Audit Findings
Audit Narrative

The auditor’s description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor’s process for the site review.

Overview

The on-site Prison Rape Elimination Act (PREA) compliance audit of Federal Correctional Institution (FCI), located in Three Rivers, TX. was conducted on April 23-25, 2019 by U.S. Department of Justice (DOJ) certified PREA Auditor, Sonya Love, The Nakamoto Group, Inc. The Auditor conducted an opening meeting, toured the entire facility, interviewed a random sample of staff and inmates, and reviewed PREA related staff and inmate documentation onsite. Upon completion of the onsite audit process, a closing meeting was held with the administrative staff to discuss the next step in the audit process.

Pre-Audit Phase

This is the second PREA (Prison Rape Elimination Act) audit for the Federal Correctional Institution (FCI) Three Rivers. The standards used for this audit became effective August 20, 2012. An internet search confirmed the FCI Three Rivers 2016 PREA Report was posted on the facility’s website July 20, 2016.

The Auditor found the Admissions and Orientation Handbook, in both English and Spanish, located on the facility’s website. The handbook contained information such as the facility rules, available programs and services, details on the inmate telephone system (TRUFONE), intake screening and orientation process information and specifics on the inmate Electronic Bulletin Board (EBB), available to inmates via a TRULINCS terminal located on each living unit.

TRULINCS is one mechanism available for inmates to correspond with the Federal Bureau of Prisons’ (BOP) National PREA Coordinator, Institution PREA Compliance Manager (IPCM), the Warden, Regional Director and the Office of the Inspector General (OIG), and U.S. Department of Justice.

An examination of the inmate handbook revealed that the facility notifies all inmates:

- Telephone calls are subject to monitoring and recording except for unmonitored inmate calls to attorneys.
- There is a zero-tolerance policy and no-tolerance philosophy for sexual victimization.
- There is a process in place to conduct investigations into all allegations of sexual abuse and sexual harassment.
- There is a comprehensive grievance process (Administrative Remedy).
• Their rights and responsibilities in the handbook.
• There are guidelines for inmate correspondence.
• How to access health care.
• Consensual sexual contact with staff and other inmates is prohibited.

The Auditor completed a review of the Pre-Audit Questionnaire (PAQ), applicable program statements, institution supplements, and other supportive documentation. Telephone calls and emails were exchanged between the Bureau of Prisons (BOP) Management Analyst assigned to serve as a liaison between the facility and the Auditor during the audit process.

The following documentation were requested to be provided on the first day of the onsite audit:
• Individual rosters of inmates by unit which includes inmates with disabilities, Limited English Proficient (LEP), LGBTI, inmates who reported sexual abuse, and inmates who reported sexual victimization during risk screening
• Individual rosters of staff by shift, new employees in the past 12 months, and specialized staff identified by the auditor
• Inmate census the first day of the audit
• (4) Quarterly Salary Workforce minutes 2018 and 2019
• Unannounced institutional rounds sheets conducted in the past 12 months by upper management
• List of contact information for volunteers
• SANE/SAFE point of contact information, South Texas Regional Medical Center, Jourdanton, TX. 78026
• Copies of training acknowledgments for volunteers and contractors

**Entrance Briefing and Tour (On-site Audit)-First day**

The on-site visit for the Prison Rape Elimination Act (PREA) compliance audit of the Federal Correctional Institution (FCI) Three Rivers was conducted on April 23-25, 2019. The population on the first day of the audit was 1312 (FCI/1041 and Camp 271). The rated capacity is 712. A meeting took place with management staff to outline the Auditor’s sampling strategy, logistics for the facility tour, interview schedule and to discuss the need to review additional supportive documentation. The Auditor was provided a private room in which to work and conduct confidential interviews. All requested files and rosters, both staff and inmates, were made available to the Auditor for review.

The tour of FCI Three Rivers included the Receiving and Discharge (R&D) intake processing areas, all living units, the Special Housing Unit (SHU), the Health Services Department, Recreation, Food Service, facility support areas, Education, Visiting Room, Psychology Services and other programming areas and UNICOR. Unit Management office space was found on each living unit and it was easily accessible to inmates. The Special Housing Unit (SHU) has 49 segregation cells. During the onsite visit, zero inmates were housed in SHU as a result of sexual victimization. All living units were equipped with showers and privacy curtains. All living units had toilet stalls with privacy screens to protect the privacy of inmates.
The tour revealed missing shower curtains in SHU. The issue was corrected by the facility during the onsite portion of the audit process.

The auditor interviewed the following categories of specialized and random staff, during the onsite phase of the audit:

Site Review

Immediately following the opening meeting, a tour was completed. The Auditor was escorted by the IPCM/Associate Warden. During the tour, the Auditor reviewed PREA related documentation and materials located on bulletin boards. The Auditor observed camera surveillance, physical supervision, and electronic monitoring capabilities throughout the facility. Other areas of focus during the facility tour included, but as not limited to, levels of staff supervision, and limits to cross-gender viewing. In most instances, inmates can shower, dress, and use the toilet facilities without exposing themselves to employees of the opposite gender. In SHU there were common showers located on the main hallway leading to the cell block that did not provide privacy. These same showers had a dual purpose. The common showers were also used when an inmate located in a room was being repaired under direct observation of SHU staff. The shower issue was corrected during the onsite audit. Informal and formal conversations with employees and inmates regarding the PREA standards were conducted. All signs and postings were in English and Spanish. Postings regarding PREA violation reporting and the agency’s zero-tolerance policy for sexual abuse and sexual harassment were prominently displayed in all living units and other meeting areas throughout the facility. The Auditor noticed postings with the PREA Auditor’s contact information were posted in the same areas and was posted within the time limits outlined in the standard. Inmate interviews confirmed the placement of the PREA notices. Blind spots were identified and immediately corrected in the following areas:

- Live Oak Unit hallway to storage unit
- Laundry
- Foodservice behind the dishwasher
- Health Services

Other notable observations during the tour:

- Zero inmates were housed in SHU because of an allegation of victimization.
- Crime Stoppers: 1-361-786-4291 was painted on the walls in all living units.
- Women’s Shelter of South Texas dba The Purple Door, 813 Buford Street, Corpus Christi, TX, 24-hour crisis line 1-800-580-HURT. A notice or Purple Door (advocacy group): 361-881-8888 was posted on all living units.
- Rape Crisis Center: 361-881-8454 was posted on all living units.
- National Sexual Abuse Hotline (800-656-HOPE)
- There were no youthful offenders.
- TRULINCS and telephones were accessible to inmates and found in good working order.

Inmate Interviews

| Total staff interviewed | 24 |
A total of 43 male inmates were interviewed which included 20 randomly selected inmates, two Limited English Proficiency (LEP), one physically disabled, and two inmates who self-identified as being a part of the LGBTI community of which one self-identified being transgender. No inmates refused to be interviewed. Interviews were conducted using the Department of Justice (DOJ) protocols to access inmate's knowledge of PREA and the reporting mechanisms available to them.

**Staff Interviews**

A total of 44 staff members were interviewed to include correctional officers (from all three shifts) and administrative/specialized staff. The administrative staff included the Human Resource Manager, IPCM/Associate Warden, Lieutenants, Health Services Administrator, Psychologist, and Unit Managers. Staff interviews confirmed they were all trained to act as a first responder in the event of a PREA related incident. Random and specialized staff were interviewed on each day of the on-site audit.

**Advocacy/Forensic Examination Provider**

The Auditor conducted a telephone interview with the local community victim advocacy organization, Purple Door which confirmed that FCI Three Rivers has a provider relationship with this organization and they will provide, a 24-hour per day, seven days per week Sexual Assault Hotline, medical accompaniment and advocacy for an inmate victim of sexual assault. The MOU was updated during the onsite audit. A representative at the South Texas Regional Medical Center, confirmed that forensic examinations of inmates of sexual assault will be conducted by trained SANE/SAFE at the hospital.

**File Review**

The Auditor reviewed the training ledgers to confirm that random and specialized staff interviewed during the audit were following PREA training mandates. The Auditor confirmed compliance with training requirements established by PREA. The screening and intake procedures were evaluated by reviewing 40 random and targeted inmate files which included a vulnerability assessment instrument, inmate education verification forms, documentation, and interviews with intake and unit team staff.

**Investigations**

During the current auditing period, there were two reported allegations of sexual abuse/sexual harassment. All investigations are handled by either the Office of the Inspector General (OIG), Federal Bureau of Investigation (FBI), or the facility Special Investigative Services Department. Information is transmitted quickly to the appropriate investigating body.

The investigative packets on the two administrative cases were reviewed by the Auditor. One of two investigations resulted in an inmate who alleged sexual abuse to be placed in involuntary segregated housing in the past 12 months. The same inmate remained in
segregation for longer than 60 days while awaiting alternative placement outside of FCI Three Rivers, but he was returned to his country of origin before alternative placement took place. The Auditor found no evidence that the inmate’s housing assignment was assessed every 30 days to determine whether there was a continuing need for separation from the general population. Further information relating to this issue can be found under Standard 115.43.

The IPCM is responsible for receiving verbal and telephonic referrals 24 hours a day, seven days a week. Additionally, abuse investigation outcomes and general protective services assessment outcomes are submitted to, reviewed by, and finalized by the IPCM which is forwarded to the appropriate higher authority.

During random inmate interviews an inmate produced a receipt for several requests for relief using the BOP Administrative Remedy process. The first request for Administrative Remedy was initiated by the inmate while assigned to FCI Gilmer. The issue was referred to FCI Gilmer to investigate his complaint. Subsequently, the inmate was transferred to FCI Three Rivers. Once assigned to FCI Three Rivers the inmate filed for relief again regarding an issue that dated back. The case was closed by Three Rivers. See Standard 115.52 for further details.

**Closeout**

A closing meeting was held with the Auditor and the administrative staff on April 24, 2019. Discussions centered around the audit process, preliminary findings, and the post audit process. The Auditor thanked the staff for their hard work and dedication to the PREA process.

**Facility Characteristics**

The auditor’s description of the audited facility should include details about the facility type, demographics and size of the inmate, inmate or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

Federal Correctional Institution (FCI) Three Rivers is a male minimum-security facility which was activated in 1992. The FCI is located in Three Rivers, Texas. Inside the compound, Three Rivers contains four housing units named in part for local counties found adjacent to FCI Three Rivers (McMullen, Live Oak, Karnes and Jim Wells). Each unit contains two- and three-man cells with toilets and sinks in the cells. In addition, each unit has common shower areas. FCI Three Rivers also has a Satellite Prison Camp (SCP). The SCP inmates provide labor to
support the operation of the FCI. The facility is located approximately 75 miles south of San Antonio and 73 miles northwest of Corpus Christi, Texas. The institution, located on Highway 72, eight miles west of the City of Three Rivers, sits on approximately 302 acres of land. The main institution encompasses 37 acres, and the camp covers 20 acres. The FCI’s authorized staffing complement of 237 also provides all services to the SCP.

FCI Three Rivers is a Medical Care Level 1, outpatient medical facility. FCI Three Rivers also provides daily medical care for both chronic care patients and urgent care issues with an authorized staff of 15 medical professionals and six contract positions. The health services department provides in-house ambulatory care services that includes sick call, chronic care clinics, radiology, laboratory, optometry and dental services. The facility utilizes South Texas Regional Medical Center for emergencies. The mental health needs of inmates are provided by a staff of full-time psychologists who provide a variety of mental health treatment.

The facility offers varied educational opportunities which include, but is not limited to:

**General Educational Development (GED)**
The GED program is offered in English and Spanish and covers all academic levels.

**Adult Continuing Education (ACE)**
The ACE Program is designed to provide continuing educational experiences in a wide variety of high interest subject areas. Course offerings are determined by inmate surveys and by staff requests.

Courses with a business emphasis have been popular with the inmate population. The Adult Continuing Education Program includes general interest courses designed to enrich inmates’ general knowledge in particular subjects. Classes are from eight to twelve weeks in length and course completion is noted on a student transcript.

**English as a Second Language (ESL)**
ESL is mandatory for non-English speaking inmates. An exemption is granted to limited English speaking inmates who demonstrate English proficiency at the eighth-grade level on the CASAS (Comprehensive Adult Student Assessment System) Examination.

FCI Three Rivers offers various job opportunities throughout the facility and operates a Federal Prison Industries under the trade name UNICOR which provides employment opportunities for inmates.

**Summary of Audit Findings**

The summary should include the number of standards exceeded, number of standards met, and number of standards not met, along with a list of each of the standards in each category. If relevant, provide a summarized description of the corrective action plan, including deficiencies observed, recommendations made, actions taken by the agency, relevant timelines, and methods used by the auditor to reassess compliance.
Overview

During the auditing period, FCI Three Rivers reported two allegations of sexual abuse/harassment in the revised Pre-Audit Questionnaire (PAQ). FCI Three Rivers has established a zero-tolerance culture throughout the institution with documentation addressing PREA standards. The agency, Bureau of Prisons (BOP), maintains agency policies and FCI Three Rivers has developed more facility specific PREA supplemental guidance for staff. FCI Three Rivers has a system to capture criminal five-year records checks of current employees and contractors working in conjunction with the Office of Personnel Management (OPM). The Auditor was provided documentation that twenty criminal background checks were conducted in the past 12 months on current employees and seven criminal background checks on new employees. A review of forty-four random and specialized employee training records established compliance with PREA training and background mandates.

Staff Interviews

Interviews with random and specialized staff confirmed that staff understood the agency position regarding the Prison Rape Elimination Act (PREA). Random and specialized staff were knowledgeable about their roles in the prevention, reporting, and detection of sexual abuse and sexual harassment, and their responsibilities in the event of a PREA related incident, particularly as a first responder. Each staff member (random and specialized) verbalize the steps they would take as a first responder to a PREA related incident. Reporting mechanisms were displayed in all common areas throughout the facility. A review of the FCI Three Rivers staff training documentation and curriculum were completed by the Auditor. The records of training support the finding that all staff have received general PREA training.

Inmate Interviews

Interviews with inmates confirmed that inmates possessed a sufficient knowledge and understanding of the PREA safeguards and the zero-tolerance policy. Comprehensive inmate PREA education is provided in written form (i.e. Inmate Handbook, entrance packet), personal instruction, videos, and posters. Forty-two vulnerability assessment instruments were reviewed by the Auditor which affirmed that intake and classification assessments are efficient and seamless in addressing referrals based on initial victimization or abusiveness screening data. The inmate (random and targeted) interviews acknowledged the admissions screening process included questions regarding any history of sexual abuse or victimization and whether they would like to identify a sexual preference. During interviews (random and targeted) inmates expressed that they were aware of how to report abuse internally and externally. Random and targeted inmates also expressed trust in the staff, and said they felt comfortable reporting abuse to facility staff. Some (40%) inmates were very aware of the services provided by the local victim advocacy organization. Other inmates (60%) had a vague knowledge of community advocacy services available to victims of abuse, but they knew how to obtain more information about advocacy services from Unit Team members in the facility.

**Number of Standards Not Met:**

**Summary of Corrective Action (if any)**

**Standard 115.15: Limits to Cross-gender viewing and searches.** The facility has several hallway showers located in SHU without shower curtains. The hallway showers serve a dual purpose, general use when an in-cell shower is inoperable and when applicable to wash chemical agents from combative inmates under the watchful eye of SHU staff. Three Rivers post orders were modified to provide staff guidance when a SHU hallway shower is being used for general purposes. The guidance directs SHU staff to provide inmates with a PREA friendly shower curtain when hallway showers are being used as an alternative to an inoperable in-cell shower.

FCI Three Rivers corrected the problem during the on-site audit by modifying the post orders, placing correctional staff on notice of the changes in SHU Post Orders and placing privacy PREA friendly curtains on the unit for use when appropriate.

**Standard 115.43: Protective Custody.**
The facility requested a transfer through the BOP Designation and Sentence Computation Center and the transfer was not approved. The inmate remained in SHU until he was returned to his country of origin.

FCI Three Rivers conducted training regarding use of Protective Custody for PREA related incidents. Those involved in the training should include, but not be limited to, the Operations Lieutenants, PREA Compliance Manager, SHU Lieutenant, and Mental health clinicians. Training documentation was provided to the auditor prior to the final report being issued.

**Standard 115.52: Exhaustion of administrative remedies.** The inmate handbook which is an important method to inform inmates of their right not to be sexually abused or harassed and provides methods to report abuse refers inmates to Program Statement (PS) 1330.16, Administrative Remedy. The most recent is PS 1330.18. Three Rivers should adopt the specific language use in the revised PS to address Administrative Remedies related to PREA reports and emphasize informal resolution is not a mandate for filing a PREA related BP-9 nor are inmates required to file their complaint within 20 calendar days from the date on which the basis for the incident or complaint occurred, unless it is not feasible to file within that period which the facility requires documentation in the complaint.

FCI Three Rivers updated the handbook with the correct language.

**Standard 115.63: Reporting to other confinement facilities.** Upon receiving an allegation, the notification should be as soon as possible but no later than 72 hours from receiving notification and the agency should document that it has provided such notification. An inmate was transferred to FCI Three Rivers from FCI Gilmer in Glenville, West Virginia, where he filed a request for administrative remedy alleging sexual abuse. Three Rivers failed to notify FCI Gilmer that an inmate was alleging sexual abuse. Standard 115.52 (d) (1) The agency shall issue a final agency decision on the merits of any portion of a grievance alleging abuse within 90 days of the filing of the grievance.

FCI Three Rivers notified the inmate of the agency decision.

**Standard 115.68: Post-allegations protective custody.** A transgender and vulnerable inmate alleged sexual harassment. The transgender inmate initially requested to be move to another location within the facility but away from the aggressor. Three Rivers employed segregation to protect the inmate. The facility requested a transfer through the BOP Designation and Sentence Computation Center and the transfer was not approved.
The inmate remained in segregation beyond 30 days until he was returned to his country of origin.

FCI Three Rivers re-trained staff on the importance of following up when an inmate is placed in protective custody to ensure the placement is still vital to the inmate’s safety.

The agency's zero-tolerance policy against sexual abuse was clearly established in the above documentation and via interviews. The agency's zero-tolerance toward sexual abuse is clearly established and the policy also outlines the agency's approach to preventing, detecting, and responding to sexual abuse and sexual harassment allegations. The Associate Warden serves as the Institution PREA Compliance Manager. In addition to the IPCM, the agency has designated a National PREA Coordinator. The IPCM reports to the Warden.

Zero-tolerance posters are displayed throughout every area of the facility. The agency and facility directives outline a zero-tolerance policy for all forms of sexual abuse and sexual harassment. Inmates are informed orally and in writing about the zero-tolerance policy and the PREA program during in-processing and are required to view a video during admissions and orientation presentations. PREA program information is contained in the Admissions and Orientation (A&O) Handbook, the Sexually Abusive Behavior Prevention and Intervention Pamphlet (SABPIP), and is posted throughout the facility, as observed during the tour by this Auditor. All PREA information, both video and written, is available in English and Spanish. Interpretive language services are available for inmates who do not speak or read English or Spanish. Both institution staff and inmates are provided with multiple opportunities to become
informed of PREA policies and procedures. All employees receive initial training and Annual Refresher Training (ART), and the correctional officers are updated during routine roll calls throughout the year. FCI Three Rivers was found to be in compliance with the standard.

   a. IPCM/Associate Warden

An interview with the IPCM/Associate Warden, and the review of the PAQ substantiates that the agency requires contractual entities which they contract for the confinement of inmates (privatized prisons and/or inmate reentry centers) to adopt and comply with the PREA standards. The IPCM/Associate Warden confirmed that the agency contractual agreements were modified effective February 1, 2013, to incorporate the language requiring contractors to adopt and comply with PREA standards. FCI Three Rivers does not individually contract for the confinement of inmates. FCI Three Rivers was found to be in compliance with the standard.

Agency policy requires each facility to review the staffing plans on an annual basis. Interviews with the Acting Warden and executive staff revealed compliance with Standard 115.13 and that other safety and security issues are always a primary focus when the facility considers and reviews their respective staffing plans. In addition to the quarterly Workforce Utilization meeting, procedures are in place where the Acting Warden meets weekly with his executive staff including the Business Administrator, Captain, SIS Lieutenant, and the HRM to address staffing issues as it relates to the PREA. A review of Quarterly Workforce Utilization minutes of several meetings confirmed a review of staffing issues were being addressed at least quarterly. According to Acting Warden, the facility has been provided with all necessary resources to support the programs and procedures to ensure compliance with PREA standards. The audit included an examination of video monitoring systems, inmate access to telephones, the TRULINCS e-mail system, staff interviews, and rosters. The IPCM indicated during his interview that supervisory/administrative staff members routinely make unannounced rounds covering all shifts and these rounds are documented in a round report. Interviews with staff confirmed unannounced rounds to all areas of the facility are conducted on a weekly basis, with no warning to employees. FCI Three Rivers utilizes video cameras throughout the facility. These cameras were visible to the Auditor during the tour of the facility. The facility also utilizes convex mirrors to supplement security in areas where there are numerous corners or potential blind spots. FCI Three Rivers was found to be in compliance with the standard.

   b. Acting Warden
   c. Staff (Random and Specialized)

Policies and documentation address this standard. Cross-gender strip or cross-gender body cavity searches are prohibited, except in emergency situations or when performed and documented by a medical practitioner. Staff interviews indicated they received cross-gender pat search training during initial and annual training. The Auditor observed that each unit has
individual shower stalls for privacy while showering. The inmates interviewed acknowledged they can shower, dress, and use the toilet privately, without being viewed by staff of the opposite gender. Staff (random and specialized), coupled with most of the inmates interviewed, indicated that employees of the opposite gender announce their presence before entering a housing unit. Likewise, staff interviewed also affirmed that FCI Three Rivers trains staff in how to conduct cross-gender pat down searches in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs. All staff interviewed confirmed that they were aware of the policy prohibiting the search of a transgender or intersex inmate for the sole purpose of determining the inmate's genital status. During the past 12 months, there were no exigent circumstances that required cross-gender viewing of an inmate by a staff member at the FCI Three Rivers. The IPCM/Associate Warden indicated that there were no exigent circumstances in which a cross-gender strip search or cross-gender-body cavity search took place in the past 12-month period.

**Corrective action:** The facility has several hallway showers located in SHU without shower curtains. The hallway showers serve a dual purpose, general use when an in-cell shower is inoperable and when applicable to wash chemical agents from combative inmates under the watchful eye of SHU staff. Three Rivers post orders were modified to provide staff guidance when a SHU hallway shower is used for general purposes. The guidance directs SHU staff to provide inmates with a PREA friendly shower curtains when the hallway showers are being used as an alternative to an inoperable in-cell shower. FCI Three Rivers corrected the problem during the on-site audit by modifying the post orders and placing correctional staff on notice of the changes in SHU Post Orders and placing privacy PREA friendly curtains on the unit for use when appropriate. FCI Three Rivers corrected the problem during the on-site audit. **Completed**

FCI Three Rivers was found to be in compliance with the standard after the corrective action was implemented.

FCI Three Rivers takes appropriate steps to ensure inmates with disabilities and LEP inmates have an opportunity to participate in and benefit from the facility's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. PREA handouts, bulletin board postings, and the inmate handbook are in both English and Spanish which was reviewed by the Auditor. Interviewed staff were aware of the policy that, under no circumstances, are inmate interpreters or assistants to be used when dealing with PREA issues. The Department of Justice (DOJ) has set up a blanket purchase agreement for on-demand over-the-phone interpreter services, which is available to all BOP institutions. The translation service is LanguageLine Solutions and is provided for inmates who don't have a basic command of the English language. Twenty Spanish speaking LEP inmates were interviewed during this audit and all indicated that they received the PREA information in a language each inmate understood. The review of documentation, staff, and inmate interviews support a finding that FCI Three Rivers is in compliance with the standard.

2. PS 5324.12 Sexually Abusive Behavior Prevention and Intervention Program
3. IS TRV 5324.12
4. Memo from Human Resource Manager verifying 20 background checks of current employees and 7 background checks of new employees conducted in the past 12 months

   a. IPCM/Associate Warden
b. Human Resource Manager

Policies and interviews confirm compliance with this standard. Employment with the BOP is subject to satisfactory completion of a background investigation to determine suitability for employment as a law enforcement official. Its scope includes law enforcement and criminal record checks, credit checks, and inquiries with previous employers and personal references. Suitability determinations are made on a case-by-case basis and are based upon an individual's character or conduct that could affect how the agency accomplishes its duties or responsibilities.

The HRM was interviewed and stated that all components of this standard have been met. A review of personnel files sampled revealed that background checks have been completed on all employees, contractors, and volunteers. BOP regional office personnel also conduct background checks before approving staff promotions. A tracking system is in place to ensure that updated background checks are conducted every five years.

PS 5324.12 and IS TRV 5324.12 indicate that the submission of false information by any applicant is grounds for termination. The Bureau of Prisons makes its best efforts to contact all prior institution employers for information on substantiated allegations of sexual abuse or resignations occurring during a pending investigation of sexual abuse. The Bureau of Prisons also provides information on substantiated allegations of sexual abuse/sexual harassment involving former employees, when requested by a potential institutional employer, unless prohibited by law. Appropriate licensing and certifying agencies are notified, when professional employees are terminated for substantiated allegations of sexual abuse/sexual harassment.

During the audit, it was revealed that due to the Federal government shutdown, there were a small backlog of cases to be scheduled for background checks. Interviews and documentation on file support a finding that the facility is in compliance with this standard.

Auditor Overall Compliance Determination

☐ Exceeds Standard *(Substantially exceeds requirement of standards)*

☒ Meets Standard *(Substantial compliance; complies in all material ways with the standard for the relevant review period)*

☐ Does Not Meet Standard *(Requires Corrective Action)*

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.
Random and specialized staff members were interviewed concerning this standard and all were knowledgeable of the procedures required to secure and obtain usable physical evidence when sexual abuse is alleged. Staff were also aware the Special Investigative Services (SIS) Lieutenant conducts investigations relative to sexual abuse allegations. All forensic medical examinations are conducted by SANE/SAFE staff at South Texas Regional Medical Center, Jourdanton, Texas. An interview with the forensic examination provider at South Texas Regional Medical Center was conducted and they confirmed an awareness of PREA standards. The representative indicated that a SANE/SAFE is generally available either on call or onsite 24 hours a day, seven days a week. There was zero forensic examinations conducted during the past 12 months.

The auditor confirmed by examination that during the last 12 months FCI Three Rivers had two documented allegations of sexual abuse or sexual harassment that were received by the facility. Both allegations resulted in administrative investigations. Just Detention International (JDI), a national victim advocacy agency, was contacted by this Auditor via email, but the agency had no information related to FCI Three Rivers. The Purple Door was also contacted regarding advocacy services for inmates at FCI Three Rivers. The Memorandum of Understanding (MOU) with The Purple Door was updated after expiring 3/2019. FCI Three Rivers was found to be in compliance with the standard.

2. PS 5324.12 Sexually Abusive Behavior Prevention and Intervention Program
3. IS TRV 5324.12
4. FBI Memorandum of Understanding (MOU)
5. SANE/SAFE Assurance Memo

8. Federal BOP Course completion Forensic Medical Exams: an Overview for Victims
10. Interviews with the following:
    a. IPCM/Associate Warden
    b. SIS Lieutenant (Chief Investigator)
    c. SIS Technician

Policies, documents, and the FBI (MOU) address the mandates of this standard. Administrative and criminal investigations are completed on all allegations of sexual abuse/sexual harassment. The SIS, the OIA, the FBI and the Office of Inspector General (OIG) conduct all investigations. The SIS Lieutenant was interviewed and proved very knowledgeable concerning the protocols for conducting investigations of alleged sexual abuse/sexual harassment. There are 253 agency investigators in the BOP. In addition, the Auditor interviewed one SIS technician at FCI Three Rivers. The FBI conducts the criminal investigations. The BOP/FBI MOU, dated August 1996, delineates each agency's responsibilities relative to an incident involving a criminal act. There were two allegations of sexual abuse and sexual harassment in the past 12 months. Two investigations were initiated, and one investigation is still pending. The documentation related each investigation was maintained in SIS files and were reviewed by the Auditor on site. The facility utilizes an IPCM Information Tracking Log to ensure all required steps of the investigation are completed and are timely. The tracking form is maintained by SIS. The information tracked includes the date of the allegation, name of the victim/perpetrator, SHU placement/reviews, initial two-day after-action review, full protocol, investigation outcome/date, date inmate notified of outcome, and retaliation monitoring. The completed inmate investigation resulted in a written notification of the outcome on the investigation being issued to the inmate. A review of training documents confirmed that all investigators received specialized training instruction in conducting sexual assault investigations in confined spaces/prisons. Interviews with staff (specialized and random), an investigator, and an examination of supporting documentation confirm compliance with this standard.

   c. Inmates (Random and Targeted)

PS 5324.12 pages 26 & 27, A&O Handbook (English and Spanish), SABPIP (English and Spanish), and A&O Program Checklist/Signature Sheets address the mandates of this standard. The facility puts forth its best efforts to educate the inmates regarding the PREA. Inmates receive information during the intake process including a pamphlet and inmate handbook. Unit Team staff conducts PREA education for all inmates within 30 days of their arrival at FCI Three Rivers. Random and targeted inmates interviewed by the Auditor confirmed receiving PREA education within 30 days of their arrival. Inmate PREA education
includes definitions of sexually abusive behavior and sexual harassment, prevention strategies, and reporting modalities. Inmates also view a PREA orientation video that explains the facility’s zero-tolerance policy and covers the inmate’s right to be free from sexual abuse, sexual harassment, and retaliation. PREA posters were displayed throughout the facility and in each housing unit. Inmates also have access to a "PREA Hotline" telephone number, which may be called to report sexual abuse or sexual harassment. Since the "Hotline" telephone number is an 800-toll-free number, inmates are advised via the SABPIP to contact a staff member assigned to their Unit Team to place the call.

The OIG mailing address is listed in the A&O Handbook and posted in each housing unit for inmate correspondence concerning any sexual abuse or sexual harassment allegation. There is also a translation language line available to LEP inmates. The Auditor was provided 20 random sampling of A&O Checklists/Signature Sheets to verify onsite that inmates, admitted during the auditing period, received the SABPIP education and relevant written materials. All inmates are required to acknowledge, in writing, completion of PREA education. During the interview process, random and targeted inmates indicated they received information about FCI Three Rivers rules against sexual abuse/sexual harassment, when they arrived at the facility. All random and targeted inmates also indicated they were advised about their right not to be sexually abused/sexually harassed, how to report sexual abuse/sexual harassment, and their right not be punished for reporting sexual abuse/sexual harassment. Some inmates were aware of available services outside of the facility for dealing with sexual abuse. FCI Three Rivers was found to be in compliance with the standard.

Policy addresses the requirements of this standard. Agency and facility policy require the use of a screening instrument to determine proper housing, bed assignment, work assignment, education and other program assignments, with the goal of keeping inmates at a high risk of...
being sexually abused/sexually harassed separate from those inmates who are at a high risk of being sexually abusive. Bureau policy also requires all inmates to be screened within 72 hours of arrival; however, they are routinely screened on the day of arrival. Risk management staff review all relevant pre-sentence documentation and information from other confinement facilities and reassess an inmate's risk level, as necessary, within 30 days of his arrival. Agency policy prohibits inmates from being disciplined for refusing to answer, or for not disclosing complete information in response to questions regarding their mental/physical health, developmental disability, sexual preferences, sexual victimization history, and perception of vulnerability. Housing and program assignments are made on a case-by-case basis and inmates are not placed in housing units based solely on their sexual identification or status. Interviews with risk management staff and a random review of 40 risk screening assessments support the finding that the facility is in compliance with this standard.

Policies, screening forms, and interviews address the requirements of this standard. Policy and procedures require the use of a screening instrument to determine proper housing, bed assignment, work assignment, education and other program assignments, with the goal of keeping inmates at a high risk of being sexually abused/sexually harassed separate from those inmates who are at a high risk of being sexually abusive. Housing and program assignments are made on a case-by-case basis and inmates are not placed in housing units based solely
on their sexual identification or status. The Auditor interviewed random and targeted inmates during the onsite audit. Unit Team staff and the IPCM/Associate Warden all confirmed that transgender and intersex inmates are reassessed twice a year to review any threats to safety experienced by the inmate. The views of these inmates with respect to their own safety are given serious consideration. Additionally, they are given the opportunity to shower separately from other inmates. Staff and inmate interviews, the review of supporting documentation and the Auditor’s observations support the facility being in compliance with the standard.

Policy addresses the requirements of this standard. Policy indicates that inmates at high risk for sexual victimization shall not be placed in the Special Housing Unit (SHU) unless an assessment of all available alternatives has been made and there is no available means of separating the inmate from the abuser. An inmate at high risk for victimization was placed in SHU for greater than 60 days. The facility did not review the status of the inmate to determine whether there was a continuing need for separation. The facility requested a transfer through the BOP Designation and Sentence Computation Center and the transfer was not approved. The inmate remained in SHU until he was returned to his country of origin.

**Corrective Action:** Three Rivers conducted training regarding use of Protective Custody for PREA related incidents. Those involved in the training should include, but not be limited to, the Operation Lieutenants, PREA Compliance Manager, SHU Lieutenant, and Mental health clinicians. Training documentation was provided to the auditor prior to the final report being issued.

FCI Three Rivers was found to be in compliance with the standard after corrective action was implemented and documented.

   b. Inmates (Random and Targeted)

Policies, the PREA Notices, A&O Handbook address the requirements of the standard. There are posters and other postings on display throughout the facility which explain PREA reporting methods. The inmate handbook affords inmates with multiple reporting alternatives to report sexual abuse and harassment such as: telling a staff member, writing or emailing the Warden, Filing an Administrative Remedy, writing or emailing the Office of the Inspector General which is not a part of the Bureau of Prisons, by accessing the BOP's public website [http://www.bop.gov/inmate](http://www.bop.gov/inmate) or contacting Crime Stoppers. During the facility tour, TRULINCS was used to send test communications from each housing unit to the PREA Compliance Managers. Inmates in the housing units also verified they have email access to file PREA reports with their administrative staff at Three Rivers to include the Acting Warden and externally to the OIG. Inmates were able to demonstrate to the Auditor how to log into the TRULINCS system and how to file a PREA report, if needed.

FCI Three Rivers has procedures in place for staff to document all allegations. Random and specialized staff interviewed by the Auditor confirmed that each understood their role and responsibility to immediately report PREA allegations and to immediately document the
incident. Family and friends of inmates may also report sexual abuse/sexual harassment by using the BOP website, phoning the OIG, or contacting facility staff. All interviewed inmates confirmed awareness of the multiple methods of reporting sexual abuse/assault allegations.

According to the IPCM and the Acting Warden, inmates at FCI Three Rivers are not detained solely for civil immigration purposes. Interviews with staff and inmates, observations of posters addressing reporting methods, and an examination of policy/documentation confirmed that FCI Three Rivers is found to be in compliance with the standard.

(N/A if agency is exempt from this standard.) ☒ Yes ☐ No ☐ NA

At any level of the administrative process, including the final level, if the inmate does not receive a response within the time allotted for reply, including any properly noticed extension, may an inmate consider the absence of a response to be a denial at that level? Policies, and the Administrative Remedy Program Statement 1330.18 addresses the requirements of this standard. These policies require that all PREA related grievances be processed in accordance with 115.52 (a-f).

Inmates may file a grievance, however, all allegations of sexual abuse/sexual harassment, when received by staff, will immediately be referred for investigation. Inmates are not required to use an informal grievance process and procedures also allow an inmate to submit a grievance alleging sexual abuse without submitting it to the staff member who is the subject of the complaint. Additionally, policy prohibits the investigation of the allegation by either staff alleged to be involved in the incident or any staff who may be under their supervision.

There is no time frame for filing a grievance relating to sexual abuse or sexual harassment. Allegations of physical abuse by staff shall be referred to the OIA, in accordance with procedures established for such referrals. Policy addresses the filing of emergency administrative remedy requests. If an inmate files the emergency grievance with the institution and believes he is under a substantial risk of imminent sexual abuse, an expedited response is required to be provided within 48 hours. Best efforts are made to provide Regional Office and Central Office expedited appeal responses within five calendar days.

If an inmate reasonably believes the issue is sensitive and the inmate’s safety or well-being would be placed in danger, if the remedy became known at the institution, the inmate may submit the remedy directly to the appropriate Regional Office. Third parties, including fellow inmates, staff members, family members, attorneys and outside victim advocates shall be permitted in assisting inmates to file administrative remedies related to allegations of sexual abuse. The PAQ indicated that there were no grievances filed involving PREA related issues during the past 12 months. There were no grievances alleging sexual abuse that involved an extension due to the final decision not being reached within 90 days. Additionally, there were no grievances alleging sexual abuse filed by inmates in which the inmate declined third-party assistance. Inmates are held accountable for manipulative behavior and false allegations.

The Auditor reviewed the grievance log containing 112 grievances filed in the past 12 months.

**Corrective action:** The inmate handbook which is an important method to inform inmates of their right not to be sexually abused or harassed and provides methods to report abuse and inmates to Program Statement (PS) 1330.16, Administrative Remedy. Both PS 1330.16 and 1330.17 were rescinded. Program Statement 1330.18 replaced 1330.17. Three Rivers should adopt the specific language use in the revised PS to address Administrative Remedies related to PREA reports and emphasize that informal resolution is not a mandate for filing at PREA related BP-9 nor are inmates required to file their complaint within 20 calendar days from the date on which the basis for the incident or complaint occurred, unless it is not feasible to file.
All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

Policies and the A&O Handbook address the requirements of this standard. The facility has a MOU with a local victim advocacy group. The Auditor reviewed the signed MOU. The inmate handbook provides the contact information for alternate entities and the information is also posted in the housing units. Psychology Services staff members have all received victim advocacy support training.

**Corrective action:** The contractual agreement expired 3/14/19. FCI Three Rivers updated the gratuitous service agreement between The Federal Bureau of Prisons, FCI Three Rivers and the Women’s Shelter of South Texas dba The Purple Door.

After updating the contractual agreement with an outside confidential support service agency, FCI Three Rivers is found to be in compliance with the standard.

The BOP SABPIP (English and Spanish), A&O Handbook (English and Spanish), PREA Posters: How You Can Report (English and Spanish), OIG address and BOP website (www.bop.gov), meets the mandate of this standard. The website and posted notices assist third party reporters to report allegations of sexual abuse/sexual harassment. The inmates interviewed indicated they were aware of third-party reporting and would probably feel more comfortable reporting an incident of sexual abuse to someone outside the facility. A National Sexual Abuse Hotline (800-656-HOPE) is also available to the inmate population for reporting incidents of sexual abuse/sexual harassment. Calls to toll-free telephone numbers must be coordinated with a member of the Unit Team, per the SABPIP. FCI Three Rivers is found to be in compliance with the standard.

4. Interviews with the following:
   a. Staff (Random)
   b. Inmates (Random and Targeted)
   c. IPCM/Associate Warden
   d. Specialized staff (medical and mental health)
Policies and procedures address the requirements of this standard. Staff, contractors and volunteers must report and respond to allegations of sexually abusive behavior, regardless of the source of the report. Staff members (random and specialized) interviewed were aware of their duty to immediately report all allegations of sexual abuse, sexual harassment and retaliation relevant to the PREA standards. Specialized staff (medical and mental health practitioners) interviewed were aware of their duty to inform inmates of the practitioner’s duty to report, and the limitations of confidentiality, at the initiation of services. Staff (100%) verbalized reporting allegations of sexual abuse to the Operations Lieutenant, and they (100%) were equally aware that PREA related reports could be made privately or by a third-party.

Policy requires the information concerning the identity of the alleged inmate victim and the specific facts of the case to be shared with staff on a need-to-know basis, because of their involvement with the victim’s welfare and/or the investigation of the incident. A review of policy and interviews with staff support the finding that the facility is in compliance with this standard.

PS 5324.12 and IS TRV 5324.12 addresses the requirements of this standard. These policies require that any inmate allegation of sexual abuse occurring while confined at another facility be reported to the Warden of the facility where the alleged abuse occurred, within 72 hours of receipt of the allegation. Establish procedures requires the Warden to immediately notify the Chief Executive Officer of the other confinement facility, in writing, of the nature of the sexual abuse allegation. When the inmate reports sexual abuse/sexual harassment from state, non-bureau privatized facilities, jails, juvenile facilities, or inmate reentry centers, the Warden contacts the appropriate office of the facility and/or notifies the Inmate Reentry Management Branch of the BOP, if appropriate. The notification is to occur as soon as possible, but always within 72 hours of receiving the allegation. Policy also requires that an investigation be initiated. In the past 12 months, FCI Three Rivers received one allegation from an inmate that he was abused while confined at FCI Gilmer by way of a BP-9 **[redacted]** The facility did not report the incident to FCI Gilmer within 72 hours of receiving the allegation to launch an investigation.

**Corrective action:** Upon receiving an allegation the notification should be as soon as possible but no later than 72 hours from receiving notification and the agency should document that it has provided such notification. An inmate was transferred to FCI Three Rivers from FCI Gilmer in Glenville, West Virginia, where he filed a request for administrative remedy alleging sexual abuse **[redacted]**
Three Rivers failed to notify FCI Gilmer that an inmate was alleging sexual abuse. Standard 115.52 (d) (1) The agency shall issue a final agency decision on the merits of any portion of a grievance alleging abuse within 90 days of the filing of the grievance.

FCI Three Rivers notified the inmate of the agency decision.

FCI Three Rivers is found to be in compliance with the standard.

The IPCM/Associate Warden is charged with monitoring retaliation. During the interview, he indicated that he follows up on all 30-, 60- and 90-day reviews to ensure policy is being enforced and conducts periodic status checks on the frequency of incident reports, housing reassignments, and negative performance reviews/staff job reassignments, as required in 115.67(c). 8. Interviews with the following:
   a. IPCM/Associate Warden
   b. Staff (Random and Specialized)

Policy addresses the requirements of the standard. Policy requires staff to assess and consider all appropriate alternatives for safeguarding alleged inmate victims of sexual abuse/sexual harassment. The IPCM confirmed to the Auditor that staff must first consider other alternatives based on the circumstances of the allegation before considering the placement of an inmate in protective custody (SHU), placing him in another housing unit, or transferring the inmate to another facility.

To aid in that decision, policy requires the facility to complete the BOP’s Safeguarding of Inmates Alleging Sexual Abuse/Assault Allegation Form. The form serves to document consideration of all options. Interviews with staff and the tour of the facility confirmed that there are usually viable alternatives to placing victims of sexual abuse/sexual harassment in the SHU. The IPCM indicated during the audit that in practice, inmates are rarely placed in this status. To the extent possible, access to programs, privileges, education and work opportunities would not be limited to inmates placed in a SHU for the purposes of protective custody. The reasons would be documented for restricting access and the length of time the restrictions would last. There was one inmate placed in post-allegation protective custody status within the last twelve months.

The Auditor confirmed one instance where a transgender and vulnerable inmate alleged sexual harassment. 
The facility failed to document the incident using Safeguarding of Inmates Alleging Sexual Abuse/Assault Allegation form (BP-A1002) to file with the investigative report. The facility requested a transfer through the BOP Designation and Sentence Computation Center and the transfer was not approved. The inmate remained in segregation beyond 30 days until he was returned to his country of origin.

FCI Three Rivers re-trained staff on the importance of following up when an inmate is placed in protective custody to ensure the placement is still vital to the inmate’s safety.

FCI Three Rivers is found to be in compliance with the standard.

   c. SIS Lieutenant
   d. SIS Technician
Policy addresses the mandates of this standard. The SIS department is responsible for conducting administrative investigations within the facility and referring criminal investigations to the FBI and the OIG to determine if prosecution will be pursued. According to the Associate Warden, the facility fully cooperates with any outside agency that initiates an investigation. The SIS Lieutenant serves as the facility liaison and provides requested information to outside investigative agencies, as well as access to the inmate. The credibility of an alleged victim, suspect or witness is assessed on an individual basis and is not determined by the person’s status as inmate or staff. The SIS Lieutenant interviewed confirmed that the BOP nor FCI Three Rivers requires an inmate who alleges sexual abuse to submit to a polygraph examination or other truth assessment device as a condition for proceeding with the investigation of such an allegation.

There were two PREA sexual abuse/harassment allegations investigated at FCI Three Rivers during the last 12 months. One investigation was unfounded, and one is still under investigation. The inmate alleging abuse in the unfounded incident was notified of the findings after the closure of the investigation. The auditor was able to review all investigative files during the on-site audit.

Compliance with this standard was determined by a review of policy/documentation, investigative files, and staff interviews.

Policy and interviews address the requirement of this standard. The evidence standard is a preponderance of the evidence in determining whether allegations of sexual abuse/sexual harassment are substantiated. When interviewed, the investigator was aware of the evidence standard. The evidence standard was utilized in the cases reviewed by the Auditor. FCI Three Rivers is found to be in compliance with the standard.

In all cases, the SIS Lieutenant confirmed that inmates are notified, in writing, upon completion of the investigation by the SIS Lieutenant. Signed documentation indicating that the inmate received the outcome of his investigation was reviewed by the Auditor before leaving the facility. Documentation of notification to the inmate is maintained in the investigative file. Compliance with this standard was determined by a review of policy, an examination of the written notices, and staff interviews.

There have been no reported cases of inmates engaging in sexual activity with staff in the past 12 months and no staff members were disciplined or terminated for violation of agency policy. The Collective Bargaining Agreement between the BOP and Council of Prison Locals, American Federation of Government Employees, dated July 21, 2014 - July 20, 2017, allows for disciplinary sanctions against staff, including termination, for the sexual abuse or sexual harassment of an inmate. All terminations for violations of agency sexual abuse or sexual harassment policies, or resignations by staff that would have been terminated if not for their resignation, may be reported to criminal investigators and to any law enforcement or relevant professional/certifying/licensing agencies by the BOP, unless the activity was clearly not criminal. PS 3420.11 and PS 5324.12 address the requirements of the standard. Any contractor or volunteer who engages in sexual abuse/sexual harassment would be prohibited from contact with inmates and would be reported to the appropriate investigator, law enforcement, or relevant professional/licensing/certifying bodies, unless the activity was clearly not criminal in nature. In non-criminal cases, the FCI would take appropriate remedial measures and consider whether to prohibit further contact with inmates. During the past 12 months, there were no incidents where a contractor or volunteer was accused or found guilty of sexual abuse or sexual harassment. Compliance with this standard was determined by a review of policy and volunteer/contractor training files and volunteer/contractor and staff interviews.

**Standard 115.78: Disciplinary sanctions for inmates**

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.78 (a)
Following an administrative finding that an inmate engaged in inmate-on-inmate sexual abuse, or following a criminal finding of guilt for inmate-on-inmate sexual abuse, are inmates subject to disciplinary sanctions pursuant to a formal disciplinary process? ☒ Yes ☐ No

115.78 (b)

Are sanctions commensurate with the nature and circumstances of the abuse committed, the inmate’s disciplinary history, and the sanctions imposed for comparable offenses by other inmates with similar histories? ☒ Yes ☐ No

115.78 (c)

When determining what types of sanction, if any, should be imposed, does the disciplinary process consider whether an inmate’s mental disabilities or mental illness contributed to his or her behavior? ☒ Yes ☐ No

115.78 (d)

If the facility offers therapy, counseling, or other interventions designed to address and correct underlying reasons or motivations for the abuse, does the facility consider whether to require the offending inmate to participate in such interventions as a condition of access to programming and other benefits? ☒ Yes ☐ No

115.78 (e)

Does the agency discipline an inmate for sexual contact with staff only upon a finding that the staff member did not consent to such contact? ☒ Yes ☐ No

115.78 (f)

For the purpose of disciplinary action does a report of sexual abuse made in good faith based upon a reasonable belief that the alleged conduct occurred NOT constitute falsely reporting an incident or lying, even if an investigation does not establish evidence sufficient to substantiate the allegation? ☒ Yes ☐ No

115.78 (g)

Does the agency always refrain from considering non-coercive sexual activity between inmates to be sexual abuse? (N/A if the agency does not prohibit all sexual activity between inmates.) ☒ Yes ☐ No ☐ NA

5. Warden's Memo: 115.78(e)-1
6. PS 5270.09 Inmate Discipline Program
7. Interviews with the following:
   a. IPCM/Associate Warden

PS 3420.11, PS 5324.12 and IS TRV 5324.12 policies address the requirements of this standard. The Inmate Discipline Program defines sexual assault of any person, involving non-consensual touching by force or threat of force, as the greatest severity level prohibited act. The program identifies inmates engaging in sexual acts and making sexual proposals or threats to another as a high severity level prohibited act. Non-consensual sex or sexual harassment of any nature is prohibited and will result in discipline. Consensual sex between inmates does not constitute sexual abuse. Sanctions are commensurate with the nature and circumstances of the abuse committed, along with the inmate’s disciplinary history and the sanctions imposed for comparable offenses by other inmates with similar histories. Inmates are subject to disciplinary sanctions pursuant to the formal disciplinary process defined in the Inmate Discipline Program.

The facility does not discipline inmates who make an allegation in good faith, even if an investigation does not establish evidence sufficient to substantiate the allegation. Interviews with the investigator support compliance with this standard. The disciplinary process considers whether an inmate’s mental disabilities or mental illness contributed to the inmate’s behavior when determining what type of sanction, if any, should be imposed. If mental disabilities or mental illness is a factor, the facility considers the offer of therapy, counseling, or other interventions designed to address and correct underlying reasons or motivations for the abuse. Compliance with this standard was determined by a review of policy/documentation, an examination of the inmate discipline process, and staff interviews.

2. PS 5324.12 Sexually Abusive Behavior Prevention and Intervention Program

7. Interviews with the following:
   a. IPCM/Associate Warden
   b. Health Services Administrator
   c. Chief Psychologist
   d. Acting Warden

PS 5324.12 and IS TRV 5324.12 address the requirements of this standard. Interviews with health services and psychology services staff, confirmed the FCI Three Rivers has a good system for collecting medical and mental health information on inmates. The system allows medical and mental health staff to provide continued re-assessment and follow up services to the inmates. In the past 12 months, 100% of inmates who disclosed prior victimization during screening were offered a follow up meeting with a medical or mental health provider. Furthermore, 100% of the inmates who have previously perpetrated sexual abuse, as indicated during the screening, were offered a follow-up meeting with a mental health practitioner. The health care providers who was interviewed during the audit confirmed that treatment services are offered without financial cost to the inmate, as confirmed by observation and a review of intake screening documents. Screening for prior sexual victimization in any setting is conducted by Unit Team staff during in-processing procedures. In-processing procedures also include screening for previous sexually assaultive behavior in an institutional setting or in the community. When indicated, staff members ensure that the inmate is offered a follow-up meeting with a mental health provider within 14 days of the intake screening. The Auditor
sampled institution files from the last 12 months and reviewed 8 histories of prior victimization that occurred in the past 12 months to determine if screening pursuant to § 115.41 and if staff at Three Rivers ensured that a vulnerable inmate of abuse is offered a follow-up meeting with a medical or mental health practitioner within 14 days of the intake screening.

Access to information related to sexual victimization or abusiveness is limited to medical and mental health practitioners and other staff with a need-to-know for the purpose of determining treatment plans, security, housing, work, program assignments and other management decisions. Health care providers also affirmed during interviews that signed and dated informed consents would be obtained from an inmate before reporting prior sexual victimization which did not occur in an institutional setting. FCI Three Rivers does not house inmates under the age of 18. All screening documentation is recorded in the Bureau's Electronic Medical Record and Psychology Data System. All medical, mental health and PREA related information is handled confidentially and interviews with the intake screening staff support this fact. FCI Three Rivers is found to be in compliance with the standard.

Policies, Institutional Supplements, and interviews address the requirements of this standard. The facility medical and mental health personnel provide services to all inmates placed at FCI
Three Rivers. Medical personnel are on duty 16 hours a day, seven days a week and are
available for consultation or call-back on off duty hours. Mental health providers are on-site
five days per week and are also available for call-back on off duty hours. Information, access
to emergency medical care is offered to all inmate victims, as clinically indicated. Victim
advocacy services are offered through trained staff members. Agency policy prohibits inmate
co-pays for medical treatment from being applied to victims of sexual abuse and all treatment
is offered at no financial cost to the inmate. Inmate victims of sexual abuse, while
incarcerated, are offered information about and timely access to information on sexually
transmitted infection prophylaxis, in accordance with professionally accepted standards of
care, where medically appropriate. There were zero allegations of sexual abuse that required
referral for forensic examination and evidence collection in the past 12 months. Compliance

Policy addresses the requirement of Standard 115.83. FCI Three Rivers offers medical and mental health evaluations and, as appropriate, treatment to all inmates who have been victimized by sexual abuse. Services are consistent with a community level of care, without financial cost to the inmate. The facility houses male inmates. FCI Three Rivers has fully staffed medical and mental health departments and offers victims of sexual abuse/sexual
harassment medical and mental health services consistent with the standard of care available in the community. Inmate victims, while incarcerated, would be offered testing for sexually transmitted infections as medically appropriate. Mental health evaluations are conducted on all known inmate-on-inmate abusers within at least 14 days of learning of such abuse history, but usually immediately, when staff members become aware of this information. When appropriate, treatment is offered by mental health practitioners. A review of documentation and interviews with medical/mental health staff support the finding that this facility is in compliance with this standard.

☒ Meets Standard *(Substantial compliance; complies in all material ways with the standard for the relevant review period)*

☐ Does Not Meet Standard *(Requires Corrective Action)*

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Evidence Reviewed (on-site visit, documentation, staff and inmate interviews):

1. Pre-Audit Questionnaire
2. PS 5324.12 Sexually Abusive Behavior Prevention and Intervention Program
3. IS TRV 5324.12
4. Warden’s Memo: 115.86(a)-1 Sexual Incident Reviews
5. Warden’s Memo: 115.86(d)-1 Report of Findings
6. Warden’s Memo: 115.86(e)-1 Implementations of Recommendations
7. Interviews with the following:
   a. IPCM/Associate Warden
   b. SIS Lieutenant
   c. Captain
Policy addresses the requirement of this standard. Administrative and criminal investigations are completed on all allegations of sexual abuse/sexual harassment. The SIS Lieutenant, the FBI and/or the OIG conduct all investigations. The Special Investigative Services Lieutenant was interviewed and found to be knowledgeable concerning his duties and responsibilities. FCI Three Rivers conducts a sexual abuse incident review at the conclusion of every sexual abuse investigation, unless the allegation was proven to be unfounded. Based on interviews with members of the facility incident review team, policy requires that a review is completed within 30 days of the conclusion of the investigation and consideration is given as to whether the incident was motivated by race, ethnicity, gender identity, status, perceived status, or gang affiliation. The team also decides if additional monitoring technology should be added to enhance staff supervision. The review team is comprised of upper-level management officials, including the Associate Warden/IPCM, Chief of Psychology Services, SIS Lieutenant, Health Services Administrator, Captain and the Unit Manager of the alleged victim.

The auditor reviewed two investigative files and found one investigation in which the inmate was notified of the outcome of an investigation. All required sexual abuse incident reviews would be completed at the conclusion of each substantiated and unsubstantiated allegation and the incident was well documented. The Incident Review Team Members interviewed confirmed that the abuse incident review team seeks additional information from other staff, as needed, to ensure a thorough review has been completed. FCI Three Rivers is found to be in compliance with the standard.
