a Lieutenant will be present. They will be conducted only with the approval of the Warden or when scheduled on a random basis established by the Shift Lieutenant. Reasonable Suspicion Searches (not random) will be conducted only with the approval of the Warden.

Search Procedures will require a minimum of two staff supervised by a Lieutenant. Except in extenuating circumstances, Visiting Room Officers will not be utilized to conduct these searches. The driver of the vehicle must be present and be at least 20 feet away from the vehicle and be under supervision of one staff member. The other staff member will visually search areas of the car that are reasonably accessible, i.e. engine compartment, under seats, interior compartments, trunk, and inside any containers inside the vehicle. Staff may not pry, force, or break open any areas to obtain access.

14. Detaining Visitors: Staff may detain any person who is found to be introducing or attempting to introduce such contraband as narcotics, guns, explosives, gases, knives, chemicals, or other unauthorized contraband. A person may be briefly detained, pending an investigation or advise from appropriate law enforcement officials, FCI, U.S. Marshals Service, or New York State Police, to confirm or disprove a suspicion the individual may have committed a felony or misdemeanor. Staff must have probable cause in order to detain a visitor, and should not detain an individual for conduct which poses little or no threat to the institution’s good order. The IDO and ADO must be advised immediately of any visitor that has been detained.

Staff are not to question a detained person unless immediate questioning is necessary to protect the security of the institution. Visitors will be detained in an area where there is no contact with other visitors or inmates, normally the Training Center Great Room. Only the minimum force needed to detain a visitor is authorized. Institution legal staff, the ADO, or the Warden should be contacted if staff have questions about detaining a visitor. A report giving a full account of the incident will be submitted through the Captain to the Warden.

15. Handling of Evidence: The FCI and/or New York State Police will be notified of any hard contraband (guns, explosives, narcotics, etc.) found in a search of a visitor, visitor’s vehicle, or a visitor’s possessions. Contraband found in an attempt to aid an escape will be referred to the FBI and/or the New York State Police.
16. Arresting Visitors: Staff must have probable cause to arrest a visitor and may only exercise their arrest authority in those situations as forth in Program Statement 5510.12, Section 12c.

Staff will not question any person unless the security of the institution or the safety/life of any person is in jeopardy.

Staff, normally the SIS or Operations Lieutenant, will read the Advisement of Rights Form to the suspect and if necessary, allow the suspect to read it. If circumstances do not permit the use of this form, the Miranda warning can be read orally. An oral warning will be promptly documented.

All offenses will be promptly reported to the FBI and New York State Police when sufficient facts are available. Staff will fully cooperate with these agencies during the investigation. The FBI or State Police will make the actual arrest of the suspect. If the FBI is unavailable, local New York State Police will be contacted to make the arrest. All individuals arrested may be received by this institution as outlined in the Memorandum of Understanding (MOU) with these agencies. Local law enforcement has concurrent jurisdiction with New York State Police for our reservation. Any person arrested by local law enforcement will be housed at their own designated facilities.

H. Inmate Entrance and Exit Procedures: Before admittance into the Visiting Room, each inmate processed for visiting shall be positively identified by his commissary card, and will be pat searched. The commissary card will then be maintained at the officer’s desk. If the inmate has altered his appearance by changing his hair style or by growing or shaving a beard or mustache, etc., it will be noted so a new picture can be obtained.

1. When an inmate arrives for a visit, random visual searches may be conducted by the Visiting Room Officer before entering the Visiting Room. Inmates will not be allowed to enter the Visiting Room before their visitor or prior to 8:30 a.m. or 2:30 p.m. Inmates leaving the area for any reason will be subject to immediate termination of the visit and possible disciplinary action.

2. When the inmate’s visit ends, he will be identified by the visiting file inmate picture card and commissary card prior to his visitors are allowed to leave the Visiting Room. He will then be taken into the shakedown room where a visual search will be conducted. The inmate will then be given back his commissary card and will be released to the compound.

3. When a mass departure of visitors is necessary, such as termination of visiting hours, Visiting Room Officers will announce, “Visiting hours are now over. All visitors please proceed to the front of the Visiting Room and all inmates move to the rear.” All inmates must be properly identified with picture cards prior to the departure of the visitors. The separation of inmates and outside visitors must be maintained while inmates are returned to population and the outside visitors are processed in an orderly fashion from the Visiting Room through the Entrance Building.

4. Inmate Dress: Only institution issued khaki shirts and trousers will be worn in the Visiting Room. Underwear and socks are required and a plain white t-shirt may be worn. Institution issued boots and boots purchased in the Commissary are the only types of footwear allowed, and must be worn at all times. Neither shower shoes, nor sneakers will be permitted to be worn in the Visiting Room. All clothing will be clean and neat in appearance; shirts will be buttoned and tucked into the pants at all times. An institution issued belt must be worn at all times.
5. Allowable Inmate Personal Property: Inmates will be allowed to bring certain personal property into the Visiting Room:

One comb, one handkerchief, one pair of prescription eye glasses, one plain religious neck chain, one plain wedding band, and picture tickets.

No other items will be allowed in the Visiting Room. All items will be listed on a Visiting Room Property Sheet Form (Attachment E). Items not authorized upon the inmate’s entrance will be considered contraband and will be confiscated. No item of property, other than coats, will be stored for an inmate in the search area.

I. Conduct in the Visiting Room: Visits will be conducted as informally and as pleasant as the physical conditions permit.

1. Hand shaking, embracing and kissing within the bounds of good taste are permitted at the beginning and at the end of each visit. Physical contact beyond this point will not be permitted.

2. Visitors may not bring into the institution; packages, photographs, papers of any kind, or gifts for inmates.

3. It is not permissible for papers of any kind to be examined or signed during social visits without the express consent of the Warden. No visitor may receive any items from the inmate in the Visiting Room.

4. Visitors are prohibited from passing money to an inmate in the Visiting Room.

5. Visiting Room Staff may not accept articles or gifts of any kind for an inmate, except packages which have had prior approval by the Warden or a designated staff member.

6. Visitors may purchase food and drink items from the vending machines located in the Visiting Room. Items that are purchased and opened must be consumed or discarded in the Visiting Room. Unopened items may be removed by the visitor upon the conclusion of the visit.

7. The use of telephones, radios, cameras or recording equipment is strictly prohibited.

8. Inmates and visitors may be assigned seating by Visiting Room Staff and once seated, may not change seats during the visit unless instructed to move to another location by Visiting Room Staff. Visiting Room Staff, at their discretion, may direct where inmates and their visitors may sit.

9. Inmates must remain seated during a visit, unless authorized to use the restroom. Inmates are not permitted to use the vending machines and are not allowed to go the vending machine area.

10. Inmates will not be processed into the Visiting Room more than once a day for the same visitor unless otherwise authorized by the Warden. However, an inmate may be admitted a second time for a different visitor arriving the same day.

11. A room, located at the rear of the Visiting Room, containing an assortment of games, books, and a television for viewing, is available for children. Inmates are not allowed in the children’s area and all children must be supervised by a responsible adult. Staff assigned to the Visiting Room will monitor this area when in use and will ensure the children are properly supervised by an adult. Children behaving in an inappropriate manner or not properly supervised will be returned to the parent or guardian.
J. Staff Supervision: The Visiting Room will be supervised by staff to ensure all visits are conducted in a quiet, orderly and dignified manner. The Visiting Room Officer cannot accept funds for deposit into an inmate’s commissary account.

A copy of this Institution Supplement will be posted in the Visiting Room. Any violation of the institution visiting procedures may result in termination of the visit and possible disciplinary action.

K. Computer-based Visiting Program: Visiting Room staff will utilize the computer-based program in order to properly record all inmate visits. Specific information includes the name and address of each visitor, eligibility for visiting, and total number of visitors, including children. In the event the computer program is inoperative, Visiting Room Staff will utilize the locally generated tracking form, and will verify all prospective visitors via the inmate visiting files compiled by Unit Team.

L. Visiting Termination: In the event the Visiting Room becomes overcrowded, it may be necessary to limit the length of visits or the number of visitors. The decision to terminate the duration of a visit will be made by the Operations Lieutenant or the Duty Officer. Good judgment with regards to terminating visits will be used, with the following factors being considered:

1. A request for volunteers to leave can be made first.
2. Starting with the first visitors who were processed and continuing second, third, etc., will be the first to be terminated.

Visitors who car pool with other visitors or utilize a form of bus service will not be exempt from this policy. Those visitors will be responsible for obtaining transportation from the institution and making the necessary arrangements. Visitors departing the Visiting Room will not be allowed to return on the same day.

M. Visitors with Disabilities Which Require the Use of Animals as Aides:

1. Visitors are precluded from bringing animals into institutional grounds, except for dogs that assist persons with disabilities.

2. Working animals used as aides for persons with disabilities will be allowed to enter the institution when the visitor can provide documentation certifying the animal’s training and its required use. Documentation as to the animal’s vaccination status will also be required.

3. Normal entrance procedures for the visitor will be followed and a visual search of the animal and its associated equipment will be conducted. The pet will also be checked using a hand held metal detector. The animal’s demeanor will be such as to not cause a disturbance to the normal visiting procedures.

4. Persons requiring animal aides will, to the extent possible, visit separately from the general population, to minimize the animal’s contact with other visitors and inmates. The animal will be restrained with a leash at all times.

5. Should the animal need to be walked, the area in front of the control center and adjacent to R&D will be utilized. The visitor, along with a staff escort, will walk the pet. Feces is considered “Hot Trash”. It will be picked up and bagged by the visitor; and disposed of accordingly by Visiting Room Staff. At no time will the inmate be allowed to walk or control the animal.
5. EFFECTIVE DATE: This supplement is effective upon issuance.
