Inmate Death at FCI Seagoville

WASHINGTON, D.C.: On Friday, June 26, 2020, inmate Johnathan Delargy tested positive for COVID-19 at the Federal Correctional Institution (FCI) Seagoville in Seagoville, Texas, and was immediately placed in medical isolation. On Wednesday, July 29, 2020, in accordance with Centers for Disease Control and Prevention (CDC) guidelines, Mr. Delargy was converted to a status of recovered following the completion of medical isolation and presenting with no symptoms. On Wednesday, February 17, 2021, he was evaluated by institution medical staff for chest pains and subsequently transferred to a local hospital for further treatment and evaluation. On Saturday, February 27, 2021, Mr. Delargy, who had long-term, pre-existing medical conditions which the CDC lists as risk factors for developing more severe COVID-19 disease, was pronounced deceased by hospital staff.

Mr. Delargy was a 60-year-old male who was sentenced in the Western District of Oklahoma to a 72-month sentence for Possession of Child Pornography. He had been in custody at FCI Seagoville since March 9, 2017.

FCI Seagoville is a low security facility that currently houses 1,717 male offenders.

The Bureau of Prisons will continue to provide daily updates and information on actions related to COVID-19 at www.bop.gov/coronavirus/index.jsp.
